# MEDIA MONITORING REPORT

**12/28/2015**

## Issues:

- No issues to report.

## Summary:

- The National Weather Service has issued a winter storm warning for most of Michigan Monday.
- The National Weather Service has issued a Winter Storm Warning through Tuesday morning for Montcalm, Gratiot, Ionia, Clinton, Barry, Eaton and Ingham Counties.
- High winds and the resulting damage caused a number of scattered power outages in the Lansing area overnight on Dec. 24.
- After a strong wind storm overnight on Dec. 24, Consumers Energy reported 91,000 homes and businesses were without power.
- Crews continued restore power to thousands of homes and businesses in Michigan that lost electricity during severe storms before Christmas.
- Strong winds and freezing rain are expected to hit Michigan Monday afternoon, possibly bringing widespread power outages just days after utility crews restored electricity for tens of thousands of residents left in the dark following a Christmas Eve storm.
- Less than a week after hundreds of thousands of customers were left in the dark following a powerful Christmas Eve windstorm, preparations are underway for another storm expected Monday that could bring high winds and ice with the potential of knocking power out once again for many across the state.
- An EF-1 tornado swept through a portion of Canton Township on Wednesday, the National Weather Service confirmed Thursday.
- The EF-1 tornado in Canton Township is the first December tornado in Michigan history and only the third during the winter season.
- The Michigan State Police and the Emergency Management and Homeland Security Division are encouraging residents and visitors to prepare for a hazardous winter storm.
- Emergency Management officials in western Michigan are warning residents to prepare for a storm that is forecast to bring freezing rain and high winds
- Michigan Gov Rick Snyder told a Northern Michigan news station that Flint's water problem is his office's "greatest challenge."
- U.S. Rep. Dan Kildee took to the Rachel Maddow show to continue his call for the state to create a health fund to help Flint's youngest residents potentially affected by the city's water crisis.
- National Weather Service forecast updates.
- TV clips: Confirmed: Tornado hit in Canton Township, Tips to prepare for icy commute.

## Analysis:

- Media coverage is neutral.
- Media outlets covering winter storm alerts throughout Michigan as severe winter weather is expected to hit Monday
- Multiple media outlets reported on Michigan State Police encouraging citizens to prepare for hazardous winter storm Monday.

- The National Weather Service has confirmed an EF-1 tornado touched down in Canton Township on Dec 23.
- Coverage continues on Flint water issues.
- Will continue to monitor the situation.

# MICHIGAN WEATHER

## Winter weather alerts in effect for Mid-Michigan

WNEM, December 28, 2015

SAGINAW COUNTY, MI (WNEM) - Heading into your workweek, we're expecting a winter storm to move through Mid-Michigan that could have caused some travel headaches, along with power outages. We currently have several winter weather alerts in effect. They are listed below.

WINTER STORM WARNING: Clare, Isabella, Gratiot from 10 AM Monday through 6 AM Tuesday.

WINTER STORM WARNING: Alcona, Arenac, Gladwin, Iosco, Ogemaw and Roscommon from 3 p.m Monday through 5 a.m. Tuesday.

WINTER STORM WARNING: Bay, Huron, Midland, Saginaw, Sanilac and Tuscola from 2 p.m. Monday through 3 a.m. Tuesday.

WINTER WEATHER ADVISORY: Genesee, Lapeer, Oakland and Shiawassee from noon Monday through 1 a.m. Tuesday.

## Winter storm warning for much of West Michigan Monday

Fox 17, December 27, 2015

WEST MICHIGAN — The National Weather Service has issued a winter storm warning for most of West Michigan Monday.

The following counties will be under the winter storm warning from 10 AM Monday till 6 AM Tuesday: Allegan, Barry, Eaton, Ionia, Kent, Mecosta, Montcalm, Muskegon, Oceana, and Ottawa counties.

Calhoun, Kalamazoo, and Van Buren counties will be under a winter weather advisory from 9 AM Monday till 4 AM Tuesday.

## Sleet and freezing rain moving in today

WILX, December 28, 2015

The National Weather Service has issued a Winter Storm Warning through Tuesday morning for Montcalm, Gratiot, Ionia, Clinton, Barry, Eaton and Ingham Counties. The Winter Storm Warning includes the cities of Lansing, St. Johns and Charlotte A Winter Weather Advisory has been issued through early Tuesday morning for Shiawassee, Livingston, Washtenaw, Lenawee, Calhoun and Jackson Counties. The cities of Jackson and Battle Creek are in the Advisory area. A Freezing Rain Advisory has been issued for Branch and Hillsdale Counties through Monday evening.

A storm system races towards the Great Lakes today. The storm brings strong winds and a lot of moisture Aloft temperatures will be warm enough for rain, but down at the surface an East wind will pump cold air into Mid-Michigan. This is the perfect set-up for sleet and freezing rain. The freezing rain and sleet will develop from south to north this morning. Computer models are saying ice accumulations could be around in the tenth to quarter inch range in Mid-Michigan. Heavier amounts are possible north and west of Lansing. Lesser amounts are expected south and east of Jackson. Sleet accumulations of around a half inch are possible. The ice teamed up with strong wind gusts near 45 MPH will more than likely cause scattered power outages.

## Winter storm warning in effect for northern Michigan

Up North Live, December 28, 2015

A significant winter storm is on the way for Michigan starting this afternoon and ending Tuesday morning. A Winter Storm Warning has been put out that goes into effect at 3pm this afternoon and lasts until Tuesday morning. The main concerns will be dangerous travel due to snow, ice, and sleet accumulations.

A storm system from the Plains will bring a mix of wintry precipitation starting late this afternoon. Ice totals around .10" or less is expected for northern Michigan while greater amounts are expected downstate. Along with the ice, we may see significant snow accumulations in areas up to 10 inches...mainly in the U.P. where the air is colder.

## High winds cause mid-Michigan power outages overnight

Lansing State Journal, December 24, 2015

LANSING — High winds and the resulting damage caused a number of scattered power outages in the Lansing area overnight.

Consumers Energy senior communications manager Brian Wheeler said 124 customers in Eaton County were still without power as of 8.45 a.m.

As many as 475 Consumers customers in Eaton County were without power as of 5 a.m., Wheeler said.

Approximately 60 customers in Ingham and Clinton counties were impacted at the peak of the outage.

## 91,000 without power in Michigan; some won't be back on for Christmas

Fox 17, December 24, 2015

WEST MICHIGAN - Thousands of Michigan residents are without power this Christmas Eve after a strong wind storm overnight.

Winds in some areas topped 60 miles per hour.

More than 300 workers from five different states joined the task of restoring power to area residents.

As of 9:30 p.m., Consumers Energy reported 91,000 homes and businesses are without power. Winds were to subside as the went on, so crews will be out restoring power throughout the week. Due to the damage, some areas may not get power back until Sunday.

## Power restoration continues for some after severe storms

Washington Times, December 27, 2015

DETROIT (AP) - Crews continued restore power to thousands of homes and businesses in Michigan that lost electricity during severe storms before Christmas.

About 13,000 of more than 183,000 Consumers Energy customers remained without service Sunday, the utility said.

Thunderstorms followed by winds with gusts topping 60 mph toppled trees, utility poles and power lines across western and northern Michigan on Wednesday and Thursday.

## On heels of Christmas Eve storm, Consumers Energy officials brace for outages Monday

MLive, December 27, 2015

Strong winds and freezing rain are expected to hit Michigan Monday afternoon, possibly bringing widespread power outages just days after utility crews restored electricity for tens of thousands of residents left in the dark following a Christmas Eve storm.

A winter storm watch has been issued for much of Michigan starting Monday afternoon and extending into Tuesday morning. Wind gusts of up to 50 mph and a half-inch of ice accumulation are possible, and officials are warning of slick roads, potential power outages and hazardous travel conditions.

"The morning commute is not going to be the worry, because it will still be dry," said Jared Maples, a meteorologist at the NWS in Grand Rapids "But as we get to the afternoon, it will rapidly deteriorate."

## Power crews wrap up restoration, prepare for coming ice storm

Fox 17, December 27, 2015

MICHIGAN — Less than a week after hundreds of thousands of customers were left in the dark following a powerful Christmas Eve windstorm, preparations are underway for another storm expected Monday that could bring high winds and ice with the potential of knocking power out once again for many across the state.

Consumers Energy said while it is wrapping up power restoration in northern Michigan, it is also preparing crews and material for Monday's weather.

"We're getting our crews back to the home headquarters. We're getting them the proper rest that they need and we're literally restocking the trucks with more equipment. We're ready to go so that when mother nature hits, we're gonna hit right back," said Rodger Morgenstern of Consumers Energy.

# CANTON TOWNSHIP TORNADO

## National Weather Service confirms EF-1 tornado in Canton

MLive, December 24, 2015

An EF-1 tornado swept through a portion of Canton Township on Wednesday, the National Weather Service confirmed Thursday.

The storm damaged buildings at an industrial park on Lilley Road in Canton just before 7 p.m. Dec. 23. Sheet metal and insulation was strewn across the fields and runway at the Canton-Plymouth Mettetal Airport.

National Weather Service officials reached the scene in western Wayne County by 9 a.m. Dec. 24 to make their determination on the tornado.

### First December tornado on record for Michigan

Fox 17, December 24, 2015

Canton – A strong storm system moving through the Great Lakes brought the first December tornado on record for Michigan.

The National Weather Service confirms the tornado touched down on Wednesday night in Wayne County at around 6:43 pm and stayed on the ground for about 2 miles.

## EMERGENCY MANAGEMENT AND HOMELAND SECURITY

### Michigan State Police warn residents of hazardous winter storm

Up North Live, December 27, 2015

The Michigan State Police and the Emergency Management and Homeland Security Division are encouraging residents and visitors to prepare for a hazardous winter storm.

The storm is expected to affect northern Michigan Monday and Tuesday.

The National Weather Service is forecasting freezing rain which will likely cause widespread power outages and dangerous traveling conditions.

### State Police urge preparation ahead of 'hazardous winter storm'

MLive, December 27, 2015

Michigan State Police are urging residents to prepare for a "hazardous winter storm"Monday, saying the weather could lead to "widespread power outages" and "dangerous traveling conditions."

"Now is the time to prepare for this winter storm," said Capt. Chris A. Kelenske, Deputy State Director of Emergency Management and Homeland Security. "Freezing rain has the ability to be very destructive, causing both long-term power outages and hazardous travel conditions. I strongly recommend anyone who may be affected by this storm to ensure they have enough supplies to last three days per person. Travel may not be possible right away."

### Emergency Management officials urge western Michigan residents to prepare for winter storm

Daily Journal, December 28, 2015

GRAND RAPIDS, Michigan — Officials in western Michigan are warning residents to prepare for a storm that is forecast to bring freezing rain and high winds.

Kent County emergency management office in Grand Rapids says a winter storm watch has been issued for Monday afternoon through Tuesday morning.

Emergency Management Coordinator Jack Stewart says wind gusts could reach upward of 50 mph and "could take down trees and power lines."

## FLINT WATER

### Gov. Snyder calls Flint water issue 'greatest challenge' during interview

MLive, December 25, 2015

FLINT, MI – Michigan Gov. Rick Snyder told a Northern Michigan news station that Flint's water problem is his office's "greatest challenge."

During a recent interview with 9&10 News, Snyder said 2015 was a good year for Michigan but troubles with the Vehicle City's water supply show there are still challenges facing the state.

"The greatest challenge we face was Flint with their water situation," Snyder said during the interview. "We've tried to be very proactive in terms of offering free water testing, free water filters, blood testing, follow-up on medical care, changing over water sources. You always want to improve so I always look at ways for continuous improvement."

### Congressman calls for state water crisis health fund on Rachel Maddow show

MLive, December 24, 2015

FLINT, MI – U.S. Rep. Dan Kildee took to the Rachel Maddow show to continue his call for the state to create a health fund to help Flint's youngest residents potentially affected by the city's water crisis.

Kildee, D-Flint Township, appeared on the MSNBC pundit's program Wednesday, Dec. 23, and called on Gov. Rick Snyder to provide funding for a program that would provide continued health assistance for Flint children who have been diagnosed with elevated blood lead levels.

"We need more than an apology and an acknowledgement that they failed," Kildee said of state leaders. "We need them to make it right."

### Flint water probe may unleash flood of findings on mistakes

MLive, December 27, 2015

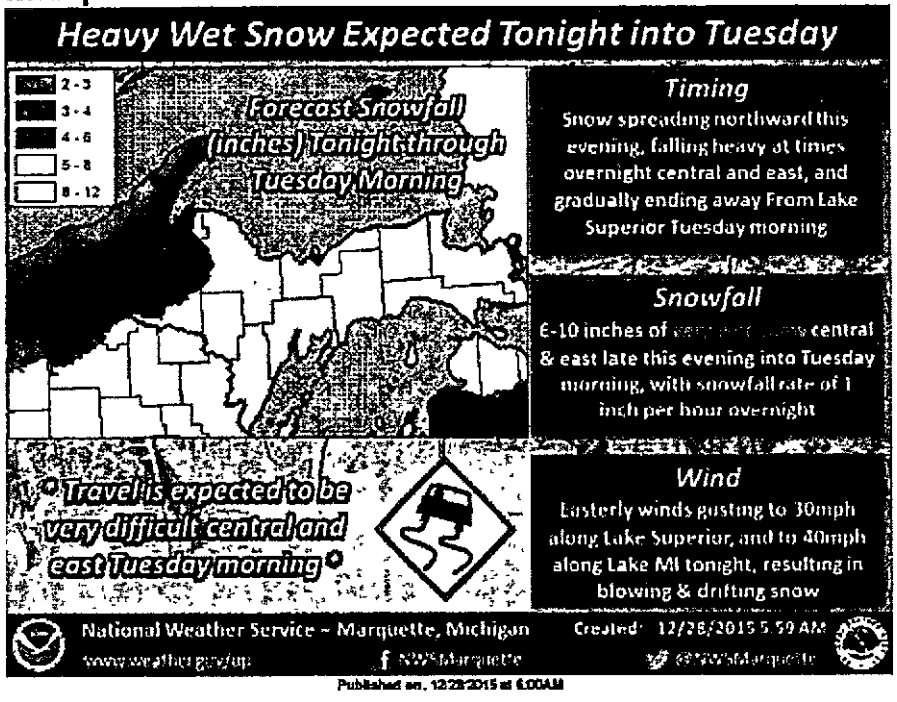
It was very revealing how some readers responded to the post that the first lady thought her husband might die from a blood clot. Instead of reflecting on the gravity of that story, lots of folks wanted to beat up on the governor for allegedly poisoning the kids in Flint with lead.

Make no mistake: The Snyder administration did not experience its finest hour in its handling — critics would say bungling — of the Flint water contamination problem.

Much like the old Watergate hearings, where everyone was asked what they knew and when they knew it, the same penetrating question is being asked about this story.

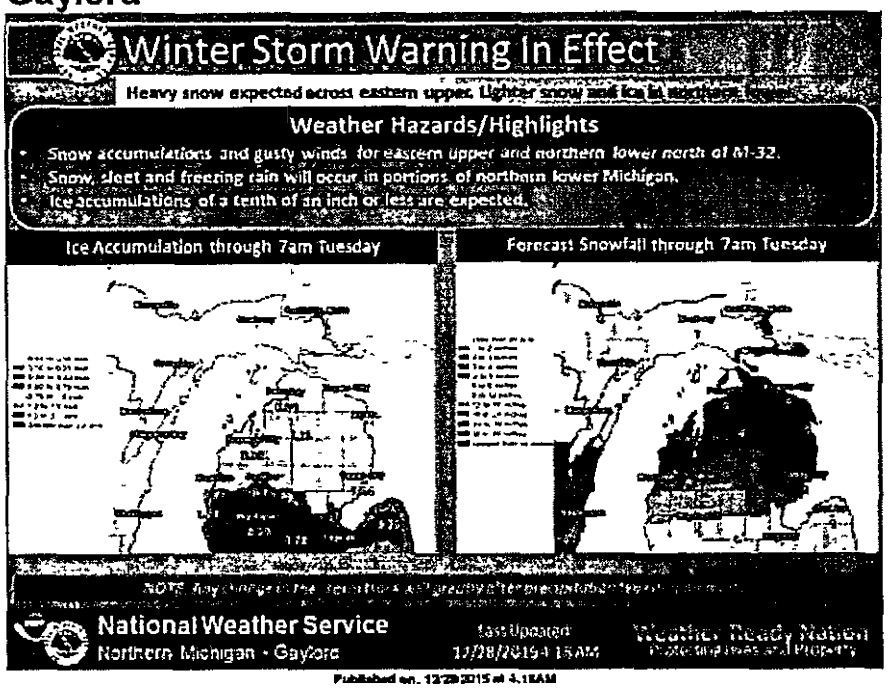
## NATIONAL WEATHER SERVICE FORECASTS

### Marquette



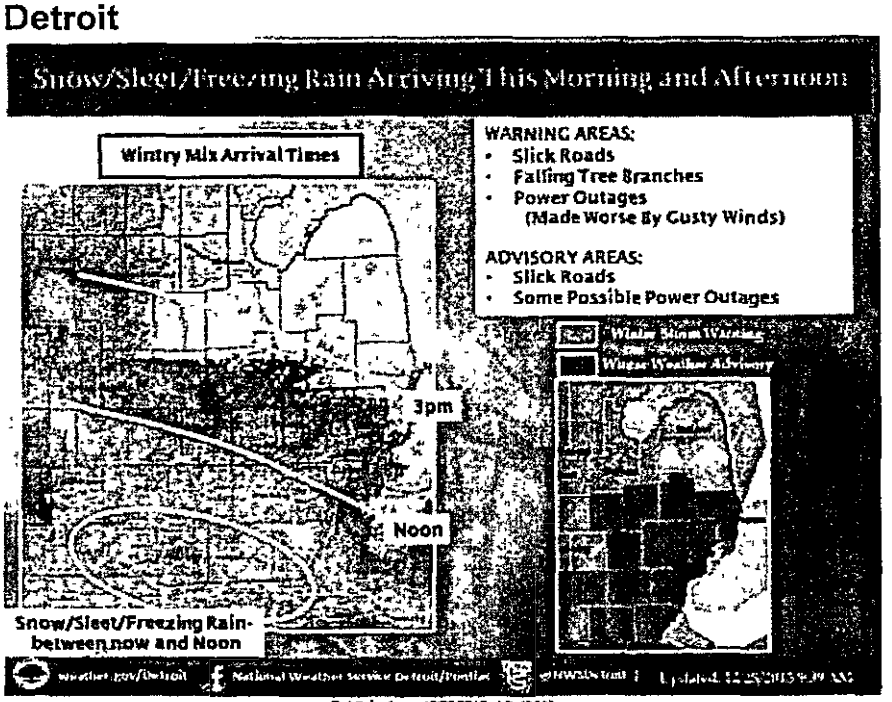
A strong low pressure system tracking northward from the southern Plains will spread heavy snow across portions of Upper Michigan tonight into Tuesday morning. The snow is expected to be very wet, resulting in treacherous driving conditions late tonight and for the morning commute on Tuesday. In addition, gusty easterly winds will cause widespread blowing snow along the shorelines of Lake Michigan, Green Bay, and Lake Superior.

## Gaylord



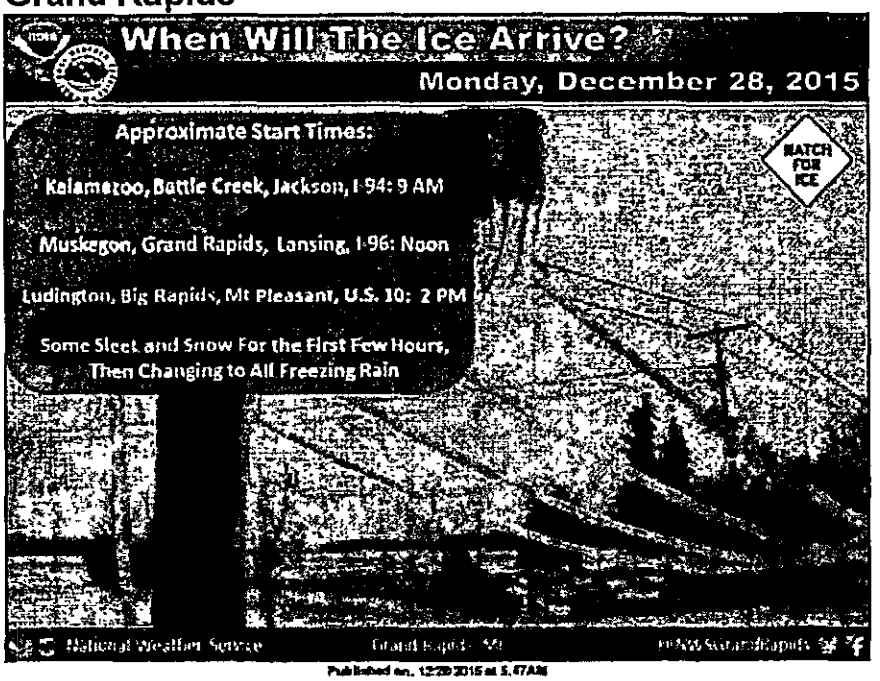
A storm will move out of the Southern Plains and into the Upper Great Lakes by tonight. This will bring a mix of snow, sleet and freezing rain to portions of Northern Michigan, starting late this afternoon and continue overnight. The snow, especially in eastern upper Michigan will have significant accumulations, and with the gusty east wind, blowing and drifting is expected.

## Detroit



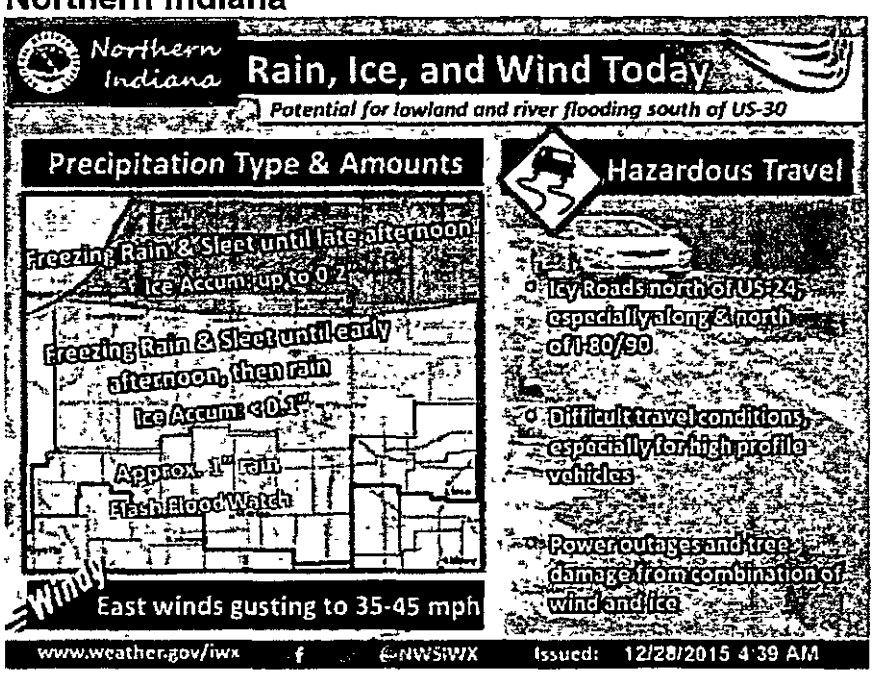
A strong storm system will lift into the Great Lakes tonight. This system will spread warm moist air aloft across the region. Meanwhile...strong high pressure to the north will sustain cold and dry air near the surface. Wintry mix of snow, sleet, and freezing rain will begin in the south through the morning and slowly lift northward through the afternoon. The peak intensity of precipitation will be this afternoon and evening. Warmer air near the surface will lift from south to north this evening into the overnight, slowly transitioning the sleet, snow, and freezing rain over to plain rain.

## Grand Rapids



Travel conditions will deteriorate rapidly today as sleet and freezing rain develop.

## Northern Indiana



Sleet and freezing rain will spread north across the area this morning and transition to rain from south to north through the day. Any freezing rain will be very brief south of US-24 but icy roads will be possible north of US-24, especially along and north of the toll road where freezing rain will persist through

the mid-late afternoon and up to two tenths of accumulation is possible. Strong east winds are also expected this afternoon and evening. East winds gusting to 45 mph could cause tree damage and sporadic power outages, especially in areas that see accumulating ice. Another inch of rain is also expected and this could lead to additional flooding south of US-30 in areas that already saw heavy rain Saturday night.

CITY OF FLINT

# INCIDENT ACTION PLAN

STATE OF EMERGENCY

RETAIN THIS IMAGE
RETAIN THIS IMAGE
RETAIN THIS IMAGE

RETAIN THIS IMAGE
RETAIN THIS IMAGE
RETAIN THIS IMAGE

**Objectives:**

To provide short term relief and long term solutions in addressing the man-made emergency of increased lead levels in the City of Flint (the "City") water system resulting from the switch to Flint River as the City's water source as well as the threat to public health related to elevated blood lead levels in Flint residents, without interruption of the provision of public safety and other essential public services. Due to the fluidic nature of emergencies and the complexity of the City of Flint's declared emergency, this plan serves as a framework and may be altered as the emergency develops.

**The Response Framework**

The purpose of this plan is to organize efforts on behalf of the city to assess the extent of the City's infrastructure needs and risks to public health, provide immediate relief to those who are at risk, and establish long term solutions. In addition, the city must ascertain what immediate relief and long term solutions the City is capable of implementing based on what resources are available. For any activities that are beyond the resource capacity of the City, external sources of funding, supplies, and manpower must be sought.

There are a number of steps that must be taken in accordance with the Flint Emergency Support Operations Plan (SEOP), in order for the City to be compliant with the Genesee County Emergency Action Guidelines. These include the activation of the Incident Management Team, the Emergency Operation Center, and the sharing of essential documents with the County, including this plan. Information must also be shared by the City's Public Information Officer on a regular basis, as required by the SEOP.

This plan calls for the provision of immediate relief to those at risk in our community. Special consideration must be given to residents who belong to underserved groups, such as those who are homebound, undocumented, in poverty, etc. Additional consideration must also be given to the equitable provision of services throughout our community in order to equally protect the health and safety of every member of our community.

Implementation of this plan is to be conducted by the Incident Management Team, which will monitor the effective delivery of goods and services in order to address the conditions of the emergency.

**Understanding the Issue:**

October 1, 2015, the Genesee County Health Department issued a Public Health Emergency after elevated blood-lead levels were found among children in the City of Flint. This incident correlates with elevated levels of lead found in the City's drinking water after the City switched water sources in April of

2014 to the Flint River. The scope of this problem appears to be limited to Flint City Water Customers and their dependents. Public agencies from several levels of government, as well as charitable, nonprofit organizations have partnered with the City to provide immediate relief to Flint residents, including the expansion of health services, the provision of bottled water and NSF rated water filters. The city is also seeking long term infrastructure improvements to eliminate lead and other contaminants from the water system.

Gov. Rick Snyder appointed a task force to review "actions regarding water use and testing in Flint" and to make recommendations for future guidelines: Members of the state task force are Ken Sikkema of Public Sector Consultants, Chris Kolb of the Michigan Environmental Council, Dr. Matthew Davis of the University of Michigan Health System, Eric Rothstein of the Galardi Rothstein Group and Dr. Lawrence Reynolds of Mott Children's Health Center.

In an effort to halt the further escalation of this crisis, the City returned to receiving its water from the Detroit Water and Sewerage Department (DWSD) on October 16, 2015. Since that time, additional corrosion control program has started, estimating a reduction of lead levels over the next six months. In light of these efforts, concerns surrounding the quality of water and health of the residents persist to the point that Mayor Karen Weaver declared a State of Emergency on December 14, 2015 so as to resolve this crisis once and for all.

The current challenge facing the City is providing immediate relief and long term solutions of the quality of the water and health of residents while the City remains in a financially critical condition. It is hoped and expected that higher levels of government recognize this emergency as it pertains to the condition of the City's infrastructure and health of its residents, and do all things necessary to assist the City in the provision of relief and the execution of capital improvement projects that will eliminate the causes of this emergency.

## Enhancing Understanding:

***Information Collection***

Essential Elements of Information (EEIs) can be qualified as the City's water tests containing lead results, the verification of lead water lines (both public and private), and health information. Water testing is performed by the City's water plant in cooperation with the MDEQ. The verification of lead water lines is being handled by University of Michigan Flint, who is currently digitizing the City's water line information and PSI Engineering, who is initiating the effort to verify lead lines by excavating an initial 150 residential lines. This information allows the Incident Management Team to assess the current condition of the emergency by way of determining the water quality and the condition of the water distribution infrastructure.

**Information Analysis**

The City has sought partners to assist in the analysis and attenuation of complex data. Wayne State University's center for Urban Studies has agreed to assist the City in its efforts to document and track lead water lines, water test results, and filter distribution with geographic information system (GIS) technology. This allows for easily updateable, digestible information to be presented to officials.

**Assessment of Impacts**

The City will need assistance in determining the total cost of damage done to the public health and infrastructure. As of now, only portions of this damage are visible.

PSI is providing some assistance by excavating 150 residential water lines to verify that they are comprised of lead. This is an initial step, but not enough. More resources will be needed to continue this process.

**Continuous Situational Awareness**

It is important that the Emergency Management Team receive continuous information regarding water testing results, lead water line numbers, and filter distribution information in order to gain a realistic and current perspective. Much of his information is currently available on the City's website (cityofflint.com) and more is added each week by the PIO team.

## Actions taken in Response to the Emergency

**Activation of the Incident Management Team**

Upon the declaration of Emergency by Mayor Weaver, the Support Emergency Operations Plan (SEOP) was activated. The SEOP calls upon the Incident Management Team to generate the Incident Action Plan (IAP. Each member of this team serves a specific function as it relates to addressing the causes and effects of the emergency. The Emergency Management Team roster can be found in the SEOP on page 3, with a list of alternates on page 4 in case the need for succession arises.

**Emergency Operations Center**

The Emergency Operations Center (EOC) must be activated upon the declaration of a State of Emergency by the Mayor. This center is required by the SEOP and serves as a nerve center for the Incident Management Team. Here, emergency relief efforts are coordinated by key members of the Incident Management Team. In this case, these relief efforts consist of the distribution of water filters at

City Hall and community events, the distribution of bottled water throughout the city in conjunction with the efforts of community partners, and assisting with the circulation of water testing kits throughout the community. The EOC will also be monitoring and managing the inventory of relief supplies, such as water filters and bottled water.

According to the SEOP, the EOC must establish an incident tracking system. This system will serve as a work plan for the management of the emergency. In addition, it is essential that the IMT record water testing results, lead water line location information, and information about the distribution of water filters and bottled water all in one place so that information is readily available for the Incident Management Team. *This information will also be sent out to the public and media in the form of daily* regular updates by the City's PIO.

**Communication**

The EOC maintains a telephone system that exists to intake questions about relief efforts and to organize relief logistics. It is open from 8am to 5pm, Monday through Friday. A voicemail system and eventual email system will exist to handle requests and inquiries that occur outside of the normal operating hours. *This system will be constructed by the City's IS department.*

**Public Awareness and Education**

1. **Emergency Alerts and Updates:**
   The City's Public Information Officer will make available information as it relates to the emergency in the form of press releases, emails, and physical documents. Daily updates containing information on the distribution of water filters, bottled water, water testing, blood lead testing, and other relief efforts will be available on the City's website for the public to view. Information will be available at City Hall for residents.

2. **Joint Information Center:**
   The City's PIO will establish a joint Information Center that is organized to coordinate the efforts of multiple agencies to communicate with the public. This includes the circulation of joint press releases, public health information, educational materials, and updates relating to the State of Emergency. This committee is comprised of public information officers and public relations personnel to coordinate efforts to keep the public updated and informed. Regular updates to the media regarding events and progress will be made as news develops.

   The US EPA has offered assistance in the form of Public Information support. Additional support in this area has been provided by the Michigan State Police.

3. **Education:**
   Many government agencies and philanthropic organizations are already distributing information regarding the effects of lead on public health. It is important that the City assist in these efforts so vital information and knowledge is presented to all members of the community. The goal is to continue to eliminate misunderstandings and incorrect information as it relates to reducing lead in drinking water, pursuing medical help, and maintaining a healthy diet to reduce lead absorption in the body. Lead education is currently being performed by the Genesee County Health Department, the Michigan Department of Health and Human Services and Medical community at-large.

**Assessment of Social Needs**

In order to effectively and equitably provide immediate relief to Flint water customers, the City must take into account many of the socio-economic needs and limitations of the community. Some residents cannot get to City Hall for a water filter. Some residents do not have internet access. Literacy or a language barrier may also pose significant obstacles to the effective distribution of educational information and relief to those in need. These will be continuing challenges facing the community. At present these are the resources the City has available to mitigate some of those challenges.

## Logistics

Logistics are being coordinated by the City Emergency Management Team's City's *Chief Logistics Officer*, who is the City Administrator. The CLO is responsible for the coordination, procurement, and transportation of goods and services, which is essential for effective implementation of the response plan.

**Fixed Distribution Points**

There are several locations throughout the city where residents may acquire a water filter. These locations are:

***Flint City Hall***
*1101 South Saginaw, Flint MI 48502*

***Genesee County Community Action Resource Department (GCCARD)***
*601 North Saginaw, Flint MI 48502*
*and*
*2727 Lippencott Blvd, Flint MI 48507*

*Michigan Department of Health and Human Services*
*4809 Clio Road, Flint MI 48504*
*and*
*125 E. Union Street, Flint, MI 48502*

**Activation of Ward Distribution Centers**

Each of the nine wards will have activated distribution centers that are primarily managed by City Council Members or their designees.

**Flint City Council – Water Distribution Sites**

| WARD | COUNCILPERSON | LOCATION | ADDRESS |
|---|---|---|---|
| 1 | Eric Mays | Hasselbring Senior Center | 1002 W. Home Avenue |
| 2 | Jackie Poplar | Joy Tabernacle Church | 2505 N. Chevrolet Avenue |
| 3 | Kerry Nelson | Antioch Baptist Church | 1083 E. Stewart Avenue |
| 4 | Joshua Freeman | Flint Fire Station No. 5 | 3402 Western Road |
| 5 | Wantwaz Davis | Doyle/Ryder Elementary School | 1040 N. Saginaw Street |
| 6 | Herbert Winfrey | New Community Baptist Church | 1375 Lavender Avenue |
| 7 | Monica Galloway | Brennan Community Center | 1301 Pingree Avenue |
| 8 | Vicki VanBuren | Flint Southwestern Academy | 1420 W. 12th Street |
| 9 | Scott Kincaid | Dort Mall Police Service Station | 3600 S. Dort Highway |

**Mobile Distribution Centers**

With the help of transportation agencies, like the Metro Transit Authority (MTA), meals on wheels, and GCCARD, the city can help establish mobile distribution centers and delivery systems that can provide water filters, bottled water, and nutritious foods, among other types of relief accompanied by educational materials to neighborhoods and to homes of people who experience limited mobility.

- Mass Transportation Authority-MTA bus passes: Assisting residents with bus passes to improve their mobility will increase their chances of receiving help. Transportation services will also improve residents' access to medical care.
- MTA-Your Ride mobile distribution:
  - Estimated Costs: $25 per hour to deliver water and filters to homes throughout the City.

***Problem 1. Public Health Emergency***

The first objective in addressing this emergency is reducing, and eventually eliminating, the danger to public health. As City water coming out of faucets continue to contain lead, and copper and other

harmful contaminants exceeding government guidelines and regulations, it poses a risk to the people of our community. Preventative measures must be taken to avoid the effects of toxicosis that are difficult if not impossible to completely reverse.

As far as preventative measures are concerned, education, water filters, and bottled water must be provided to every household in the City in order to reduce the chances of lead exposure, especially to our most vulnerable members of the community. If lead exposure has occurred, resulting in elevated blood lead levels, immediate and sustained medical attention must be available to those affected. Health services must be expanded in the area to accommodate increased numbers of case loads and specialized care regarding lead poisoning and its effects.

**Immediate Relief for Public Health:**

1. Prevention: Education, water filters and replacement cartridges, free water testing, and bottled water must be available to everyone.
2. Access to nutritious food that reduces the risks of lead absorption by the body. The City can coordinate activities with the County Health Department

**Long Term Solutions: Maintaining Public Health and Coping with Lead Exposure**

1. Work closely with the Genesee County Health Department and Michigan Department of Health and Human Services in order to provide sustainable care and monitoring of children exposed to lead. This care must be available for them for several years-preferably several decades.
2. Support and education for primary care providers regarding aggressive long-term neurodevelopmental screening and testing.
3. Improved access to developmental and behavioral (DBP) specialists, pediatric psychologists, pediatric psychiatrists.
    a. Pre-emptive referral to mental health/ toxic stress screenings.
    b. Support capacity building and or incentivize recruitment to allow Genesee health system (CMH) to build this capacity which is currently needed and lacking.
4. Increase recognition and education regarding trauma informed care, social determinants of health (SDOH).
5. Expand State funded Genesee Health System (CMH) services.
    a. Infant mental health (30 day capacity)
    b. Child case management
    c. Home based services
    d. Trauma informed care- trauma focused CBT

**Problem 2. Lead Contamination in the Water**

**Immediate Relief:**

1. Education, water filters and replacement cartridges, free water testing for water customers, and bottled water must be available to everyone. Water filters can be obtained at any of the fixed distribution points throughout the City.
2. Identification and verification of lead water service lines throughout the city- both public and private.
3. Assistance to identify lead pipes within buildings and homes.

**Distribution of Bottled Water:**
At this point, we are directing all offers for donations to the Food Bank of Eastern Michigan. It is imperative that water be accessible to all members of the community through a variety of distribution channels. These channels are explained in the Logistics Section of this plan.

**Distribution of Test Bottles:**
Water testing kits can be picked up at City Hall with instructions. Test results are posted on the City's website to raise public awareness and encourage more participation.

**Long term Solutions: Capital Improvements Needs**
The distribution of filters, water, and food to counter the effects of lead are essential response efforts to keep people safe. However, long term solutions are required to keep people healthy, to eliminate lead from the public and private water distribution system distribution, and to provide affordable clean water. Our public infrastructure and utilities must be reliable, sustainable, and equitable in order for this community to rebound after this emergency. The following long term solutions must be implemented in order to set the City of Flint on a course for recovery. These solutions come at a heavy cost for a City that is currently in receivership. The City has experienced financial distress due to this Emergency, in addition to a two million dollar loss from switching back to DWSD. The City has diligently applied for Fiscally Distressed Cities, Villages, and Townships, Grant in order to supplement funding for capital improvement projects. It is essential that these grants be awarded in order to achieve long term solutions.

1. <u>COMPLETE</u> **Transition to a Temporary Safe Water Source until the Completion of KWA:**
   This has already occurred. On October 16, 2015, Flint returned to receiving its water from DWSD on a 9 month agreement. This agreement will expire in June 2016, when the KWA is projected to be complete. The City had to pay $2 million out of its general fund to make this switch.

2. <u>IN PROGRESS</u> **Additional Corrosion Control added to the Water System:**

This is already occurring. In early December, 2015, Flint began to add additional corrosion control to the water coming in from DWSD in attempts to rebuild the protective scale inside its pipes. This is estimated to reduce lead levels in two to six months.

3. **Faucet Replacement:**
   Replacement of Water faucets, and drinking fountains in the school system. It has been determined after state inspections that many sources of lead contamination in the School System's water were the faucets themselves. These faucets need to be replaced.

4. **Water Line Replacement:**
   Water Line Replacement to reduce antiquated infrastructure and lead service lines. These lines must be identified, verified, and replaced. Residents who are facing financial hardships must have access to assistance to cover the costs of these replacements through access to grants and (forgivable) loans made available through State and Federal agencies. The corrosion damage to public and private lines that Flint River water caused is still being determined.
   - Replacement of an estimated fifteen thousand (15,000) lead service lines at an estimated cost of three thousand dollars ($3,000) per line. Total costs forty –five million dollars ($45,000,000). This project is estimated to be one of the most cost-intensive endeavors related to ameliorating water contaminants.

5. **Reimbursement of Critical Expenditures:**
   Seeking reimbursement of two million dollar cost of returning to DWSD and forgiveness of Water Revolving Loan Debt from the State of Michigan.

6. **KWA Capital Improvements:** The City has reconnected to Detroit temporarily until a water line from Port Huron is developed. The new water line known as the KWA pipeline or Karegnondi Water Authority is expected to bring water to the City from Lake Huron by July. The current cost agreement between Flint and DWSD is for nine months, therefore it is imperative that KWA be completed as soon as possible. Assistance relating to capital improvements to expedite this process will help to achieve long term goals.

| **KWA Capital Improvements:** | **Estimated Costs:** |
|---|---|
| *a. Transfer Station to Dort Reservoir* | *$4,500,000* |
| *b. Raw water line to pump station #4* | *$636,000* |
| *c. Phosphoric acid feed system* | *$186,000* |
| *d. Alum Feed system* | *$40,000* |
| *e. Post filtration system* | *$387,289* |

| | | |
|---|---|---|
| *f.* | *SCADA Upgrades* | *$424,000* |
| *g.* | *Sewer Relining* | *$100,000* |
| | ***Total*** | ***$6,273,289*** |

## Ancillary Considerations: Public Safety during an Emergency

During a time of emergency public safety agencies need to be prepared to respond to threats to public safety and critical infrastructure. The City is facing a man-made emergency that is threatening the public health. Resentment and hostility toward local institutions and municipal government is at a significant level.

Critical infrastructure should be safeguarded if the need arises. This includes increasing security at City Hall to reduce potential for public safety risks. In the case of credible threats to public infrastructure, it *may be required to hire private security company for first line of defense. Private Security is lower cost,* thereby making it the first option. The minimum response is acted upon first, elevating only if the need arises. Credible or imminent threats of damage or destruction to critical infrastructure requires an elevated response. Such needs may require over-time police officers to address critical situations. Mutual aid from surrounding communities can be requested if Flint public safety is overextended.

## Implementation:

## Community Partners

Financial limitations of the city persist while it confronts this emergency. Many community partners have offered their assistance to perform various needed functions. The city is heavily reliant on the assistance that government agencies and nonprofit organizations have provided.

### The Mott Foundation

The Mott Foundation has provided financial assistance, especially in their generous contribution of $4 million. In addition, the Mott Foundation has recently pledged an additional

### United Way

The Genesee County United Way has provided significant financial assistance in the way of purchasing and helping to distribute water filters since the public health emergency began on October 1st, 2015.

### *Genesee County Community Action Resources Department (GCCARD)*

GCCARD is organized to fight poverty and has been a primary partner in the distribution of water filters. It has also regularly supported the city with the logistics and availability of water filters at City Hall.

**Genesee County Health Department**

Has provided educational information to Flint Water customers

**Genesee County Board of Commissioners**

The Board of Commissioners have pledged their support to help Flint seek solutions to this crisis. The Board has already assisted in making health and nutrition information available to the public.

**Assistance from Wayne State University**

Wayne State University's Center for Urban Studies will be providing technical GIS support to assist in the documentation of emergency relief efforts.

**The US Environmental Protection Agency**

Region 5 EPA has offered assistance with Public Information distribution during the emergency.

**Outside Help is still needed...**

The City of Flint is forever thankful to our community partners who have given so much to help so many people. However the magnitude of this emergency calls for more resources that are beyond the capacity of the combined local organizations and government agencies. Long term solutions will require a heavy investment in health care and capital improvement projects to upgrade the city's antiquated water distribution system.

- Help with Immediate Relief in terms of assuring allocative efficiency. Distribution should be equitable- assistance from other governments required to assure this.
- Reaching communities for the distribution of water filters, water, and educational materials.
- Help with Water Testing to increase participation and lead education.
- Increasing the rate of water testing
- Assistance is required to fund essential capital improvement projects to guarantee clean and safe water.

# MEDIA MONITORING REPORT

**Statewide Severe Winter Storm No. 1**
**12/28/2015**

## Issues:

- No issues to report.

## Summary:

- The National Weather Service has issued a Winter Storm Warning through Tuesday morning for Montcalm, Gratiot, Ionia, Clinton, Barry, Eaton, Ingham, Calhoun and Jackson Counties.
- A winter storm is forecast to move across Illinois bringing high winds, icy precipitation and waves up to 20-feet high along the shores of Lake Michigan.
- The Monroe County Emergency Management Division is encouraging area residents to plan ahead for potential hazards.
- Meteorologists are predicting some potentially hazardous weather that could cause roads to ice over and floods Monday.
- All non-essential state of Michigan workers in the Lower Peninsula are being sent home at 1 p.m. today, joining many local government workers who went home at noon in advance of the ice storm moving into the region.
- Genesee County travelers shouldn't worry when the raindrops start Monday, Dec. 28, but after 4:30 p.m. when the sun goes down and ice formation starts, according to John Daly, Genesee County Road Commission manager-director.
- As freezing rain, sleet and wind gusts close to 50 mph hit the Jackson area, the National Weather Service has upgraded the winter weather advisory to a winter storm warning.
- MLive reports on how stores are gearing up for the need of generators and emergency supplies for the winter storm in Michigan.
- Area libraries are among local organizations closing early today as a severe winter storm approached West Michigan.
- Travel conditions across Michigan are expected to be difficult today as much of the state is under a Winter Storm Warning, Freezing Rain Advisory or Winter Weather Advisory.
- Gov. Rick Snyder activated the State Emergency Operations Center due to the hazardous winter storm expected to affect Michigan.
- TV clips: Road crews prepare for storm.

## Analysis:

- Media coverage is neutral.
- Multiple media outlets report on Gov. Rick Snyder activiating the SEOC for the winter storm and sending non-essential state workers home.
- Media outlets reporting on updated conditions for storm throughout day.
- Will continue to monitor the situation

# MICHIGAN SEVERE WEATHER

## Snow/sleet and freezing rain this afternoon

WILX, December 28, 2015

The National Weather Service has issued a Winter Storm Warning through Tuesday morning for Montcalm, Gratiot, Ionia, Clinton, Barry, Eaton, Ingham, Calhoun and Jackson Counties. A Winter Weather Advisory has been issued through early Tuesday morning for Shiawassee, Livingston, Washtenaw and Lenawee Counties. A Freezing Rain Advisory has been issued for Branch and Hillsdale Counties through Monday evening.

Snow, sleet and freezing rain over the area at noon will continue through the afternoon. As low pressure gets closer to the Michigan winds will be picking up in speed. Computer models are saying ice accumulations could be around a quarter inch in Mid-Michigan. Sleet accumulations of around a half inch are possible. The ice and sleet teamed up with wind gusts near 45 MPH late this afternoon into the evening hours will more than likely cause scattered power outages.

## *Winter Storm to bring icy weather, high winds to Illinois*

WEBZ 91 5, December 28, 2015

A winter storm is forecast to move across Illinois bringing high winds, icy precipitation and waves up to 20-feet high along the shores of Lake Michigan.

The National Weather Service on Monday morning had storm warnings, freezing rain advisories and flood warnings across Illinois. Forecasters predicted heavy icing in the northern half of Illinois. Heavy rain and flooding is expected in central Illinois with river flooding likely to continue for several days.

## Monroe County EMD shares winter safety tips

Monroe News, December 28, 2015

With winter weather starting to settle in for the season, the Monroe County Emergency Management Division is encouraging area residents to plan ahead for potential hazards. Here is the list of tips that the EMD issued Monday morning: BE PREPARED FOR COLDER TEMPERATURES & WINTER STORMS While we have not yet experienced it yet this season, Michigan winters can bring extremely cold temperatures, large amounts of snow and bursts of freezing rain. With severe winter weather events likely to occur sometime in the next couple of months, now is the time to prepare for the unexpected. The start of a new year is the perfect time for Monroe County residents to plan ahead and make

arrangements before severe winter weather strikes. We strongly encourage everyone to take a few steps to get "winter ready."

## Weather Service issues flood warning for Metro Detroit

MLive, December 28, 2015

DETROIT, MI -- Meteorologists are predicting some potentially hazardous weather that could cause roads to ice over and floods Monday.

The National Weather Service issued a lakeshore flood warning about 10 a.m. for Wayne and Monroe counties stemming from possible rising water levels.

"Water levels will rise quickly along the Lake Erie shore," the Weather Service said.

## State workers going home at 1pm

Lansing State Journal, December 28, 2015

LANSING - All non-essential state of Michigan workers in the Lower Peninsula are being sent home at 1 p.m. today, joining many local government workers who went home at noon in advance of the ice storm moving into the region.

A winter storm warning called for up to a quarter-inch of ice this afternoon and evening, making travel hazardous and prompting the cities of Lansing and East Lansing to close facilities at noon today. Ingham County also closed at noon and Clinton County at 12:15 p.m. Eaton County had not yet made a decision to close offices, although Delta Township closed its offices at noon.

## Ice accumulation on Genesee County roads to start when sun goes down

MLive, December 28, 2015

FLINT, MI – Genesee County travelers shouldn't worry when the raindrops start Monday, Dec. 28.

It's the sun falling from the sky that's going to be the problem, according to John Daly, Genesee County Road Commission manager-director.

"After 4:30 p.m., and the sun starts to go down, that's when we're going to get ice formation," Daly said. "That's going to be the big problem with this one."

## Live updates: Freezing rain, gusts near 50 mph hit the Jackson area

MLive, December 28, 2015

JACKSON, MI — As freezing rain, sleet and wind gusts close to 50 mph hit the Jackson area, the National Weather Service has upgraded the winter weather advisory to a winter storm warning.

The warning will remain in effect until 4 a.m. Tuesday, Dec. 29, the NWS reports. Freezing rain is expected to continue through Monday evening before temperatures start to rise above freezing. In addition, the NWS projects between one- and three-tenths of an inch of ice accumulation with a steady wind between 20 and 30 mph.

## Stores gearing up for the storm's rush on generators, emergency supplies

MLive, December 28, 2015

GRAND RAPIDS, MI – Between a long electrical outage over Christmas Eve and a big storm moving in today, Rylee's Ace Hardware put an order in for more generators.

Good thing, because there has been a run on them over the last few days.

Generators are currently sold out at both the Grand Rapids area Menards in Comstock Park and Wyoming. More should arrive tonight or tomorrow morning, say staff.

## Libraries shut down as storm approaches, check first before heading out

MLive, December 28, 2015

MUSKEGON COUNTY, MI -- Area libraries are among local organizations closing early today as a severe winter storm approached West Michigan.

Hackley Public Library, Muskegon Area District Library branches, Spring Lake District Library, Loutit Library in Grand Haven, Fremont Area District Library and Newaygo Area District Library all have closed for the day.

A winter storm with high winds and freezing rain is expected to hit the area early this afternoon. A half-inch of ice could accumulate, making travel in the area treacherous.

## Sleet and freezing rain hitting southeast Michigan

Monroe News, December 28, 2015

Travel conditions across Michigan are expected to be difficult today as much of the state is under a Winter Storm Warning, Freezing Rain Advisory or Winter Weather Advisory. Monroe County falls into the Winter Weather Advisory area, according to the National Weather Service in Detroit, with that alert expected to be in effect until 9 p.m Precipitation began late this morning as sleet mixed with some freezing.

## Gov. Snyder activates State Emergency Operations Center due to winter storm

Up North Live, December 28, 2015

WPBN/WGTU — Gov. Rick Snyder activated the State Emergency Operations Center due to the hazardous winter storm expected to affect Michigan.

The National Weather Service is forecasting about a foot of heavy, wet snow for the Upper Peninsula and freezing rain for some areas of the Lower Peninsula. Power outages are likely to happen.

"The safety of all Michiganders is our top priority, and the heavy snowfall and freezing rain could create hazardous conditions in much of our state," Snyder said. "Residents should pay close attention to advisories and stay off the roads if at all possible. State authorities continue to closely monitor the situation and are sharing information and coordinating with communities to keep everyone as safe as possible."

## Storm prompts Michigan to activate Emergency Operations Center

WNDU, December 28, 2015

LANSING, Mich. (AP) The state's Emergency Operations Center has been activated as a winter storm is expected to bring heavy wet snow to the Upper Peninsula and freezing rain and high winds to other parts of Michigan.

Gov. Rick Snyder also says state offices in the Lower Peninsula are to close at 1 p.m. Monday due to the storm.

Winter storm warnings and advisories have been issued for a number of areas. The Emergency Operations Center coordinates response and recovery efforts by state and local agencies.

## Storm prompts state to activate Emergency Operations Center

Fox 17, December 28, 2015

LANSING, Mich. (AP) — The state's Emergency Operations Center has been activated as a winter storm is expected to bring heavy wet snow to the Upper Peninsula and freezing rain and high winds to other parts of Michigan.

Gov. Rick Snyder also says state offices in the Lower Peninsula are to close at 1 p.m. Monday due to the storm

Winter storm warnings and advisories have been issued for a number of areas. The Emergency Operations Center coordinates response and recovery efforts by state and local agencies.

## Storm prompts state to activate Emergency Operations Center

WOOD TV, December 28, 2015

LANSING, Mich. (AP) — The state's Emergency Operations Center has been activated as a winter storm is expected to bring heavy wet snow to the Upper Peninsula andfreezing rain and high winds to other parts of Michigan.

Gov Rick Snyder also says state offices in the Lower Peninsula are to close at 1 p.m. Monday due to the storm

Winter storm warnings and advisories have been issued for a number of areas. The Emergency Operations Center coordinates response and recovery efforts by state and local agencies.

# FLINT WATER

## Flint water crisis emergency declaration heading to Gov. Rick Snyder

MLive, January 4, 2015

The chairman of the Genesee County Board of Commissioners has declared a state of emergency in Flint because of lead in the city's water supply.

Chairman Jamie Curtis, supported by the county board, signed the declaration today, Jan. 4, during a meeting of the commissioners, clearing the way to send the request for help to Gov. Rick Snyder.

City and county officials said the request will amount to more than $50 million, including money to replace lead service lines and make other infrastructure upgrades but said specifics of the request are still being developed.

"Its a victory, and it's a step in the right direction," said Flint Mayor Karen Weaver, who said she plans to meet with Snyder in iscuss the declaration Thursday, Jan. 7.

Weaver declared that Flint had suffered a man-made disaster because of lead in water last month, the first step in requesting state and federal assistance.

"We're not going to be ignored," Curtis said. "We're going to get the help that these people need."

## Board declares state of emergency in Flint water crisis

Detroit Free Press, January 4, 2015

LANSING -- Gov. Rick Snyder is gathering the information needed to formally declare a state of emergency in Flint over the water contamination issue, but in the meantime is "already recognizing this as an emergency," spokesman Dave Murray said Monday.

Murray made his comment after the Flint Journal reported the Genesee County Board of Commissioners declared a state of emergency Monday in Flint.

The board's action follows an emergency declaration by Flint Mayor Karen Weaver, who said she plans to meet this week with Gov. Rick Snyder.

Specifics of the request are being worked out, but plans call for dealing with causes and effects of lead contamination. It's also part of the process for requesting federal assistance.

Flint switched from Detroit's water system last year to Flint River water in a cost-cutting move. Residents complained about the taste, smell and appearance, and children were found to have elevated blood-lead levels. Flint returned to Detroit's system in October.

Last week, Department of Environmental Quality Director Dan Wyant resigned over the issue, as did his communications director, Brad Wurfel.

"The health and welfare of Flint residents is a top priority, and we're committed to working closely with Mayor Weaver and the Genesee County Commission on a coordinated response to health and infrastructure issues," Murray said Monday in an e-mail to the Free Press.

The Michigan State Police's Emergency Management and Homeland Security Division is working with the Genesee County Emergency Management Coordinator to gather information about the resources needed for a governor's declaration of an emergency, Murray said.

"The State Police have been closely engaged in the situation since the beginning, meeting with both county and city leaders to guide them through state and federal laws regarding the emergency management process," he said.

"Due to the uniqueness of this situation, we have to look at all possible options to help Flint residents. But prior to a formal declaration, we are recognizing this as an emergency and are working with city and county leaders to coordinate efforts, streamline communication and tap all available resources at the state's control."

## Plans move forward to seek more help for Flint water system

Associated Press, January 4, 2015

Plans are moving forward to seek more help handling problems with Flint's water system.

The Flint Journal reports (http://bit.ly/1Pb62V5 ) Genesee County board Chairman Jamie Curtis, supported by the board, declared a state of emergency Monday in Flint.

It follows an emergency declaration by Flint Mayor Karen Weaver, who says she plans to meet this week with Gov Rick Snyder.

Specifics of the funding request are being worked out, but plans call for dealing with causes and effects of lead contamination It's also part of the process for requesting federal assistance.

Flint switched from Detroit's water system last year to Flint River water in a cost-cutting move. Residents complained about the taste, smell and appearance, and children were found to have elevated blood-lead levels. Flint returned to Detroit's system in October.

## County OKs Flint's state of emergency declaration

Michigan Radio, January 4, 2016

Flint's state of emergency declaration is on its way to the governor's office.

The Genesee County Commission approved the declaration for the city of Flint Monday.

The declaration is tied to elevated lead levels in the city's drinking water.

The city's action plan calls for $45 million to replace 15,000 lead transmission lines that connect Flint homes to the city's water system. It also asks for $6 million to help Flint connect to a new pipeline under construction from Lake Huron.

Commission chairman Jamie Curtis says his county's needs will not be ignored.

"This is a state man-made disaster," says Curtis., "And we're going to put together a comprehensive plan and we're going to ask the state to fix their disaster."

In April, 2014, the city switched from Detroit to the Flint River as the source of its tap water. But city and state officials failed to address of the corrosiveness of the river water. Researchers say the river water damaged water pipes, and the pipes eventually leeched high levels of lead into the drinking water. The city switched back to Detroit water last fall.

However, health officials say the threat of lead exposure persists.

"Lead should never be in the body of a child," Dr. Mona Hanna-Attisha told county commissioners today. She recently published a study in a national medical journal showing childrens' blood lead levels in some Flint neighborhoods have tripled.

Health officials fear the lead problem will continue for years to come.

"It's going to be pure hell," is how County Commissioner Brenda Clark describes the effect on Flint schools, when infants who consumed formula made with lead-tainted water start kindergarten in a few years.

But coming up with a specific number for how much is needed to cover the health care costs is problematic.

Mayor Karen Weaver says that's why they've drafted a "fluid" plan to address the issue as more information is gathered.

Weaver is scheduled to sit down with Gov. Snyder on Thursday. It will be up to the governor to decide whether Flint's water problems can be submitted to the Obama administration for a federal disaster declaration.

Weaver plans to travel to Washington later this month to meet with federal officials.

## State Rep. Sheldon Neeley calls out, on governor for help over Flint water

MLive, January 3, 2016

FLINT TWP, MI -- A booming rendition of the spiritual hymn "Wade in the Water" set the tone Sunday morning for what was to come during a service at the Unitarian Universalist Congregation of Flint.

The service included guest speaker Sheldon Neeley, the 34th District state House Representative from Flint, who took a hard stance against Gov. Rick Snyder and what he felt was the emergency manager's role over the water issue in Flint.

"Governor Snyder provided an apology," said Neeley to around 50 people seated in the audience. "Thank you for those words, Governor, but an apology is worthless unless your actions follow."

Neeley said the water issues stemmed from an emergency manager in place at the city.

## County commissioners to take up Flint water action plan

Michigan Radio, January 3, 2016

Flint's plan to recover from its drinking water problems goes to the Genesee County commission Monday morning.

The city's use of the Flint River for its drinking water damaged the city's pipes, and exposed thousands of people to high levels of lead. The city switched back to Detroit water last Fall. But city residents are still being told to use water filters.

Mayor Karen Weaver is asking the county commission to give its OK to Flint's plan to fix the problem.

## Open Letter to Gov. Rick Snyder: Too Late to Apologize About Flint's Water Crisis

DailyKos, January 4, 2016

Should Apologies be Accepted When The Act Was Intentional? Should Apologies Present Sense of Instant Relief -- Regardless if a Long List of Repeated Cover Ups Are Revealed?

What About Standards?

Should a Governor Who Set His Standards So High He Proudly Signed A Bill Twice Over Ensuring Full Control of Cities, Townships, Villages, Counties and School Districts-- That Fails To Meet His High Standards -- Be Easily Forgiven With an "Apology" for Allowing Flint's Residents to Drink Toxic Water for years on end?

Governor Rick Snyder, the answer is a resounding no. No, Flint Residents should not accept your "apology" nor should they --- as YOU continued structure that allowed for repeated lies about safety of the water.

## Lead Poisoning In Michigan Highlights Aging Water Systems Nationwide

WBEZ-FM 91.5 (Chicago), January 4, 2016

Gov. Rick Snyder of Michigan apologized this week for how the water crisis in Flint has been handled. Residents there were exposed water with high levels of lead for months after the city switched water suppliers. The city has since switched back to the Detroit water system.

Snyder also said the state has to learn from Flint, as many other cities in Michigan also have an aging infrastructure.

Robert Puentes, director of the Metropolitan Infrastructure Initiative at the Brookings Institution, tells NPR's Scott Simon that the problem of aging water systems plagues many suburbs and smaller cities in the United States.

## Editorial: Poisoned children are an outrage in Michigan – but not New Jersey?

Star-Ledger (Newark, New Jersey), January 3, 2016

Imagine if thousands of children were being poisoned, in many cases causing permanent brain damage. Parents would be in a state of panic. The headline would be stripped across every news channel.

That's what's happening in Michigan. The mayor of Flint has declared a state of emergency to address lead poisoning in the city's water supply. The proportion of children with elevated lead in their blood has nearly doubled, putting them at risk of irreversible cognitive damage. Two top officials have resigned. Now, the governor is apologizing.

Except that thousands of children are being poisoned in New Jersey, too, and there is no public outcry. Thousands more will fall victim next year, and we'll hear hardly a peep about it. Worst of all, our public officials saw all this coming, and could have saved many of these children. But they didn't, because it wasn't a priority.

Sorry kids, but you're going to have to live with brain damage, because Chris Christie and his predecessors had budget gaps to fill.

## March aims to shut down Michigan Avenue in Dearborn

Detroit Free Press, January 1, 2016

Civil rights groups are planning to march and shut down a stretch of Michigan Avenue Monday night to demand justice in the December fatal shooting of an unarmed Detroit man by a Dearborn police officer.

The march will begin at 6:30 p.m. at Michigan Avenue and Greenfield in the Kroger parking lot in Dearborn and continue a few blocks to the Dearborn Police Department, organizers said. The event is being organized by the National Action Network. Community organizations such as Take On Hate and Black Lives Matter are planning to participate

Kevin Matthews, a 35-year-old Detroit resident, was shot multiple times Dec. 23 on Detroit's west side by a Dearborn police officer following a foot chase. The shooting is being investigated by Detroit police, who did not immediately return a call for comment Sunday.

## New rules to improve emergency response time

Hillsdale Daily News, January 1, 2016

HILLSDALE — The Michigan State Police have enacted new rules that require all Multi-Line Telephone Systems (MLTS) or Private Branch Exchange (PBX) phones systems in Michigan to provide accurate locations for phones when a user dials 911.

The rules went into effect on Dec. 31, 2015.

"(The Michigan State police) have been pushing for that for a long time," Doug Sanford, emergency management director and Hillsdale 911 director, said.

Sanford said that the location of the 911 caller is vital for a quick response.

## Sanilac putting $900K into emergency center

Port Huron Time-Herald, January 3, 2106

Sanilac County could invest nearly $1 million to renovate a 9,840-square-foot building in Sandusky to relocate multiple departments to a space officials say better suits their needs.

Administrator Kathy Dorman said departments including buildings and grounds and Central Dispatch have run into space issues, making the move priority for the county.

The exterior of the county-owned building at 95 Dawson St. — that officials have pegged its new Emergency Operations and Training Center — will remain largely as is, but Dorman said its interior will receive "quite extensive" remodeling.

She said that includes removing or rearranging walls and installing a new roof, heating and cooling system and security system.

## Illinois, Missouri assess damage, cleanup after flooding

Associated Press, January 4, 2015

KINCAID, Ill. (AP) - Sharon Stivers mustered a smile as a visitor walked into her muddy yard.

"Welcome to my flood sale," Stivers joked, nodding to a tall stack of water-soaked furniture, appliances and belongings pulled from her home and piled high by the road in the flat central Illinois town of Kincaid. "You can have the whole thing for 50 cents."

The Mississippi River and most other waterways in Missouri and Illinois flooded last week after 10-14 inches of rain fell over a wide swath of the two states. The water receded in most places Sunday but continued to rise in a few. Cleanup and damage assessment was only beginning, and could take weeks.

Twenty-five deaths in the two states were blamed on flooding, nearly all of them the result of vehicles driving over flooded roadways. The death toll rose Sunday when the body of a second teenager missing for several days was found near Kincaid, a town of about 1,400 residents along the South Fork Sangamon River near Springfield.

The Mississippi River was receding except in the far southern tip of both states. After that, flooding is expected to worsen in Arkansas, Kentucky, Tennessee and other southern states, though the breadth of the flooding there isn't expected to match what happened in Missouri and Illinois.

## Oregon militia standoff: Ranchers due at prison and what else to expect Monday

Oregon Live, January 4, 2015

The two father and son ranchers who triggered a national cry for justice over their convictions for arson were expected today to surrender themselves to federal prison, ending efforts of militants and fellow ranchers to spare them.

A family friend who asked not to be publicly identified told The Oregonian/OregonLive that Dwight Hammond Jr., 73, and Steven Hammond, 46, left Harney County over the weekend to report. He said they were traveling to California.

Their surrender closes one chapter of a controversial case that has spun into a national drama.

They leave behind a community reeling from the occupation of the Malheur National Wildlife Refuge, a sweeping reserve southeast of Burns. Militants, including the three sons of Nevada rancher Cliven Bundy, took over the empty headquarters compound on Saturday, insisting they will stay until federal land is returned to private ownership.

## Flint water crisis emergency declaration heading to Gov. Snyder

The chairman of the Genesee County Board of Commissioners has declared a state of emergency in Flint because of lead in the city's water supply
MLIVE COM

Erin Brockovich

2 hrs

Governor Snyder needs to issue this emergency declaration. An Executive branch of government's declaration of an "emergency" sends a strong message. Flint is in a state of emergency, children are suffering and all the resources available must be deployed to insure the immediate and ongoing safety of this community's children. Not declaring an emergency at this point would be a purely political move.

The Michigan Department of Health and Human Services (MDHHS) continues to work closely with local partners to ensure that impacted individuals, especially children younger than six years of age, are being tested at the State Laboratory for elevated blood lead levels. Including working closely with the local primary care provider community and WIC clinics to emphasize the importance of blood lead level screening for children. A technical workgroup comprised of Medicaid data and public health surveillance experts have developed Medicaid specific EBLL testing goals. The department updated its data surveillance methods for blood lead level testing to ensure the most up-to-date, accurate information is being reviewed. Ongoing efforts include enhanced epidemiological disease surveillance. Results are made available through summary reports on the www.michigan.gov/flintwater website, indicating the number tested and with elevated levels. The MDHHS is partnering with the Genesee County Health Department to ensure families are being offered case management support, which incorporates environmental investigations. The state continues to distribute free water filters to Flint residents with replacement cartridges available at multiple locations. In October, community outreach was initiated for distribution of educational materials for parents, families, and healthcare providers in Flint. These materials were also distributed to all children in Flint schools highlighting the importance of blood lead level testing, effects of lead exposure and importance of nutrition. MDHHS has been proactively monitoring the Ready to Feed formula use and coordinating with manufacturers and WIC retailers to address any supply or distribution issues with infant formula availability.

Cost Figures for Flint Water Response: Population and Community Health Administration (PHCSA)

| Type | Priority | Intervention | Rationale | Cost |
|---|---|---|---|---|
| **Education** | | | | |
| **Secondary Prevetion** | | | | |
| | | School nursing | To monitor, case manage, treat, promote wellness (socioemotional), school nutrition, etc . | $500,000 |
| | | Special Education | 20 percent of children with BLLs greater than or equal to 25 @ age two receive special education for an average of 9 years. | $2,500,000 |
| | | Pre-Post school programming | To provide structured, safe supervised programming | $9,000,000 |
| **Nutrition** | | | | |
| **Secondary Prevention** | | | | |
| | | Expand WIC eligibility requirements | To increase availability of healthy nutrition for impacted children | $1,380,000 |
| | | Promote breastfeeding education and support services | To protect children from lead exposure, promote cognitive development | $85,000 |
| | | Educate and promote lead-exposure diet | To limit absorption and promote excretion of lead in exposed children | $110,000 |
| **Tertiary Prevention** | | | | |
| **Medical Health** | | | | |
| | | Immediate Treatment and treatment of lead-associated ADHD | Immediate treatment of childr | $18,280,849 |
| | | Promote caregiver capacity. Increase capacity of maternal infant suppport services | To support parents and programs to improve parenting skills and early identification of developmental delays | $250,000<br>$325,000<br>$120,000 |
| **Secondary Prevention** | | | | |
| | | Education for primary care providers regarding toxic stress | To indentify developmental delays early | $100,000 |
| | | Increase pediatric healthcare access to a patient centered medical home | To continuously drive patients to their primary care provider | $100,000 |

| | | | |
|---|---|---|---|
| **Tertiary Prevention** | Creation of the Flint Children's Health and Development Fund | To support short and long-term health, medical care, and developmental needs of Flint children exposed to lead | $100,000,000 |
| | Behavorial Health Services | To provide necessary mental/behavioral health services to exposed population | $7,000,000 |
| | Identification and tracking of exposed children/cohort | To determine extent of injury and long-term neurodevelopmental, medical, socioeconomic impact. To allow for identification of exposed children and ongoing surveillance | $100,000 |
| **Assessment Subtotal** | | | **$139,155,849** |

**Budget Estimates**
**FY16 Supplemental Request**

| **Appropriation** | **FTEs** | **Amount** |
|---|---|---|
| Cost for epidemiologists | 2 | $115,000 |
| Cost to abate lead in homes in Flint | 3.5 | $1,687,500 |
| Additional lead investigations | 0 | $100,000 |
| Increase nurse case management | 1 | $75,000 |
| Increase community education | 2 | $120,000 |
| WIC outreach and trasportation | 1 | $60,000 |

| | | | |
|---|---|---|---|
| **Total FY16 fuding Request** | **$10** | **$2,157,500** | |
| **FY17 Supplemental Request** | | | |
| Continuation of FY16 Supplemental | 8 | $850,000 | |
| Cost for epidemiologists | 2 | $220,000 | |
| Cost to abate lead homes in Flint | 4 | $2,261,000 | |
| Additional lead investigations | 0 | $130,000 | |
| Increase nurse case management | 1 | $100,000 | |
| Increase community education | 2 | $180,000 | |
| WIC outreach and transportation | 1 | $90,000 | |
| **Total FY17 Funding Request** | **18** | **$3,831,000** | |
| **Total FTE** | **27.5** | | |
| **GRAND TOTAL** | | | **$145,144,349** |

**Notes**

It is reasonable to have a nurse in 5 schools in Flint. $500,000

Lifetime costs $2.5 million for a cohort of two year olds.

$1,000/9000 children

Low demand for ready to feed formula, Expansion of WIC eligibility and income to children 7-10 yrs require USDA approval $1.38 M

Promote breasfeeding- We believe an additional lactation consultant would be helpful at GCHD

Dietician for nutrition counseling/education at Genesee County Health Department

Immediate treatment: $280,849
ADHD includes medication and counseling: $18 million annually

Expansion of home visitation programs. Parent education via community classes related to preventing toxic stress (ACEs)- Perhaps this is something that the Genesee Coalition could undertake. 5 grants at $50,000/ea to interested community partners. *Parents as teachers program- 5 staff to do home visitation at* $65,000/ea. One MDHHS FTE- $120,000 to establish and monitor contracts

$100,000 for provider education to Hurley Hospital

Funding for Children's Healthcare Access Program (CHAP)

Estimate provided by Dr. Mona Hanna Attisha; estimate should be validated by acutarial analysis

700,000/10 years

Identification and tracking of exposed children/cohort- We think it is reasonable to enhance capacity to support health information exchange and integration between laboratories and the MICLPS registry.

***Notes***

Support two epidemiologists to analyze blood lead levels based on zip codes in the City of Flint. Work conducted by the epidemiologists will be new functions not currently conducted. Positions will be supported through contracts with MPHI.

Costs reflect contractual and service costs to abate lead from homes in the City of Flint. Contractual funds will support 3.5 contractual staff - 2.5 field consultants to conduct abatement and one to assist with client application and form processing (total $187,500). Funds for the service include the cost to abate 100 homes @ $15,000 each ($1 5 million) which will include internal housing plumbing components where necessary. Current efforts financed in the previous FY16 supplemental did not support lead abatement activities.

Additional contractual efforts to support lead investigations in 100 additional homes in the City of Flint. Service will be provided by ETC Consulting.

Funds support the increased testing and follow up necessary with the new homes being investigated. Nurse case managers provide follow up with families, provide nutrition counseling, and coordination with Environmental Blood Level (EBL) investigations.

Contractual FTEs will work with the Genesee County Health Department (GCHD) to build educational efforts in that community to develop a more detailed education plan.

One contractual peer educator FTE at Genessee County Health Department to help increase WIC enrollment and retention to assist with lead testing, nutrition education, and overall health of pregnant moms and infants.

*Continue the funds from the original FY16 supplemental for existing nurse case* management of EBL home investigations.

Continue the funds from the FY16 request above and support two epidemiologists to analyze blood lead levels and will address broader areas beyond the City of Flint. Work conducted by the epidemiologists will be new functions not currently conducted.

Continue the funds from the FY16 request above and finance contractual and service costs to abate lead from homes in the City of Flint. Contractual funds will support 4 contractual staff - 3 field consultants to conduct abatement and one to assist with client application and form processing (total $311,000). Funds for the service include the cost to abate an increase to 130 homes @ $15,000 each ($1.95 million) which will include internal housing plumbing components where necessary. Current efforts financed in the previous FY16 supplemental did not support lead abatement activities.

Funds support additional lead environmental investigations. This is lead investigations in homes of children with high blood lead levels to determine all of *the sources of lead exposure and plan for mitigation of lead. This does not* include funding for lead abatement. This is done via contract with ETC Consulting. (No FTEs)

Continue the funds from the FY16 request above to support the increased testing and follow up necessary with the new homes being investigated. Nurse case managers provide follow up with families, nutrition counseling, and coordination with Environmental Blood Level (EBL) investigations.

Continue the contractual health educators at GCHD to work collaboratively with community agencies on awareness of lead hazards, increase lead testing, and nutrition education.

One contractual peer educator FTE at GCHD to help increase WIC enrollment and retention to assist with lead testing, nutrition education, and improve the overall health of pregnant moms and infants. Bus tokens (10,000 at $1 = $10,000), bus signs and other promotion materials for WIC at $5,000.

The **American Red Cross** prevents and alleviates human suffering in the face of emergencies by mobilizing the power of volunteers and the generosity of donors. The American Red Cross—through its strong network of volunteers, donors and partners—is always there in times of need. We aspire to turn compassion into action so that...
...all people affected by disaster across the country and around the world receive care, shelter and hope;
...our communities are ready and prepared for disasters;
...everyone in our country has access to safe, lifesaving blood and blood products;
...in an emergency, there are always trained individuals nearby, ready to use their Red Cross skills to save lives.

## Disaster Health Services

The Health Services (HS) function within Disaster Cycle Services prepares for, responds to and assists in recovery activities to meet the disaster-related health needs of individuals and communities. This step is achieved by working with Red Cross disaster leadership, other Red Cross activities, the health care community and governmental agencies.

The role of Health Services is to:

- Assist Red Cross chapters and regions prepare, respond and recover from disaster by building volunteer capacity and capabilities.
- Participate in building community resilience through partnering with community agencies.
- Assess disaster-affected individuals and communities to determine appropriate response and care needs.
- Provide care and support to persons who have disaster-related or disaster-aggravated unmet health needs.
- Assist clients in finding resources to meet disaster-related unmet health needs. These resources may include Red Cross financial assistance per Red Cross guidance.
- Participate in assessment, care and resource acquisition for clients with functional and access needs.
- Partner with other community, state and federal agencies to fill the needs of clients.
- Participate in disaster-related health research.
- Assist Staff Wellness with the care of Red Cross disaster responders when health related issues occur during a disaster relief operation.

## Disaster Health Assets

Individual chapters and regions maintain a small supply of durable medical equipment and supplies for sheltering. The American Red Cross partners with the community, local, state and federal partners and the private sector to provide just in time health assets to our disaster affected clients.

# AmeriCares

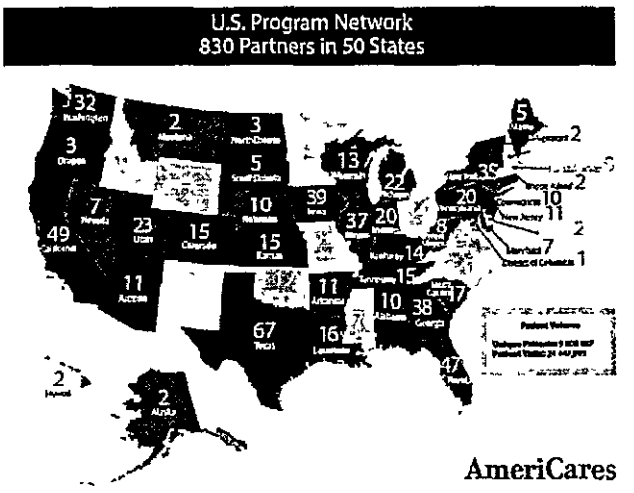
**AmeriCares**
88 Hamilton Avenue, Stamford, CT 06902
Phone:1-800-486-HELP/1-800-486-4357
Email: Info@AmeriCares.org
www.americares.org

**AmeriCares** is an emergency response and global health organization that saves lives and builds healthier futures for people in the U.S. and around the world. Every day, AmeriCares puts critically needed medicines in the hands of frontline health workers and develops innovative, sustainable health improvements in their communities. We are the leading nonprofit for delivering donated medicines and medical supplies to health programs around the world. We leverage this core competency with emergency preparedness, response and recovery efforts, and programs that improve health outcomes. Our programs increase access to care in more than 90 countries every year.

AmeriCares responds to an average of 30 natural disasters and humanitarian crises worldwide each ear, establishes long-term recovery projects and brings disaster preparedness programs to vulnerable communities. AmeriCares U.S. Program is the largest nonprofit provider of medical aid to organizations serving low-income uninsured patients in the U.S.

**Disaster Health Services**

- AmeriCares supports over 800 health clinics and community health programs serving the uninsured and underinsured nationwide with ongoing deliveries of medicines and medical supplies. In times of emergency, we increase aid deliveries to these safety net partners.
- AmeriCares maintains longstanding relationships with some of the world's largest pharmaceutical companies and medical supply manufacturers.
- AmeriCares partners with community first responders, health departments, emergency management offices, federally qualified health centers, free or charitable clinics, non-profit central-fill pharmacies, non-profit hospitals, social service agencies and others addressing the needs of communities impacted by disaster.



**Disaster Health Assets**

- Prepositioned donated medicines, medical supplies, and disaster relief supplies in our Stamford, CT warehouse that can be quickly mobilized Examples of aid include the following:
  - Prescription and over-the-counter medicines
  - Medical and surgical supplies (syringes, gauze, bandages, etc.)
  - Vitamins and nutritional supplements
  - Personal hygiene products
- AmeriCares Mobile Medical Unit is a 42 foot bus equipped with two exam rooms and on site, point-of-care lab testing that can be deployed anywhere in the United States.
- AmeriCares has the ability to fund flash grants for partners, enabling them to respond locally to critical needs.
- AmeriCares Emergency Response staff are trained in Resilience and Coping for the Caregiver (RCHC) and Pediatric Disaster Mental Health Intervention (PDMHI). These training programs support the community and local caregivers following a disaster.

**Buddhist Tzu Chi Foundation**
1100 S. Valley Center Ave.
San Dimas, CA 91773
Phone: 1-909-447-7799 ext. 500
Email: tzehuei@us.tzuchi.org
www.tzuchi.us

**Buddhist Tzu Chi Foundation**
In 1966, Dharma Master Cheng Yen established Tzu Chi Foundation in Hualien. With the spirit of self-discipline, diligence, frugality, and perseverance, Tzu Chi set out to help the poor and relieve suffering. Over time, the Foundation's mission started with Charity and extended into Medicine, Education, and Humanistic Culture. Tzu Chi originated in the remote Hualien area and expanded to all five major continents of the world with chapters and offices in 50 countries. Tzu Chi provides aid to over 90 nations. Its volunteers selflessly contribute through a mindset of gratitude, expressing their sincerest care and support to each and every individual in need.

**Tzu Chi USA**
In 1984, the Buddhist Tzu Chi Foundation in the U.S. registered as a non-profit 501(c)(3) organization in California. In 1989, the first office in the U.S. was established in Alhambra, California. There are now more than 60 offices and facilities in the U.S. with over 100,000 volunteer and donors working to make a difference in their local communities.

**Disaster Health Services**
Tzu Chi Medical Foundation takes direct action through a combination of medical outreach, mobile units and permanent clinics. A mix of volunteer healthcare professionals and dedicated non-professional volunteers work together for long hours to create a welcoming, safe and efficient resource for their patients.

- **Flying Doctors to the Rescue! Partnership:** Since 2012, Tzu Chi has collaborated with Flying Doctors, a California-based group that send medical staff wherever they are needed across the country.
- **Vision Care: A Clear Improvement:** Tzu Chi patients receive free eye exams and vision correction prescriptions, and can choose from several different styles of frames. After a short wait, they are presented with their new free glasses.
- **Flu Shots: An Ounce of Prevention is Worth a Pound of Cure**
- **Acupuncture: Freedom From Pain:** Tzu Chi offers free acupuncture treatment to help relieve undocumented workers and low wage earners suffering
- **Dental Care – Key to Overall Health:** Tzu Chi's clinics treat and repair dental problems, as well as educate patients on how to maintain proper dental to avoid future problems.

**Disaster Health Assets**
**Four Permanent Clinics**
Tzu Chi operates four permanent medical clinics, three in California and one in Hawaii. A fourth California clinic in Fresno is in the planning stages and medical outreach is ongoing and expanding throughout every region of the country. Tzu Chi's Permanent Clinic Locations provide affordable health services to families in need, all year round. Services include, primary medical care, dental care, acupuncture, women's health services and children immunizations.

**Five Mobile Clinics:** Three Dental Mobile, One Vision Mobile, One Cancer Screening Mobile

**Catholic Charities USA**
2050 Ballenger Avenue, Suite 400
Alexandria, VA 22314
Phone: 1-703-549-1390
www.catholiccharitiesusa.org

**Catholic Charities USA (CCUSA)** is the national office for Catholic Charities agencies nationwide. CCUSA's members provide help and create hope for millions of people a year, regardless of religious, social or economic background. CCUSA provides leadership and support for the work of local agencies in their efforts to reduce poverty, support families, and empower communities. The Disaster Operations Division coordinates the Catholic Church's response to disaster in the United States and territories. CCUSA supports local Catholic Charities agency response and recovery efforts. These agencies provide critical services including emergency food, direct financial assistance, counseling and other support services.

## Disaster Health Services

- In 2014, 4,354 clients received disaster-health services related to response or recovery grants provided by CCUSA.
    - In 2013, Catholic Charities agencies provided over 900,000 client health-related services. The CCUSA Disaster Operations team can only track the disaster health services provided through CCUSA disaster grant funding.
- These disaster health services include Behavioral Health Services (counseling, mental health and addiction services), Prescription Assistance, Pregnancy Services, and provision of durable medical equipment.
- Local Catholic Charities agencies provide health services through health clinics, dental clinics, Parish nursing, home health services, skilled nursing facilities, hospice, and intermediate care facilities.

## Disaster Health Assets

- Licensed clinical counselors to provide mental health support.
- Prescription replacement services post-disaster.
- Durable medical equipment provision (eyeglasses, crutches, wheelchairs, etc)
- Access to healthcare providers through partnership with Catholic Health Association (network of 600 hospital and 1,400 long term care and other health facilities around the U.S.)

**Corporation for National and Community Service (CNCS)**
1201 New York Avenue, NW
Washington, DC 20525
Phone: 1-202-606-5000
Email: info@cns.gov
http://www.nationalservice.gov/

We are the **Corporation for National and Community Service**, a federal agency that helps more than 5 million Americans improve the lives of their fellow citizens through service. Working hand in hand with local partners, we tap the ingenuity and can-do spirit of the American people to tackle some of the most pressing challenges facing our nation.

We invest in thousands of nonprofit and faith-based groups that are making a difference across the country. We are AmeriCorps, Senior Corps, the Social Innovation Fund, the Volunteer Generation Fund, and more. We serve, we build, and we make an impact that changes lives and communities.

## Disaster Health Services

During a disaster CNCS can call upon its AmeriCorps, National Civilian Community Corps (NCCC), and Disaster Cadre to help and organize. CNCS provides Organizational Support, distribution of supplies, debris clean up and Mold suppression, Health and Wellness checks, Volunteer Management, Client Management and Tracking, Public Situational Awareness, Support to Emergency Management, Support to VOAD, COADs, and LTRCs, Inter-agency Facilitation, Surge Capacity for Staffing and Support for Emergency Farm and Animal Care.

## Disaster Health Assets

**Individual Assistance**

- ✓ Distribution of Life-Sustaining Supplies
- ✓ Direct Service
  - o Mold Suppression
- ✓ Health and Wellness Checks

**Volunteer and Donations Management**

- ✓ Volunteer Reception Center
  - o Establish and Manage Operations
  - o Database Management (homeowner intake and volunteers)
  - o Track Volunteer Hours
- ✓ Field Leadership for Volunteer Engagement
  - o Deliver training in safety and tasks
  - o Support volunteer housing/logistics
- ✓ Warehousing Support
- ✓ POD and Donations Tracking

**Public Assistance**

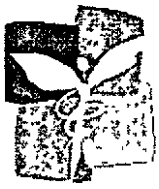
- ✓ Dispatch and Tracking of Donated Equipment

**Community Outreach**

- ✓ Damage and Other Needs Assessment
- ✓ Support to 2-1-1 or Other Call Centers
- ✓ Client Intake and Tracking
- ✓ Public Situational Awareness
  - o GIS Mapping Support
  - o Social Media
  - o Scouting
- ✓ Case Management
- ✓ Support for Multi Agency Resource Centers
- ✓ Transportation
  - o Emergency Transport
  - o Long-Term Moving Support
- ✓ Staffing for Staging Areas and Logistics
- ✓ Canvassing

**Capacity Building**

- ✓ Support to Emergency Management
- ✓ Support to VOAD, COADs, and LTRCs
- ✓ Inter-agency Facilitation
- ✓ Surge Capacity for Staffing
- ✓ Support for Emergency Farm and Animal Care



Direct Relief
Deliver world of good.

**Direct Relief**
27 S. La Patera Lane
Santa Barbara, CA 93117
Phone: 1-800-676-1638/
1-805-964-4767
www.directrelief.org

Founded in 1948, **Direct Relief** is a nonprofit, nonpartisan organization that improves the health and lives of millions of people affected by poverty or emergency situations by mobilizing and providing medical resources needed for their care. Each year, more than 150 of the world's largest medical and pharmaceutical manufacturers join Direct Relief in providing critically needed medical aid to people in need. Direct Relief works in more than 70 countries worldwide, and partners with more than 1,200 safety net health centers and clinics, representing 4,000 clinical sites in every state in the U.S.

Direct Relief provides targeted assistance to help communities prepare for and respond to emergencies. Safety net providers deliver essential healthcare services when a disaster strikes. Direct Relief partners with these facilities by providing specifically requested medications, supplies, and cash grants immediately following a disaster.

**Disaster Health Services**

Direct Relief employs commercial-grade technology for logistics, analytics, and operations to deliver and inform humanitarian aid in the most efficient and effective way possible, utilizing SAP's enterprise technology system.

Emergency response efforts are swift and efficient as a result of extensive partnerships with local, regional, and national associations, pharmaceutical manufacturers, and delivery support from FedEx. Direct Relief is in the unique position to offer appropriate emergency response due to:

- Partnerships with more than 1,200 safety net health centers and clinics across the U.S.
- A network of 150 corporate health care manufactures that donate medicines, supplies, personal care, and over-the counter items
- Years of experience in pharmaceutical distribution and accreditation through the National Association of Boards of Pharmacy

**Disaster Health Assets**

- Expert warehousing and distribution of medical goods
    - Experienced Emergency Response staff who can provide logistics expertise
    - Implementation of sophisticated supply-chain software from SAP allows Direct Relief to run highly efficient inventory management and logistics.
- Current and on-going relationships with 1,200 nonprofit clinics and health centers nationwide, who are often the first receivers in disaster situations. For more details, visit the interactive US Assistance Map.
- Extensive partnerships with local, regional, and national health center & clinic associations, pharmaceutical and healthcare manufacturers, and FedEx
- Through partnerships with analytics and mapping companies Palantir and Esri, Direct Relief integrates a broad range of relevant data for fine-grained profiling of humanitarian medical needs and rapidly evolving crisis situations

- Existing grant system to distribute financial support responders directly affected by a disaster or assisting with their community's local medical emergency response efforts.
- To prepare partners for emergencies, resources are pre-positioned ensuring essential materials are on hand when a disaster occurs. Direct Relief's emergency preparedness programs include:
    - Hurricane Prep Packs – mobile, waterproof packs that contain medical items to treat 100 patients for 3-5 days
    - Medical Outreach Packs – backpacks that contain supplies and equipment that meet a variety of prevalent disaster-related health needs, including infection control, diagnostics, trauma care, and personal protection tools
    - Family Emergency Carte Kits – fully stocked personal care and hygiene items for patients in need

**Headwaters Relief Organization**
9400 Golden Valley Road
Golden Valley, MN 55427
Phone: 1-763-233-7655
www.headwatersrelief.org

**Headwaters Relief Organization** is a non-profit disaster relief organization. It developed as a grassroots response to Hurricane Katrina. Headwaters is comprised of nearly 1400 volunteers who assist with clean-up, re-building, medical and mental health support nationally and internationally. Headwaters has maintained a free mental health resource center since Hurricane Katrina in New Orleans' Ninth Ward. The organization also provides telecounseling services in partnership with several New Orleans non-profits. Since 2010, Headwaters has provided services to schools and orphanages in Haiti. In addition, Headwaters has worked with the educational ministries in both Haiti and the Philippines to develop children's disaster trauma related materials. Headwaters is a VOAD in Minnesota, North Dakota, South Dakota, Iowa, Wisconsin, Utah, Tennessee, Oklahoma, Ohio, Colorado and Louisiana, all states where we have business related interests. Headwaters has responded in multiple states to hurricanes, tornados, flooding, typhoons, both man-made and natural disasters.

**Disaster Health Services**

Headwaters uses medical teams to support their work in response to disaster. They have psychologists, social workers and other mental health professionals trained and available to provide mental health support. They have significant experience working with families and children during times of disaster. They have published books for children in Haiti and the Philippines and for those who have been impacted by Ebola. These educational materials assist children with processing trauma, consider loss as it relates to orphans and teach preventative measures. All of the books are accompanied by a teacher's guide.

**Disaster Health Assets**

- Well trained team of mental health staff
- Telecounseling services
- Multi-disciplinary volunteers who will assist with clean up and re-building as well as mental health support
- Resources with medical teams including physicians and nurses that will deploy with Headwaters
- Volunteers to provide security where needed
- Ability to develop educational materials on a national and international basis
- Partnerships on a national and international basis with government entities, mental health resources, faith-based, community and professional organizations, construction companies, educational institutions and businesses
- Cultural competence including interpreters and translation services.

**Heart to Heart International**
13250 West 98th Street
Lenexa, KS 66215
Phone: 1-913-764-5200
www.hearttoheart.org

**Heart to Heart International** strengthens communities through improving health access, providing humanitarian development and crisis relief worldwide. HHI engages volunteers, collaborates with partners and deploys resources to achieve this mission.

Since its founding in 1992, HHI has shipped more than $1 billion in medicines, medical equipment and supplies to partner organizations working in more than 100 countries, including the United States. When responding to crises, HHI collaborates with partner organizations, governmental entities and corporate donors to rapidly assess and identify needs. Based on identified need, HHI delivers shipments of essential relief supplies and deploys experienced and self-sufficient teams of credentialed health care practitioners, disaster response personnel and logisticians to facilitate the provision of direct patient care. HHI has responded to a variety of recent crises, including Hurricane Katrina, the Joplin and Moore Tornados, Typhoon Haiyan, the Ebola outbreak in West Africa and European Refugee Crisis.

**Disaster Health Services**

- HHI supports partner organizations working in communities throughout the United States with ongoing shipments of medicines, medical equipment and supplies. When responding to crises, HHI works with partner organizations in the affected area, along with relevant governmental agencies and corporate donors, to rapidly assess needs and deliver essential relief supplies.
- The HHI Mobile Medical Unit – an RV equipped with two exam rooms, fully stocked pharmacy and point-of-care laboratory testing – can be deployed for use by partner organizations in crisis affected areas to provide surge capacity or reestablish interrupted health care services.
- HHI can also deploy credentialed health care practitioners to work alongside the staff of partner organizations to provide surge capacity.

**Disaster Health Assets**

- A robust network of credentialed volunteer health care practitioners.
- Highly trained and experienced disaster response personnel and logisticians.
- The HHI Mobile Medical Unit – an RV equipped with two exam rooms, fully stocked pharmacy.
- Point-of-care laboratory.
- Essential medicines, medical equipment and relief supplies, including Personal Hygiene Kits.

**PRESBYTERIAN DISASTER ASSISTANCE**

100 Witherspoon St., Louisville, KY 40202
Phone: 1-800-728-7228 ext. 5839
Email: pda@pcusa.org
www.pda.pcusa.org/

**OUT OF CHAOS, HOPE**

Presbyterian Disaster Assistance

**Presbyterian Disaster Assistance (PDA)** is the emergency program of the Presbyterian Church U.S.A.

- The Presbyterian Disaster Assistance (PDA) National Response Team (NRT) members represent PDA following a disaster in the United States. They provide support, long-term recovery, disaster preparedness training, compassion fatigue training, care for caregivers trainings and emotional and spiritual care at the request of local Presbyterian organizations. In 2014, the NRT assisted with disaster recovery in 23 states to 41 natural and human caused disasters. NRT provided over 69 trainings and workshops throughout the country.
- The Presbyterian Disaster Assistance (PDA) Hospitality Program became a permanent program area in 2012 to provide hospitality to volunteer work teams following disasters. A network of trained hospitality volunteers works to assess hosting sites and help determine the hospitality model that will best match their facility to the recovery coordination. In 2014, there were 35 work team host sites in 9 states. 279 ecumenical and civic work teams worked 1,931 days giving over 267,840 hours of service.
- The PDA National Call Center coordinates PDA-related volunteer hosting sites and prospective volunteer work teams as well as managing distribution of PDA materials located at the Ferncliff Disaster Assistance Center in Little Rock, Arkansas. ((866) 732-6121)

**Disaster Health Services**

- **PDA National Response Team** consists of 100+ volunteer members who are deployed as needed in response to disasters, long term recovery or to provide trainings.

**Disaster Health Assets**

Gift of the Heart Kits (http://pda.pcusa.org/page/kits/) Offer hygiene, baby care, school, or cleanup supplies. More than 114,000 kits were distributed to partner agencies in the U.S. and around the world during 2014.

**Southern Baptist Disaster Relief**
North American Mission Board
4200 North Point Parkway
Alpharetta, Georgia 30022-4176
Phone: 1-770-410-6200
www.baptistrelief.org

The North American Mission Board is the National Coordinating entity for **Southern Baptist Disaster Relief**. *Our network of 44 member organizations across North America respond to disasters world-wide* working with local partners in all 50 states and in countries around the world. More than 70,000 trained volunteers and 1500 mobile units are available to respond to serve individuals and communities. We serve residents and emergency responders by addressing immediate emotional and spiritual care, food, temporary emergency childcare, and property cleanup needs. We work with national partners in areas of mass care (feeding and sheltering), as well as long term recovery issues.

**Disaster Health Services**

While not one of our primary response areas we do have Disaster Health Services assets that respond in disaster. We have teams of medical personnel trained to respond during disasters in CA, KY, NC, MS, OK, SC and VA. These groups participate in exercises and respond within their states in support of their local Emergency Management Agency. Their primary deployments in disaster are overseas to meet the needs of underserved populations. In addition to these teams of health care personnel, we have individuals across our North American network who deploy with responding teams (especially recovery and feeding teams) to provide health care for the team members.

**Disaster Health Assets**

7 Disaster Health Services Teams – (MDs, RNs, EMTs, Pharm. D. and support staff)
Equipment varies, most of our state partners have mobile medical/dental units that are used in underserved communities across their state. These are often available to the disaster response teams. The teams carry supplies and equipment dedicated to disaster response in trailers and set up inside available buildings or in tents.

DOING THE MOST GOOD

**The Salvation Army**
National Headquarters
615 Slaters Lane
Alexandria, VA 22314

The Salvation Army, an international movement, is an evangelical part of the universal Christian church. Founded in London England in 1865, The Salvation Army's authority was formalized in the United States when the organization was incorporated in 1899 as a religious and charitable nonprofit organization. The Salvation Army has a moral and spiritual mandate to provide emergency disaster services (EDS) without discrimination, by meeting the basic human needs of those who have been affected by disasters throughout the United States. The Salvation Army's emergency disaster services program extends from its holistic approach to service - by treating all people as created by God and demonstrating interest in each person. Part of The Salvation Army's mission is to "*...meet human needs in the name of Jesus Christ without discrimination.*" When disasters arise and in the midst of great pain, sorrow, trauma, and loss, The Salvation Army responds not only to the opportunity, but with a clear responsibility to address the physical, emotional, and spiritual needs of hurting people.

**Disaster Health Services:**

- Provides vouchers to replace prescriptions
- Provides in-kind durable medical equipment, when available (crutches, wheelchairs, etc.)
- Provides referrals to health resources in communities

**Disaster Health Assets:**

- The Salvation Army has Emergency Social Services offices in over 1,200 communities and serves low income families with a variety of resources (food, rent, utilities, prescriptions, in-kind durable medical equipment, and in-kind goods) year round. In that role, Salvation Army case-workers/case-managers are familiar with health services in each of their communities and can make referrals to appropriate health care resources during times of disaster response.
- National and local partnerships with faith-based organizations
- Distributes hygiene/comfort kits during disaster response
- Distributes Clean up kits during disaster response and recovery
- Over 500 Canteens available for dispensing essential aid directly to survivors of disasters.

# Flint Water Lead Project

**Michigan Department of Health and Human Services**
**Situation Report for January 11, 2016**

Governor Snyder declares a state of emergency for Genesee County due to the health and safety issues related to lead in city of Flint drinking water.

**The Community Health Emergency Coordination Center (CHECC) is at Level 2 Activation - Elevated Threat/Alert Mode.**

****NOTE: Contains potentially identifiable information- REDACT AS INDICATED****
**New items for the day listed first and in bold print.**

**Daily Briefing and Situation Report** prepared by Linda Dykema

Surveillance Indicators: People Tested 10/1/2015 to 12/18/2015: 2,182;
Children less than 6 years old ≥ 5 µg/dl since 10/1/2015: 23
Children 6 to 17 years old ≥ 5 µg/dl since 10/1/2015: 7
Adults 18 years and older ≥ 5 µg/dl since 10/1/2015: 13
Severity Indicators: Hospitalized/Discharged-1/1; Deaths- 0

**DAILY ACTIVITY SUMMARY**

<u>Elevated Blood Level (EBL) Environmental Investigations</u> – ETC Contractors, Wes Priem, Courtney Wisinski

- EBL report through 1/6/2016
  - **22 families contacted**
  - 14 EBL investigations completed.
  - 14 Water sampling completed.
  - 7 EBL Reports Received.
    - 6 homes with lead dust hazards
    - 3 homes with lead in soil hazards
    - 5 homes with lead-based paint hazards
    - 2 homes with lead detected in tap water
      - 0 homes with lead water levels >5 ppb
      - 0 homes with lead water levels >15 ppb
  - **6 investigations scheduled.**
  - 5 applications received for the Lead Safe Homes Program, 1 family enrolled.

<u>MDHHS/Genesee County Health Department (GCHD) Case Management (CM) Services</u> – Nancy Peeler

- Families that have moved to other counties
  - GCHD forwarded a list of 40 families they were unable to contact: CLPPP staff identified updated contact information for 39 of the 40 families and forwarded that information to GCHD on 1/5/16.
  - GCHD is utilizing the updated information. They have already identified a family that has relocated to Ingham County, and another that relocated to Florida. Nancy has reached out to Mark Miller to initiate contact with Ingham for follow-up with that family.
- *CM report through 12/31/15:*
  - # of contacts attempted: 186 (0-5 year olds) and 12 (6-17 year olds)
  - # offered CM: 109 (0-5 year olds) and 6 (6-17 year olds)
  - # CM started: 25 (0-5 year olds) and 2 (6-17 year olds)
  - # of children receiving CM who live in Flint: 25 (0-5 year olds) and 2 (6-17 year olds)
  - # billed to Medicaid: 14 (0-5 year olds) and 1 (6-17 year olds)

- # other disposition: 23 (0-5 year olds) and 1 (6-17 year olds)

Epidemiology/Surveillance – Corinne Miller, Patti McKane, Martha Stanbury, Bob Scott, Jessica Cooper

- **Dr. Hanna-Attisha provided the first set of requested data as approved by MDHHS IRB.**
- **Blood testing data through 12/8/2016 pulled from the warehouse: report pending.**
- The data specifications and metrics were developed for a report to measure blood lead testing of children in Flint who are enrolled in Medicaid. The preliminary report will be reviewed week of 1/11/15.
- Additional Zip code-specific blood lead data on children in Flint was provided in response to a request from the MDHHS Director.
- Pending: hiring 2 epidemiologists to provide BLL surveillance support.

Filter & Water Distribution Sheryl Thompson

| Filter Distribution 10/1/15 to 1/6/15 | | | |
|---|---|---|---|
| | Received | Distributed | Remaining |
| Water Filters | 15,000 | 11,587 | 3,413 |
| Water Pitchers | 720 | 251 | 469 |
| Replacement Cartridges - Brita | 9,000 | 1,704 | 7,296 |
| Replacement Cartridges – PUR* | 5,706 | 33 | 5,603 |
| Replacement Cartridges - Zero | 375 | 8 | 367 |

*The PUR replacement cartridges are being made available in all locations for the convenience of residents. Once the PUR cartridges are exhausted and more are needed DHHS will purchase additional ones. The current supply was given to DHHS and GCCARD by United Way.

Communications/Information Sharing – Linda Dykema, Eden Wells

- No updates.

Health Education Resources Updates - Michelle Bruneau, Emily Houk

- *Continuing to write and coordinate additions to the EBL Case Manager Binder, now known as the* MDHHS Lead Safe Family Guide Book. (MB)
- Began work on filter cartridge changing fact sheet; clarifying uses of filtered/vs unfiltered water (MB)

Toxicology - Kory Groetsch, Lisa Quiggle, Jennifer Gray

- Working on method(s) to convert lead dust wipe sample results into an intake metric compatible with the IEUBK model.
- Working on Child EBL Access database, which will be used to ensure that each child/family is offered all available SOM services and activities related to EBL cases.

WIC

- No updates.

Healthcare/Providers

- No updates

DEQ Information - Linda Dykema as Liaison

- No updates

| Provide for temporary emergency housing |
| Seek assistance from federal government |

| |
|---|
| Coordinate with USDA in assessment of damage and impact to agricultural resources and enterprises |
| Prepare Governor's request for USDA Agricultural Disaster Designation |
| Coordinate with federal authorities in administering federal assistance related to agricultural damage, farmers and food enterprises |
| Monitor and report damage and impacts to critical private sector facilities, infrastructure, and systems |
| Assist in food procurement, safety and sanitation, and identification / establishment of warehousing and feeding facilities |

| |
|---|
| Assist in post-incident wildlife care services |
| Issue agricultural advisories and protective action guides |
| Coordinate post-incident animal control and care services |
| Provide technical assistance to prevent and mitigate vegetative damage |
| Assist with assessment, repair and restoration of damaged inter-county drains |
| Assist with / coordinate animal care and animal health in shelters |
| Coordinate agricultural crop / livestock debris disposal and management |
| Provide technical assistance to prevent and mitigate spread of disease and disease impacts on plants, livestock, humans, and environment |
| Coordinate and conduct monitoring, sampling, inspection and regulatory services to protect human and animal food supplies and agricultural environment |
| Coordinate with USDA/FSA on impacts to farms and agricultural production |
| Coordinate / provide guidance to food establishments on food safety and resumption of business |
| Provide legal assistance to state officials |
| Monitor and investigate incidents of price gouging associated with a shortage |
| **Recovery Task**<br>**(Tasks not in any particular order for implementation purposes, and not necessarily phrased exactly as the actual plan task assignment)** |
| Ensure equal access to disaster-related services |
| Monitor and advocate for recovery needs of individuals with disabilities |
| No identified recovery tasks |
| Coordinate allocation of medications essential to public health |
| Coordinate investigation and control of communicable disease |
| Monitor and report damage to critical private sector facilities, infrastructure, and systems |
| Provide technical assistance in coordination of emergency medical services |
| Issue health advisories and protective action guides to public |
| Coordinate victim identification and mass fatality management services |
| Coordinate mental health needs assessment |
| Coordinate crisis counseling services with CMHSPs |
| Protect patients, staff and visitors in state in-patient mental health facilities |
| Coordinate assessment, repair and restoration of damaged state mental health facilities |
| Facilitate deployment of volunteer health professionals for emergency response |
| Identify volunteer opportunities for emergent volunteers |

| |
|---|
| Conduct needs assessment of, and coordinate / monitor provision of assistance to, elderly disaster victims |
| Assist in identifying available housing resources |
| Identify and coordinate volunteer resources for recovery operations |
| Provide resources to support emergency operations |
| Provide assistance to local jails requiring evacuation |
| Support law enforcement activities |
| Coordinate assessment, repair and restoration of damaged state correctional facilities |
| Assess damage to and impact on public schools |
| Coordinate public school facility and operations restoration |
| **Recovery Task**<br>**(Tasks not in any particular order for implementation purposes, and not necessarily phrased exactly as the actual plan task assignment)** |
| Coordinate assessment, repair and restoration of damaged dams, water supply systems, and wastewater collection / treatment systems |
| Coordinate assessment, repair and restoration of damaged oil and gas wells or pipelines (gathering lines) |
| Solicit applications for Drinking Water and State Revolving Funds |
| Coordinate procurement of additional drinking water supplies |
| Support law enforcement activities |
| Monitor and report damage and impacts to critical private sector facilities, infrastructure, and systems |
| Provide debris management technical and operational assistance |
| Minimize risks from radiological exposure |
| Minimize environmental damage and contamination |
| Provide monitoring, sampling and analysis services |
| Request federal hazardous material recovery assistance |
| Provide technical assistance to federal recovery programs |
| Coordinate an individual assistance needs assessment |
| Identify individuals / families requiring assistance under State Emergency Relief Program |
| Identify individuals / families in need of crisis counseling assistance |
| Assist in identifying available housing resources |
| Implement Michigan Disaster Donations Management Plan |
| Implement and administer Disaster Food Stamp Program |
| Coordinate and monitor provision of human services to disaster victims |
| Provide vocational rehabilitation services |
| Coordinate with ARC to assist in family reunification |
| Monitor provision of assistance to clients |
| Provide liaison to federal IHP |
| Coordinate assessment, repair and restoration of damaged state training / rehabilitation facilities, and the MCTI |

| Identify volunteer opportunities for emergent volunteers |
| --- |
| Identify / coordinate volunteer resources for recovery operations |
| **Recovery Task**<br>**(Tasks not in any particular order for implementation purposes, and not necessarily phrased exactly as the actual plan task assignment)** |
| Provide insurance information to disaster victims |
| Implement appropriate economic stabilization measures |
| Communicate restoration priorities to electrical service providers |
| Coordinate assessment, repair and restoration of damaged energy and telecommunications infrastructure |
| Coordinate assessment, repair and restoration of damaged petroleum and natural gas pipelines |
| Monitor and report damage and impacts to critical private sector facilities, infrastructure, and systems |
| Monitor provision of assistance to functional needs clients |
| Provide unemployment assistance to disaster victims |
| Coordinate establishment of group manufactured home sites for temporary housing |
| Provide rehabilitation services for the blind |
| Provide licensing information to disaster victims |
| Conduct workplace safety inspections and protect emergency response workers |
| Coordinate and monitor local fire service mutual aid assistance |
| Implement appropriate economic stabilization measures |
| Coordinate State of Energy Emergency declaration |
| Coordinate / provide military support to civil authorities |
| Coordinate assessment, repair and restoration of damaged state military facilities |
| Identify potentially eligible applicants for emergency grants for veterans |
| Provide emergency grants for veterans |
| Coordinate assessment, repair and restoration of damaged state parks, state recreation areas, and other state recreation lands |
| Provide supplemental transportation and equipment resources |
| Support law enforcement activities |
| Provide debris management technical and operational assistance |
| Coordinate forest and wildlife debris disposal and management operations |
| Coordinate post-incident wildlife care services. |
| Provide maps / enhanced mapping capability for state emergency operations |
| Provide technical assistance to mitigate and prevent tree damage |

| |
|---|
| Provide technical assistance to prevent and mitigate impacts of disease on forests and wildlife |
| **Recovery Task**<br>**(Tasks not in any particular order for implementation purposes, and not necessarily phrased exactly as the actual plan task assignment)** |
| Provide branch office facilities for Disaster Recovery Centers |
| Provide specialized resources to support emergency operations |
| Provide photographic documentation of damage |
| Implement Michigan Emergency Highway Traffic Regulation Plan |
| Provide critical incident aftermath services for disaster responders |
| Coordinate assessment, repair and restoration of damaged state facilities |
| Coordinate state department COOP implementation |
| Coordinate use of state facilities and equipment to support emergency operations |
| Provide information on state-contracted supplies and services |
| Coordinate requests for supplemental office space to support emergency operations |
| Review and submit special appropriations requests to Legislature |
| Provide technical assistance to support IT aspects of state emergency operations |
| Assist in procurement of additional drinking water supplies |
| Coordinate decontamination of state facilities |
| Coordinate and implement an appropriate response / recovery strategy for cyber attacks |
| Activate State's donations management web site |
| Through OSE, provide post-incident counseling to affected state employees |
| Assess damage and impact of failed transportation infrastructure and accidents |
| Maintain, repair and restore state highway / trunkline system |
| Maintain, repair and restore state-owned rail lines |
| Provide photographic documentation of emergency / disaster damage |
| Monitor and report damage and impacts to critical private sector facilities, infrastructure, and systems |
| Coordinate FHWA Emergency Relief Program |
| Provide technical assistance to FEMA PAGP and HMGP |
| Coordinate with USDOT for transportation response activities |
| Provide state highway / trunkline traffic control measures, evacuation routing, and access control and perimeter points |
| Implement Michigan Emergency Highway Traffic Regulation Plan |
| Provide funding for transportation system development and maintenance |
| **Recovery Task**<br>**(Tasks not in any particular order for implementation purposes, and not necessarily phrased exactly as the actual plan task assignment)** |

| |
|---|
| Provide tax assistance to disaster victims |
| Provide immediate and long-term economic development and recovery assistance |
| Provide temporary housing assistance for functional needs populations |
| Provide information on damaged tourist destinations |
| Provide job training assistance to disaster victims |
| Assist in identifying historical, archaeological and cultural features in disaster areas |
| Coordinate grants for restoration of damaged historic properties and sites |
| Provide housing assistance to low / moderate income disaster victims |
| Assist in identifying and procuring additional temporary housing |
| *Expedite judicial proceedings to facilitate emergency operations* |
| Coordinate COG activities within branch to facilitate recovery |
| Expedite legislative proceedings to facilitate emergency operations |
| Coordinate COG activities within branch to facilitate recovery |
| Provide trained disaster services personnel |
| Establish and operate mass care shelters and feeding facilities for disaster victims |
| Provide mass care guidance to MDHS, support departments / agencies and NGOs |
| Support management / coordination of sheltering, feeding, supplemental disaster health services, and bulk distribution of emergency relief items |
| Support reunification efforts |
| Provide emergency relief supplies to those in need |
| Provide supplemental support to individuals and families |
| Report cyber attacks to MDTMB and take appropriate response actions |

# Brainstorm Ideas for Possible VOAD/NGO Support in Flint Water Contamination 1/06/16 Version

The MSP/EMHSD planners asked the Red Cross [ARC] to brainstorm and come up with possible ways in which MI-VOAD, the Red Cross and other NGOs might be able to assist in the response and recovery phases of the Flint Water Contamination When reviewing the ideas which follow, please keep in mind these considerations:

1. We cannot speak for MI-VOAD and recommend that MI-VOAD be convened so that the members can be briefed and discuss these ideas.
2 NGOs seek funding to implement programs which align with their missions. None of them are funded to conduct recovery efforts for the Flint Water Contamination and would likely need financial support to do so.
3. These ideas are not task assignments or commitments.

POSSIBLE NGO SUPPORT ACTIVITIES

a) NGOs can help educate Flint residents about water filters and ways to mitigate lead exposure in children through nutrition and early childhood education. (Leveraging the Red Cross' Home Fire Prevention Campaign, ARC volunteers could provide education materials, water filters and replacement cartridges when they visit homes to install smoke alarms. Discussions are currently underway to do this.)

b) The ways in which educational information is disseminated may provide an opportunity to rebuild trust in government If those efforts engage trusted organizations such as faith-based groups and the Red Cross, the positive perceptions may be extended to government.

c) NGOs' places of business could be used as points of distribution for water and filters. In addition to space, the NGOs may be able to provide people to staff them. Perhaps some NGOs could provide the water and filters, but not all. Such arrangements would need to be time limited.

d) Some NGOs can provide language interpretation and translation for those residents who need it and for translation of educational materials.

e) In Flint, Child Care Network trains providers of early childhood education.

f) Some Flint residents affected by the water contamination may benefit from crisis counseling. People who work on the recovery (agency staff and volunteers) may also. There are NGOs which provide such counseling.

g) Some homes contain lead pipes, faucets or related infrastructure. Perhaps some NGOs (Habitat for Humanity?) could install new ones. However, this may require specific licenses or permits.

h) If it's determined that food will be distributed to improve nutrition, NGOs may be able to assist.

i) There may be NGO services available directly to those children who evidence disabilities as a result of lead exposure.

j) There are local agencies which have been and continue to address the needs of Flint residents. Because the recovery may be long term, the capacity of these agencies may be taxed. It's possible that NGOs could support them by providing workers (staff and/or volunteers) to help, depending on their needs (including answering phone calls and responding to email.)

k) Some of the MI-VOAD member agencies may be able to act as liaisons with local government and non-profit agencies.

Carol,

I talked with Tom and I am ok with the schedule but please have them also list me along with Tom in the VAL section on days I am not in the SEOC as planning.

Thanks,

Zach Baker, PEM

This is okay, just make sure to leave yourself enough time for appeal writing etc.

Also, have them list you with me as VAL on the days you aren't at the planning section.

Tom,

Does me being in the SEOC on the below work with the VAL schedule? The meetings I know you want me to attend with you are Tuesday and Thursday but I was not sure about any others.

Let me know,

Zach

**Subject:** instruction

Hello –

I was just reviewing the instruction sheets on Sit Rep preparation, and item 2.d. includes the phrase "check with the representative and work the report updated prior to continuing in the Sit Rep Builder...."

My guess, from doing this before, is that this means to check with each representative of any agencies who had not yet submitted their agency sit rep through MI CIMS, and encourage them in person to send their updated agency sit reps. Does this sound correct?
(If so, a change could read "check with the representatives for each missing agency and work to get their reports updated prior to continuing...")

Thanks,

Zach, if this fits: MDE is also responsible for the administration of USDA Child Nutrition programs. As a result MDE is coordinating wild child nutrition providers both to ensure that they use proper preparation techniques, and we are also involved with nutritional guidance/education.

All-please give me an old business card with your telephone number crossed off and write your new office phone number. Also, include your cell phone number if you have one.

If you don't have business cards, but would like some just email me the name you want printed on them and your office number (& cell phone).

I need this information by COB 2/12/16.

Let me know if you have any questions.

Joyce

**Sent:** Monday, February 08, 2016 4:43 PM
**To:** Hampton, Jacqueline (MSP)
**Subject:** RE: Business Cards

We need to decide if we are going to use both addresses or only the PO Box. There is also a new template for the card which is in Official Correspondence. Please make sure we comply with the new standard business card, and whatever decision we make regarding the way the address should appear on the card, should be fairly consistent (wherever possible).

If we use both addresses, it will move the address line up one space. Doesn't sound like a big deal. Let me know what you plan on doing so that we can have everyone do it the same way.

**Subject:** RE: SEOC Availablity

Hello –
I am available all day on Monday the 15th (holiday),
only in the morning of Tuesday the 16th,
available all day on Wednesday the 17th,
I have a couple of limited scheduling conflicts before and after lunch on Thursday the 18th,
Available all day on Friday the 19th,
Only starting in mid-afternoon on Saturday the 20th,
Available all day on Sunday the 21st (if my hours in the previous week haven't been excessive)
Only in the morning of Monday the 22nd,
Only in the morning of Tuesday the 23rd,
All day on Wednesday the 24th,
All day on Thursday the 25th,
I have one limited scheduling conflict in the early afternoon on Friday the 26th,
I project being available starting in mid-afternoon on Saturday the 27th,
Available all day on Sunday the 28th (if my hours in the previous week haven't been excessive),
Available all day on Monday the 29th.

SPECIAL NOTE: This assumes that the SEOC is not staying open overnight. I'm usually falling asleep around 11am and will not be able to readily adjust this pattern. If SEOC shifts are still running for 12 hours, then I should probably alternate days on with days off. In my opinion, splitting a shift so that it's normal length or less (e.g. 6 or 8 hours) works best for quality of work, energy, accuracy, etc. If staff is not available to split a 12-hour SEOC period into two 6-hour shifts, then some sort of flex time could also make SEOC duties more sustainable, such as 4 hours starting in the morning and then 4 hours toward the end of the day, with a break in between for personal maintenance and getting other things done, with those shifts timed to include key meetings and report deadlines.

Thanks,
Mike

**Subject:** time sheet

Please remember to submit your time sheet today.

Also, do you want my dual monitors? They are too big for my office. There's probably 10 dtmb forms to make it happen, but if you want them, we'll work on a swap.

Bullet Points on Long Term Distribution Course of Action

Scope

- Direct delivery of filters, cartridges, and pitchers.
- DTMB will go through process to secure contractor for direct deliveries.
- Full Service PODs for water resources and recycling.
- Designated officials will coordinate pickup for franchise customers.

Assumption

- Faith and community based members are not involved directly but may supplement through community based distribution centers.

Strengths

- Tracking and protection of personally identifiable information is the contractors responsibility.
- Places tracking and accounting aspects in the hands of the contractor.
- Provides a convenient and citizen centric solution.
- Allows a phased approach transition to community pods for water distribution.

Weaknesses

- Increases the cost of the response at least initially.
- Burn rates and other data will not be readily available.
- Requires an MOU for he PODs.
- Increased possibility for retail fraud.
- Initial setup time will be more extensive.

(304) 558-2000

EARL RAY TOMBLIN
GOVERNOR

March 11, 2014

Ms. Elizabeth A. Zimmerman
Deputy Associate Administrator
Office of Response and Recovery
Federal Emergency Management Agency
U.S. Department of Homeland Security
500 C Street, SE
Washington, D. C. 20472

Through: Ms. MaryAnn Tierney
Regional Administrator
FEMA Region III
One Independence Mall, Sixth Floor
615 Chestnut Street
Philadelphia, PA, 19106-0444

Dear Ms. Zimmerman:

I write to appeal your February 10, 2014 denial of my request that the emergency declaration FEMA-3366-EM be modified to provide federal assistance for emergency protective measures for the nine counties affected by the January 9, 2014 chemical spill. Respectfully, I disagree with the determination that the event was not of such severity and magnitude to warrant further public assistance for the reasons expressed herein. The chemical spill which affected the water supply of 300,000 customers was unprecedented, and received national and international attention. The threats to health and safety were immediate, and the impact of the spill has been continuous.

The President of the United States recognized the significance of this event when he granted my request for an emergency declaration. Federal Emergency Management Agency (FEMA) officials designated the type of assistance granted to us as Public Assistance Category B, "Emergency Protective Measures," limited to direct federal assistance. No one could foresee the far reaching impact of this event that first night when I requested, in consultation with FEMA officials, supplemental assistance to combat the crisis.

In the days and weeks following this event of national significance, we responded in true partnership. At my request, FEMA supplied water and food to be distributed and delivered to citizens in need by state and local agencies, as well as volunteers. Communities came together, especially the Voluntary Organizations Active in Disasters, to quickly and generously respond with donations of water, food, other resources, and time.

As the urgency of the situation eased, it became clear certain ongoing aspects of the emergency would continue to demand public assistance. The state and local agencies, including the affected counties and the West Virginia Department of Environmental Protection continue to incur costs. The Centers for Disease Control (CDC) issued statements regarding safe levels of the chemicals involved in the spill, and tests were necessary to ensure the water was meeting those standards. Even after flushing procedures were implemented, there were surges in chemical presence in various areas, requiring more testing. Because of the strong odor of the chemical, the water was objectionable long after the spill was contained. Accordingly, testing continued, and still continues, at significant expense to the state and local agencies. This testing was necessary to lessen the immediate threats to public health and safety posed by the mass exposure to a relatively unknown chemical. Additionally, I approved the engagement of independent environmental consultants to confirm the health screening standards of the chemical, and to develop a home testing protocol to account for adverse variables in homes that could increase harmful effects of the chemical. The CDC provided useful guidance on the safe levels of the chemical, and the public requires assurance that these levels are being met. Thorough information about the consequences of the spill in home water systems is essential to addressing this threat. Finally, I ordered the demolition of the facility that stored the chemicals involved in the spill, which is necessary to reduce the likelihood of the chemical leaching into the river. This is an expensive and precise process in light of the environmental concerns associated with hazardous sites.

I strongly urge you to reconsider your denial of the continuance of West Virginia's partnership with FEMA on this disaster. The expenses incurred by the state and local agencies after federal assistance ended were necessary and responsible. Since the attack of September 11, 2001, the protection of our country's water supply has been an issue of targeted concern and national discussion. Our ongoing response to the spill, continuous studies, and test results will serve as future guidance not only for exposure to the specific chemicals involved in the spill, but for any water system contamination in the nation. The work we are funding will fill a void in the scientific and public health knowledge base with much-needed information. West Virginia and its subdivisions lack the resources to cover 100 percent of the costs expended to eliminate the threats to public safety caused by the chemical spill. Collecting costs from the company responsible for the spill is unlikely, considering the company's bankruptcy posture.

The results of our evaluation of the direct and indirect costs of this event are attached. These costs are documented, and we have attempted to be conservative in our estimates regarding eligible reimbursement costs under Category B of the Public Assistance program. At this time, estimated losses to the economy of the affected counties are estimated at $61,000,000. The total economic impact will likely be greater.

- The sectors of the economy primarily affected included restaurant and hotel businesses that were forced to close until alternate sources of potable water could be provided. Many employees of these businesses earn low wages, and, in the case of restaurant servers, depend on tips to make a living wage. In an effort to support those who lost income due to this event, the United Way collected and distributed over $112,000 in assistance to more than 600 families to help them pay utility bills they could not otherwise pay.

- Businesses that temporarily closed due to the lack of potable water showed remarkable determination to reopen as soon as possible, and incurred additional costs in order to meet the standards set by health officials to reopen using alternate sources of water. To this day many businesses, especially those serving food, are incurring additional costs to provide assurance to their customers that no tap water is being used in the food preparation or cleansing of the silverware, plates or glasses. The losses were severe enough to warrant a Small Business Administration Economic Injury Disaster Loan Program for the affected area, but this support traditionally covers only a small portion of the total business losses in a disaster.

- *Hospitals and medical facilities had to cancel elective and non-emergency services.* Nursing homes and other long-term care facilities had to develop alternatives to caring for their patients, and local health departments were faced with a considerable increase in responsibilities and workload.

- The education community was also impacted by the water outage. While this unusually harsh winter caused students to miss several instructional days, this event has caused schools in the affected areas to close for no less than a week, and in some cases, longer. Kanawha County and Putnam County estimate they have lost over $5,500,000 in instructional time because of the water outage.

The response to this disaster was a community effort. With your supplemental assistance we responded, and continue to respond to each new aspect of the event as it arises.

The attached "EM-3366 – Category B Assessment – as of 3/7/14" was developed with guidance from experienced FEMA Public Assistance staff who scrutinized the data provided by state and local agencies to determine costs eligible for Stafford Act Public Assistance. Their conclusions are based on a much more careful analysis of the provided information than is normally done during the Preliminary Damage Assessment process, and the figures may be exceeded when actual Project Worksheets are developed. Their estimate of more than $1,500,000 in probable eligible Public Assistance costs plus the over $5,000,000 cost of the direct federal assistance means that the Category B expenditures in our joint response to this Event of National Significance were over $6,500,000. This is more than double our Public Assistance impact indicator for a Major Disaster Declaration of $2,575,661.66.

The financial impact of this event is significant and widespread. The estimated $61,000,000 economic loss noted above added to the total impact noted on the attachment exceeds $72,000,000. This figure does not include our ongoing study, on which we will spend over $700,000, and the continued response

to this event. It also does not include the donations to United Way noted above which add another $112,000 to the total. The total estimated costs and losses are equal to a $240 per capita impact on the 300,000 people directly affected by the crisis.

I understand your agency's original decision to limit the Public Assistance Category B to direct federal assistance. However, as subsequent events have demonstrated, this was a true emergency that demanded the best efforts of the entire community to protect public health and safety. The key role of state and local agencies in our response is essentially ignored unless they are able to be reimbursed for their part in responding to this crisis.

Thank you for your consideration and your attention to this matter. Any questions regarding this appeal or requests for additional documentation should be directed to Mr. James J. Gianato whom I have appointed as State Coordinating Officer for this disaster recovery operation.

Sincerely,

Earl Ray Tomblin
Governor

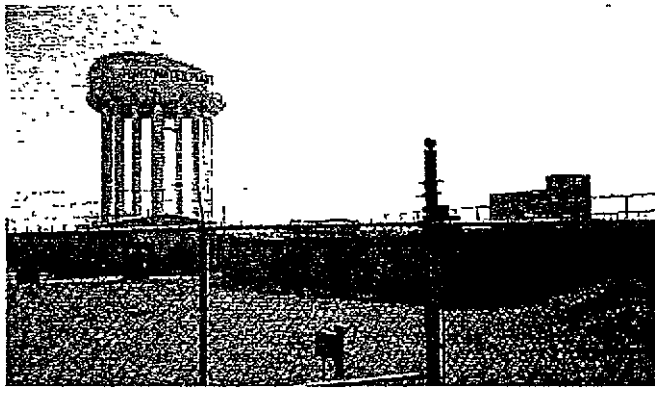
# Incident Action Plan



4. Prepared by: Tom Weber Date / Time: 01/07/2016 07:58:32

Incident

**1. Incident name: 2015-10-01 Flint Water**

**2. Operational Period from: 01/06/2016 08:00:00to: 01/08/2016 17:00:00**

## 3. Objective(s)

13. Establish and disseminate cost center information for the incident.
12. Monitor MI CIMS for resource requests and address as appropriate.
11. Establish a Joint Information Center and develop a public information strategy.
10. Provide technical assistance and facilitate the local Damage Assessment process.
9. Facilitate and coordinate technical assistance among state agencies and to local agencies.
8. Coordinate response and recovery activities and identify mission areas with MIVOAD.
7. Identify critical resources for acquisition and allocation.
6 Develop a comprehensive GIS strategy.
5. Investigate and identify available programs for assistance with direct or related impacts.
4. Establish operational period and hours of operations.
1. Activate the State Recovery Task Force
2. Ensure coordination between the City of Flint, Genesee County, state and federal agencies, and appropriate subject matter experts.
3. Obtain and maintain situational awareness and common operating picture of all activities.

## 4. Operational Period Command Emphasis:

1. Provide regular local and technical briefings
2 Identify life safety issues.
3 Identify priorities.
4 Provide policy direction by observance of SEOC SOPs.
5 Seek technical guidance from relevant federal agencies.
6. Provide regular legislative/congressional briefings.

## General Situational Awareness:

By early May 2014, the City of Flint switched from the Detroit Water and Sewerage Department (DWSD) to water from its own water treatment plant drawn from the Flint River as its primary water source. The different characteristics of the water resulted in leaching of lead from lead pipes in the city's water infrastructure into the water supply. Increased exposure to lead can cause immediate negative health effects. However, the main health concerns are long-term effects in children such as developmental and cognitive delays, and behavioral disorders. Increased water lead levels and elevated blood lead levels in young children were observed in the City of Flint and confirmed by the State Chief Medical Officer

On October 1, 2015 the Genesee County Health Department declared a Public Health Emergency due to the elevated blood lead levels in citizens. In response to this the City of Flint declared a local State of Emergency on December 15, 2015 and activated their Emergency Operations Center.

To mitigate the effects of the new source of water on the infrastructure in the City of Flint, the city switched back to DWSD water on October 16, 2015. Funding to reconnect to DWSD was provided from the City of Flint, the Charles Stewart Mott Foundation, and the State of Michigan. Water is now treated with a supplemental phosphate addition to rebuild the protective layer in the distribution system and reduce the leaching of lead into the water supply.

## 5. Site Safety Plan Required?

Yes ☐ No ☑

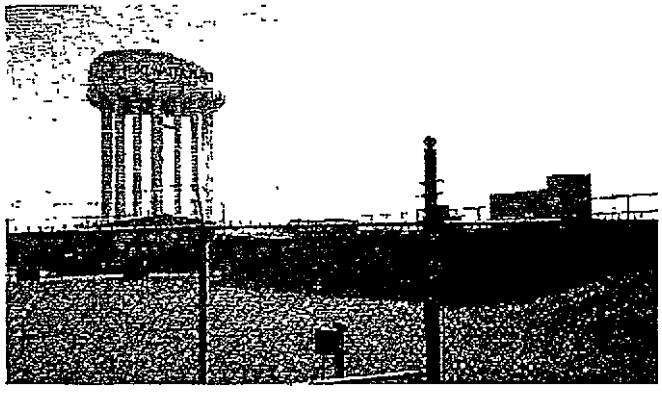
# Incident Action Plan



4. Prepared by: Zachary Baker Date / Time: 01/10/2016 12:32.16

Incident

**1. Incident name: 2015-10-01 City of Flint-Water Contamination/Shortage**
**2. Operational Period from: 01/11/2016 08:00:00to: 01/13/2016 08:00:00**

## 3. Objective(s)

1. Ensure all households within impacted community have required resources
2. Ensure accurate tracking and accounting of all commodities.
3. Improve and maintain public information strategy.
4. Develop a long term public health and services plan.
5. Ensure adequate staffing to support operational requirements.
6. Identify possible assistance programs.
7. Develop an approved GIS strategy.
8. Maintain coordination between partner agencies and organizations.
9. Enhance situational awareness and common operating picture of all activities
10. Develop a comprehensive Recovery Plan.

## 4. Operational Period Command Emphasis:

1. Provide regular local and technical briefings
2. Identify life safety issues.
3. Identify priorities
4. Provide policy direction by observance of SEOC SOPs.
5. Seek technical guidance from relevant federal agencies.
6. Provide regular legislative/congressional briefings.

## General Situational Awareness:

By early May 2014, the City of Flint switched from the Detroit Water and Sewerage Department (DWSD) to water from its own water treatment plant drawn from the Flint River as its primary water source. The different characteristics of the water resulted in leaching of lead from lead pipes in the city's water infrastructure into the water supply. Increased exposure to lead can cause immediate negative health effects. However, the main health concerns are long-term effects in children such as developmental and cognitive delays, and behavioral disorders. Increased water lead levels and elevated blood lead levels in young children were observed in the City of Flint and confirmed by the State Chief Medical Officer

On October 1, 2015 the Genesee County Health Department declared a Public Health Emergency due to the elevated blood lead levels in citizens. In response to this the City of Flint declared a local State of Emergency on December 15, 2015 and activated their Emergency Operations Center

To mitigate the effects of the new source of water on the infrastructure in the City of Flint, the city switched back to DWSD water on October 16, 2015. Funding to reconnect to DWSD was provided from the City of Flint, the Charles Stewart Mott Foundation, and the State of Michigan. Water is now treated with a supplemental phosphate addition to rebuild the protective layer in the distribution system and reduce the leaching of lead into the water supply.

For the mitigation of negative health effects, over 24,000 water filters and replacement cartridges have been distributed to residents in the City of Flint. Approximately 13,000 water filters, water pitchers and replacement cartridges were distributed by the Michigan Department of Health and Human Services (MDHHS) in the timeframe of October 1 to December 31, 2015 alone.

MDHHS has increased surveillance of blood lead levels in children and is addressing water issues in environmental investigations to identify lead sources in the environment of affected children and provide health education and information to residents, health care providers, and daycare/educational institutions.

Local nonprofit organizations have provided potable water to Flint residents MSP/EMHSD GIS staff is supporting county and local GIS staff by consolidating data from local sources into comprehensive databases and providing mapping services to support incident analysis and forecasting. Data and maps regarding the location of water pipes, affected schools, filter distribution locations, water monitoring results, and predictive blood lead levels for affected areas will be made available with demographics.
Before December 16, 2015, $9.35 million was provided by the State of Michigan and $6 million by local agencies and nonprofit partners to manage the effects of the corroded pipes. While the source water has been switched back to DWSD, water in the City of Flint is still not safe to drink, unless specifically filtered.

## 5. Site Safety Plan Required?

Yes ☐ No ☑

**Approved Site Safety Plan(s) Located at:**

## 6. Incident Action Plan (the items checked below are included in this Incident Action Plan):

# SAFETY MESSAGE/PLAN (ICS 208)

| 1. Incident Name: | 2. Operational Period: | Date From: 01/11/2016 | Date To: 01/13/2016 |
|---|---|---|---|
| City of Flint - 2015-10-01-City of Flint-Water Contamination / Shortage GC EOC | | Time From: 08:00:00 | Time To: 08 00:00 |

**3. Safety Message/Expanded Safety Message, Safety Plan, Site Safety Plan:**

All personnel should be aware of personal safety risks in the community. A daily safety briefing will be conducted by MSP prior to morning departure from the GCCARD for delivery operations. Door to door operations in the community will be accompanied with law enforcement escort.

Exposure to sub freezing temperatures and strong winds can lead to cold exposure and hypothermia. Wear appropriate winter clothing to cover exposed skin to mitigate against the affects of cold exposure. Wear appropriate footwear and ensure solid footing to mitigate against slip, trip, and fall hazards related to snow and ice covered ground surfaces.

Current conditions on major expressways (I-69 I-475) and city streets is poor, with slush expected to re-freeze with low overnight temperatures on 01/10. As of 01/10 at 1700 HRS, most city side streets and sidewalks have not been cleared, making for difficult travel.

When driving in poor weather conditions keep a safe distance between your vehicle and the vehicle in front of you. Allow extra stopping distance as the roads may be snow covered and icy Ensure your vehicle contains an ice scraper, extra windshield wiper fluid, and an emergency road kit.

Specific to Fire Station #6 (716 W. Pierson Road) Firefighters at the station have advised that should there be a call, they have concerns for the safety of the volunteers without their presence. Genesee County Sheriff and Dispatch are aware of the situation, and should there be a fire call for station 6, a marked police unit would be pulled to have a presence at the station until firefighters returned.

**4. Site Safety Plan Required?** Yes ☐ No ☑

**6. Work Assignments:**

Objective 1: Ensure all households within impacted community have required resources.

Critical Task: To coordinate resource gathering and volunteer/donations management process for the incident with the local POCs.

Tactics:
Procure water, filters, and cartridges per resource requests and deliver to staging location (MDHHS)
Provide personnel support to boots on the ground effort. (MDHHS)
Ensure volunteers report to support the fire dept. distribution sites. (Red Cross)
Continue outreach to ALL school systems providing approved health information and that they have adequate water supplies. (MDE)
Maintain awareness of projects and material going out, ensuring we are caring for all including those who may have communication or logistic barriers (MDCR & AAA)

**7. Special Instructions:**

| | | | | |

**6. Work Assignments:**

Objective1: Ensure all households within impacted community have required resources

Critical Task: Coordinate, conduct, and analyze water testing

Task:
MDARD Pick up 500 water sampling test kits 1/11/16
Ship 1000 water sampling test kits to Flint 1/11/16, transported by DTMB transporting (pick up at 1200)
Order additional 3000 water sampling test kits and ship them directly to Flint 1/11/16
Identified potential contract issues.
Continue working with DTMB ensure contingencies are in place if needed
2500 water samples taken and analyzed from schools so far.
750 water samples not from the schools, analyzed at lab to date.

**7. Special Instructions:**

Kirby Shane (DEQ) to contact test kit vendor tomorrow morning Contract issues will be identified then.

**8. Communications** (radio and/or phone contact numbers needed for this assignment):

**6. Work Assignments:**

Objectives 1: Ensure all households within impacted community have required resources.

Critical Task: Identify, staff, and maintain a local warehouse.

Task (ex.):
1. Locate facility large enough to hold a large amount of supplies to keep distribution sites stocked. 100,000 sq. ft. or more.
2. Location must be in the city of Flint and close in proximity to distribution sites.
3. Location must be secure.
4. Ensure accessibility to vehicles and pallets
5. Assess resource needs (fork lifts, pallet jacks, packing tape, scissors, etc.)

**7. Special Instructions:**

1. Ensure staff are properly trained and certified to operate equipment.
2. Create a Safety plan
3. Site safety plan must be followed.
4. All injuries reported to Safety Officer
5. Create necessary forms for tracking items coming in and leaving the warehouse
6. Create receipts for donated individuals.
7. Create daily inventory reports

**6. Work Assignments:**

Objective 1: Ensure all households within impacted community have required resources.

Critical Task: Assemble, coordinate, and monitor neighborhood canvassing teams.

Tactics:
1. Determine hours of operation for teams in coordination with MSP due to safety concerns.
2. Develop and refine tracking sheet for Water Resource Teams to use in the field.
3. Finalize the training agenda/content.
4. Develop a long term strategy to meet the needs of canvassing objective.
4. Work with the local EOC to determine areas of need and locations in the city to place the teams on Tuesday morning.
5. Deploy teams to pre-identified locations.
6. Determine the safety and security needs of the teams.
7. Ensure logistics are being arranged through the current resource requests to the local EOC.
8. Conduct training for water resource teams at 1pm on Monday January 11, 2016 at the local DHHS office (4809 Clio Rd Flint, MI) by DHHS and DEQ.
9. Pre-deployment briefing to include deployment locations and safety briefing at GCCARD.

**7. Special Instructions:**

Any safety information, report in requirements, information to share/not to share, etc.

A Water Resource Team consists of 2 volunteers (currently DHHS employees), 1 trooper, trooper vehicle, locally provided vehicle. The teams will have stock of water, filters/replacement cartridges/pitchers, water sampling kits, and door hangers.

**6. Work Assignments:**

Objective 3: Improve and maintain public information strategy.

Task(s):
-Continue promotion of water resource sites.
-Announce water resource teams beginning Tuesday, and ongoing efforts
-Issuing news release to reiterate information shared throughout operational period
-Established an opt-in email citizens can subscribe to receive for daily updates on the state's response. Opt-in added to the website and first email being sent today.
-Plan and conduct daily media avails to provide ongoing actions.
-Work with MAB to air radio Public Service Announcements with information on how to get water resources. MDHHS PIO taking the lead.
-Identify and distribute information to churches, distribution points post to the website, hand out at media avails, and continue to share with stakeholders.
-Print 5,000 door hangers for water resource teams to distribute.
-Print additional door hangers to disseminate, as needed.
-Establish JIC in Flint. Hotels have been secured Lunch will be provided.
-Develop contact list daily and provide to SEOC.
-Issue social media content across agency accounts to share new information.
-Develop and print bilingual handouts in Spanish
-Determine JIC staffing needs for this week.
-Arrange a PIO to be embedded with a media resource team beginning on Tuesday.
-Identify a photographer to take photos of resource teams in the field.
-Work to establish a contact with local television providers to push public information message.

Objective 6: Identify Possible Assistance Programs

Tactic(s):

1. Continued research being performed by identified state agencies.
2. Assist with questions as needed
3. Coordinate with Federal Liaison.
4. Compile data as received

**7. Special Instructions:**

All programs have been given a deadline of Friday January 15, 2016.

Incident

**1. Incident name: 2015-10-01 City of Flint-Water Contamination/Shortage**
**2. Operational Period from: 01/11/2016 08:00:00to: 01/13/2016 08:00:00**

## 3. Objective(s)

1. Ensure all households within impacted community have required resources.
2. Ensure accurate tracking and accounting of all commodities.
3. Improve and maintain public information strategy.
4. Develop a long term public health and services plan.
5. Ensure adequate staffing to support operational requirements.
6. Identify possible assistance programs
7. Develop an approved GIS strategy.
8. Maintain coordination between partner agencies and organizations.
9. Enhance situational awareness and common operating picture of all activities.
10. Develop a comprehensive Recovery Plan.

## 4. Operational Period Command Emphasis:

1. Provide regular local and technical briefings
2. Identify life safety issues.
3. Identify priorities.
4. Provide policy direction by observance of SEOC SOPs.
5. Seek technical guidance from relevant federal agencies.
6. Provide regular legislative/congressional briefings.

## General Situational Awareness:

By early May 2014, the City of Flint switched from the Detroit Water and Sewerage Department (DWSD) to water from its own water treatment plant drawn from the Flint River as its primary water source. The different characteristics of the water resulted in leaching of lead from lead pipes in the city's water infrastructure into the water supply. Increased exposure to lead can cause immediate negative health effects. However, the main health concerns are long-term effects in children such as developmental and cognitive delays, and behavioral disorders. Increased water lead levels and elevated blood lead levels in young children were observed in the City of Flint and confirmed by the State Chief Medical Officer.

On October 1, 2015 the Genesee County Health Department declared a Public Health Emergency due to the elevated blood lead levels in citizens. In response to this the City of Flint declared a local State of Emergency on December 15, 2015 and activated their Emergency Operations Center.

To mitigate the effects of the new source of water on the infrastructure in the City of Flint, the city switched back to DWSD water on October 16, 2015. Funding to reconnect to DWSD was provided from the City of Flint, the Charles Stewart Mott Foundation, and the State of Michigan Water is now treated with a supplemental phosphate addition to rebuild the protective layer in the distribution system and reduce the leaching of lead into the water supply.

For the mitigation of negative health effects, over 24,000 water filters and replacement cartridges have been distributed to residents in the City of Flint. Approximately 13,000 water filters, water pitchers and replacement cartridges were distributed by the Michigan Department of Health and Human Services (MDHHS) in the timeframe of October 1 to December 31, 2015 alone.

MDHHS has increased surveillance of blood lead levels in children and is addressing water issues in environmental investigations to identify lead sources in the environment of affected children and provide health education and information to residents, health care providers, and daycare/educational institutions.

Local nonprofit organizations have provided potable water to Flint residents. MSP/EMHSD GIS staff is supporting county and local GIS staff by consolidating data from local sources into comprehensive databases and providing mapping services to support incident analysis and forecasting. Data and maps regarding the location of water pipes, affected schools, filter distribution locations, water monitoring results, and predictive blood lead levels for affected areas will be made available with demographics.
Before December 16, 2015, $9.35 million was provided by the State of Michigan and $6 million by local agencies and nonprofit partners to manage the effects of the corroded pipes. While the source water has been switched back to DWSD, water in the City of Flint is still not safe to drink, unless specifically filtered.

## 5. Site Safety Plan Required?

Yes ☐ No ☑

**Approved Site Safety Plan(s) Located at:**

## 6. Incident Action Plan (the items checked below are included in this Incident Action Plan):

# SAFETY MESSAGE/PLAN (ICS 208)

| 1. Incident Name: | 2. Operational Period: | Date From: 01/11/2016 | Date To: 01/13/2016 |
|---|---|---|---|
| City of Flint - 2015-10-01-City of Flint-Water Contamination / Shortage GC EOC | | Time From: 08:00:00 | Time To: 08:00:00 |

**3. Safety Message/Expanded Safety Message, Safety Plan, Site Safety Plan:**

All personnel should be aware of personal safety risks in the community. A daily safety briefing will be conducted by MSP prior to morning departure from the GCCARD for delivery operations. Door to door operations in the community will be accompanied with law enforcement escort.

Exposure to sub freezing temperatures and strong winds can lead to cold exposure and hypothermia. Wear appropriate winter clothing to cover exposed skin to mitigate against the affects of cold exposure. Wear appropriate footwear and ensure solid footing to mitigate against slip, trip, and fall hazards related to snow and ice covered ground surfaces

Current conditions on major expressways (I-69 I-475) and city streets is poor, with slush expected to re-freeze with low overnight temperatures on 01/10. As of 01/10 at 1700 HRS, most city side streets and sidewalks have not been cleared, making for difficult travel.

When driving in poor weather conditions keep a safe distance between your vehicle and the vehicle in front of you. Allow extra stopping distance as the roads may be snow covered and icy. Ensure your vehicle contains an ice scraper, extra windshield wiper fluid, and an emergency road kit.

Specific to Fire Station #6 (716 W. Pierson Road) Firefighters at the station have advised that should there be a call, they have concerns for the safety of the volunteers without their presence. Genesee County Sheriff and Dispatch are aware of the situation, and should there be a fire call for station 6, a marked police unit would be pulled to have a presence at the station until firefighters returned.

**4. Site Safety Plan Required?** Yes ☐ No ☑

**Approved Site Safety Plan(s) Located At:**

| | | | | |

**6. Work Assignments:**

Objective 1: Ensure all households within impacted community have required resources.

Critical Task: Assemble, coordinate, and monitor neighborhood canvassing teams.

Tactics:
1. Determine hours of operation for teams in coordination with MSP due to safety concerns.
2. Develop and refine tracking sheet for Water Resource Teams to use in the field.
3. Finalize the training agenda/content.
4. Develop a long term strategy to meet the needs of canvassing objective.
4. Work with the local EOC to determine areas of need and locations in the city to place the teams on Tuesday morning.
5. Deploy teams to pre-identified locations.
6 Determine the safety and security needs of the teams
7. Ensure logistics are being arranged through the current resource requests to the local EOC
8. Conduct training for water resource teams at 1pm on Monday January 11, 2016 at the local DHHS office (4809 Clio Rd Flint, MI) by DHHS and DEQ.
9. Pre-deployment briefing to include deployment locations and safety briefing at GCCARD.

**7. Special Instructions:**

Any safety information, report in requirements, information to share/not to share, etc.

A Water Resource Team consists of 2 volunteers (currently DHHS employees), 1 trooper, trooper vehicle, locally provided vehicle. The teams will have stock of water, filters/replacement cartridges/pitchers, water sampling kits, and door hangers

| ☐ ACCEPTED ☐ REJECTED | | |

### EQUAL OPPORTUNITY STATEMENT

NFA and EMI are Equal Opportunity institutions. They do not discriminate on the basis of age, gender, race, color, religious belief, national origin, or disability in their admissions and student-related procedures. Both schools make every effort to ensure equitable representation of minorities and women in their student bodies. Qualified minority and women candidates are encouraged to apply for all courses.

### PRIVACY ACT STATEMENT

GENERAL - This information is provided pursuant to Public Law 93-579 (Privacy Act of 1974), Title 5 United States Code (U.S.C.) Section 552a, for individuals applying for admission to NFA or EMI.

AUTHORITY - Federal Fire Prevention and Control Act of 1974, as amended, Title 15 U.S.C., Sections 2201 et. seq.; Robert T. Stafford Disaster Relief and Emergency Assistance Act, as amended, Title 42 U.S.C., Sections 5121 et. seq.; Title 44 U.S.C., Section 3101; Executive Orders 12127, 12148, and 9397; Title VI of the Civil Rights Act of 1964; and Section 504 of the Rehabilitation Act of 1973.

PURPOSES - To determine eligibility for participation in NFA and EMI courses. Information such as age, gender, and ancestral heritage are used for statistical purposes only.

USES - Information may be released to: 1) FEMA staff to analyze application and enrollment patterns for specific courses, and to respond to student inquiries; 2) a physician to provide medical assistance to students who become ill or are injured during courses; 3) Members of the Board of Visitors for the purpose of evaluating programmatic statistics; 4) sponsoring States, local officials, or State agencies to update/evaluate statistics of NFA and EMI participants; 5) Members of Congress seeking first party information; and 6) Agency training program contractors and computer centers performing administrative functions.

EFFECTS OF NONDISCLOSURE - Personal information is provided on a voluntary basis. Failure to provide information on this form, however, may result in a delay in processing your application and/or certifying completion of the course

### PAPERWORK BURDEN DISCLOSURE NOTICE

*Public reporting burden for this data collection is estimated to average 9 minutes. The burden estimate includes the time for reviewing instructions, searching existing data sources, gathering and maintaining the data needed, and completing and submitting this form. You are not required to respond to this collection of information unless a valid OMB control number is displayed on this form. Send comments regarding the accuracy of the burden estimate and any suggestions for reducing the burden to: Information Collections Management, Department of Homeland Security, Federal Emergency Management Agency, 1800 South Bell Street, Arlington, VA 20598-3005, Paperwork Reduction Project (1660-0100) NOTE: Do not send your completed form to this address.*

# West Virginia – Chemical Spill
# Denial of Appeal

## *Denied on May 20, 2014*

On March 21, 2014, Governor Earl Ray Tomblin requested a major disaster declaration due to a chemical spill during the period of January 9-20, 2014. The Governor requested emergency protective measures (Category B), including direct federal assistance for nine counties and Hazard Mitigation statewide. On April 10, 2014, the Governor's request was denied. On May 8, 2014, Governor Tomblin appealed the denial. During the period of January 17 to March 7, 2014, joint federal, state, and local government Preliminary Damage Assessments (PDAs) were conducted in the requested counties and are summarized below. PDAs estimate damages immediately after an event and are considered, along with several other factors, in determining whether a disaster is of such severity and magnitude that effective response is beyond the capabilities of the state and the affected local governments, and that Federal assistance is necessary.[1]

On May 20, 2014, the Governor's appeal for a major disaster declaration was denied based on the determination that the damage was not of such severity and magnitude as to be beyond the combined capabilities of the state and affected local governments.[2]

### Summary of Damage Assessment Information Used in Determining Whether to Declare a Major Disaster

**Individual Assistance** - *(Not requested)*

- Total Number of Residences Impacted:[3] -

  Destroyed - -
  Major Damage - -
  Minor Damage - -
  Affected - -

- Percentage of insured residences:[4] -
- Percentage of low income households:[5] -
- Percentage of elderly households:[6] -
- Total Individual Assistance cost estimate: N/A

**Public Assistance**

- Primary Impact: Emergency protective measures
- Total Public Assistance cost estimate: $1,532,351
- Statewide per capita impact:[7] $0.83
- Statewide per capita impact indicator:[8] $1.39
- Countywide per capita impact: Boone County ($0.80), Cabell County ($0.09), Clay County ($0.27), Jackson County ($0.01), Kanawha County ($7.43), Lincoln

County ($1.53), Logan County ($0.05), Putnam County ($0.58), and Roane County ($0.02).

- Countywide per capita impact indicator:[9] $3.50

---

[1] The Preliminary Damage Assessment (PDA) process is a mechanism used to determine the impact and magnitude of damage and resulting needs of individuals, businesses, public sector, and community as a whole. Information collected is used by the State as a basis for the Governor's request for a major disaster or emergency declaration, and by the President in determining a response to the Governor's request (44 CFR § 206.33).

[2] When a Governor's request for major disaster assistance under the Robert T. Stafford Disaster Relief and Emergency Assistance Act, as amended (Stafford Act) is under review, a number of primary factors are considered to determine whether assistance is warranted. These factors are outlined in FEMA's regulations (44 CFR § 206.48). The President has ultimate discretion and decision making authority to declare major disasters and emergencies under the Stafford Act (42 U.S.C. § 5170 and § 5191).

[3] Degree of damage to impacted residences:

- Destroyed – total loss of structure, structure is not economically feasible to repair, or complete failure to major structural components (e.g., collapse of basement walls/foundation, walls or roof);
- Major Damage – substantial failure to structural elements of residence (e.g., walls, floors, foundation), or damage that will take more than 30 days to repair;
- Minor Damage – home is damaged and uninhabitable, but may be made habitable in short period of time with repairs; and
- Affected – some damage to the structure and contents, but still habitable.

[4] By law, Federal disaster assistance cannot duplicate insurance coverage (44 CFR § 206.48(b)(5)).

[5] Special populations, such as low-income, the elderly, or the unemployed may indicate a greater need for assistance (44 CFR § 206.48(b)(3)).

[6] Ibid (44 CFR § 206.48(b)(3)).

[7] Based on State population in the 2010 Census.

[8] Statewide Per Capita Impact Indicator for FY14, *Federal Register,* October 1, 2013.

[9] Countywide Per Capita Impact Indicator for FY14, *Federal Register,* October 1, 2013.

Sheesh

Mon, Feb 8, 11:19 AM

How much time can you put to flint plans while in Chicago?

Umm I can put time in the evenings and mornings (at least 2 hour a day)

Mon, Feb 8, 1:29 PM

Where you at?

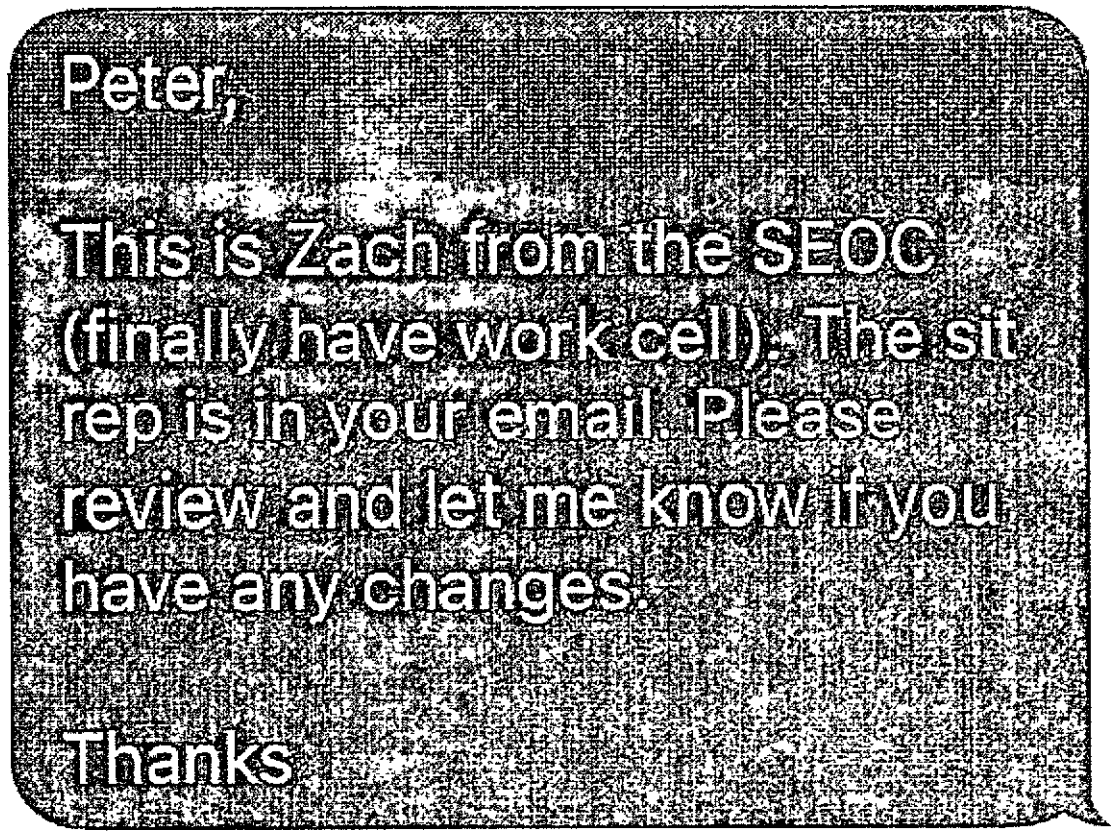
Cube

Friday 4:58 PM

Dinner in 10?

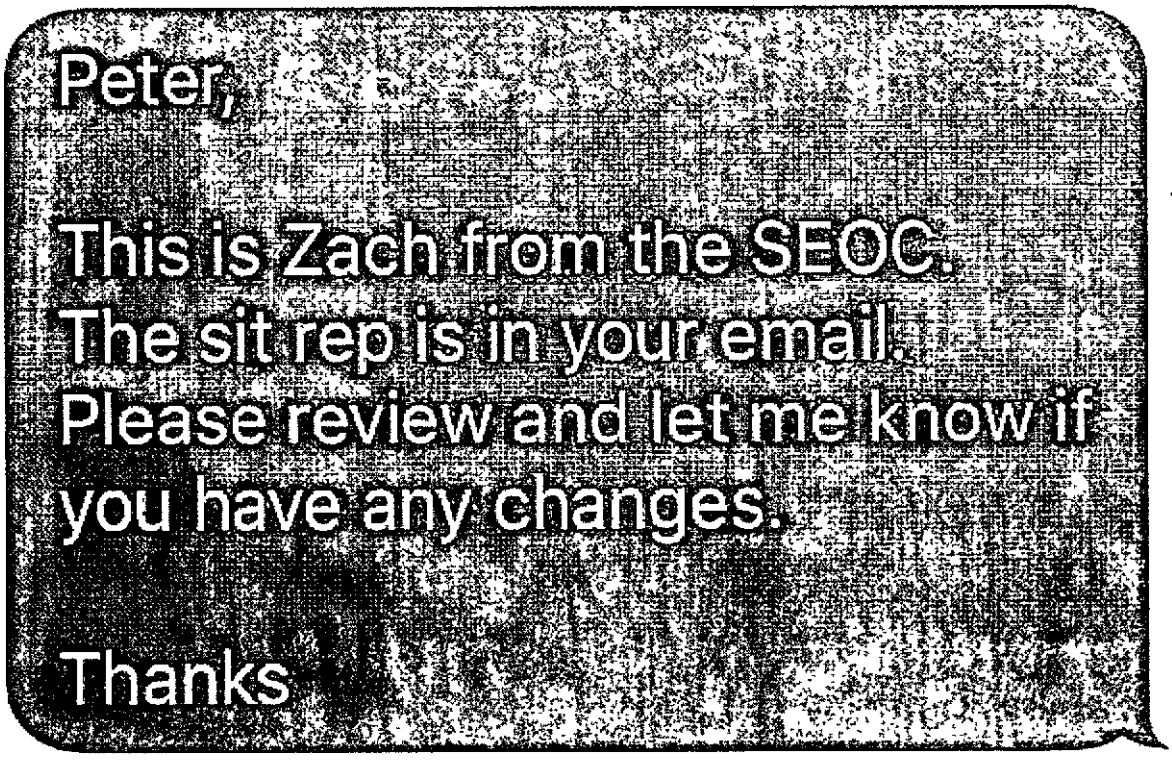
Or 2

Fri, Feb 5, 7:18 PM



It's fine. Peter.

Sun, Feb 7, 7:46 PM



Sat, Feb 6, 11:45 AM

Hey can you send me the flint water appeal folder to my work email? Please!

Just sent. I compressed it, so let me know if you have any issues

Will do! Thanks a million! Also for June today the completed sit rep process will be in the recently opened on word on the middle computer.

Yep we found it

Awesome!

Mon, Feb 8, 4:25 PM

Can you email me the appeals folder again when you get a second? Thanks.

Yup

Can you send me the appeal folder in an email? The Vpn isn't working.

Sure. Where is it?

In the s drive in the flint folder it's called appeal of disaster denial

Saturday 8:43 PM

Can you text Peter? I don't have his number.

Done. How's it going?

Good. No real issues.

Cool! Good to hear! Hope you guys get out soon.

Chris and I developed a plan

Ok will do.

Thu, Feb 11, 12:24 PM

Lunch time!!!

On my way

Thu, Feb 11, 5:00 PM

On a call. What's up?

Discrepancies in the West Virginia denial I need your opinion on.

When you get a second

Read 2/11/16

Tuesday 11:13 AM

Give me a call when you get a

U.S. Department of Homeland Security
500 C Street, SW
Washington, DC 20472

FEMA

January 22, 2016

The Honorable Rick Snyder
Governor of Michigan
Lansing, Michigan 48909

Dear Governor Snyder:

This is in response to your January 14, 2016, request for an emergency declaration for the State of Michigan as a result of contaminated water described in your request as beginning on April 25, 2014, and continuing. You specifically requested a declaration for the Individuals and Households Program and emergency protective measures (Category B), including direct federal assistance and reimbursement, under the Public Assistance program for Genesee County.

The January 16, 2016, emergency declaration FEMA-3375-EM authorized emergency protective measures (Category B), limited to direct federal assistance, under the Public Assistance program at 75 percent federal funding. The emergency declaration authorized the federal provision of water, water filters, water filter cartridges, water test kits, and other necessary related items for a period of no more than 90 days for Genesee County. Additionally, the President offered assistance in identifying other Federal agency capabilities that could support the recovery effort.

After a thorough review of your request, it has been determined that additional Stafford Act assistance, beyond that which has been authorized under FEMA-3375-EM, is not appropriate for this event. Therefore, your request for the Individuals and Households Program and reimbursement for emergency protective measures (Category B) under the Public Assistance program for Genesee County is denied.

This denial may be appealed within 30 days after the date of this letter. Any appeal pursuant to 44 CFR § 206.46, along with additional information justifying the appeal, should be submitted to me through Andrew Velasquez III, Regional Administrator, FEMA Region V, located at 536 South Clark Street, Chicago, Illinois 60605.

Sincerely,

Elizabeth Zimmerman
Associate Administrator
Office of Response and Recovery

**Subject:** Revised Cost Proposal

Please find attached LARA's revised costing data for the faucet replacement and inspection staff augmentation requests.

As you will see, we can complete a pared down replacement program within the $2 million framework so long as we don't touch hospitals and the 50% replacement ration remains constant. We have put private (primarily home) child care and adult foster care into a lower priority, but if our numbers run true, we should be able to do them also at the 50% rate.

Call if you have questions.

**Sent:** Thursday, February 18, 2016 1:58 PM
**To:** Holmes, Virginia (DHHS)
**Subject:** Number of donors

Hi Ginna,

*Have an urgent need related to our appeal for Federal assistance.* I need to provide by 4:00 today the total number of donors, broke down by individual & companies. I see we have 11 pages entered into MI ICMS. That breaks down to;

Individuals 63
Groups 74
Companies 124

That is 261 total that we have documented. Do you have more "sheets" not entered? If so, can you get me the numbers from them by 4:00?

Thanks
Richard

Elizabeth A. Zimmerman
Associate Administrator
Office of Response and Recovery
Federal Emergency Management Agency
500 C Street SW
Washington, DC 20472

Through: Mr. Andrew Velasquez III, Regional Administrator
FEMA Region V
536 South Clark Street, 6th Floor
Chicago, IL, 60605

Dear Ms. Zimmerman:

Under the provisions of 44 C.F.R. § 206.36(a), I hereby request an extension until March 6, 2015 to submit a request an appeal for the denial of the Individual and Households Program (ISH) as well as protective measures (Category B) under the Public Assistance program for FEMA-3375-EM-MI. Pursuant to 44 C.F.R. § 206.36(a), I am submitting this written request for an extension within 30 days of the date of denial received on January 22, 2016.

As support of this extension request, I offer the following information:

On January XX, 2016, the State of Michigan requested the following information from the City of Flint to support our appeal: To date, the city has not been able to supply this information. On February 12, 2016, Mayor Weaver fired the city administrator, significantly complicating the ability of the city to provide documentation requested by our office.

Submittal of disaster related costs not including City of Flint data will eliminate a major component of the basis for our appeal. This time extension is necessary primarily due to the inability of the city to compile the information need to support our appeal. At this juncture, three days remain of the 30-day window to request an appeal as specified in 44 C.F.R. § 206.36. Therefore, it is necessary to request an extension to allow the State of Michigan the time necessary to properly evaluate and develop the appeal of denial of the Individual and Households Program (ISH) as well as protective measures (Category B) under the Public Assistance program for FEMA-3375-EM-MI.. An extension of 30 days, until March 22, 2016, will allow the City of Flint to assemble information and the State of Michigan to conduct the required analyses and develop the appeal request.

Sincerely...TK

Update from City Liaison in local EOC:
Boiled Water Advisory will most likely be lifted between 1200 and 1500.

City Liaison was advised that City should coordinate with JIC for messaging.

FYI – to go out in a few minutes. I will send the link when it's posted.

**EPA Statement of Flint Water Main Break, Boil Water Order**

U.S. EPA is working closely with the City of Flint and Michigan Department of Environmental Quality on the recent water main break and boil order. After the water transmission line broke on Feb. 9, EPA coordinated with

CDC, ATSDR and other members of the Flint Water Response Unified Coordination Group to determine what additional steps residents should take given the current issues with lead in drinking water.

Flint residents have been advised to either drink bottled water or to drink boiled water that has been already been filtered through an NSF-certified filter rated to remove lead. Use only bottled water for water, food and formula given to babies under 1 year old. Bottled water is the safest choice for pregnant or breastfeeding women and kids under 6 years of age.

The city has isolated the broken main, and following established protocols, has checked residual chlorine levels in the drinking water system and conducted two rounds of microbial testing. The first round of microbial testing found no contamination. If the second round is also clean, the city will lift the boil order, although residents should still drink only filtered or bottled water because of the ongoing lead issue.

Especially in winter, water main breaks are common in Flint and other cities with older infrastructure. When these breaks occur, cities follow established protocols to notify residents and to ensure the safety of drinking water.

**Subject: TV Town Hall**

I talked to Mike Schram at NBC25 about the town hall. It would be a 1.5-hour panel, with experts as well as the general public in the audience. We discussed the idea of having Capt. Kelenske, Dirs. Lyon and Creagh, and either Rich Baird or LG Calley on the panel. Mayor Weaver will also be on the panel, but I'm not sure who else - possibly somebody from the EPA. They had invited Congressman Kildee but he cannot make it.

Mike has invited a ton of stakeholders (Red Cross, United Way, churches, etc.) to fill audience seats. We discussed the possibility of having Dr. Eden Wells (and possibly DEQ's George K) in the audience as experts.

The town hall would be from 7-8:30 p.m. on Monday, Feb. 29. It would be broadcast in the Flint/Saginaw/BC, Grand Rapids/Kazoo and Cadillac/TC areas. Because it's at U-M Flint, the campus police force can help coordinate security.

Can you confirm with your directors – today hopefully - that this is something they could do? And if you want any expert backup for them in the audience, please provide those names as well. I'll confirm with Rich Baird and/or the LG.

**To:** MSP-seoclgc
**Subject:** RE: Dinner Change

I called Spencer at BLACKSTONE. He confirmed he would cut back to feed eight (8) for JIC dinner tonight. I am not sure where JIC is located, but Spencer seems to know what he is doing. The original order for tonight was spaghetti, which is already meatless, so he said he would send some meatballs for those who can have them.
Please advise if this is incorrect.
Thanks, Diane

Subject: MEDIA ADVISORY: Sentinel Site Teams to Discuss Process For Testing Water at Homes Across the City

Sentinel Site Teams to Discuss Process For Testing Water at Homes Across the City
*402 Flint Households to Help Determine When City's Water Safe to Drink*

FOR IMMEDIATE RELEASE
February 11, 2016

DATE:
Friday, Feb.12, 2016

TIME:
9 a.m.

WHERE:
Local Emergency Operations Center
Genesee County Administration Building
1101 Beach Street
Flint, MI 48502

WHO:
Sentinel site teams comprised of Michigan Department of Environmental Quality (DEQ) employees and licensed plumbers.

WHAT:
Yesterday, 10 sentinel site teams began visiting 402 identified Flint homes across the city to teach residents how to test their water in a scientifically accurate manner so they may submit regular samples to the state for testing. This in-depth level of data collection will help confirm when Flint's drinking water is safe and provide a more streamlined level of post-testing services for resident health and wellness.

To protect individuals' privacy, demonstrations will not be given at residences.

This is an opportunity for media to get photos and video of the information teams that will cover with homeowners.

INTERVIEW OPPORUNITY: Spec. Colwell will be available for interviews at Fire Station #1 located at 210 E. 5th St. from 1-4 p.m. on Friday, Feb. 12.

National Guard Soldier Distributing Water Saves Flint Resident's Life

FOR IMMEDIATE RELEASE
February 12, 2016
Release #: 36

FLINT, Mich. –While helping to hand out water to the citizens of Flint, a National Guard soldier helped save a Flint resident's life.

"This is why I joined the military, to help people," said Spec. Charles D. Colwell, a medic with the Headquarters Company of the 125th Infantry Battalion attached to Alpha Company from Detroit, Mich. He is one of 65 soldiers helping distribute water resources after Gov. Rick Snyder activated the National Guard to help with the Flint water emergency.

Because of his actions on Feb. 1, Spec. Colwell is being recommended for the Michigan Lifesaving Medal by his immediate supervisor.

While on duty at Fire Station #1 in downtown Flint, Pfc. Zacharry R. Burrell greeted the resident who was there to return recyclables. Noticing that she was short of breath and struggling for her inhaler, Burrell ascertained the resident was clearly having a medical condition and needed immediate assistance.

"She stood there for a minute and it kind of looked like she was looking for something in her bag and then she bent down and put her hands on her knees and began coughing uncontrollably and I saw she had an inhaler in her hand," said Burrell.

Burrell brought Spec. Colwell out to the woman, who immediately started assessing her condition. She had been walking with some women to the firehouse. They told Colwell the woman had used her inhaler twice and it was nearly empty. He determined she was also suffering from severe bronchitis, so he called 911.

It wasn't until the next day the other soldiers realized how much he had done when she came back to the firehouse to thank Colwell for saving her life.

Colwell who has been a medic with the Michigan National Guard for the last two years is also a trained emergency medical technician on the civilian side in the city of Detroit.

"I do this so much every day and everyone else is kind of blowing it up," explained a humble Colwell, who doesn't understand why the other soldiers he is working with thinks he deserves the Michigan Lifesaving Medal.

"I couldn't be more proud of him," said his squad leader, Sgt. Brandon M. Lewis. "That's why I put him in for the highest award that I could possibly recommend for him for doing that."

Colwell went beyond his normal duties while in Flint and his actions made what could have been a bad situation a positive one.

"If it wasn't for him, one of us might have misjudged the situation and just thought she was sick," said Lewis. "Not only did he immediately seek her out, but he did everything he could to make her comfortable and by the time the EMTs and paramedics got here he already had an assessment to hand over to them so they were a few steps ahead."

The 125th Infantry Battalion includes soldiers from different companies from around the state who have volunteered to assist the citizens of Flint during this time. They are stationed at water resource sites at the five fire stations, handing out water, water filters and water testing kits.

Ma'am,

We have received a FOIA request for "the name of the company and testing results for the testing done in Flint by an outside company (according to Governor Snyder an outside agency was used)." Can you please tell me if you or any other Department member have responsive documents? I will need a response by 2/12/16.

Thanks,

**Subject:** FW: URGENT - Records Request
**Importance:** High

Lori, Oralya and Brianna-

Not sure who wants these numbers from the MSP-SEOCPIO email account, so I'll send them to all of you.

The email numbers are:

343 – Deleted file
2 – Flint Water folder
231 – Sent folder
241 – Flint Water folder (archived)
2290 – Sent folder (archived)
0 – Deleted folder (archived)

On the desk top is a folder labeled "Flint Water Crisis." This folder contains 10 documents

There are approximately 50 multi-page approvals/hard copy forms sitting in a filing crate near the MSP-SEOCPIO computer.

Once I know what the EMHSD game plan is for printing and copying these, I will start that process.

Thank you
K

**Subject:** URGENT - Records Request
**Importance:** High

The department has been directed to provide copies of all records in our possession related to the Flint water matter to the Governor's office. You are receiving this email because you have been identified as an individual who may have records that must be produced. If there are any department members who you think may be in possession of records related to Flint water, please forward this message to those members.

Records include memos, handwritten notes, emails and attachments, and text messages in your possession, regardless of who produced the record. Be sure when you search your email messages that you look in your inbox, sent box, and trash. In preparation for the production, you must estimate the number of records you have in your possession and provide that estimate to Ms. Lori Hinkley no later than **2:00 PM on Friday, February 12, 2016.**

You must then provide a copy of each record in your possession to the Legislative and Legal Resources Section no later than close of business on **Thursday, February 18, 2016.**

Members who work at Headquarters must provide paper copies to F/Lt. Chris Hawkins in the Office of the Director. Members who work at the State Secondary Complex must provide a paper copies Ms. Lori Hinkley. Ms. Hinkley is located on the second floor of the new Headquarters building. Department members who work outside of these worksites may send copies of records in their possession via e-mail to MSP-FOIAProject@michigan.gov.

In addition to this initial production of records, the department is required to provide copies of newly created records on an ongoing basis. Until further notice, copies of all newly created records shall be forwarded to MSP-FOIAProject@michigan.gov.

**REMINDER**: Public records can only be disposed of consistent with an approved retention schedule. As it applies to emails and text messages related to the Flint water matter, please use the retention schedule in place for general correspondence which is **two years**. Please save all emails and text messages for at least two years. Prior to expiration of the two year period you will have an opportunity to re-evaluate the content of the messages to determine if an additional retention period is necessary. If you have issues with accommodating emails based on your mailbox size, please archive them. Do not print and file them as the metadata must be retained as well.

If you have any questions with these instructions, please contact Ms. Lori Hinkley.

Here it is edited. I trimmed it quite a bit.

Truthfully, I would have tipped off a TV station and MLive to this on Feb. 2, right after it happened. Maybe wouldn't even need a news release – just a phone call telling them what happened and connecting them with Colwell. I'm worried because this is such old news now, they may not be interested. But I hope so! If it's a slow news weekend, they may bite.

Hi Kevin:

Thanks for the quick response. You can send the items to the dedicated mailbox in the future, but please forward it rather than just copy. My understanding is if you just copy to the mailbox any "blind copy" will not appear. The 'blind copy" will show if you forward it after you send the original email. Thanks, Lori

**Subject:** FW: URGENT - Records Request
**Importance:** High

Lori-

I have gone through my sweeneyk@michigan.gov account and found 58 emails related to the request below. I have printed the emails and attachments out and will give them to Brianna here in EMHSD. I have not used that account (for the most part) for my work in the SEOC.

There are thousands of emails and documents stored on MSP-SEOCPIO@michigan.gov computer/account in the SEOC. I will send Brianna an email with those numbers. She is working on a plan on how to print these documents/emails from all the EMHSD computers (we can't all print at once). In the short list of emails I printed just now, we have already received a low toner message on the printer

To make this simpler in the future, should I simply cc the MSP-FOIAProject@michigan.gov on every email and text message I send from now on?

Thank you.
K

**Subject:** URGENT - Records Request
**Importance:** High

The department has been directed to provide copies of all records in our possession related to the Flint water matter to the Governor's office. You are receiving this email because you have been identified as an individual who may have records that must be produced. If there are any department members who you think may be in possession of records related to Flint water, please forward this message to those members.

Records include memos, handwritten notes, emails and attachments, and text messages in your possession, regardless of who produced the record. Be sure when you search your email messages that you look in your inbox, sent box, and trash. In preparation for the production, you must estimate the number of records you have in your possession and provide that estimate to Ms. Lori Hinkley no later than **2:00 PM on Friday, February 12, 2016.**

You must then provide a copy of each record in your possession to the Legislative and Legal Resources Section no later than close of business on **Thursday, February 18, 2016.**

Members who work at Headquarters must provide paper copies to F/Lt. Chris Hawkins in the Office of the Director. Members who work at the State Secondary Complex must provide a paper copies Ms. Lori Hinkley. Ms. Hinkley is located on the second floor of the new Headquarters building. Department members who work outside of these worksites may send copies of records in their possession via e-mail to MSP-FOIAProject@michigan.gov.

In addition to this initial production of records, the department is required to provide copies of newly created records on an ongoing basis. Until further notice, copies of all newly created records shall be forwarded to MSP-FOIAProject@michigan.gov.

REMINDER: Public records can only be disposed of consistent with an approved retention schedule. As it applies to emails and text messages related to the Flint water matter, please use the retention schedule in place for general correspondence which is **two years**. Please save all emails and text messages for at least two years. Prior to expiration of the two year period you will have an opportunity to re-evaluate the content of the messages to determine if an additional retention period is necessary. If you have issues with accommodating emails based on your mailbox size, please archive them. Do not print and file them as the metadata must be retained as well.

If you have any questions with these instructions, please contact Ms. Lori Hinkley.

# Flint Joint Information Center Daily Update

February 11, 2016

***Situation Report***

The Joint Information Center (JIC) was expected to be operational in Flint from 8 a.m. to 8 p.m. on Feb. 11. The JIC was operational until 10 p.m. on Feb. 10.

State agencies at the JIC included the Michigan State Police, Michigan National Guard, and Departments of Environmental Quality and Health and Human Services. The Genesee County Sheriff's Office and American Red Cross were also present.

Tasks accomplished:

- Media hotline staff answered less than 10 emails and phone calls, ranging from the news media asking to embed with sentinel teams to inquiries about the city of Flint's boil water advisory.
- MDHHS Chief Medical Executive Dr. Eden Wells attended a Great Lakes Health Connect press conference, announcing the donation of $250,000 to connect various health care providers in the Flint area so they can easily share information about patients affected by lead exposure. Dr. Well was interviewed by the Associated Press and gave an update about children blood-level testing in Flint. Dr. Wells also conducted an interview with Michigan Radio about the boil water advisory in Flint.
- Created a morning and afternoon media monitoring report.
- Updated a Daily JIC Activities log to catalog actions completed for the day and planned for the week to keep all key agency PIOs aware of actions.
- Key state agency PIOs attended Gov. Rick Snyder's media availability at the Food Bank of Eastern Michigan. More than 10 news media members were at the event, representing local and regional outlets.
- Drafted talking points for Capt. Chris Kelenske for a 2:30 p.m. TeleTown Hall meeting hosted by the Governor's Office.
- The National Guard PIO conducted on-camera interview with a media outlet at Flint Fire Station No. 6, updating the reporter about ongoing operations and community relations.
- Continued routing public information materials for approval, including an updated recycling flier and a breast feeding and lead exposure fact sheet from MDHHS.
- Drafted a news release about a National Guard soldier saving a Flint resident's life. The JIC plans to issue the news release this afternoon.

- Drafted a media advisory about holding a media availability at the Genesee County Emergency Operations Center to give the news media access to a sentinel team briefing prior to disbursing throughout Flint.
- Drafted a follow-up news release to issue after the city of Flint's water warning is lifted.
- Continued working to have staffing for Feb. 16-26 by Thursday. Staffing has become difficult.
- Drafted and issued social media posts about ongoing Flint water emergency, including daily numbers and links to Oral Heath and Adult Lead Exposure fact sheets.

**Planned Activities**

***Friday, Feb. 12***

- News Release – City of Flint lifts water boil advisory
- News Release – National Guard solider distributing water saves Flint resident's life

***Saturday, Feb. 13***

- No planned products or events.

***Saturday, Feb. 14***

- No planned products or events.

***Monday, Feb. 15***

- No planned products or events.

***Tuesday, Feb. 16***

- Congressional and Legislative conference call at 2:30 p.m.
- News Release – Translated Documents (Tentative - pending finalization of American Sign Language videos)

***Wednesday, Feb. 17***

- News Release – Blood-level testing available for veterans and their families (tentative, pending coordination MVAA)

***Monday, Feb. 22***

- News Release – Flint Farmer's Market: Open for business, great nutrition available
- Video – Flint Farmer's Market: Open for Business, Great Nutrition Available
- Video – Blackstone's and Restaurant Inspections

**Issued News Releases (February)**

***State of Michigan Joint Information Center***

- JIC034 – Feb. 10 – State Launches New Streamlined Services for Residents
- JIC033 – Feb. 9 – Outreach to Flint's Blind Community Helps Ensure Access to Information and Resources
- JIC032 – Feb. 9 – American Red Cross and United Way Play Crucial Role Coordinating Volunteer Efforts in Flint
- JIC031 – Feb. 5 – State Encourages Food Establishments to take Advantage of Free Water Safety Inspections
- JIC030 – Feb. 4 – State Partners with MSU Student Athletes to Help with Flint Recycling and Water Distribution Efforts
- JIC029 – Feb. 4 – Edible Flint Works to Address Water Emergency through Urban Gardening
- JIC028 – Feb. 3 – Plan Advanced by State to Monitor Skin Conditions in Flint
- JIC027 – Feb. 2 – Michigan National Guard Continue Efforts at Water Resource Sites
- JIC026 – Feb. 1 – DEQ and EPA Continue Interagency Cooperation Discussions on Flint Water

***Governor's Office***

- GOV – Feb. 10 – Gov. Snyder thanks Flint residents for progress on establishing 'sentinel sites' to check water

- GOV – Feb. 10 – Snyder's budget proposal provides strong investments for one Michigan moving forward
- GOV – Feb. 8 – Gov. Rick Snyder: State partners with Flint human service groups to hire 50 Flint residents to assist with water testing
- GOV – Feb. 5 – Gov. Rick Snyder: Flint businesses can seek assistance through Small Business Administration disaster loans
- GOV – Feb. 4 – Gov. Rick Snyder: Swift Senate approval of $30 million for water bills shows strong commitment to Flint residents

**Subject:** Inquiry from National TV/Radio Newshour Democracy Now!

Dear Steve Rigg,

My name is Laura Gottesdiener, and I'm a reporter with the national TV/Radio newshour Democracy Now!
I have some questions about the bottled water purchases by the state of Michigan, and I was referred to you and your office by the governor's office.

Specifically, I'm seeking information about bottled water contracts from the $15.5 million appropriated for the Michigan Department of Health and Human Resources for field operations, nutrition support and the purchase of bottled water and filters for Flint.

Who are the primary contractors that the state is purchasing bottled water from, and at what rates? Can you please provide me with (or point me in the direction of) copies of the 2015 and 2016 contracts of all bottled water purchases related to Flint, Michigan?

You can reach me at 646-217-7223.

Gratefully,
Laura Gottesdiener

**Subject:** Documents under development

Hi Angela,
The nutrition task force/work group identified that it needs more nutrition education resources than what has currently been developed:

http://www.michigan.gov/documents/deq/LeadInWaterInfoSheetV2a_511710_7.pdf

USDA has several nutrition and lead resources developed from other states posted on its webpage:

https://wicworks.fns.usda.gov/topics-z/lead-poisoning-prevention

We especially liked the following two documents and have received approval from both Philadelphia and California to use their resources. Before we proceed in modifying these documents for Michigan's use, does the JIC have any objections?

Philadelphia
http://www.phila.gov/health/pdfs/Booklet%20%28English%29%20Revised%202006.pdf

California

We especially liked the following two documents and have received approval from both Philadelphia and California to use their resources. Before we proceed in modifying these documents for Michigan's use, does the JIC have any objections?

Matt,

I can fill you in

---

**From:** MSP-SEOCPIO
**Sent:** Thursday, February 11, 2016 5:08 PM
**To:** Bolger, Matt (MSP); Banner, Shanon (MSP)
**Subject:** RE: FOIA Information

Anything related to the Flint Water Crisis. Ant emails, text messages, news releases, ect.

I was just asking Brianna how people were supposed to sort for that, especially in their emails, and she did not know, other than by hand.....

There is no FOIA request. The Governor has stated that by Feb 19th we shall have all documents pertaining to this crisis printed and in their hands by that date. They are then going to post everything on line we were told. Lori Hinkley was here twice today discussing this (sorry, thought you were on the calls)

**Subject:** RE: FOIA Information

When you say "all related documents," can you advise what that means?

I have 3,577 emails that have either the word "flint" or "water" in them (as of 3:30 today). Not all of them have to do with Flint Water Emergency, as some are from my time as the Flint Post commander. Do we have a FOIA request and, if so, what does it ask for?

**To:** Banner, Shanon (MSP); Bolger, Matt (MSP)
**Subject:** FOIA Information

Insp and Shanon-

I hope all is well. I just spoke to Brianna Briggs. She asked that I relay to you that the any MSP employees working in the JIC will need to send all related to documents to her when the time comes. The other state employees working in the JIC will need to send their documents/emails to their FOIA person.

You may know this already but she asked I pass it on to you

Thanks
K

**Subject:** FW: Response from NBC25 re town hall

Kevin,

Please see the below request for Captain Kelenske's participation in a town hall hosted by NBC 25 on Feb. 29 at 7 p.m. State participation is expected to include Rich Baird, Dr. Wells and Director Creagh. We need to respond to NBC25 tomorrow.

If Captain Kelenske has questions or wants additional information, please have him give me a call.

Thank you,
Shanon

**Subject:** Response from NBC25 re town hall

Hey everyone – Mike Schram got back to Dave Murray with some answers about the town hall later this month. See below. We can discuss who should be there. I'm also sharing with Mission Flint folks.

- Meegan

**From:** Michael Schram [mailto:mschram@sbgtv.com]
**Sent:** Wednesday, February 10, 2016 6:38 PM
**To:** Murray, David (GOV) <MurrayD1@michigan.gov>
**Subject:** RE: Flint Town Hall Meeting Invitation

Hi Dave,

I listed the potential state administration officials that we'd like to include on the panel in the email chain below:

- Governor Snyder
- Harvey Hollins, Michigan Office of Urban Initiatives
- Keith Creagh, Michigan Department of Environmental Quality
- Dr. Eden Wells, Michigan Department of Health & Human Services
- Col. Chris Klenske, Michigan State Police/Department of Homeland Security

If there are other state experts that you'd like me to send invitations to be part of the audience who could answer questions about the state response, please send me their name, title, and an email address. We've invited a lot of the community stakeholders (city-county officials, school leaders, community agencies, churches, health agencies) who are partners in the state's response and relief efforts. The follow-up email that we will send out next week will have more details about the town hall (location, arrival time, parking, etc.) and will serve as their "ticket" to the event.

Security is being provided by the University of Michigan-Flint campus police. They will be able to coordinate with the Governor's security staff.

The town hall meeting will be broadcast on WEYI-TV NBC25, WWMT in Grand Rapids, and WPBN in Traverse City. Due to the high interest we've already received, the forum will also be streamed live on Sinclair Broadcasting TV station websites across the country (79 media markets). It is a great opportunity for Governor Snyder and his team to get out their ongoing efforts to restore safe drinking water.

My team has produced numerous town hall meetings over the year and we are bringing in our corporate executive producer from Baltimore to make sure the Town Hall is a well-produced and informative broadcast.

Please get back to me ASAP about the Governor and administration official participation. We want to have a good discussion about the efforts taking place to resolve concerns over the water quality, as well as health and economic impacts for the residents living in the Flint area.

Thanks again for being so good to our news crews,
Mike

**From:** Michael Schram <mschram@sbgtv.com>
**Date:** February 6, 2016 at 7:13:04 PM EST
**To:** "Kaiser, David (MSP)" <KaiserD2@michigan.gov>
**Subject: Flint Water Town Hall Meeting Invitation**

Lt. Kaiser:

Many Flint residents can no longer use their water service for basic tasks like drinking, cooking, and taking baths. Lead contamination has resulted in an emergency declaration. National Guard, law enforcement, community groups are all pitching in to deliver bottled water, lead testing kits, and water filters.

How did we get here? What's being done to address the immediate and long-term health and economic impact the Flint water crisis has had on our community?

That will be the focus of a WEYI-TV NBC25 & University of Michigan-Flint Town Hall meeting. "Your Voice, Your Future: The Flint Water Crisis" will be broadcast live from the historic Northbank Center's Grand Ballroom (432 N. Saginaw Street) in downtown Flint on **Monday, February 29th at 7:00 p.m.** The forum will give government, health care, environmentalists, community groups, emergency/disaster response officials, and others the opportunity to speak directly with residents directly affected by the water crisis. We hope the forum will provide people the latest on efforts to restore safe water service to Flint's homeowners, business leaders, schools, and churches.

We believe that you can offer a unique perspective and background on this issue. We would like to invite you to be part of our audience for this important discussion.

Please let us know by Friday (February 12) if you are available to attend this Town Hall meeting. You can RSVP by e-mailing townhall@nbc25news.com.

If you have any questions, feel free to contact the NBC25-FOX66 newsroom at (810) 687-9600.

All the best,

Subject: RE: Days

Got it. I can for certainly work the 25th and most of the 22nd. I teach a night class on the 22nd, and would have to leave the SEOC at 4:00pm. Would you be able to work on the 22nd from 4pm - 8pm.

Schedule would like this:

Monday Feb 22 - Kevin (8am - 4pm); Kyle (4pm - 8pm)

Tuesday Feb 23 - Kyle

Wednesday Feb 24 - Kyle

Thursday Feb 25 - Kevin

Friday - Feb 26 -

I can do Friday if I have to, but would have to reschedule my hiring interviews for our vacant sergeant position. I'm hoping I can find our third person today and they could take that day.

Does the rest look ok?

Thanks
K

We are drafting 2 releases for when the boil advisory are lifted. We'll pick the one to use depending on the results of bacteria testing.

If they find any bacteria, we will advise to change the filter.

If they don't find any bacteria, we will tell them to continue status quo.

On Feb 11, 2016, at 3:51 PM, MSP-SEOCPIO <MSP-SEOCPIO@michigan.gov> wrote:

I remember now what I wanted to ask you before. Capt Kelenske wants to discuss further the plan to not change our messaging on the filter replacement in regards to the boil water alert.

One of the concerns is that it was reported this am that there were 400 line breaks in the city of Flint (not all of which resulted in a boil water alert). If the cartiridges do not need to be replaced as now being presented by the DEQ, and we are replacing them every time there is a line break/boil water alert, we could run out of the cartridges even though the replacement is not needed.

Anyways, can you call him to discuss.

**Subject:** sharing media story: The Congressional Black Caucus Is Heading To Flint

**The Congressional Black Caucus Is Heading To Flint**
"You cannot have, in 2016, 100,000 people unable to get clean drinking water out of their spigots."
02/11/2016 12:57 pm ET, Tyler Tynes
Politics Fellow, The Huffington Post

WASHINGTON -- **The Congressional Black Caucus will travel to Flint, Michigan, in March** to protest the city's ongoing water crisis.

**The "Speak Out" event will allow Flint residents to tell members of Congress how their lives have been affected by a crisis linked to environmental racism.**

"What has happened in Flint should touch the heart of anyone who has compassion for others, and especially for those who care for the well-being and safety of our children," CBC Chairman G. K. Butterfield said. "The CBC was among the first to demand a thorough federal investigation of the Flint water crisis and we will be among those visiting with Flint families to further amplify the urgency of this situation."

Rep. Dan Kildee (D-Mich.), a native of Flint, helped organize the event with Butterfield, Rep. Brenda Lawrence (D-Mich.) and Rep. Keith Ellison (D-Minn.), the co-chair of the Congressional Progressive Caucus. Kildee helped mobilize support, briefing CBC members on the Flint crisis in a series of meetings.

"What is happening in my hometown breaks my heart. Resources are needed right now for Flint and the families, particularly children, who are the victims of this terrible tragedy," Kildee said in a release. "Governor Snyder, whose administration's policies created this public health emergency, has a moral obligation to help the victims of this crisis."

And getting members to Flint and putting boots on the ground is important, since congressmen didn't fully understand until a few weeks ago how dire the situation is.

"Frankly, members of Congress were not aware of the problem until the last six or eight weeks. People knew there was a problem but it really didn't come up to a national recognition," Rep. Robert "Bobby" Scott (D-Va.) told The Huffington Post. "Obviously there needs to be an immediate response. There are short term and long term responses that have to be made. The health effects are permanent and long term."

The CBC has been busy this week. On Thursday, it formally announced that the caucus' political action committee would endorse Hillary Clinton for president. Clinton has courted the black vote, earning strong support from African-Americans

and even holding campaign events in Flint last weekend. Additional details about the upcoming event in Flint haven't been released, but will be in the coming weeks. Other members of the caucus believe what happened in Flint wouldn't have happened in a more affluent community.

"You cannot have, in 2016, 100,000 people unable to get clean drinking water out of their [pipes]. That's unconscionable," Rep. Elijah Cummings (D-Md.) told HuffPost. "I am convinced that, you know, we have a lot of people who are very poor and who are minorities and we have people who many of them are underprivileged. If this were in a different type of neighborhood, if it were a predominately white community, this wouldn't happen. I think we would all be upset."

Kevin-
To clarify, 23,927 have confirmed filters, 3,058 still have not been confirmed as having a filter. There is an outstanding 195 homes that have still not been visited.

**To:** MSP-SEOCPIO; Kelenske, Chris (MSP)
**Subject:** Talking points for Congressional Call

Captain Kelenske,

Attached are talking points you can use on tomorrow's Congressional/Legislative conference call. It was mentioned you want to provide a total number of homes visited during the briefing. I'm not exactly sure what figure you had in mind, whether it is total number of occupied residences or a percentage of homes with filters, etc. so I put something in there, but left that bullet point highlighted. I also saw the note not to use the numbers in the attachments.

So you are aware, I have asked both DHHS and DEQ to have representatives prepared to give a briefing on the call; however, it sounds like they will both have reps on the call for questions, but do not plan to give a proactive report.

Please advise if you need anything further.

**Subject:** RE: FILTERS: Flint water main break

Update: I just received a call from the Flint Water Treatment Plant lab informing me that all of the results from the samples collected yesterday are non-detect for coliform bacteria. Again, there is no reason to believe at this point that any wide spread bacti contamination has occurred as a result of the water main break. Additional samples were collected today and those results will be available about this time tomorrow. If those sample results are good, the boil advisory can be lifted.

---

**From:** Feighner, Bryce (DEQ)

**Subject:** RE: FILTERS: Flint water main break

Update: I went to the Water Treatment Plant this morning and visited with the lab folks. 18 bacti samples were collected yesterday between 10 am and 1 pm throughout the city, not just in the lower pressure areas that occurred as a result of the water main break. There was good free chlorine residual at all the collection sites. The results from that sampling will be available about 1:30 pm today. We looked at the samples so far, and none were turning color. Again, there is no reason to believe at this point that any wide spread bacti contamination has occurred as a result of the water main break.

**Subject:** RE: FILTERS: Flint water main break

All,

I am sorry I was out of the UCG for much of the day when all this was developing. I understand a press release is nearly ready to go that will tell folks to replace their filter cartridges when the boil advisory is lifted. I am also sorry to see in the City's notice (link below) that they say the same thing. A boil notice for a water main break is precautionary, not because bacteria are actually known to exist in the water. The absence (or presence) of bacteria is confirmed after the water main break is repaired and bacti sample results are received, usually about 48 hours after the main is repaired. Only if bacteria are actually present in appreciable concentrations throughout the City does it makes sense to

replace all the cartridges throughout the City. While we are waiting for bacti results, folks are protected by boiling the water.

https://www.cityofflint.com/wp-content/uploads/Precautionary-Boil-Water-Notice-2-9-16.pdf

Thanks. Bryce

**Subject:** RE: FILTERS: Flint water main break

NSF International confirmed:

When the boiled water advisory is lifted, filters exposed to contaminated water are safe to use after the cartridge has been replaced. The user should be sure to follow the manufacturer's replacement instructions as some have additional procedures that must be performed (rinsing, flushing the cartridge, resetting an indicator, etc.).

Please work with Wendy Braun to deliver accurate messaging to the citizens affected by the water main break.

Thank you,

**Subject:** Flint water main break

Mitch, Jen, and others,

So, I got what feedback I could and it is essentially what we had briefly discussed.

The standards are based on treating potable water, which is microbiologically safe water, so our certification to the standards would essentially be null and void if there is bacteria in the influent. This is akin to the issue of lead levels being over 150 ppb. The filters used in Flint are not certified to remove microbiological contaminants to drinking water. Residents should boil their filtered water to ensure that their water is microbiologically safe. The, replace the cartridge / filter after the Boil Water Advisory has been lifted.

Hope this gives you what you need. If you need anything else, please let me know.

Good morning,

Can you please send me the login information for the email account ı as I will be monitoring it from home this weekend?

Also, as of now, in case anyone asks, I plan to come into the SEOC on Monday (President's Day) to participate in the first two briefings and to prepare Captain Kelenske's talking points for Tuesday's congressional briefing. I am hoping to leave by noon.

Thanks,

Shanon

Residents Reminded of Boil Water Advisory Water Filter Cartridges Should be Replaced After Advisory is Lifted Free water filters, cartridges, bottled water, testing kits available at resource sites

*FOR IMMEDIATE RELEASE*
February 10, 2016
Release #: 35

FLINT, Mich. Flint residents are reminded to boil their water due to the drinking water warning issued by the city of Flint on Feb. 9. Until further notice, boiled filtered water or bottled water should be used for drinking, brushing teeth, washing dishes, preparing food and for pets.

The boil water advisory was issued in response to a water main break on Tuesday that caused a loss of pressure in the water distribution system. Whenever a water system loses pressure for a significant length of time, bacteria contamination can result. As a precautionary measure, residents are advised to boil their water to kill bacteria and other organisms in the water.

Once the City of Flint lifts the advisory, affected residents should be prepared to take a few precautions to ensure their water is safe for use.

First, residents should always flush their water system for at least five minutes after it has gone unused for several hours. For filtered pitchers, flush before filling the pitcher. Residents can prolong the life of their tap filter by turning the valve to the unfiltered setting before flushing, then switch back to the filtered setting before drinking or cooking.

Second, residents should replace the cartridge in their water filter after a boil advisory. Previously installed water filters will still be safe to use after the cartridge has been replaced, and residents should be sure to follow the water filter manufacturer replacement instructions.

For other tips, see the attachment, "Boil Water FAQs<http://www.michigan.gov/documents/flintwater/Boil_Water_FAQs_514275_7.pdf>."

Free water filter cartridges, water filters, bottled water and water testing kits are available at water resource sites that remain open daily from 9 a.m. to 9 p.m. and are located at:

Fire Station #1 (also a water bottle recycling site)

310 East 5th St.

Fire Station #3
1525 Martin Luther King Ave.

Fire Station #5 (also a water bottle recycling site)
3402 Western Rd.

Fire Station #6
716 West Pierson Rd.

Fire Station #8 (also a water bottle recycling site)
202 East Atherton Rd.

All water filters distributed by the State of Michigan are certified by NSF International<http://www.nsf.org/newsroom/statement-regarding-flint-water-system-lead-issue-and-to-certification-nsf/> for lead reduction. Individuals wishing to verify that a specific filter is NSF-certified can do so via the NSF website<http://www.nsf.org/>.

The State of Michigan continues to coordinate response efforts in partnership with the city of Flint, Genesee County and local community organizations.

Additional information is available at www.michigan.gov/flintwater<http://www.michigan.gov/flintwater>, by calling 211 or visiting www.helpforflint.com<http://www.helpforflint.com/>.

###

Update: I went to the Water Treatment Plant this morning and visited with the lab folks. 18 bacti samples were collected yesterday between 10 am and 1 pm throughout the city, not just in the lower pressure areas that occurred as a result of the water main break. There was good free chlorine residual at all the collection sites. The results from that sampling will be available about 1:30 pm today. We looked at the samples so far, and none were turning color. Again, there is no reason to believe at this point that any wide spread bacti contamination has occurred as a result of the water main break.

**Subject:** RE: FILTERS: Flint water main break

All,

I am sorry I was out of the UCG for much of the day when all this was developing. I understand a press release is nearly ready to go that will tell folks to replace their filter cartridges when the boil advisory is lifted. I am also sorry to see in the City's notice (link below) that they say the same thing. A boil notice for a water main break is precautionary, not because bacteria are actually known to exist in the water. The absence (or presence) of bacteria is confirmed after the water main break is repaired and bacti sample results are received, usually about 48 hours after the main is repaired. Only if bacteria are actually present in appreciable concentrations throughout the City does it makes sense to replace all the cartridges throughout the City. While we are waiting for bacti results, folks are protected by boiling the water.

The city must alter its communications as the public notice must by law be issued by them. We can reflect supplemental communications from the state's end. Who from state is in touch with the city on this issue?

Mitch, Jen, and others,

So, I got what feedback I could and it is essentially what we had briefly discussed.

The standards are based on treating potable water, which is microbiologically safe water, so our certification to the standards would essentially be null and void if there is bacteria in the influent. This is akin to the issue of lead levels being over 150 ppb. The filters used in Flint are not certified to remove microbiological contaminants to drinking water. Residents should boil their filtered water to ensure that their water is microbiologically safe. The, replace the cartridge / filter after the Boil Water Advisory has been lifted.

Hope this gives you what you need. If you need anything else, please let me know.

Sir,

I do not believe we will change the recommendation about changing filter cartridges after the boil advisory is lifted. There has been a lot of information pushed already about changing the cartridges and to change that at this point will only cause confusion.

The end result will be that some may change their filters early, but it has been about a month for most of them and it should be very close to the time to change them anyway.

Matt

A slightly modified statement that addresses lead reduction at the same time would be: "These filters are not certified to reduce microbiological contaminants from drinking water. Residents should boil their filtered water to ensure that their water is microbiologically safe. Residents should replace the cartridge / filter after the Boil Water Advisory has been lifted. The lead reduction capabilities of the filter should not be adversely affected by the presence of bacteria, if present."

**Subject:** Flint water main break

Mitch, Jen, and others,

So, I got what feedback I could and it is essentially what we had briefly discussed.

The standards are based on treating potable water, which is microbiologically safe water, so our certification to the standards would essentially be null and void if there is bacteria in the influent. This is akin to the issue of lead levels being over 150 ppb. The filters used in Flint are not certified to remove microbiological contaminants to drinking water. Residents should boil their filtered water to ensure that their water is microbiologically safe. The, replace the cartridge / filter after the Boil Water Advisory has been lifted.

Hope this gives you what you need. If you need anything else, please let me know.

Sir,

I do not believe we will change the recommendation about changing filter cartridges after the boil advisory is lifted. There has been a lot of information pushed already about changing the cartridges and to change that at this point will only cause confusion.

*The end result will be that some may change their filters* early, but it has been about a month for most of them and it should be very close to the time to change them anyway.

Matt

So what does that mean at this time as far as a need to replace filter cartridges once the boil advisory is lifted?

Update: I went to the Water Treatment Plant this morning and visited with the lab folks. 18 bacti samples were collected yesterday between 10 am and 1 pm throughout the city, not just in the lower pressure areas that occurred as a result of the water main break. There was good free chlorine residual at all the collection sites. The results from that sampling will be available about 1:30 pm today. We looked at the samples so far, and none were turning color. Again, there is no reason to believe at this point that any wide spread bacti contamination has occurred as a result of the water main break.

**Subject:** RE: FILTERS: Flint water main break

All,

I am sorry I was out of the UCG for much of the day when all this was developing. I understand a press release is nearly ready to go that will tell folks to replace their filter cartridges when the boil advisory is lifted. I am also sorry to see in the City's notice (link below) that they say the same thing. A boil notice for a water main break is precautionary, not because bacteria are actually known to exist in the water. The absence (or presence) of bacteria is confirmed after the water main break is repaired and bacti sample results are received, usually about 48 hours after the main is repaired. Only if bacteria are actually present in appreciable concentrations throughout the City does it makes sense to replace all the cartridges throughout the City. While we are waiting for bacti results, folks are protected by boiling the water.

NSF International confirmed:

When the boiled water advisory is lifted, filters exposed to contaminated water are safe to use after the cartridge has been replaced. The user should be sure to follow the manufacturer's replacement instructions as some have additional procedures that must be performed (rinsing, flushing the cartridge, resetting an indicator, etc.).

Please work with Wendy Braun to deliver accurate messaging to the citizens affected by the water main break.

Thank you,

JEN WOLF

A slightly modified statement that addresses lead reduction at the same time would be: "These filters are not certified to reduce microbiological contaminants from drinking water. Residents should boil their filtered water to ensure that their water is microbiologically safe. Residents should replace the cartridge / filter after the Boil Water Advisory has been lifted. The lead reduction capabilities of the filter should not be adversely affected by the presence of bacteria, if present."

This is akin to the issue of lead levels being over 150 ppb. The filters used in Flint are not certified to remove microbiological contaminants to drinking water. Residents should boil their filtered water to ensure that their water is microbiologically safe. The, replace the cartridge / filter after the Boil Water Advisory has been lifted.

Hope this gives you what you need. If you need anything else, please let me know.

**Subject:** RE: FILTERS: Flint water main break

Update: I went to the Water Treatment Plant this morning and visited with the lab folks. 18 bacti samples were collected yesterday between 10 am and 1 pm throughout the city, not just in the lower pressure areas that occurred as a result of the water main break. There was good free chlorine residual at all the collection sites. The results from that sampling will be available about 1:30 pm today. We looked at the samples so far, and none were turning color. Again, there is no reason to believe at this point that any wide spread bacti contamination has occurred as a result of the water main break.

**Subject:** RE: FILTERS: Flint water main break

All,

I am sorry I was out of the UCG for much of the day when all this was developing. I understand a press release is nearly ready to go that will tell folks to replace their filter cartridges when the boil advisory is lifted. I am also sorry to see in the City's notice (link below) that they say the same thing. A boil notice for a water main break is precautionary, not because bacteria are actually known to exist in the water. The absence (or presence) of bacteria is confirmed after the water main break is repaired and bacti sample results are received, usually about 48 hours after the main is repaired. Only if bacteria are actually present in appreciable concentrations throughout the City does it makes sense to replace all the cartridges throughout the City. While we are waiting for bacti results, folks are protected by boiling the water.

NSF International confirmed:

When the boiled water advisory is lifted, filters exposed to contaminated water are safe to use after the cartridge has been replaced. The user should be sure to follow the manufacturer's replacement instructions as some have additional procedures that must be performed (rinsing, flushing the cartridge, resetting an indicator, etc.).

Please work with Wendy Braun to deliver accurate messaging to the citizens affected by the water main break.

Mitch, Jen, and others,

So, I got what feedback I could and it is essentially what we had briefly discussed.

The standards are based on treating potable water, which is microbiologically safe water, so our certification to the standards would essentially be null and void if there is bacteria in the influent. This is akin to the issue of lead levels being over 150 ppb. The filters used in Flint are not certified to remove microbiological contaminants to drinking water. Residents should boil their filtered water to ensure that their water is microbiologically safe. The, replace the cartridge / filter after the Boil Water Advisory has been lifted.

Insp-

As discussed, Capt Kelenske and the Governor's office would like the JIC to produce and disseminate a document/information on the boil water advisory to include:

The steps to take to make the water safe
What has occurred to bring us to this point
Are new filters needed
Are new cartridges needed
Anything else you feel is needed

I can run any of this by DEQ, MDHHS, or other state partners if needed. Please advise what you need from me.

Thanks

**Cc:** Kuzera, Michelle (MSP)
**Subject:** RE: Foss Baptist Church requesting an informational PowerPoint

Here are external stakeholder talking points. We currently don't have a PowerPoint available.

--Ron

- It is essential that all Flint residents have the water in their homes tested as soon as possible. Free water testing kits are available at Fire Stations 1, 3, 5, 6, and 8. Water samples should be returned to the fire stations for testing.

- Water resource sites, where residents can pick up free bottled water, test kits, filter cartridges, and water testing kits are open daily from 9 a.m. to 9 p.m. and are located at:

  - Fire Station #1 located at 310 East 5th St. in Flint, MI 48502
  - Fire Station #3 located at 1525 Martin Luther King Ave. in Flint, MI 48503
  - Fire Station #5 located at 3402 Western Rd. in Flint, MI 48506
  - Fire Station #6 located at 716 West Pierson Rd. in Flint, MI 48505
  - Fire Station #8 located at 202 East Atherton Rd. in Flint, MI 48507

- Identification is not required to receive any of these resources.

- Water response teams consisting of volunteers are making deliveries to homes that need the most assistance; for example homes that do not have filters yet or residents that are homebound. The water response teams are handing out bottled water, water filters, replacement cartridges, and water testing kits.

- Volunteers are still needed to participate in water response teams going door-to-door handing out bottled water, filters, water testing kits, and replacement cartridges. Volunteers join teams of city, county, and state personnel and members of the American Red Cross.

- Persons wishing to volunteer or make financial donations can visit www.helpforflint.com for more information.

- For additional information and updates about the water emergency, go to www.michigan.gov/FlintWater.

- Flint residents, both English- or Spanish-speaking, can also call 2-1-1 to receive the latest updates and information about the Flint water emergency. United Way 2-1-1 is an information and referral service that is available 24 hours a day, seven days a week

**Filters**

- Until water is declared safe, residents are directed to continue to follow established safety protocols. These recommendations include that all homes obtain a water filter and use filtered water for drinking and cooking.

- Out of an abundance of caution, until we know the water from the tap is safe, vulnerable populations, including children under six and pregnant or nursing women, should drink bottled water.

- When used properly water filters remove 99 percent of lead in water. Residents are urged to use filtered water for drinking, food preparation, brushing teeth, and watering pets. Unfiltered water may be used for bathing and cleaning.

- One filter and one replacement cartridge are being provided per household initially. Each filter is good for approximately 100 gallons of water. The filter has an indicator on it that will turn from green to red when it needs to be replaced. The filters do have a two to five-year, non-replaceable battery that operates the indicator light.

- There is a detailed video posted on www.michigan.gov/flintwater that explains how to properly install a water filter cartridge.

**Resources for homebound individuals**

- Homebound individuals can contact 2-1-1 for assistance. Those contacts are being provided to volunteers who are responding to needs.

- The Plumbers and Pipefitters Union has agreed to provide free water filter installation to homebound residents needing assistance. This is being coordinated through 2-1-1.

**Pets**

- The same precautions in place for humans, should be followed for pets.

- There are a variety of diseases and issues that could mimic signs/symptoms of a lead-related issue, which is why it's critical to work with your veterinarian to properly diagnose your pet.

- If you have any concerns about your animal's health, you should work with a licensed veterinarian.

# Flint Joint Information Center Daily Update

February 10, 2016

## Situation Report

The Joint Information Center (JIC) was expected to be operational in Flint from 8 a.m. to 8 p.m. on Feb. 10. The JIC was operational until 8:30 p.m. on Feb. 9.

State agencies at the JIC included the Michigan State Police, Michigan National Guard, and Departments of Agriculture and Rural Development, Environmental Quality, and Health and Human Services. The Genesee County Sheriff's Office and American Red Cross were also present.

Tasks accomplished:

- Media hotline staff answered less than 10 emails and phone calls, ranging from the news media asking to embed with sentinel teams to inquiries about why schools in Flint were not tested for lead until Oct. 2015.
- Created a morning and afternoon media monitoring report.
- Created a Daily JIC Activities email to catalog actions completed for the day and planned for the week to keep all key agency PIOs aware of actions.
- Key state agency PIOs attended the Governor's proposed FY2017 budget and media roundtable in Lansing.
- Continued updating and revising internal talking points to better reflect ongoing information.
- Continued routing public information materials for approval, including an updated recycling flier and a breast feeding and lead exposure fact sheet from MDHHS.
- Issued a press release about the state of Michigan launching new streamlined services for residents, with new testing sites to help confirm water quality.
- Drafted a press release about the next steps to take after the city of Flint issued a water warning on Feb. 9.
- Continued working to have staffing for Feb. 16-26 by Thursday.
- Began planning for a video shoot and news release about the Flint Farmer's Market being open for business.

- Drafted and issued social media posts about ongoing Flint water emergency, including topics such as the U.S. Small Business Administration's Flint Business Recovery Center and the American Red Cross and United Way playing a crucial role coordinating volunteer effort.

## Planned Activities

***Thursday, Feb. 11***

- Governor's TeleTown Hall at 2:30 p.m.
- News Release – National Guard lifesaving incident at Water Resource Site

***Friday, Feb. 12***

- News Release – Translated Documents (Tentative - pending finalization of American Sign Language videos)
- News Release – National Guard Solders building relationships in the community

***Saturday, Feb. 13***

- No planned products or events.

***Saturday, Feb. 14***

- No planned products or events.

***Monday, Feb. 15***

- No planned products or events.

***Tuesday, Feb. 16***

- Congressional and Legislative conference call at 2:30 p.m.

***Wednesday, Feb. 17***

- News Release – Blood-level testing available for veterans and their families (tentative, pending coordination MVAA)

***Monday, Feb. 22***

- News Release – Flint Farmer's Market: Open for Business, Great Nutrition Available
- Video – Flint Farmer's Market: Open for Business, Great Nutrition Available
- Video – Blackstone's and Restaurant Inspections

## Issued News Releases (February)

***State of Michigan Joint Information Center***

- JIC034 – Feb. 10 – State Launches New Streamlined Services for Residents
- JIC033 – Feb. 9 – Outreach to Flint's Blind Community Helps Ensure Access to Information and Resources

- JIC032 – Feb. 9 – American Red Cross and United Way Play Crucial Role Coordinating Volunteer Efforts in Flint
- JIC031 – Feb. 5 – State Encourages Food Establishments to take Advantage of Free Water Safety Inspections
- JIC030 – Feb. 4 – State Partners with MSU Student Athletes to Help with Flint Recycling and Water Distribution Efforts

**Sent:** Wednesday, February 10, 2016 6:13 PM
**To:** MSP-SEOCPIO; JICManager
**Cc:** Kelenske, Chris (MSP)
**Subject:** RE: Media Advisory Update from the JIC

We are drafting a PR to remind citizens about the boil water advisory and prep the residents to be prepared to change the cartridges in their water filters once the advisory is lifted.

---

**From:** MSP-SEOCPIO
**Sent:** Wednesday, February 10, 2016 4:35 PM
**To:** Bolger, Matt (MSP); JICManager
**Cc:** Kelenske, Chris (MSP)
**Subject:** Media Advisory Update from the JIC

Insp-

As discussed, Capt Kelenske and the Governor's office would like the JIC to produce and disseminate a document/information on the boil water advisory to include:

The steps to take to make the water safe
What has occurred to bring us to this point
Are new filters needed
Are new cartridges needed
Anything else you feel is needed

I can run any of this by DEQ, MDHHS, or other state partners if needed. Please advise what you need from me.

Thanks

**Cc:** Sharon Bowen; 'jasonblazen@actionmanagement.com'
**Subject:** Re: Flint Water Crisis Partner Updated Activities

Ms. Michael,

We recently surveyed 120 of the over 900 Flint families being served by the TANF program by our agency. The survey showed:

**PATH Clients Survey**
**Water Testing Data**
**66.6% water NOT tested = 80/120**

This statistic is very disturbing to us. Based on discussion with our clients we believe the factors contributing to the low rate include:

- Lack of transportation (many of our clients use the bus)
- Concerns that the results will be valid (trust issues)
- Lack of education on Lead issues

Our 900 families visit our office from several times a week to once a month. We are willing to help facilitate pick-up of the test kits, instructions on use, and return of kits. To implement this, we would need access to the testing kits. Of course, we will document the families/addresses that the kits are distributed to. These families include pregnant women and parents with children, many under three. **We believe that a quality response in this emergency includes bringing services to where the families are already accessing services.**

I am working out of the office this week, so my phone contact number is ' . I will respond to any emails concerning the Flint water response..

**Subject:** Re: Sentinel Sampling Translation

Hi Meegan -- I'm actually the person who asked for the source file. From what I understand, it's the document used with the graphics. It's easier for the translation company to make a clear document with graphics if they have the source file. If we don't have it, it should be fine as so far we've had a source document for some and not for others.

Re the final translations, yes I can ask that they all be PDF.

Best,
Karen

Do we have the 'source file' for the attached document? ? It's better for the translation company if we have the source files for the graphics. (If we don't have it, they've been able to create most of our translations without it.)

Thanks,
Tony

**Subject:** Re: Sentinel Sampling Translation

Hi Meegan -- I'm actually the person who asked for the source file. From what I understand, it's the document used with the graphics. It's easier for the translation company to make a clear document with graphics if they have the source file. If we don't have it, it should be fine as so far we've had a source document for some and not for others.

Re the final translations, yes I can ask that they all be PDF.

Best,
Karen

***Subject:*** FW: Meeting : Urgent - questions from Governor's office

**Importance:** High

Fyi...you may be tasked with some of the questions listed below. There is a meeting tomorrow morning with the Governor's office so if you want to get a head start, feel free to start drafting your answers to some of these questions.

At this time there is no need for you to attend the meeting referenced below.

---

**From:** Stoken, Laura (GOV)
**Sent:** Wednesday, February 10, 2016 4:39 PM
**To:** Holland, Meegan (GOV); JICManager; MSP-seoclgc; checcepi; Pallone, Maggie (DEQ)
**Cc:** Eisner, Jennifer (DHHS); Brown, Melanie (DEQ); Banner, Shanon (MSP)
**Subject:** Meeting : Urgent
**Importance:** High

Hi Team,

I realize this is last minute- is there any way you/ representative from your team can be available tomorrow morning at 10:00 am to assist in answering the below questions for Mission Flint?

They need the final answers by tomorrow so if we could initially meet at 9:00 am that would be great. We can meet in person and/or I can provide a con call.

Goals for initial call:

1) Answer what we already know
2) Assign questions we do not know amongst ourselves
3) Assign a time to have all answers to the Governors office tomorrow.

Please let me know if 9:00 am will work for you.

Thank you,

Laura Stoken
Manager, Constituent Relations
Executive Office of the Governor, Rick Snyder
517.335.7858

Questions asked during the Meeting

1. The filters say 99% effective on the box. What about the 1% and how can I be sure?
2. Why are we not being given whole house filters? Filtering the water as it comes into the house would solve lots of problems.
3. Why does EPA take 20 samples from different areas of a house and the State takes only one or a few?
4. Is lead the only thing scientists are testing for?
5. I am concerned about BPA (leaching of plastic from bottled water). Who is ensuring that the bottled water is safe?
6. Could we get Shower Head Filters distributed given the problems experienced with rashes and skin irritation?
7. When will we know if the improperly treated river water contributed to the spike in legionella?
8. Should we use bottled water (vs. tap or filtered) in our humidifiers?
9. How soon can we get nurses into schools? We only have one nurse in the entire public school system.
10. Who is focused on landlord obligations to make things safe for their tenants? If water bill credits are being offered to landlords, shouldn't the tenant who has been paying the water bill included with their rent receive the benefit?
11. We have been told not to run hot water through the filters which means even washing dishes is a chore requiring heating up water.
12. In the past boil alerts were due to under or over chlorination. Is the water properly chlorinated now and how do we know?
13. Is canned water bad for us?
14. Are all the faucets being changed out in schools? When will that be finished and when will we be told whether that fixed the problem?
15. The city's contractor for recycling (Republic) makes it too difficult for residents to sign up and get their bins/bags. Can you fix that?
16. MSU appears to be the only entity working on nutrition outreach and getting fresh produce to convenience stores. We need to ramp up our efforts in this regard and take charge. Sen. Ananich's office is doing something with John Roberts' knowledge but we need to craft a plan and execute immediately.
17. You said nutrition doesn't remove lead from the body but iron, calcium and Vitamin C can reduce/halt the absorption of new lead. Are there vitamins I should be taking?
18. What parts of the body does lead poisoning impact. I have heard that it goes to the bones, the brain, and gastrointestinal but is removed by kidneys and excreted in urine. Is this right?
19. Abandoned buildings are set on fire and lead paint in walls can become smoke with lead that gets breathed in. Are our kids at risk when there is a fire in the neighborhood?
20. What about my pets? Will the state animal response team get involved?
21. We have scammers in our neighborhood offering to do testing in order to gain access and steal. Or offer fake services. What is being done about the scammers?
22. There is not enough information translated in Spanish, Arabic or Chinese. When will this change?
23. What are you doing about people who have left Flint but were exposed to potential lead poisoning? Are you contacting them or giving them a way to contact you?

**To:** MSP-EOC-MDLARA
**Cc:** Towne, Karen (LARA)
**Subject:** RE: Sentinel Sampling Translation

Do we need Mandarin also for that document?

Additionally, I noticed that there is a "Lead Safety Poster" in Spanish on the website that must have gone up recently. Should I also get that translated into Mandarin, Hmong and Arabic? If so, can you please provide the English version?

Best,
Karen

Insp and Shannon-

Below are the dates and times that F/Lt Bowman and I will be working in the SEOC-PIO position over the next two weeks. Please add this to the schedule/calendar. There is one date, Friday February 26th that both of us have outstanding commitments. I have hiring interviews scheduled for a vacant sergeant position at the Lakeview Post. I would really like to keep this date/time as this position has been vacant since December 1. I can cancel/postpone it if needed however.

Do you have someone that could work in the SEOC-PIO position on Friday February 26th? Maybe bring Jane back in for the day? I have asked a few other PIO's, but have struck out with finding someone else to assist in this capacity.

Monday Feb 15th – Presidents Day
Tuesday Feb 16th – F/Lt Sweeney
Wednesday Feb 17th – F/Lt Sweeney
Thursday Fe 18th – F/Lt Bowman
Friday Feb 19th – F/Lt Bowman

Monday Feb 22nd – F/Lt Sweeney (8a – 4pm); F/Lt Bowman (4pm – 8pm)
Tuesday Feb 23rd – F/Lt Bowman
Wednesday Feb 24th – F/Lt Bowman
Thursday Feb 25th – F/Lt Sweeney
Friday Feb 26th - ????????

Thanks

That would be fine. I was planning to do a smaller print order, in expectation of potential hour changes.
But thinking about it, it should be fine if we just have the Fire Stations on there without operating hours. People will know when to visit the stations anyway.

Thanks,
Henrik

All,

I would need another document updated for a print order. Please see the initial recycling information card attached to this email.

For the recycling locations listed on the left, we would need to add a location including operating hours. If we do that, we should also include the hours for the Fire Stations (Daily, 9AM - 9PM).
Here the additional location:
Comcast Service Center
3008 Airpark Dr S
Flint, MI 48507
Monday to Friday, 10AM - 5PM
Saturday, 10AM - 1 PM

Thank you!
Henrik

Hi Henrik, attached is the updated door hanger. Please let me know if I can help further.

I don't know if this is the translated document or not. The formatting has been stripped, but it is a recycling document in Spanish.

To: JICManager
Cc: Adler, Jessi (DHHS); MSP-seoclgc; Hawks, Trevor (MSP)
Subject: Recycling material update / spanish-language translation

All,

In preparation of a print order, we would need an updated version of the attached recycling door hanger (initially designed by Trevor Hawks):
- The Keep Genesee County Beautiful logo at the bottom of the door hanger needs to be removed (the organization has withdrawn the authorization for use of their logo on any materials that are associated with the state response).
- The information regarding sign-up for curbside recycling ("Call Republic Services at 1-800-438-0966 to have a recycling bin delivered to your door.") needs to include the following times at which the referenced hotline is available: Monday to Friday, 8AM-5PM and Saturday, 8AM-12PM.

Also, a translation into Spanish for the "HOW TO RECYCLE WATER BOTTLES AND WATER FILTERS IN FLINT" flyer attached to this document was being developed through the JIC. Is there an update on the status of a translated version yet?

Thank you very much for your help,

Henrik Hollaender

All,

I would need another document updated for a print order. Please see the initial recycling information card attached to this email.

For the recycling locations listed on the left, we would need to add a location including operating hours. If we do that, we should also include the hours for the Fire Stations (Daily, 9AM - 9PM).
Here the additional location:
Comcast Service Center
3008 Airpark Dr S
Flint, MI 48507
Monday to Friday, 10AM - 5PM
Saturday, 10AM - 1 PM

*Thank you!*
Henrik

Hi Henrik, attached is the updated door hanger. Please let me know if I can help further.

I don't know if this is the translated document or not. The formatting has been stripped, but it is a recycling document in Spanish.

Subject: Recycling material update / spanish-language translation

All,

In preparation of a print order, we would need an updated version of the attached recycling door hanger (initially designed by Trevor Hawks):
- The Keep Genesee County Beautiful logo at the bottom of the door hanger needs to be removed (the organization has withdrawn the authorization for use of their logo on any materials that are associated with the state response).
- The information regarding sign-up for curbside recycling ("Call Republic Services at 1-800-438-0966 to have a recycling bin delivered to your door.") needs to include the following times at which the referenced hotline is available: Monday to Friday, 8AM-5PM and Saturday, 8AM-12PM.

Also, a translation into Spanish for the "HOW TO RECYCLE WATER BOTTLES AND WATER FILTERS IN FLINT" flyer attached to this document was being developed through the JIC. Is there an update on the status of a translated version yet?

Thank you very much for your help,

Henrik Hollaender

Please see the recommended changes in the scanned document.

The fire station hours were changed due to possible hour changes in the future. (Nothing determined yet.)

I was just informed that the Volunteer Reception Center is expecting a group of 60 volunteers that could use these cards on the weekend.
Please update the card as soon as possible, so we can go to print.

I apologize for the short notice, just found out myself.

Insp and Ron-

FYI on the below. I just spoke to F/Lt Wolf and she has a call into Scott Schafer (at the local EOC) to discuss this with Wendy Braun. Wendy is with the city of Flint and is at the local EOC as well according to F/Lt Wolf. Scott with advise F/Lt Wolf on what the plan is as far as messaging goes and what help the city wants from the state (if any) as it pertains to this message

I'll keep you posted

NSF International confirmed:

When the boiled water advisory is lifted, filters exposed to contaminated water are safe to use after the cartridge has been replaced. The user should be sure to follow the manufacturer's replacement instructions as some have additional procedures that must be performed (rinsing, flushing the cartridge, resetting an indicator, etc.).

Please work with Wendy Braun to deliver accurate messaging to the citizens affected by the water main break.

Thank you,

The city must alter its communications as the public notice must by law be issued by them. We can reflect supplemental communications from the state's end. Who from state is in touch with the city on this issue?

**Subject:** Flint water main break

Mitch, Jen, and others,

So, I got what feedback I could and it is essentially what we had briefly discussed.

The standards are based on treating potable water, which is microbiologically safe water, so our certification to the standards would essentially be null and void if there is bacteria in the influent. This is akin to the issue of lead levels being over 150 ppb. The filters used in Flint are not certified to remove microbiological contaminants to drinking water. Residents should boil their filtered water to ensure that their water is microbiologically safe. The, replace the cartridge / filter after the Boil Water Advisory has been lifted.

Hope this gives you what you need. If you need anything else, please let me know.

## MSP-SEOCPIO

**From:** Sweeney, Kevin (MSP)
**Sent:** Wednesday, February 10, 2016 2:08 PM
**To:** Banner, Shanon (MSP); Bolger, Matt (MSP); JICManager
**Cc:** MSP-SEOCPIO
**Subject:** SEOC PIO Dates for Next Two Weeks

Insp and Shannon-

Below are the dates and times that F/Lt Bowman and I will be working in the SEOC-PIO position over the next two weeks. Please add this to the schedule/calendar. There is one date, Friday February 26th that both of us have outstanding commitments. I have hiring interviews scheduled for a vacant sergeant position at the Lakeview Post. I would really like to keep this date/time as this position has been vacant since December 1. I can cancel/postpone it if needed however.

Do you have someone that could work in the SEOC-PIO position on Friday February 26th? Maybe bring Jane back in for the day? I have asked a few other PIO's, but have struck out with finding someone else to assist in this capacity.

Monday Feb 15th – Presidents Day
Tuesday Feb 16th – F/Lt Sweeney
Wednesday Feb 17th – F/Lt Sweeney
Thursday Fe 18th – F/Lt Bowman
Friday Feb 19th – F/Lt Bowman

Monday Feb 22nd – F/Lt Sweeney (8a – 4pm); F/Lt Bowman (4pm – 8pm)
Tuesday Feb 23rd – F/Lt Bowman
Wednesday Feb 24th – F/Lt Bowman
Thursday Feb 25th – F/Lt Sweeney
Friday Feb 26th - ????????

Thanks
K

**To:** MSP-SEOCPIO
**Subject:** RE: Water Pitchers?

We are going to keep this out of the PODs for now. They are currently sent to GCCARD, City Hall, and WRT for distribution. These are hard to get and we need to make sure they only go to the people that really need them.

Thanks,

**To:** MSP-SEOCPIO; JICManager
**Subject:** RE: Water Pitchers?

They were not giving them out at the PODs, it was a WRT commodity.

Can you check with logistics to see if they are now in the PODs? We may have a stash in the warehouse that we can send to the PODs, if logistics agrees on that distribution.

We have not been publishing it here though.

Insp and Ron-

Jay Eickholt just advised they received information that the media was putting out information that "water pitchers" were available at the PODS. People are showing up looking for these items.

Do you guys know anything about this? I googled that topic and didn't find anything that I saw where the media was putting something out like that

Thoughts?

Thanks

Insp- and Ron-

Just spoke to Kristy with Logistics. There are over 6000 in storage and she is checking with others here in the SEOC to see why they are not at the PODS. She would like to put a hundred or so at each POD so if someone shows up they could get one.

She is checking to see if this is ok and will advise us when she knows

Thanks

State Launches New Streamlined Services for Residents New Testing Sites Help Confirm Water Quality

FOR IMMEDIATE RELEASE
February 10, 2016
Release #: 34

FLINT, Mich. - This week the Michigan Departments of Environmental Quality (DEQ) and Health and Human Services (MDHHS) initiated new initiatives to engage residents in a more in-depth level of data collection that will help confirm when Flint's drinking water is safe and provide a more streamlined level of post-testing services for resident health and wellness.

Starting today, 10 Sentinel Site teams consisting of representatives from the DEQ, along with licensed plumbers, will begin to visit 402 identified residential sites across the city to teach homeowners how to test their water in a scientifically accurate manner so they may submit regular samples to the state for testing.

Geographically dispersed across all nine wards, these sites will be established for ongoing lead and copper monitoring and will be resampled periodically to help determine when the drinking water advisory may be discontinued. This testing regimen calls for resampling every two weeks for an additional four, two-week cycle.

"These Sentinel Sites are an important step in helping us achieve a higher level of data analytics on the quality of the water," said Keith Creagh, Director of the DEQ. "The data collected will help us determine when and where corrosion control treatment has been effective."

Also launching today is a more streamlined system of addressing residences that test high for lead or copper in their water. This new process will provide residents with more efficient in-home follow-up for environmental and health wrap-around services.

"As soon as we see that a household's water level tests high for lead or copper, this new automatic protocol kicks in, beginning a series of measures to get people the health-related services they need faster," said Dr. Eden Wells, chief medical executive with the MDHHS. "While many of these residents have had outreach from county and state agencies since last fall, this new system creates a timeline and multi-agency organizational structure so that services can be provided in a more cohesive manner."

The new streamlined system of in-home follow-up visits not only allows for faster residential feedback, but also allows for multiple agencies to work with residents in a more coordinated manner. The process is as follows:

* Daily lab test results are posted publicly online at www.michigan.gov/flintwater
* Test results greater than 150 ppb are emailed to MDHHS
* All test results are emailed to the City of Flint, who then sends them to residents by U.S. Mail
* Within 48 hours, MDHHS coordinates a home health visit through the Genesee County Health Department to any resident whose lead test result was greater than 150 ppb. Home visit includes:
  * Health and wellness information
  * Off-site blood test referral
  * Assists with transportation support for appointments, as necessary
  * Provides additional bottled water, filters and water sample kits
* Within 48 hours, DEQ schedules a home water visit to any resident whose lead test result was greater than 150 ppb (100 ppb or greater, but less than 150 ppb residents are visited within seven days). Home visit includes:
  * Water testing and sampling information
  * Water sample collection
  * Inspection by the Flint Local 370 Plumbers Union (field verification of service line, aerator cleanout, filter check)
  * Provides additional bottled water, filters and water sample kits

Unlike lead, there is a safe level of copper. Everyone comes into contact with it every day and copper is essential for good health, but for homes with elevated copper levels, individuals are being instructed to use bottled water for drinking and cooking.

People's bodies require copper for normal functioning, and at different amounts depending on age, and whether a women is pregnant or breastfeeding. Ingesting high levels of copper can cause nausea, vomiting and diarrhea.

Additional information about the Flint water emergency is available at www.michigan.gov/flintwater<http://www.michigan.gov/flintwater/>, by calling United Way 211 or visiting www.helpforflint.com<http://www.helpforflint.com/>.

**Cc:** JICManager
**Subject:** Follow up from yesterday's conference call

All,

Here is some of the promised information from yesterday's call. Please let me know if there is additional information you'd like to get:

- As of Feb. 8, data being tracked by the state shows that 87.8 percent of City of Flint water customers have a water filter. That leaves approximately 12 percent or 3,323 customers whose filter status is unknown. Efforts to reach these homes continue in earnest.

- Five water resource sites at fire stations in the city, staffed by Michigan National Guard soldiers, remain operational daily from 9 a.m. to 9 p.m. to provide free bottled water, filters, replacement cartridges, and water testing kits.

- Since January 9, through the efforts of both door-to-door water response teams and water resource sites, a total of 299,273 cases of water; 104,500 water filters; and 35,756 water testing kit have been distributed.

- On February 5, the Small Business Administration approved Governor Snyder's request for low-interest disaster loans for businesses in Genesee County and the city of Flint. The approval provides access to federal Economic Injury Disaster Loans, which are working capital loans to small businesses, small agricultural cooperatives, small businesses engaged in aquaculture and most private, non-profit organizations. Business owners have until Nov. 7, 2016, to apply. More information and criteria for SBA disaster loans is available at www.sba.gov/disaster. Eligible Flint business owners can apply online.

- This week the state secured a second warehouse that can accept bottled water that is not on pallets, filling a critical need, as many water drives are not palletized. The water donation guidelines on www.michigan.gov/flintwater and www.helpforflint.com have been updated to reflect this new option. To schedule a dock time for a delivery, call 517-420-3984 or email flintwarehouse2@michigan.gov.

Subject: RE: Days

Got it. I can for certainly work the 25th and most of the 22nd. I teach a night class on the 22nd, and would have to leave the SEOC at 4:00pm. Would you be able to work on the 22nd from 4pm - 8pm.

Schedule would like this:

Monday Feb 22 - Kevin (8am - 4pm); Kyle (4pm - 8pm)

Tuesday Feb 23 - Kyle

Wednesday Feb 24 - Kyle

Thursday Feb 25 - Kevin

Friday - Feb 26 -

I can do Friday if I have to, but would have to reschedule my hiring interviews for our vacant sergeant position. I'm hoping I can find our third person today and they could take that day.

Does the rest look ok?

Thanks
K

**Subject:** FW: FILTERS: Flint water main break

Insp and Ron-

FYI on the below. I just spoke to F/Lt Wolf and she has a call into Scott Schafer (at the local EOC) to discuss this with Wendy Braun. Wendy is with the city of Flint and is at the local EOC as well according to F/Lt Wolf. Scott with advise F/Lt Wolf on what the plan is as far as messaging goes and what help the city wants from the state (if any) as it pertains to this message

I'll keep you posted

**Subject:** RE: FILTERS: Flint water main break

NSF International confirmed:

When the boiled water advisory is lifted, filters exposed to contaminated water are safe to use after the cartridge has been replaced. The user should be sure to follow the manufacturer's replacement instructions as some have additional procedures that must be performed (rinsing, flushing the cartridge, resetting an indicator, etc.).

Please work with Wendy Braun to deliver accurate messaging to the citizens affected by the water main break.

**Subject:** Re: FILTERS: Flint water main break

The city must alter its communications as the public notice must by law be issued by them. We can reflect supplemental communications from the state's end. Who from state is in touch with the city on this issue?

**Subject:** RE: FILTERS: Flint water main break

NSF International confirmed:

When the boiled water advisory is lifted, filters exposed to contaminated water are safe to use after the cartridge has been replaced. The user should be sure to follow the manufacturer's replacement instructions as some have additional procedures that must be performed (rinsing, flushing the cartridge, resetting an indicator, etc.).

Please work with Wendy Braun to deliver accurate messaging to the citizens affected by the water main break.

Thank you,

JEN WOLF

The city must alter its communications as the public notice must by law be issued by them. We can reflect supplemental communications from the state's end. Who from state is in touch with the city on this issue?

Mitch, Jen, and others,

So, I got what feedback I could and it is essentially what we had briefly discussed.

The standards are based on treating potable water, which is microbiologically safe water, so our certification to the standards would essentially be null and void if there is bacteria in the influent. This is akin to the issue of lead levels being over 150 ppb. The filters used in Flint are not certified to remove microbiological contaminants to drinking water. Residents should boil their filtered water to ensure that their water is microbiologically safe. The, replace the cartridge / filter after the Boil Water Advisory has been lifted.

Hope this gives you what you need. If you need anything else, please let me know.

**Subject:** RE: Flint water main break

Hello all,

If MDEQ lifts the alert and a faucet that was exposed to contaminated water is now safe to use, then the only part that needs replacement on the filter is the replacement cartridge. The user should be sure to follow the manufacturer's replacement instructions as some have additional procedures that must be performed (rinsing, flushing the cartridge, resetting an indicator, etc.).

**Subject:** Flint water main break

Mitch, Jen, and others,

So, I got what feedback I could and it is essentially what we had briefly discussed.

The standards are based on treating potable water, which is microbiologically safe water, so our certification to the standards would essentially be null and void if there is bacteria in the influent. This is akin to the issue of lead levels being over 150 ppb. The filters used in Flint are not certified to remove microbiological contaminants to drinking water. Residents should boil their filtered water to ensure that their water is microbiologically safe. The, replace the cartridge / filter after the Boil Water Advisory has been lifted.

Hope this gives you what you need. If you need anything else, please let me know.

## MSP-SEOCPIO

**From:** Colberg, Nicole (DNR)
**Sent:** Wednesday, February 10, 2016 9:48 AM
**To:** Shaw, Eric (DEQ)
**Cc:** JICManager; MDEQ-ECC-IMT; Holland, Meegan (GOV); Hawks, Trevor (MSP); Norton, Susan (DEQ); MSP-SEOCGIS; MSP-SEOCGIS2; Golder, Edward (DNR); Creagh, Keith (DEQ); MSP-EOC-MDEQ; MSP-SEOCPIO; Browne, Elizabeth (DEQ); Brown, Melanie (DEQ); Russell, Erin (DEQ)
**Subject:** Full List of Residential Results for February 9, 2016
**Attachments:** February 9 2016 Test Results Flint_Sorted by Lead Concentration.pdf; February 9 2016 Test Results Flint.xlsx; February 9 2016 Test Results Flint_Sorted by Address.pdf; February 9 2016 Test Results Flint_DEQ Reports to EPA xlsx; February 9 2016 Test Results Flint_For MSP-SEOCGIS.xlsx

**Importance:** High

Hi Eric, Attached please find for posting to the Flint Water website, the Residential Results as of February 9, 2016. This information has also been provided to Meegan Holland in the Governor's office.

Please let me know if you have any questions.

### This note is for Monday, February 9, 2016

Please find attached the full list of residential results through the date listed above (5 attachments). Please note that this version includes concentrations in ppb and the street number is separated from street name to make it easier to find the address. Also, there are pdfs of the two worksheets for people who don't have Microsoft office. All have been prepped for the web minus the naming convention that is usually used.

1. For the accordion on the lower left under the title "School and Residential Testing Results, the following are to Replace current and see above for language changes (3 attachments):

   **Asset # 512083** – February 9 2016 Test Results Flint.xlsx
   **Asset# 512511** – February 9 2016 Test Results Flint_Sorted By Address.pdf
   **Asset# 512510** – February 9 2016 Test Results Flint_Sorted by Lead Concentration.pdf

2. For the same accordion underneath the DEQ reports to EPA, The Test Results Flint DEQ Reports to the EPA Asset needs updating (1 attachment):

   **Asset# 512820** - February 9 2016 Test Results Flint_DEQ Reports to the EPA.xlsx

3. The following is for the MSP-SEOCGIS for geocoding (1 attachment) and not prepped for the web; Please send to **MSP-SEOCGIS@michigan.gov and MSP-SEOCGIS2@michigan.gov**

   February 9 2016 Test Results Flint_For MSP-SEOCGIS.xlsx

Please note that the workbooks (XLSX) contains two tabs: One has the data sorted by Lead concentration and the other is sorted by address. Posting this data in a timely manner upon approval from the Governor's office is of the essence so that we can comply with the order issued by EPA.

**Please post this to the website ASAP and make sure that all are posted so that people can look at the version that they are interested in.**

**Thank you!!!**

**Cc:** MSP-seoclgc; Arwood, Cheri (GOV); Sachs, Tori (GOV); MSP-SEOCPIO
**Subject:** Re: any thoughts on this?

Yes thank you. I sent another one today which may have caused some confusion. The one below didn't have any constituent contact info but today it did... But the info about what they are being provided is helpful.

Thanks,

Laura

> I am alarmed at reports that people imprisoned in Flint's county jail, including pregnant women, are being forced to bathe, wash clothes, brush their teeth, and eat food cooked with Flint's tainted water. Men and women now receive just two 12-ounce bottles of water, two times a day. The Institute of Medicine recommends that men and women drink 100 and 73 ounces of water, respectively, every single day. As you know, lead leads to an increase in violent behavior and more frequent and more serious involvement with the criminal justice system. This is the opposite of rehabilitation. It is arbitrary,

cruel and unusual punishment. It violates the Fifth, Eighth, and 14th Amendment due process rights of those human beings whose lives the courts have entrusted to the State's custody, protection, and care. It especially punishes the innocent unborn children of these prisoners, as well as the family members who must suffer with the victims' increased violent behavior and diminished mental capacity upon their release. As you know, current lead contamination levels overwhelm the current capacity of water filtration systems. I urge you to provide adequate bottled water for all prisoners' sanitation, health, and nutritional needs.

Hi Laura,

We checked into this for you yesterday. The Genesee County Sheriff's Department, which operates the county jail, reports that inmates receive 16.9 oz of water, four times per day.

Additional questions about the jail should be referred to the sheriff's department.

Sincerely,

Shanon Banner

Hi Kyle,

I'd like to request a standing hold on Captain Kelenske's calendar for a weekly Congressional/Legislative call on Tuesdays at 2:30 p.m. It doesn't always have to be him briefing out, but we will need it to be him or his designee.

As in the past, I will provide talking points on Monday evening.

Thanks,
Shanon

## USDA Deputy Under Secretary to Visit Flint, Highlight Federal Nutrition Programs Support for Flint Families

Flint, Mich., Feb. 9, 2016 – TOMORROW, Wednesday, Feb. 10, Dr. Kathryn Wilson, Deputy Under Secretary for Food, Nutrition and Consumer Services, will visit Flint to announce new ways USDA will use its nutrition programs to support Flint adults and children and mitigate the effects of lead-contaminated water. As part of her visit, she will tour a school operating the USDA school lunch and breakfast programs and the Fresh Fruit and Vegetable Program and she will also visit a WIC clinic. **Wilson will hold a media availability at 12:30 p.m. at Neithercut Magnet Elementary School.**

**Wednesday, Feb. 10, 2016**

**WHAT:** USDA Deputy Under Secretary Dr. Kathryn (Katie) Wilson will announce new ways that USDA will use its nutrition programs to support Flint residents affected by lead-contaminated water. She will also visit Neithercut Magnet Elementary School and meet with school officials to discuss how the school breakfast, school lunch and the Fresh Fruit and Vegetable Program are providing nutrition support in the Flint crisis.

**Media Opportunities:**

*12:30 – 1:15 pm* ***Neithercut Magnet Elementary School,*** 2010 Crestbrook Ln., Flint, MI (810) 760-1359 ***Dr. Wilson available for interviews to discuss the assistance and resources provided by USDA's school programs, WIC Program, SNAP nutrition education program and other federal nutrition assistance programs. Please RSVP to Alan Shannon (312-860-3531) or Alan.Shannon@fns.usda.gov)*** **PLEASE NOTE: This is an opportunity for media to speak to USDA leadership only, not staff and students.**

**Phone interviews throughout the day:** To schedule a phone interview with Dr. Wilson, please call Alan Shannon (312-860-3531).

American Red Cross and United Way Play Crucial Role Coordinating Volunteer Efforts in Flint

FOR IMMEDIATE RELEASE
February 9, 2016
Release #: 32

FLINT, Mich. - Since early January, over 2,000 volunteers have volunteered their time to assist Flint residents during the water emergency. Volunteers are coordinated through the Volunteer Reception Center, operated jointly by the American Red Cross and United Way of Genesee County. These volunteers have performed numerous tasks throughout the community from delivering water resources door-to-door to assembling water test kits.

"We have had volunteers of all ages from all different backgrounds come forward to help," stated Sarah Lewan, community volunteer manager. "We have processed more than 200 groups of varying sizes, including corporate groups, social groups and concerned citizens."

Volunteers are utilized at a variety of community organizations to provide assistance with water distribution, warehousing, data entry and assembly of water test kits. The volunteers give whatever time they can, whether it is a couple of hours or availability for several days.

There are opportunities for additional groups and individuals to volunteer. To learn more or sign-up to volunteer, visit www.flintvolunteer.com<http://www.flintvolunteer.com/>.
The State of Michigan continues to coordinate response efforts in partnership with the City of Flint, Genesee County and local community organizations.

Additional information about water response efforts is available at www.michigan.gov/flintwater<http://www.michigan.gov/flintwater>, by calling United Way's 211 or visiting www.helpforflint.com<http://www.helpforflint.com/>.

###

NOTE: ALL MEDIA INQUIRIES ARE BEING HANDLED BY THE JOINT INFORMATION CENTER AT 888-EMD-TODAY (888-363-8632). FOR FLINT WATER EMERGENCY DONATION INFORMATION, GO TO www.helpforflint.com<http://www.helpforflint.com/>.

**Subject:** Lead Test Results Backlog

We plan to issue this tomorrow.

**Lead Test Results Backlog Cleared**

*HHS' Public Health Service Strike team provides needed manpower and expertise*

This week, the U.S. Public Health Service Commissioned Corps officers aided the Genesee County Health Department in clearing a months-long backlog of blood lead level screening results for the Flint community.

Thirteen Commissioned Corps officers, all with clinical and public health backgrounds, cataloged results of nearly 800 finger-prick blood tests, primarily from children, and mailed the test results along with educational materials. As a result, state and county health officials – who played an integral role in clearing the backlogged tests – have been able to provide these results to the impacted families. The data has been reported to the state, as required.

"We're proud to be standing shoulder-to-shoulder with community leaders, researchers, state and county health officials, and our Federal partners here in Flint as we aide the community's response to this crisis," said HHS Acting Assistant Secretary for Health Dr. Karen DeSalvo, who oversees the USPHS Commissioned Corps. "Looking forward, we will continue to work together, doing all we can to ensure that every child in Flint has access to the screening, treatment, and care they deserve."

DeSalvo will be in Flint later today to meet with officials from the Genesee County Health Department, community partners, and Commissioned Corps officers.

"It's an honor to serve the residents of Flint," said Capt Phil Farabaugh, who is leading the HHS Public Health Service Strike efforts on the ground. "We stand ready to bring our technical skills and our effort to this community in their hour of need."

Centers for Disease Control and Prevention (CDC) recommends children under 6 years old who have lived, gone to school, or often spent time with caregivers in Flint, Michigan since October 1, 2015 should get a blood lead test. The CDC further recommends that each of these children have a blood lead test by April 1, 2016 to ensure children that those who need treatment are able to obtain it as quickly as possible. Children are especially prone to harmful effects from lead and about 9,000 children in Flint were exposed to water containing higher levels of lead than allowed.

The 6,700 officers of the Commissioned Corps comprise the only uniformed service solely committed to protecting, promoting and advancing the health and safety of the nation. Members often serve on the front lines in public health emergency and crisis situations, including 9/11, the 2010 Haiti earthquake, the tragic shootings in Roseburg, Oregon and most recently in West Africa treating Ebola patients.

The U.S. Surgeon General Dr. Vivek H. Murthy, who oversees the operations of the Commissioned Corps under the direction of the Assistant Secretary for Health, is scheduled to arrive in Flint next Monday to meet with health care providers and community members to discuss the city's current water crisis.

**Subject:** RE: Funds spent on response.

The following information was provided to the SEOC Finance Section Chief by state agencies for response costs related to the Flint emergency. This information represents costs (including encumbered costs for services to be provided related to this incident) as of January 30th. This was provided to Mr. Chris Harkins of the State Budget Office on Thursday, February 4, 2016.

Total State Agency Costs related to Flint emergency as of 1/30/16: $ 20.7 million

Costs BEFORE Governor's declaration: $ 1.5 million
Costs AFTER Governor's declaration: $ 19.2 million

Other costs may exist for the Flint emergency that have not been captured by the SEOC.

Please let me know if you need any clarification or additional information.

Outreach to Flint's Blind Community Helps Ensure Access to Information and Resources

FOR IMMEDIATE RELEASE
February 9, 2016
Release #: 33

Flint, Mich. – The Bureau of Services for Blind Persons (BSBP) is working to ensure Flint's blind community has access to all information and resources related to the Flint water emergency.

"We have made direct contact with all of the bureau's blind clients who live in Flint to ensure they have the resources they need and we will continue to provide assistance to any Flint resident who is blind or visually impaired," said BSBP Director Edward Rodgers.

Bureau staff contacted nearly 40 BSBP clients living in Flint by either home visit or phone to ensure they had access to all health-related water emergency information and to offer assistance in obtaining bottled water, filters, water replacement cartridges and water testing kits.

Information is available in braille by contacting the bureau. Flint residents who are blind or visually impaired and need further assistance or information should contact Sue Luzenski at the BSBP at Luzenskis@michigan.gov<mailto:Luzenskis@michigan.gov> or 517-335-4265.

The State of Michigan continues to coordinate response efforts in partnership with the City of Flint, Genesee County and local community organizations. Additional information about water response efforts is available at www.michigan.gov/flintwater<http://www.michigan.gov/flintwater>, by calling United Way's 211 or visiting www.helpforflint.com<http://www.helpforflint.com/>.

For more information about the BSBP, visit www.michigan.gov/bsbp<http://www.michigan.gov/bsbp> or call 1-800-292-4200, TTY 888-864-1212.

###

NOTE: ALL MEDIA INQUIRIES ARE BEING HANDLED BY THE JOINT INFORMATION CENTER AT 888-EMD-TODAY (888-363-8632). FOR FLINT WATER EMERGENCY DONATION INFORMATION, GO TO www.helpforflint.com<http://www.helpforflint.com/>.

**To:** MSP-SEOCPIO
**Subject:** RE: any thoughts on this?

Can you reply to Laura Stoken on this with something they can release to the public?

Eg: inmates are given 67.6 oz of water per day. Those asking for more are not denied their request

Thanks

**Subject:** any thoughts on this?

I am alarmed at reports that people imprisoned in Flint's county jail, including pregnant women, are being forced to bathe, wash clothes, brush their teeth, and eat food cooked with Flint's tainted water. Men and women now receive just two 12-ounce bottles of water, two times a day. The Institute of Medicine recommends that men and women drink 100 and 73 ounces of water, respectively, every single day. As you know, lead leads to an increase in violent behavior and more frequent and more serious involvement with the criminal justice system. This is the opposite of rehabilitation. It is arbitrary, cruel and unusual punishment. It violates the Fifth, Eighth, and 14th Amendment due process rights of those human beings whose lives the courts have entrusted to the State's custody, protection, and care. It especially punishes

the innocent unborn children of these prisoners, as well as the family members who must suffer with the victims' increased violent behavior and diminished mental capacity upon their release. As you know, current lead contamination levels overwhelm the current capacity of water filtration systems. I urge you to provide adequate bottled water for all prisoners' sanitation, health, and nutritional needs.

Laura Stoken
Manager, Constituent Relations

**To:** MSP-SEOCPIO
**Cc:** MSP-SEOCOPSC; MSP-SEOCSDEM
**Subject:** RE: Funds spent on response.

The following information was provided to the SEOC Finance Section Chief by state agencies for response costs related to the Flint emergency. This information represents costs (including encumbered costs for services to be provided related to this incident) as of January 30th. This was provided to Mr. Chris Harkins of the State Budget Office on Thursday, February 4, 2016.

Total State Agency Costs related to Flint emergency as of 1/30/16: $ 20.7 million

*Costs BEFORE Governor's declaration:* $ 1.5 *million*
Costs AFTER Governor's declaration: $ 19.2 million

Other costs may exist for the Flint emergency that have not been captured by the SEOC.

Please let me know if you need any clarification or additional information.

Governor Rick Snyder
REINVENTING MICHIGAN
Getting It Right. Getting It Done.

# Media Advisory

Tuesday, Feb. 9, 2016
Contact: Dave Murray or Anna Heaton
Office: 517-335-6397

**Editor's Note: This advisory is for media planning purposes only.**

**Wednesday, Feb. 10 at 11 AM**
Gov. Rick Snyder will present his FY 2017-18 budget recommendation. He will be joined by State Budget Office Director John Roberts.

The presentation will stream live at www.mi.gov/MIBudget.

Due to room capacity, space is limited and media will have placement on a first-come, first-served basis. The doors will open at 10:30 a.m.

Overflow seating with live viewing of the presentation will be available on the fourth floor. Mult boxes will be provided, please bring BNC and XLR cables.

Additional information will be available just prior to the budget presentation at www.michigan.gov/mibudget. Join the conversation on social media using #mibudget.

**Location:**
Capitol Building – House Appropriations Committee, Room 352
Lansing, MI

**Wednesday, Feb. 10 at 1:30 PM**
Snyder and Roberts will host a media roundtable to discuss the FY 2017-18 budget recommendation. Dept. of Health and Human Services Director Nick Lyon and Dept. of Environmental Quality Director Keith Creagh will also be present.

For those who cannot attend, a livestream option will be available at www.michigan.gov/snyderlive. Media can contact the Governor's Office of Communications at govnewsroom@michigan.gov with follow-up questions.

**Location:**
George W. Romney Building – Michigan Room; 1st Floor
111 S. Capitol Ave.
Lansing, MI

**Subject:** Re: FW: Water Dripping- No pressure

Dan,

We have just experienced a main break on a large transmission main located on Stewart Ave, near I-475. Crews are working now to isolate the break. Looking at maps, we should be able to shut down a small portion of the main and not directly affect any customers. Once the break is isolated we can then assess and develop a timeline on the repair.
The City has just prepared a press release in regards to the issue. We are currently looking at pressures to determine if any resulting public notices will be issued.

On Tue, Feb 9, 2016 at 11:37 AM, Lord, Daniel (DNR) <LordD1@michigan.gov> wrote:

Mike,

Per my voicemail on your land line. Below you'll see that we've had a couple of calls in regards to loss of service / pressure, the addresses are identified below.

My assumption is that this might relate to a break, and if you could get back to us on your course of action and associated response time so we can communicate as needed I would appreciate it.

Considering the change in temperatures heading into this weekend (close to zero on Saturday) I'm thinking we may have a few more similar situations in the future.

I'll follow up on your cell as well.

**Subject:** Flint Water main break

Tom Tederington has just reported that there is a break in the water main at the Flint Water plant, so staff are unable to collect water samples at the facilities they planned to today, because of lack of water.

As explained previously, most field staff are in mandatory Accela training, however, some staff will begin working with food firms on implementing MDARD's Emergency Action Plan for water loss.

FYI – See below from MDARD about a water main break affecting half the city. DEQ is hearing reports of this also. Here's a news story - http //nbc25news com/news/local/large-water-main-break-shuts-down-i-475-exit-ramp-at-dort-highway

Not sure if someone will ask about it on the Congressional call this afternoon so I wanted to make sure the Captain is aware.

**Subject:** RE: Flint Water main break

My inspector said at least half of Flint is without water. However I can't confirm that. Joel Vansant, MDARD inspector, said all of the facilities that he visited today didn't have any water. The broken water main is right out front of the Flint water treatment plant.

**From:** Banner, Shanon (MSP)
**Sent:** Monday, February 08, 2016 10:45 PM
**To:** MSP-SEOCPIO; Kelenske, Chris (MSP)
**Subject:** Talking points for Congressional Call

Captain Kelenske,

Attached are talking points you can use on tomorrow's Congressional/Legislative conference call. It was mentioned you want to provide a total number of homes visited during the briefing. I'm not exactly sure what figure you had in mind, whether it is total number of occupied residences or a percentage of homes with filters, etc. so I put something in there, but left that bullet point highlighted. I also saw the note not to use the numbers in the attachments.

So you are aware, I have asked both DHHS and DEQ to have representatives prepared to give a briefing on the call; however, it sounds like they will both have reps on the call for questions, but do not plan to give a proactive report.

Please advise if you need anything further.

| **Importance:** | High |

Hi Eric, Attached please find for posting to the Flint Water website, the Residential Results as of February 8, 2016. This information has also been provided to Meegan Holland in the Governor's office.

Please let me know if you have any questions.

**This note is for Monday, February 8, 2016**

Please find attached the full list of residential results through the date listed above (5 attachments). Please note that this version includes concentrations in ppb and the street number is separated from street name to make it easier to find the address. Also, there are pdfs of the two worksheets for people who don't have Microsoft office. All have been prepped for the web minus the naming convention that is usually used. I will follow this format going forward. **If I fail to do that then please let me know**:

1. For the accordion on the lower left under the title "School and Residential Testing Results, the following are to Replace current and see above for language changes (3 attachments):

   **Asset # 512083** – February 8 2016 Test Results Flint.xlsx
   **Asset# 512511** – February 8 2016 Test Results Flint_Sorted By Address.pdf
   **Asset# 512510** – February 8 2016 Test Results Flint_Sorted by Lead Concentration.pdf

2. For the same accordion underneath the DEQ reports to EPA, The Test Results Flint DEQ Reports to the EPA Asset needs updating (1 attachment):

   **Asset# 512820** - February 8 2016 Test Results Flint_DEQ Reports to the EPA.xlsx

3. The following is for the MSP-SEOCGIS for geocoding (1 attachment) and not prepped for the web; Please send to **MSP-SEOCGIS@michigan.gov** and **MSP-SEOCGIS2@michigan.gov**

   February 8 2016 Test Results Flint_For MSP-SEOCGIS.xlsx

4. Calculations as requested:

| Data Summary for *Current Date* | Number | Percent | | |
|---|---|---|---|---|
| Total number of samples: | 8317 | | | |
| At or below 15 ppb: | 7771 | 93% | Above 15 ppb: | 546 |
| <5 ppb: | 6812 | 82% | | |
| 5-15 ppb: | 546 | 7% | | |
| >15-30 ppb: | 293 | 3.5% | | |
| >30-100 ppb: | 95 | 1.1% | | |
| >100-150 ppb: | 27 | 0.3% | | |
| >150 ppb: | 68 | 0.8% | | |

Please note that the workbooks (XLSX) contains two tabs: One has the data sorted by Lead concentration and the other is sorted by address. Posting this data in a timely manner upon approval from the Governor's office is of the essence so that we can comply with the order issued by EPA.

**Please post this to the website ASAP and make sure that all are posted so that people can look at the version that they are interested in.**

**Thank you!!!**

**Subject:** Pregnancy issues I thought you should be aware of

Understanding that finding and using the appropriate word(s) is part of the mix, we have a couple issues that need to be addressed in the Spanish version of the Pregnancy flyer. I spoke with several members of staff who happen to speak Spanish and/or grew up in a Spanish speaking households/communities as I wanted them to know we had this brochure available. They were kind enough to reach out to several folks who they know who have done or currently offer Spanish translation services just to double check.

Bullet #2 "Filtre el agua *del grifo*"

While technically correct in the Spanish language (as that taught in a high school/college level language class based on Spanish linguistics) and agreed to by the translators, it may be too proper for use here – it is written at too high a level of reading comprehension. Google translator comes back with faucet, but the fact my colleagues had to Google it shows how infrequent it is used. This bullet for my colleagues could mean or imply "get your filtered water from the pot-head next door" or as "curly" and could imply filter water will give you curly hair or you should get filtered water from curly hair. *Llave* was suggested as a possible alternative, but that brings with it the problem that its first definitional meaning is "key".

Is it possible to just do away with this word in its entirety and just say "filter your water" if no acceptable term is found?

The other issue is not what is there but what was removed from the original CDC flyer and is a huge cultural issue. In the original CDC flyer, "Hervir el agua no elimina el plomo" (boiling water does not remove lead) has been removed from the State's version. We'd like to reiterate that this is a huge obstacle of understanding for many in the Hispanic community – going as far as being the one infographic the Genesee County Hispanic/Latino Collaborative self-produced several weeks ago. Putting this back in would be a good thing, particularly because we are telling folks it is okay to use unfiltered water for washing dishes (bottles etc.).

The final issue is coverage/access to 2-1-1 using a minute phone/disposable which was raised two weeks ago. If 2-1-1 has fixed the technical problem then no fix on the brochure is needed; if not the flyer should include the alternative number.

**Subject:** Pregnancy issues I thought you should be aware of

Understanding that finding and using the appropriate word(s) is part of the mix, we have a couple issues that need to be addressed in the Spanish version of the Pregnancy flyer. I spoke with several members of staff who happen to speak Spanish and/or grew up in a Spanish speaking households/communities as I wanted them to know we had this brochure available. They were kind enough to reach out to several folks who they know who have done or currently offer Spanish translation services just to double check.

Bullet #2 "Filtre el agua *del grifo*"

While technically correct in the Spanish language (as that taught in a high school/college level language class based on Spanish linguistics) and agreed to by the translators, it may be too proper for use here – it is written at too high a level of reading comprehension. Google translator comes back with faucet, but the fact my colleagues had to Google it shows how infrequent it is used. This bullet for my colleagues could mean or imply "get your filtered water from the pot-head next door" or as "curly" and could imply filter water will give you curly hair or you should get filtered water from curly hair. *Llave* was suggested as a possible alternative, but that brings with it the problem that its first definitional meaning is "key".

Is it possible to just do away with this word in its entirety and just say "filter your water" if no acceptable term is found?

The other issue is not what is there but what was removed from the original CDC flyer and is a huge cultural issue. In the original CDC flyer, "Hervir el agua no elimina el plomo" (boiling water does not remove lead) has been removed from the State's version. We'd like to reiterate that this is a huge obstacle of understanding for many in the Hispanic community – going as far as being the one infographic the Genesee County Hispanic/Latino Collaborative self-produced several weeks ago. Putting this back in would be a good thing, particularly because we are telling folks it is okay to use unfiltered water for washing dishes (bottles etc.).

The final issue is coverage/access to 2-1-1 using a minute phone/disposable which was raised two weeks ago. If 2-1-1 has fixed the technical problem then no fix on the brochure is needed; if not the flyer should include the alternative number.

---

**From:** Banner, Shanon (MSP)
**Sent:** Monday, February 08, 2016 10:45 PM
**To:** MSP-SEOCPIO; Kelenske, Chris (MSP)
**Subject:** Talking points for Congressional Call

Captain Kelenske,

Attached are talking points you can use on tomorrow's Congressional/Legislative conference call. It was mentioned you want to provide a total number of homes visited during the briefing. I'm not exactly sure what figure you had in mind, whether it is total number of occupied residences or a percentage of homes with filters, etc. so I put something in there, but left that bullet point highlighted. I also saw the note not to use the numbers in the attachments.

So you are aware, I have asked both DHHS and DEQ to have representatives prepared to give a briefing on the call; however, it sounds like they will both have reps on the call for questions, but do not plan to give a proactive report.

Please advise if you need anything further.

**Subject:** Re: News release for approval

This from Jeff Kelly at EPA.

We've looked at this version. We're not concerned about the information presented; however, we feel that it will cause confusion and highlight an issue that probably doesn't need to be raised as a press release.

For example, discussing the RDA for copper in the same paragraph describing health issues related to too much copper is mixing messages. They may want to take that entire paragraph out.

Also, the news release talks about the filters not being able to remove copper, then tells people where to go get filters.

**Subject:** Pregnancy issues I thought you should be aware of

Understanding that finding and using the appropriate word(s) is part of the mix, we have a couple issues that need to be addressed in the Spanish version of the Pregnancy flyer. I spoke with several members of staff who happen to speak Spanish and/or grew up in a Spanish speaking households/communities as I wanted them to know we had this brochure available. They were kind enough to reach out to several folks who they know who have done or currently offer Spanish translation services just to double check.

Bullet #2 "Filtre el agua *del grifo*"

While technically correct in the Spanish language (as that taught in a high school/college level language class based on Spanish linguistics) and agreed to by the translators, it may be too proper for use here – it is written at too high a level of reading comprehension. Google translator comes back with faucet, but the fact my colleagues had to Google it shows how infrequent it is used. This bullet for my colleagues could mean or imply "get your filtered water from the pot-head next door" or as "curly" and could imply filter water will give you curly hair or you should get filtered water from curly hair. *Llave* was suggested as a possible alternative, but that brings with it the problem that its first definitional meaning is "key".

Is it possible to just do away with this word in its entirety and just say "filter your water" if no acceptable term is found?

The other issue is not what is there but what was removed from the original CDC flyer and is a huge cultural issue. In the original CDC flyer, "Hervir el agua no elimina el plomo" (boiling water does not remove lead) has been removed from the State's version. We'd like to reiterate that this is a huge obstacle of understanding for many in the Hispanic community – going as far as being the one infographic the Genesee County Hispanic/Latino Collaborative self-produced several weeks ago. Putting this back in would be a good thing, particularly because we are telling folks it is okay to use unfiltered water for washing dishes (bottles etc.).

The final issue is coverage/access to 2-1-1 using a minute phone/disposable which was raised two weeks ago. If 2-1-1 has fixed the technical problem then no fix on the brochure is needed; if not the flyer should include the alternative number.

**Subject:** Feedback from EPA teams

FYI –

We had someone from EPA report to the JIC that their field teams are hearing that seniors who they visit are not receiving bottled water. Our advice was that they advise them to call 2-1-1 for assistance.

I don't know if the EPA teams who visit homes are supplied with bottled water or if they know to call 2-1-1 for homebound people.

**Sent:** Monday, February 08, 2016 3:14 PM
**To:** MSP-SEOCPIO
**Subject:** FW: Congressional Call

Kyle,

We are planning a Congressional call for 2:30 p.m. tomorrow. We will ask MDHHS and MDEQ to have reps on the call. As noted below, our plan is to indicate this would be the last call, unless there are objections. Will Captain Kelenske be available, and if he is does he want to give a brief operational update before turning it over to the other agencies? I figure he can talk about the new warehouse for water donations, as this has been a topic on previous calls.

**From:** Holland, Meegan (GOV)

**Subject:** FW: Full List of Residential Results for February 7, 2016
**Importance:** High

Hi Darlene, Attached please find for posting to the Flint Water website, the Residential Results as of February 7, 2016. This information has also been provided to Meegan Holland.

Please let me know if you have any questions.

**This note is for Sunday, February 7, 2016. There were changes in the report so, if Darlene could make the title the following for the web, everything should be clear: "Flint Residential Testing Report – results collected through February 5, 2016 (posted February 7, 2016)" or something equivalent.** ☺

Please find attached the full list of residential results through the date listed above (5 attachments). Please note that this version includes concentrations in ppb and the street number is separated from street name to make it easier to find the address. Also, there are pdfs of the two worksheets for people who don't have Microsoft office. All have been prepped for the web minus the naming convention that is usually used. I will follow this format going forward. **If I fail to do that then please let me know**:

1. For the accordion on the lower left under the title "School and Residential Testing Results, the following are to Replace current and see above for language changes (3 attachments):

   **Asset # 512083** – February 7 2016 Test Results Flint.xlsx
   **Asset# 512511** – February 7 2016 Test Results Flint_Sorted By Address.pdf
   **Asset# 512510** – February 7 2016 Test Results Flint_Sorted by Lead Concentration.pdf

2. For the same accordion underneath the DEQ reports to EPA, The Test Results Flint DEQ Reports to the EPA Asset needs updating (1 attachment):

   **Asset# 512820** - February 7 2016 Test Results Flint_DEQ Reports to the EPA.xlsx

3. The following is for the MSP-SEOCGIS for geocoding (1 attachment) and not prepped for the web; Please send to **MSP-SEOCGIS@michigan.gov and MSP-SEOCGIS2@michigan.gov**

   February 7 2016 Test Results Flint_For MSP-SEOCGIS.xlsx

4. Calculations as requested:

   Total number of samples: 7948

   7430 out of 7948 (94%) are at or below 15 ppb (518 above)
   <5 ppb: 6513 (82%)
   5-15 ppb: 917(11%)
   > 15 ppb: 518 (7%)
   >30 ppb: 279 (4%)
   >100 ppb: 87 (1%)
   >150 ppb: 62 (0.8%)

Please note that the results are for all samples reported out through today February 7, 2016 in all documents. In addition, the workbooks (XLSX) contains two tabs: One has the data sorted by Lead concentration and the other is sorted by address.

Posting this data in a timely manner upon approval from the Governor's office is of the essence so that we can comply with the order issued by EPA.

**Please post this to the website ASAP and make sure that all are posted so that people can look at the version that they are interested in.**

**Thank you!!!**

**Subject:** FW: Congressional Call

Kyle,

We are planning a Congressional call for 2:30 p.m tomorrow. We will ask MDHHS and MDEQ to have reps on the call. As noted below, our plan is to indicate this would be the last call, unless there are objections. Will Captain Kelenske be available, and if he is does he want to give a brief operational update before turning it over to the other agencies? I figure he can talk about the new warehouse for water donations, as this has been a topic on previous calls.

**Subject:** FW: Full List of Residential Results for February 7, 2016
**Importance:** High

Hi Darlene, Attached please find for posting to the Flint Water website, the Residential Results as of February 7, 2016. This information has also been provided to Meegan Holland.

Please let me know if you have any questions.

**This note is for Sunday, February 7, 2016. There were changes in the report so, if Darlene could make the title the following for the web, everything should be clear: "Flint Residential Testing Report – results collected through February 5, 2016 (posted February 7, 2016)" or something equivalent. ☺**

Please find attached the full list of residential results through the date listed above (5 attachments). Please note that this version includes concentrations in ppb and the street number is separated from street name to make it easier to find the address. Also, there are pdfs of the two worksheets for people who don't have Microsoft office. All have been prepped for the web minus the naming convention that is usually used. I will follow this format going forward. **If I fail to do that then please let me know**:

1. For the accordion on the lower left under the title "School and Residential Testing Results, the following are to Replace current and see above for language changes (3 attachments):

   **Asset # 512083** – February 7 2016 Test Results Flint.xlsx
   **Asset# 512511** – February 7 2016 Test Results Flint_Sorted By Address.pdf
   **Asset# 512510** – February 7 2016 Test Results Flint_Sorted by Lead Concentration.pdf

2. For the same accordion underneath the DEQ reports to EPA, The Test Results Flint DEQ Reports to the EPA Asset needs updating (1 attachment):

   **Asset# 512820** - *February 7 2016 Test Results Flint_DEQ Reports to the EPA.xlsx*

3. The following is for the MSP-SEOCGIS for geocoding (1 attachment) and not prepped for the web; Please send to **MSP-SEOCGIS@michigan.gov and MSP-SEOCGIS2@michigan.gov**

   February 7 2016 Test Results Flint_For MSP-SEOCGIS.xlsx

4. Calculations as requested:

   Total number of samples: 7948

   7430 out of 7948 (94%) are at or below 15 ppb (518 above)
   <5 ppb: 6513 (82%)
   5-15 ppb: 917(11%)
   > 15 ppb: 518 (7%)
   >30 ppb: 279 (4%)
   >100 ppb: 87 (1%)
   >150 ppb: 62 (0.8%)

Please note that the results are for all samples reported out through today February 7, 2016 in all documents. In addition, the workbooks (XLSX) contains two tabs: One has the data sorted by Lead concentration and the other is sorted by address.

Posting this data in a timely manner upon approval from the Governor's office is of the essence so that we can comply with the order issued by EPA.

**Please post this to the website ASAP and make sure that all are posted so that people can look at the version that they are interested in.**

**Thank you!!!**

## MSP-SEOCPIO

**From:** Banner, Shanon (MSP)
**Sent:** Monday, February 08, 2016 3:14 PM
**To:** MSP-SEOCPIO
**Subject:** FW: Congressional Call

Kyle,

We are planning a Congressional call for 2.30 p.m. tomorrow. We will ask MDHHS and MDEQ to have reps on the call. As noted below, our plan is to indicate this would be the last call, unless there are objections. Will Captain Kelenske be available, and if he is does he want to give a brief operational update before turning it over to the other agencies? I figure he can talk about the new warehouse for water donations, as this has been a topic on previous calls.

**Subject:** any thoughts on this?

I am alarmed at reports that people imprisoned in Flint's county jail, including pregnant women, are being forced to bathe, wash clothes, brush their teeth, and eat food cooked with Flint's tainted water. Men and women now receive just two 12-ounce bottles of water, two times a day. The Institute of Medicine recommends that men and women drink 100 and 73 ounces of water, respectively, every single day. As you know, lead leads to an increase in violent behavior and more frequent and more serious involvement with the criminal justice system. This is the opposite of rehabilitation. It is arbitrary, cruel and unusual punishment. It violates the Fifth, Eighth, and 14th Amendment due process rights of those human beings whose lives the courts have entrusted to the State's custody, protection, and care. It especially punishes the innocent unborn children of these prisoners, as well as the family members who must suffer with the victims' increased violent behavior and diminished mental capacity upon their release. As you know, current lead contamination levels overwhelm the current capacity of water filtration systems. I urge you to provide adequate bottled water for all prisoners' sanitation, health, and nutritional needs.

**To:** Harris, Darlene (DEQ)
**Cc:** JICManager; MDEQ-ECC-IMT; Holland, Meegan (GOV); Hawks, Trevor (MSP); Norton, Susan (DEQ); Brown, Elizabeth (DNR); MSP-SEOCGIS; MSP-SEOCGIS2; Golder, Edward (DNR); Creagh, Keith (DEQ); MSP-EOC-MDEQ; MSP-SEOCPIO
**Subject:** FW: Full List of Residential Results for February 7, 2016
**Attachments:** February 7 2016 Test Results Flint_For MSP-SEOCGIS.xlsx; February 7 2016 Test Results Flint.xlsx; February 7 2016 Test Results Flint_Sorted by Address.pdf; February 7 2016 Test Results Flint_Sorted by Lead Concentration.pdf; February 7 2016 Test Results Flint_DEQ Reports to EPA xlsx

**Importance:** High

Hi Darlene, Attached please find for posting to the Flint Water website, the Residential Results as of February 7, 2016. This information has also been provided to Meegan Holland.

Please let me know if you have any questions.

**This note is for Sunday, February 7, 2016. There were changes in the report so, if Darlene could make the title the following for the web, everything should be clear: "Flint Residential Testing Report – results collected through February 5, 2016 (posted February 7, 2016)" or something equivalent.** ☺

Please find attached the full list of residential results through the date listed above (5 attachments). Please note that this version includes concentrations in ppb and the street number is separated from street name to make it easier to find the address. Also, there are pdfs of the two worksheets for people who don't have Microsoft office. All have been prepped for the web minus the naming convention that is usually used. I will follow this format going forward. **If I fail to do that then please let me know**:

1. For the accordion on the lower left under the title "School and Residential Testing Results, the following are to Replace current and see above for language changes (3 attachments):

   **Asset # 512083** – February 7 2016 Test Results Flint.xlsx
   **Asset# 512511** – February 7 2016 Test Results Flint_Sorted By Address.pdf
   **Asset# 512510** – February 7 2016 Test Results Flint_Sorted by Lead Concentration.pdf

2. For the same accordion underneath the DEQ reports to EPA, The Test Results Flint DEQ Reports to the EPA Asset needs updating (1 attachment):

   **Asset# 512820** - February 7 2016 Test Results Flint_DEQ Reports to the EPA.xlsx

3. The following is for the MSP-SEOCGIS for geocoding (1 attachment) and not prepped for the web; Please send to **MSP-SEOCGIS@michigan.gov and MSP-SEOCGIS2@michigan.gov**

   February 7 2016 Test Results Flint_For MSP-SEOCGIS.xlsx

4. Calculations as requested:

Total number of samples: 7948

7430 out of 7948 (94%) are at or below 15 ppb (518 above)
<5 ppb: 6513 (82%)
5-15 ppb: 917(11%)
> 15 ppb: 518 (7%)
>30 ppb: 279 (4%)
>100 ppb: 87 (1%)
>150 ppb: 62 (0.8%)

Please note that the results are for all samples reported out through today February 7, 2016 in all documents. In addition, the workbooks (XLSX) contains two tabs: One has the data sorted by Lead concentration and the other is sorted by address.

Posting this data in a timely manner upon approval from the Governor's office is of the essence so that we can comply with the order issued by EPA.

**Please post this to the website ASAP and make sure that all are posted so that people can look at the version that they are interested in.**

**Thank you!!!**

FYI –

We had someone from EPA report to the JIC that their field teams are hearing that seniors who they visit are not receiving bottled water. Our advice was that they advise them to call 2-1-1 for assistance.

I don't know if the EPA teams who visit homes are supplied with bottled water or if they know to call 2-1-1 for homebound people.

Do you have a list documents that have been requested for translation? We're trying to get a hold on a few things.

As it stands, it seems we have been making the request through the MSP-SEOCPIO account and they get translated and come back from Karen Phillippi.

**Subject:** Feedback from EPA teams

FYI –

We had someone from EPA report to the JIC that their field teams are hearing that seniors who they visit are not receiving bottled water. Our advice was that they advise them to call 2-1-1 for assistance.

I don't know if the EPA teams who visit homes are supplied with bottled water or if they know to call 2-1-1 for homebound people.

**Subject:** Media with ARC Teams - Monday 9:00

PIO,

We learned on the 6:30 Distribution Process Meeting call tonight, that media are planning to embed with an ARC/NCCC team tomorrow (Monday) morning. Is ARC or United Way engaged in providing talking points or being present when media joins them? The ARC want to ensure team members are adequately prepared.

Thanks!

Hi all - see my email from late Friday. Is there any word on the status of the Spanish translation of the "No ID" press release? My leadership is really concerned that it is not on the website. Thanks for any insight you can provide.

Vicki

> Hi all - I was checking the translated docs on the FlintWater website. I see no Spanish translation of the "No ID required" press release, but it is there in Mandarin and Arabic. The ID issue was primarily a problem for Spanish-speaking undocumented residents who were afraid to go get water. Let me know if it exists and just isn't appearing on the website for some reason. If it hasn't been translated, we need to put through the request.

**To:** MSP-SEOCPIO
**Subject:** FW: Updated Stakeholder List and Speakers Bureau
**Attachments:** Master Speakers Bureau Flint Water Response.xlsx; Flint Water Response Stakeholders Contact List.xlsx

Hi Kyle,

Our federal partners are asking for our help in obtaining email addresses for churches. This may be a request better handled by the local EOC. I am aware Lt. Roach was working with the faith community. Can you ask around and see who can assist with this?

Thanks,
Shanon

**Subject:** Updated Stakeholder List and Speakers Bureau

JIC Manager,

Please find attached a list of the Flint Water Response information we have complied. Please feel free to add and exchange information we may not have. Although we have a good list of churches, we have very limited email contact information for the faith based organizations. Can you provide us with any faith-based email addresses you may have. Thank you in advance.

Subject: Information for public distribution?

These documents came to us along with the suggestion that they be widely shared with the public. Are there bulk copies already printed that our crews could distribute along with water?

These were downloaded from WebEOC, but we'd appreciate a confirmation that they are approved for general distribution (as we'd like to have copies available here at the VRC, too).

A supplemental question would be: are they available in Spanish as well? The pregnancy flyer is the only one we were given a Spanish version for.

Thank you.

| **Subject:** | Media with ARC Teams - Monday 9:00 |

PIO,

We learned on the 6:30 Distribution Process Meeting call tonight, that media are planning to embed with an ARC/NCCC team tomorrow (Monday) morning. Is ARC or United Way engaged in providing talking points or being present when media joins them? The ARC want to ensure team members are adequately prepared.

Thanks!

Is Chris asking that we roll out a "free lead testing" for all companion pets as well? Do we feel the need is great? If so, I will ask the MDARD to advise of a plan vs capability to do so. I think at this point, it is being advised that if citizens have a concern, they should see their veterinarian. Is he asking that "if" someone cannot afford to have this done, that it be done for free?

**Subject:** RE: Animal Lead Exposure

Below is the information the JIC has on pets.

Jen-- Can you determine if anywhere is offering free services to Flint residents?

- Whatever you are doing in your own home for water, you should do for your pets (e.g., filtered, bottled water).
- If you have any concerns about your animal's health, you should always work with a licensed veterinarian.
- There are a variety of diseases and issues that could mimic signs/symptoms of a lead-related issue, which is why it's critical to work with your vet to properly diagnose your pet.
- If a licensed vet suspects a possible lead-related issue, they contact MDARD and the department will work with them to have a sample tested. MDARD is covering the sample testing costs coming through veterinary offices.

To MDARD:

I think the BIGGEST concern is the service or companion animals. Those might tend to be more with functional needs population, who may also be unable to afford blood testing of pets. The question is, I think, what can we put out publically that may be an offer of assistance if needed for those concerned. #1 would be to see their family veterinarian, but for those who are unable, is there a place that will do it for no charge? If so, that information could be provided to 211 who could then assist in getting them the appropriate and available help.

Subject: Animal Lead Exposure
Importance: High

Dear MSP-OPS,

It has come to my attention that MDARD, GC Animal Control, and other 'animal' groups has held a tabletop in my AO without my inclusion and/or knowledge. This tabletop is reported to have been on companion animals and lead exposure through the current City of Flint emergency. It has also been reported that MDARD is taking a passive role in this emergency, dealing only with symptomatic animals and ignoring any animal not exhibiting symptoms (which is largely the only reason an animal would be tested).

IF humans are being proactively engaged, why are animals not being included in this approach. This would seem to contradict the spirit of the PETS Act, which was originally implemented to ensure animals were an active consideration during disasters/emergencies. It is my intention to ensure that a more proactive companion animal piece is brought to the table despite any 'political' ramifications that are being conveyed to myself as "valid" reasons not to engage that population.

As Michigan has both the Michigan State Animal Response Team and the Michigan Veterinary Medical Reserve Corps, I do not understand why MDARD has not offered these resources to ascertain the level of lead poisoning in companion animals within the City of Flint.

INTERNATIONAL ACADEMY OF
PRECISION MEDICINE

To all concerned about Lead Poisoning from Flint, Michigan Water,

Many reports about the effects of Flint's Toxic Water have stated that Lead Poisoning and its effects are irreversible. I want to assure you and your loved ones that Lead Poisoning and the disabilities it causes ARE Treatable AND Reversible. There IS hope.

I am an MD who routinely assists patients and clinicians in understanding how to detoxify lead and other heavy metals from the body. I have seen great successes in my patients, including children and adults, and I want to assure that you have some information that enables you and your loved ones to heal from this tragedy.

I created a **free** Video Series for the residents of Flint called "You CAN Heal from Lead Poisoning". These videos will begin to inform you about what you can do, and why you may not be hearing about these options. You can freely access the Videos online at **LeadPoisoning.solutions**.

Lead Poisoning Treatment | International Academy of Precision Medicine

leadpoisoning.solutions

Videos that offer solutions to the lead poisoning in water,

Please share this life changing information with everyone.

Sincerely,

Charles Gant, MD, PhD

*Director of Education and Training*
International Academy of Precision Medicine

**Subject:** FW: Animal Lead Exposure

BJ,

Please advise if you feel we need to take further action. I know Brad and MDARD have been very involved in this. Is Chris asking that we roll out a "free lead testing" for all companion pets as well? Do we feel the need is great? If so, I will ask the MDARD to advise of a plan vs capability to do so. I think at this point, it is being advised that if citizens have a concern, they should see their veterinarian. Is he asking that "if" someone cannot afford to have this done, that it be done for free?

**Subject:** RE: Animal Lead Exposure

Chris – I'm not sure where you're getting your information, but there was no tabletop exercise, and MDARD has not been passive in our activities. We did organize a call and included all the organizations we knew of who are interested in the animal component of this – which included Genesee County Animal Control and Genesee County Humane Society,

as well as MSU-College of Veterinary Medicine, MSU-DCPAH, Michigan DHHS, MVMA, MAACO, ASPCA, HSUS, USDA, and Red Rover. If you have time to be on these kinds of calls in the future, you are certainly welcome to be.
The direction and messaging on pets has been consistent and in place since last October – water for pets should be the same as water for people, and if pet owners are concerned about lead toxicity they should contact their veterinarian. On the call with the wide range of partners, strategies for outreach, testing, and treatment were discussed and that's what we and all these other groups are working on. As I'm sure you understand, the complexities in implementing these kinds of field activities are enormous and require resources beyond what any one agency or group or institution can accomplish alone. As the planning for this continues, if the Genesee County Animal Control is not the correct local lead, we will include whatever entity should be involved.
If there is a specific request from the City of Flint for something related to pets, please identify exactly what the request is, and the SEOC will try to coordinate that.

Dear MSP-OPS,

It has come to my attention that MDARD, GC Animal Control, and other 'animal' groups has held a tabletop in my AO without my inclusion and/or knowledge. This tabletop is reported to have been on companion animals and lead exposure through the current City of Flint emergency. It has also been reported that MDARD is taking a passive role in this emergency, dealing only with symptomatic animals and ignoring any animal not exhibiting symptoms (which is largely the only reason an animal would be tested).

IF humans are being proactively engaged, why are animals not being included in this approach. This would seem to contradict the spirit of the PETS Act, which was originally implemented to ensure animals were an active consideration during disasters/emergencies. It is my intention to ensure that a more proactive companion animal piece is brought to the table despite any 'political' ramifications that are being conveyed to myself as "valid" reasons not to engage that population.

As Michigan has both the Michigan State Animal Response Team and the Michigan Veterinary Medical Reserve Corps, I do not understand why MDARD has not offered these resources to ascertain the level of lead poisoning in companion animals within the City of Flint.

Please advise,

**Subject:** FW: Animal Lead Exposure

**To MDARD:**

I think the BIGGEST concern is the service or companion animals. Those might tend to be more with functional needs population, who may also be unable to afford blood testing of pets. The question is, I think, what can we put out publically that may be an offer of assistance if needed for those concerned. #1 would be to see their family veterinarian, but for those who are unable, is there a place that will do it for no charge? If so, that information could be provided to 211 who could then assist in getting them the appropriate and available help.

I am copying PIO, JIC Manager, and DHHS for awareness and Gov's office as follow up. Please include them in response. Thanks!

BJ, to the question about water testing, certainly that can be done...will you assist in accomplishing that?

Hi, Chris is referring to companion pets and Scott just confirmed the two houses he went to yesterday had pets with issues. Mike Decastro has been to houses and advised of pet issues up to death. Pet owners are starting to inquire. This is an email sent to Scott from the Governor's Ofc -- as you can see they talk about pet issues too. I think we will see/hear more of this. BJ

Hey there- this is an odd one.....

Would you mind having someone look at this one for us OR would someone be able to provide her a water test kit?

Riverview Subdivision, across from McClaren Hospital

When they first turn on water has a strong odor of chlorine
Four large breed dogs displaying unexplainable symptoms
Vet's name is
They have been refused water test kit because they live in the township
In their subdivision some people are on township water and some on city
She would really like her water tested

Please advise

**Subject:** RE: Questions from Tele-town hall

Good afternoon,

Please see the below response to your first two questions below.

*What services are available for "senior citizens experiencing adverse effects from the lead?*

*What treatments are available for folks over the age of 18?*

Adults, including senior citizens, should see their healthcare provider if they think they are feeling the effects of lead.

A health fact sheet can be located at: http://www.michigan.gov/flintwater/0,6092,7-345-75251_75372---,00.html

Concerned citizens can also call the Michigan Poison Control Center at: 1-800-222-1222

Good nutrition that is high in Iron, Calcium, and Vitamin C will also limit the effects of lead. For additional information, please visit: www.michigan.gov/flintwater.

Thank you.

Good morning!

Today is the official roll-out of the AIA Flint Safe Water Storage Guideline Campaign!

Board members will be dropping flyers off at key water resource centers around the city including; City of Flint fire stations 1, 3, 5, 6, & 8; Red Cross; select township fire stations.

News media was notified yesterday via press release of the campaign and the distribution that will begin today. Later this morning, an email will be sent to the AIA Flint membership inviting them to help distribute flyers to their contacts via email and dropping off at any water resource centers they are familiar with.

Remember, the campaign is not just today. So if you cannot participate in helping distribute flyers today, no worries. Feel free to email and drop flyers to anyone in the next week or two.

Please find attached the final single version of the flyer for email and final printable version with two flyers to an 8.5x11 sheet.

Thanks!

Best, Amanda

Tom,

So nice to speak with you today. I have attached our standard agreement template. As I mentioned, don't be scared by the needs list. I am sure some of the items will not be needed and others we will try to have donated. We will make every effort to keep costs at a minimum.

I will work with my local coordinators to put together a management team. As requested, I will look into possible donated warehouse space.

Please feel free to contact me if you have any questions or concerns. I look forward to collaborating with you.

Hi Charlene,

We're looking forward to discussing options with you! I've copied Chad Veeser who also works with volunteers, and Brianna Briggs, who's working with me on long term recovery planning. I'm going to be out much of today, but Chad was going to give you a call to discuss warehousing assistance, particularly with an old Kroger store we just signed a lease on. I believe it's about 75k square feet.

Please let me know if you need anything from me. Thanks!

Subject: Flint water crisis
Hi Charlene,

Jeannie was able to give me your email address to get a discussion going on warehousing support for the Flint water crisis. I'm the State VAL, and we're definitely open to support on the warehousing end of things! A few of the items that are on our list of questions would include:

- Potential commitment to warehouse management for an overflow space
- Length of potential commitment (Suggest, one year?)
- Requirements if committed: Only palletized parcels, or willingness to sort and palletize?
- Capacity of local volunteers and potential managers
- Plan/requirements for on-site training of a local team
- If only staffing option is to bring in a trained team from outside the area, what are the requirements (ie. volunteer housing)?
- Equipment needs/requirements

Again, thanks so much for your interest. I look forward to speaking with you very soon!

You might want to give Matt a call to check.

Thanks for helping us this week. Have a good weekend.

**Follow Up Flag:** Follow up
**Flag Status:** Completed

All,

Please read the below emails. From the best I can determine, we (JIC Manager and SEOC-PIO) should no longer have to worry about reviewing or posting any of the required testing reports (water, blood level, school, or food establishment) to www.michigan.gov/flintwater. These reports are now all routing through the DNR/DEQ Emergency Command Center directly to authorized web posters.

Other documents that need to be posted to the website (fact sheets, videos, etc ) should be sent to Meegan Holland for posting. Meegan will forward to an authorized person for posting to the site.

Thanks,
Shanon

**Subject:** RE: Document posting through the ECC

Hi Shanon,

Ed and I had a discussion about this, along with Nicole, and determined that these reports are being posted to comply with overall directives in the EPA Order and therefore will be routed through the DEQ administrators for posting on the website. Nicole will, however, be sure to copy Meegan, JICManager, SEOCPIO, etc. when she sends the information to be posted so you will all be aware what reports are about to be posted on the website. She has also been tasked by Ed and Meegan to raise awareness about any red flags.

Please let me know if you have any questions.

Thanks!
Kerry

**Subject:** RE: Document posting through the ECC

Hey, Shannon:

Yes, the EPA-required reports that had previously routed through the SEOC PIO will now be posted directly by Darlene, Eric and Trevor following review by the Emergency Command Center here in Lansing. I am copying Kerry Wieber in the

ECC to see if she has an answer on the other specific reports you mention below. Kerry: Are these EPA-mandated documents? If not, I assume they will route through the SEOCPIO.

Thanks,

Ed

**To:** Golder, Edward (DNR)
**Subject:** FW: Document posting through the ECC

Hi Ed,

Thank you for sorting this out. Currently, the DEQ reports required by EPA are being sent to MSP-SEOCPIO@michigan.gov for posting. With this new arrangement, will the reports be sent directly to the approved web posters (Darlene, Eric and Trevor)? It seems that would be more efficient.

Also, I think this is clear from your message, but we also have reports for school water testing, blood level testing, and food establishment assessments that are sent to MSP-SEOCPIO for posting on the web. These other reports would not be covered by this agreement and should be sent to Meegan for posting, correct?

Thanks,
Shanon

**Sent:** Friday, February 05, 2016 1:58 PM
**To:** Holland, Meegan (GOV); Harris, Darlene (DEQ); Shaw, Eric (DEQ); Hawks, Trevor (MSP); Hagler, Gary (DNR); Wieber, Kerry (DNR); Colberg, Nicole (DNR); Creagh, Keith (DEQ); Brown, Melanie (DEQ)
**Subject:** Document posting through the ECC

All:

In order to ensure timely and compliant document posting under the EPA Order, the DEQ and the ECC are being given the authority to post documents directly to the Flint water website. The following individuals already have administrative access to the website. They will assume responsibility for document posting.

Primary: Darlene Harris (DEQ)
Back-up: Eric Shaw (DEQ)
Second back-up: Trevor Hawks (MSP)

These individuals either have the tools they need to post at various times of day and night as well as on the weekends, or they will be given the tools, including VPN access and cell phones as needed. Their sole responsibility for this purpose will be to post documents to the Flint Water website that comply with the EPA Order. Meegan Holland in the governor's office and her designees are responsible for all other aspects of the website.

*Thanks, and please let me know if you have any questions.*

**Subject:** RE: Document posting through the ECC

This is a great plan. Once the SEOC deactivates, I would only suggest that MSP be consulted to ensure that Trevor can remain as the third backup.

Is this effective immediately? I only ask because Scott Sarka and I are tweaking the website today. Residential water test Reports are posted not only under the tab "DEQ reports to EPA", but also under the Residential Water Test link. We're moving those to a new tab for school and residential test results. This is where the report WITH the addresses should be posted.

If I've confused the issue, then maybe it's best to keep Trevor posting through this weekend, and he can get with Darlene and Eric early next week.

Regards,
Meegan

**Cc:** CSA US Group
**Subject:** Flint Water Donations from Canada (US Customs concerns)

Good afternoon Janet,

I hope this email finds you well and having a wonderful day, enjoying the sunshine.

I am writing to you from Buckland Global Trade, a US Customs Broker located in Port Huron, MI.

The reason for this letter is to request any possible information you may have concerning importations of water coming from Canada in regard to the Flint water crisis. We have received word from a carrier company in Canada who is interested in arranging efforts throughout the month of February to have truckloads of bottled water brought from Canada across the border and over to Flint.

Of course, these shipments must be entered through US Customs and FDA. The issue is that these shipments require an importer of record for US Customs purposes. The carrier company that has generously volunteered their time and efforts is not able to act as the importer for these shipments, nor does he have the FDA information necessary to do so.

I have spoken with Carol Ross at the Food Bank of Eastern Michigan and she suggested that you might be the best person to speak to in order to find out information on the water shipments that have recently come from Canada and how they were handled as far as the importation through Customs was concerned. Any information you can give us would be greatly appreciated.

We would love to be able to assist this gentleman and his company in their generous offer.

Thank you in advance for your time.

Kindest regards,

**Athena Bedford**

State Encourages Food Establishments to take Advantage of Free Water Safety Inspections Local and State Leaders Showcase Water Assessments Done at Flint Food Establishments

FOR IMMEDIATE RELEASE
February 5, 2016
Release #: 31

Flint, Mich. - In an effort to support Flint food-based businesses, Lt. Gov. Brian Calley, along with local and state food regulators and business development officials, provided a behind-the-scenes look at how the Michigan Department of Agriculture and Rural Development (MDARD) and Genesee County Health Department are working with local food establishments to conduct water assessments and ensure food safety precautions are in place.

"Flint has hundreds of restaurants, retail food markets and food processors committed to serving its residents safely," Calley said. "These establishments can now receive free assessments from MDARD and the Genesee County Health Department to ensure food safety precautions are in place."

"In response to this emergency and the need to assess lead levels in water being used at Flint food establishments, MDARD has mobilized 14 food inspectors, working full-time to conduct risk-based compliance assessments and verify adherence to current water source requirements," said MDARD Director Jamie Clover Adams. "MDARD inspectors are assisting the Genesee County Health Department in conducting the sampling and inspections, allowing the health department to focus its efforts on checking other priority facilities in its jurisdiction, including childcare facilities."

Food establishments must take extra precautions to protect food safety during the Flint water emergency. These precautions include having the water tested by an accredited laboratory to prove it is safe to use; installing approved water filters, as needed; flushing unfiltered faucets and hard-plumbed equipment on a daily basis; or using commercially bottled water for all cooking, cleaning/washing and drinking.

"Flint's restaurants and other food establishments are demonstrating they are taking the necessary precautions to reduce potential food safety risks associated with Flint water," said Mark Valacak, Health Officer, Genesee County Health Department. "Safe food preparation and handling is the cornerstone of any food business's success, and we are dedicated to working cooperatively with MDARD and the food service establishments we regulate to ensure the safety of our food supply."

The State of Michigan is covering the cost of water sample testing for food establishments on the City of Flint water supply.

"The restaurants, bars, cafes and other food businesses, like the Flint Farmers' Market, in Flint are the backbone of the city's culture and economic success, and help define who we are as a community," said George Wilkinson, Group Vice President, Flint & Genesee Chamber of Commerce. "Whether a relative new-comer or a well-established dining institution, we need to do whatever we can to support Flint food businesses and ensure their success."

Flint has a total of 633 licensed food businesses, including restaurants, food processors and retail grocery stores. Assessments have been prioritized according to risk, with those in known high-lead areas taking first priority, and by request from food establishments. Food businesses who have not yet had an assessment or free water sample testing can call MDARD's Call Center at 800-292-3939 to schedule an appointment.

As of Feb. 4, MDARD has completed approximately 225 initial assessments of food businesses and has begun doing follow-up assessments. If the businesses are taking the required precautions, they are determined to be in compliance with state and federal food regulations. A list of food businesses determined to be in compliance with current water use regulations is available at www.michigan.gov/flintwater<http://www.michigan.gov/flintwater>. The list is updated regularly.

Flint food businesses not included on the list are not necessarily out of compliance with Michigan food regulations. Some businesses have not yet received a compliance assessment from food inspectors.

Initial water samples taken at the facilities were "first-draw" samples, taken when the water had not been in use for at least six hours. If first-draw samples showed any lead levels, follow-up samples are being taken. MDARD will continue to work with businesses to make sure they are in compliance with water use requirements and assist them in getting water test sample results below detectable levels.

For more information, or to schedule a food establishment water assessment, contact MDARD at 800-292-3939.

###

NOTE: ALL MEDIA INQUIRIES ARE BEING HANDLED BY THE JOINT INFORMATION CENTER AT 888-EMD-TODAY (888-363-8632). FOR FLINT WATER EMERGENCY DONATION INFORMATION, GO TO www.helpforflint.com<http://www.helpforflint.com/>.

This note is for Thursday February 4, 2016 Also, on the Content # 75373 there is unwanted assets appearing. Please remove the following, since they appear in the new documents attached. I am not sure how they all have the same asset numbers but appear on the page:
Flint Residential Testing Report Sorted by Lead Concentration - results through February 2, 2016 [PDF icon]
<http://www.michigan.gov/documents/flintwater/January_29_2016_Test_Results_Flint_Sorted_by_Lead_Concentration_512510_7.pdf>
Flint Residential Testing Report Sorted by Address - results through February 1, 2016 [PDF icon]
<http://www.michigan.gov/documents/flintwater/January_29_2016_Test_Results_Flint_Sorted_by_Address_512511_7.pdf>
Flint Residential Testing Report - results through February 1, 2016 [Excel icon]
<http://www.michigan.gov/documents/flintwater/Flint_Residential_Testing_Report_January_26_2016_512083_7.xlsx>
Please find attached the full list of residential results through the date listed above (5 attachments). Please note that this version includes concentrations in ppb and the street number is separated from street name to make it easier to find the address. Also, there are pdfs of the two worksheets for people who don't have Microsoft office. All have been prepped for the web minus the naming convention that is usually used. I will follow this format going forward. If I fail to do that then please let me know:
1. For the web page http://www.michigan.gov/flintwater/0,6092,7-345-75251_75373---,00.html , found under the accordion lower left "Keeping lead out: Water Test Results and Reports"/ "Keeping lead out of the home: Tips and Residential Water Test Results", the following are to Replace current and renamed in the content page to end with this date of February 4, 2016 (3 attachments):
Asset # 512083 – February 4 2016 Test Results Flint.xlsx
Asset# 512511 – February 4 2016 Test Results Flint_Sorted By Address.pdf
Asset# 512510 – February 4 2016 Test Results Flint_Sorted by Lead Concentration.pdf
2. For the same accordion underneath the DEQ reports to EPA, The Test Results Flint DEQ Reports to the EPA Asset needs updating (1 attachment):
Asset# 512820 - February 4 2016 Test Results Flint_DEQ Reports to the EPA.xlsx
3. The following is for the MSP-SEOCGIS for geocoding (1 attachment) and not prepped for the web:
February 4 2016 Test Results Flint_For MSP-SEOCGIS.xlsx
Please note that the results are for all samples reported out through today February 4, 2016 in all documents. In addition, the workbooks (XLSX) contains two tabs: One has the data sorted by Lead concentration and the other is sorted by address.
Posting this data in a timely manner upon approval from the Governor's office is of the essence so that we can comply with the order issued by EPA.
Please post this to the website ASAP upon approval of the Governor's office and make sure that all are posted so that people can look at the version that they are interested in.
Thank you!!!

Hi team,

Would you be able to provide me some information RE: the following:

What services are available for "senior citizens experiencing adverse affects from the lead?

What treatments are available for folks over the age of 18?

Why can the reimbursement of water bills be cash?

Thank you,

Laura Stoken

**From:** Athena Bedford <ABedford@buckland.com>
**Sent:** Wednesday, February 3, 2016 3:01 PM
**To:** Hunter, Janet (DHHS)
**Cc:** CSA US Group
**Subject:** Flint Water Donations from Canada (US Customs concerns)

Good afternoon Janet,

I hope this email finds you well and having a wonderful day, enjoying the sunshine.

I am writing to you from Buckland Global Trade, a US Customs Broker located in Port Huron, MI.

The reason for this letter is to request any possible information you may have concerning importations of water coming from Canada in regard to the Flint water crisis. We have received word from a carrier company in Canada who is interested in arranging efforts throughout the month of February to have truckloads of bottled water brought from Canada across the border and over to Flint.

Of course, these shipments must be entered through US Customs and FDA. The issue is that these shipments require an importer of record for US Customs purposes. The carrier company that has generously volunteered their time and efforts is not able to act as the importer for these shipments, nor does he have the FDA information necessary to do so.

I have spoken with Carol Ross at the Food Bank of Eastern Michigan and she suggested that you might be the best person to speak to in order to find out information on the water shipments that have recently come from Canada and how they were handled as far as the importation through Customs was concerned. Any information you can give us would be greatly appreciated.

We would love to be able to assist this gentleman and his company in their generous offer.

Thank you in advance for your time.

Kindest regards,

**Athena Bedford**

Hello,

The below article is being sent to the JIC for approval. We are hoping to include it in our monthly external newsletter. Thanks!

**MSP Assists with Flint Water Response Efforts**

The MSP is actively involved in the state's ongoing response to the health and safety issues caused by lead in the city of Flint's drinking water.

On January 5, Governor Rick Snyder declared a state of emergency for Genesee County, making available all state resources to ensure Flint residents have access to safe water. As part of this effort, Governor Snyder activated the State Emergency Operations Center (SEOC), which is overseen by the MSP Emergency Management & Homeland Security Division.

The SEOC continues to be activated and is responsible for coordinating response and recovery efforts by state, local and federal agencies. The SEOC is staffed by members of state agencies and other partners for decision making and information coordination during disasters or emergencies in Michigan. The state's Joint Information Center (JIC) is also operational to help coordinate public information.

In addition to working in the activated emergency facilities, members of the MSP also helped distribute water resources to Flint residents, including many department members who volunteered their time during the Martin Luther King, Jr. Day holiday weekend.

For updates on the Flint water situation, visit www.michigan.gov/flintwater. To find out how you can help, visit www.helpforflint.com.

**Subject:** Vendor Information button

FYI - I noticed this afternoon there is now a Vendor Information button on www.helpforflint.com. This is something we have been seeking for the last couple of weeks.

This information should be shared with our JIC hotline operators, 211, and the local EOC, as they can now refer callers who want to pitch their products there.

Please also add to our Internal Talking Points document.

Thanks!

# Talking Points: Flint, Michigan Water Contamination

February 3, 2016

## Daily Numbers

*Reported at 8 a.m. on February 3, 2016*

As of February 3, 2016, the following commodities were requested by and provided to the state of Michigan in support of the response to the emergency conditions resulting from contaminated water in the city of Flint.

- 1,581,894 liters of water
- 102,520 water filter replacement cartridges
- 40,000 water and pitcher filters

## Major Disaster Declaration/Full EM Denial

- Governor Snyder's January 20, 2016, appeal for a major disaster declaration for contamination and damage to the public water system in the City of Flint was denied on January 22, 2016. After review, FEMA determined that this event does not meet the statutory definition of major disaster under the Robert T. Stafford Disaster Relief and Emergency Assistance Act.

    - *IF ASKED:* To qualify for a "major disaster" declaration there must be a natural catastrophe or, regardless of cause, a fire, flood or explosion which causes damages of significant severity and magnitude to warrant a declaration. FEMA's assistance is intended to supplement the efforts and available resources of States, local governments, and disaster relief organizations in alleviating the damage and loss by the natural catastrophe, fire, flood or explosion. It was determined that the presence of lead in the Flint drinking water was not caused by a natural catastrophe, or by a fire, flood or explosion, so it does not qualify for a major disaster declaration.

- FEMA's assistance remains limited to what the President authorized in the Emergency Declaration on January 16, 2016. FEMA will, in coordination with the state, provide water, water filters, water filter cartridges, testing kits, and other necessary related items for a period of up to 90 days from the date of this declaration. The portions of the Emergency Declaration not granted can be appealed by the Governor.

- The decision means that the state can continue to work directly with other federal agencies and those agencies can provide assistance through their own authorities.

- On January 19, 2016, the U.S. Department of Health and Human Services (HHS) was designated as the lead federal agency responsible for coordinating federal government response and recovery efforts in Flint, Michigan.

- FEMA will support HHS as needed to identify and mobilize the capabilities of the rest of the federal partners – including the Small Business Administration, the Environmental Protection Agency (EPA), the Department of Housing and Urban Development (HUD) and the Department of Agriculture (USDA), and others—that are already working to help residents in Flint.

**HHS as Federal Response Lead**

- On January 19, 2016, the U.S. Department of Health and Human Services (HHS) was designated as the lead federal agency responsible for coordinating federal government response and recovery efforts in Flint, Michigan.

- Assistant Secretary for Preparedness and Response Dr. Nicole Lurie will lead this effort, supported by HHS Acting Assistant Secretary for Health Dr. Karen DeSalvo, as well as two U.S. Public Health Service officers.

- FEMA will support HHS as needed to identify and mobilize the capabilities of the rest of the federal partners – including the Small Business Administration, the Environmental Protection Agency (EPA), the Department of Housing and Urban Development (HUD) and Department of Agriculture (USDA), and others—that are already working to help residents in Flint.

- FEMA will work with the HHS team in Michigan to establish a collaborative process to best support state and local leaders with identifying the size and scope of the problem and help them develop and execute a plan to address the public health and infrastructure issues in Flint.

**Emergency Declaration**

- On January 14, FEMA received Governor Snyder's request for an Emergency Declaration, as well as a Major Disaster Declaration for emergency protective measures, temporary housing and repairs to homes and low-cost loans for covering uninsured loss of property, as well as other federal assistance.

- On January 16, 2016, President Barack Obama declared an emergency for Genesee County in the State of Michigan, limited to Direct Federal Assistance, as a result of the emergency conditions resulting from contaminated water in the city of Flint, authorizing FEMA to support the state in its efforts to respond to the incident.

- Under this emergency declaration, FEMA is authorized to provide emergency protective measures, Category B, limited to Direct Federal Assistance, under the Public Assistance program limited to 75 percent of the total eligible costs. FEMA will, in coordination with the state, provide water, water filters, water filter cartridges, testing kits, and other necessary related items for a period of up to 90 days from the date of this declaration.

**IF ASKED about period of assistance through EM (90 days):**

- FEMA's emergency assistance is designed to be supplemental and temporary in nature. FEMA, and our partners in other federal agencies, will be working closely with the state, county, and city officials to support those officials in the development of medium and longer term solutions to this problem.

- The state may submit a request to extend the current 90 day period of assistance established by the declaration, providing a valid reason that the extension is necessary.

**If ASKED about the $5 million cap on assistance**

- When the amount of federal assistance for an emergency declaration exceeds $5 million, FEMA is required to notify Congress.

**Other Federal Agency Assistance To-Date**

- U.S. Health and Human Services

    - The Department of Health and Human Services (HHS) Office of the Assistant Secretary for Preparedness and Response (ASPR) is working to identify vulnerable Flint residents who may not be able to travel to obtain filters and water testing kits. They are also working with the Centers for Medicare and Medicaid Services (CMS) to provide critical information needed for city responders to locate vulnerable residents and to help focus the city's outreach efforts.

    - HHS-funded health care centers in the area are offering free lead testing for their patients and are reaching out to patients to make them aware of the free testing. Exposed children will receive ongoing monitoring while they are health center patients. Health centers also are providing bottled water at their facilities and are assisting patients in obtaining bottled water or water filters in coordination with county-wide efforts.

    - HHS is helping educate residents who use HHS programs and services, such as Head Start programs and programs that serve seniors. In addition, HHS-funded local agencies on aging and community partners are reaching out to seniors and grandparents raising grandchildren to help them find water and filter distribution sites and to provide homebound residents with assistance in obtaining and installing filters.

    - The Centers for Disease Control and Prevention (CDC) is currently providing technical assistance to the Michigan state health department to assess lead exposure especially in homes with children. CDC also has provided recommendations on educational interventions for children affected by lead.

- U.S. Environmental Protection Agency

  - In mid-October, the EPA established a Flint Safe Drinking Water Task Force comprised of EPA scientists who are internationally recognized experts in the field of lead in drinking water. The EPA Task Force is providing technical assistance to the Michigan Department of Environmental Quality and the City of Flint to implement corrosion control treatment and to develop school and residential sampling protocols.

  - EPA is also conducting an audit of the Michigan Department of Environmental Quality (MDEQ) drinking water program – to examine MDEQ's implementation of the Safe Drinking Water Act and related rules on lead and copper, total coliform, nitrates and ground water. This comprehensive audit will provide Flint residents and the people of Michigan with more information about MDEQ oversight of public water supplies and will identify actions that may be needed to strengthen the Michigan drinking water program.

- Housing & Urban Development

  - Flint was identified as one of six target cities in the second round of the Strong Cities – Strong Communities (SC2) White House initiative in 2014. This program focuses on enhanced Federal agency support in areas of blight reduction, public safety and economic development.

  - Discussions are ongoing between the FEMA Region 5 SC2 program lead and Department of Housing and Urban Development (HUD) staff on the Flint water crisis impacts to SC2 programs and initiatives; as well as possible opportunities for collaboration through existing federal engagement with local, county and State agencies.

  - HUD is working closely with the city on economic development and interagency coordination. They have successfully assisted the city with the purchase and installation of water filters. HUD had an existing lead hazard grant to Flint, targeted to lead paint, $325,000 of which could be used for addressing the water lead contamination. Additionally, HUD has provided a data tracking and reporting system for the State of Michigan to use in its lead investigations.

- U.S. Army Corps of Engineers

  - The FEMA Region 5 Recovery Coordinator is in discussion with the United States Army Corps of Engineers to identify possible technical assistance and/or Subject Matter Experts on public water distribution systems, and possible courses of action.

- US Department of Agriculture

  - USDA has waived requirements on potable tap water availability at school meal service, allowing schools to provide bottled water. The Special Supplemental Nutrition Program for Women, Infants, and Children (WIC) is also allowing participants to use WIC vouchers for ready-to-feed infant formula, which does not need to be mixed with water, and participants can also swap powdered formula for ready-to-feed formula.

**Cc:** JICManager; Bolger, Matt (MSP); MSP-SEOCPIO; MSP-EOC-MDEQ; Lord, Daniel (DNR)
**Subject:** Re: Information clarification

Currently we do not seem to have a unified voice on this and we need to all agree on the numbers

DHHS needs to take the lead on this as my recommendation would be for bottled water for formula regardless of the lead level but that may run contrary to what current health recommendations are statewide and the health experts should direct this.

George

**Subject:** Re: Washington Post visit?

Thank you, Dianna.

I forwarded our message chain to the SEOC Logistics Lead, Wendy Galbreath. She'll follow up with the JIC.

The Red Cross is operating the warehouse under the auspices of the State. Since the State is responsible for the warehouse, media requests should go from the JIC to the SEOC Logistics team. Wendy will sort out where wires got crossed.

Dianna,
If the Washington Post wants to visit the warehouse, that request should come from the JIC to the Logistics Lead at the SEOC, Wendy Galbreath.

Because the request didn't follow this path, it's making wonder whether I'm missing a key detail or two. I have a SEOC briefing at 4pm. Let's try to touch base about this before then.

**Subject:** RE: Full List of Residential Results for February 2, 2016
**Importance:** High

### This note is for Tuesday February 2, 2016

Please find attached the full list of residential results through the date listed above (4 attachments). Please note that this version includes concentrations in ppb and the street number is separated from street name to make it easier to find the address. Also, there are pdfs of the two worksheets for people who don't have Microsoft office. All have been prepped for the web minus the naming convention that is usually used. I will follow this format going forward. **If I fail to do that then please let me know**:

1. For the web page http://www.michigan.gov/flintwater/0,6092,7-345-75251_75373---,00.html , found under the accordion lower left "Keeping lead out: Water Test Results and Reports"/ "Keeping lead out of the home: Tips and Residential Water Test Results", the following are to be added (3 attachments):

   Asset # 512083 – February 2 2016 Test Results Flint.xlsx
   Asset# 512511 – February 2 2016 Test Results Flint_Sorted By Address.pdf
   Asset# 512510 – February 2 2016 Test Results Flint_Sorted by Lead Concentration.pdf

2. For the same accordion underneath the DEQ reports to EPA, The Test Results Flint DEQ Reports to the EPA Asset needs updating:

   Asset# 512663 - February 2 2016 Test Results Flint_DEQ Reports to the EPA.xlsx

Please note that the results are for all samples reported out through today February 2, 2016 in all documents. In addition, the workbooks (XLSX) contains two tabs: One has the data sorted by Lead concentration and the other is sorted by address.

Posting this data in a timely manner is of the essence so that we can comply with the order issued by EPA.

**Please post this to the website ASAP and make sure that all are posted so that people can look at the version that they are interested in.**

**Thank you!!!**

**Cc:** Bolger, Matt (MSP) <BolgerM@michigan.gov>
**Subject:** RE: Recycling Instructions

**For clarification to the below questions:**
**1) we took the second number off.**
**2) For the 1-800 #....yes it's a service, but it's a service the residents already pay for, as indicated in the opening sentence. If they have trash pickup, recycling is included, they just need to call and ask for a bin.**
**3) Side Bar: let's go with Empty (good change)**

**Here's the updated language for that section. Angela is formatting it for me:**

Subject: RE: Recycling Instructions

A few question on the step 1 portion. The first number (1-800-43800966) when called sounds like you have to sign up for a service and pay. Is there a way this can be simplified for callers. Also on the second number (810-767-9696) not sure any one is answering this line appears to be a county number.

In the side bar with locations do you want to say "Used Water..." or "Empty water..."?

**Working together for Flint**

Three weeks ago President Obama asked me to head the federal response to the water crisis in Flint. Since then, I have spent time in the city talking with community members, government officials, and technical experts about the situation. Understandably, residents are worried, confused and angry; people want a solution they can count on so they so they can drink a glass of water without worrying about it. As part of the fix, they also want to be sure that their kids go forward with the best shot they can have at a healthy life. So do I.

I'm used to responding to emergencies but this response is, for me, a particularly personal one. It was lead that propelled me into a career in medicine and public health. As I flew out to Flint, I flashed back to high school. A pediatrician named Dr. Martha Lepow got me – as a high school student – involved in her crusade to end lead poisoning in children. I knocked on doors, collected blood and urine samples and paint chips, and using the results, mapped out lead in neighborhoods. Armed with the data, Dr. Lepow pushed to change standards and laws to better protect children's health from lead.

We've learned so much since then. Today, we know that there is no healthy lead level in a child's blood. We also know now that there is a lot we can do to help kids who have been exposed to lead. Quality health care, good parenting, early childhood education, and healthy food help counter some of the effects of lead. I'm hopeful that working together, we can put these in place for the people of Flint.

We're making progress. Not only are federal experts supporting state and local officials in identifying the problem's size and scope, but we also are helping make and execute a plan to mitigate short- and long-term health effects of lead exposure.

To help, EPA is testing water in the distribution system and in homes to determine lead and chlorine levels. Chlorine keeps bacteria from spreading. EPA is making this information available to the public so Flint residents know what's in the water and can see progress. EPA also is testing water before and after it comes through filters to see how well filters are working. Preliminary tests are encouraging and show that filters are working well.

To help meet the health needs of people impacted by lead, CDC is working with county and state health departments to determine the number of children exposed to lead in Flint to ensure that children who should be screened are getting screened. While the public health focus has been on children under the age of 6, the agency believes that all children in Flint, up to age 21, should have the opportunity to have blood lead testing.

The USDA's Food and Nutrition Services is working with families in the Special Supplemental Nutrition Program for Women, Infants, and Children to provide ready-to-feed formula which doesn't need to be mixed with water.

USDA also is providing additional grant funding to help affected schools purchase more fresh fruits and vegetables high in calcium, iron and Vitamin C because these foods can help children exposed to lead.

If you live in Flint, you can help your family. Use water filters until this is over and clean the aerator in your faucet. If you have young kids, get them tested for lead if they haven't been. Add fresh fruits and vegetables to your family's diet, and do the things we know will help them grow up healthy and strong. If you know someone in Flint, spread the word about these important steps.

Finding a solution to the water crisis is the first part of rebuilding a healthier, more vibrant community. Doing so requires more than the resources of any single government agency – county, state or federal. Civic and faith-based organizations, businesses and neighbors will need to work together with government agencies and with families toward a common goal: recovering as a stronger community.

I imagine there are students in Flint who could benefit from getting out of the classroom and engaged in their community like I did as a high school student. Get them involved in Flint's recovery, too. Drawing on the talent and energy of every member of the community can help end this crisis faster and have a lasting positive effect: building a stronger, more resilient city not just now but far into the future.

Flint Water Media Monitoring Report
Thursday, February 11, 2016

---

**Topics:**

- Flint mayor asks Obama to visit her city
- FY 17 Budget Proposal
- Governor Rick Snyder working on government culture

**Social Media:**

- Topics that trended today:
  - Some tweets calling for Snyder to resign
- Key hashtags: #FlintWater, #FlintWaterCrisis, #Flint, #Justice4Flint, #Dontdrinkthewater #waterforflint, #helpflint

**Misreports:**

- None at this time.

**Headlines**

- **Mlive: Snyder ordered DEQ to withhold Flint lead test results, emails claim**
  http://www.mlive.com/news/flint/index.ssf/2016/02/snyder_ordered_deq_to_withhold.html

  Gov. Rick Snyder and other state officials allegedly withheld lead testing results from county health officials while they worked to find ways to present the information to the public, according to emails obtained by The Flint Journal.

- **WNEM: Flint mayor asks Obama to visit her city**
  http://www.wnem.com/story/31195139/flint-mayor-asks-obama-to-visit-her-city#ixzz3zsWQ6AOF

  The mayor of Flint is asking President Barack Obama to visit her city, where lead has contaminated the water supply, caused health problems and put children at risk for developmental delays.

- **LSJ: 3 things state workers should watch in '17 budget**
  http://www.lansingstatejournal.com/story/news/local/capitol/2016/02/10/3-things-state-workers-should-watch-17-budget/80177210/

  The biggest news out of Gov. Rick Snyder's budget proposal on Wednesday was nearly $1 billion in requested new spending for the Flint water crisis, Detroit Public Schools and higher education.

- **York Dispatch: York Kids' Confirmed Lead Levels High**
  http://www.yorkdispatch.com/story/news/2016/02/10/york-kids-confirmed-lead-levels-high/79834630/

  As members of Congress hold hearings on the Flint, Michigan, water crisis, more people are concerned about the levels of lead in their children's blood and the level of exposure their children have.

- **WZZM: State Defends Legionnaires' response in Flint crisis**
  http://www.wzzm13.com/news/nation-now/state-defends-legionnaires-response-in-flint-crisis/39929596

  State health officials defended their response to the Legionnaires' disease outbreak in Flint, discounting concerns that infighting hurt public health.

- **NANO NEWS: EPA says water tests show filters are crucial**

  http://nanonews.org/epa-says-water-tests-show-filters-are-crucial/

- **THE WASHINGTON POST: Manslaughter charges possible in Flint Water Crisis, Says Top Investigator**
  https://www.washingtonpost.com/news/morning-mix/wp/2016/02/10/manslaughter-charges-possible-in-flint-water-crisis-says-top-investigator/

  As a probe begins into the water crisis gripping Flint, Mich., a top investigator announced Tuesday that if officials are found to have been grossly negligent, they could face charges as serious as manslaughter.

- **MLIVE: Michigan Gov. Rick Snyder working on government culture change after Flint water crisis**
  http://www.mlive.com/news/index.ssf/2016/02/michigan_gov_rick_snyder_worki.html

  Gov. Rick Snyder said Wednesday that his administration was working to change the culture of state government after failures contributed to the Flint water crisis, which exposed an unknown number of children to lead.

- **NBC News: Michigan Governor Includes $195 Million for Flint in New Budget**
  http://www.nbcnews.com/storyline/flint-water-crisis/michigan-governor-includes-195-million-flint-new-budget-n516306

  Michigan Gov. Rick Snyder on Wednesday proposed spending hundreds of millions more dollars to address Flint's water crisis from lead contamination and to update pipes there and across the state — a plan that lawmakers from both parties generally welcomed as moving in the right direction with the proper priorities.

**MLIVE: Possible lead exposure-miscarriage link probed in Flint water crisis**
**http://www.mlive.com/news/flint/index.ssf/2016/02/doctor_who_exposed_blood_lead.html**

The pediatrician who exposed rising blood lead levels in young children in Flint and the state of Michigan are separately investigating whether pregnant women who drank the city's tainted water had abnormally high miscarriage rates.

Updated February 11, 2016

**Internal JIC Talking Points**

**Flint Water Emergency Response**

**NOT FOR RELEASE OUTSIDE JOINT INFORMATION CENTER**
**-- For use in answering media inquiries –**

**General**

- The health and safety of Flint residents remains a top priority. Until water is declared safe, residents are directed to continue to follow established safety protocols.

- These recommendations include that all homes obtain a water filter and use filtered water for drinking and cooking.

- Until we know the water from the tap is safe, vulnerable populations, including children under six and pregnant or nursing women, should drink bottled water.

- It is essential that all Flint residents have the water in their homes tested as soon as possible. Free water testing kits are available at fire stations 1, 3, 5, 6, and 8. Water samples should be returned to the fire stations for testing. The DEQ lab provides results to the City of Flint within 3 business days. The City of Flint mails results to residents. Results are posted on www.michigan.gov/flintwater.

- Residents are also encouraged to clean the aerators on their faucets to lessen lead sediment. Instructions for how to do this can be found on our website at www.michigan.gov/flintwater.

- For additional information, go to www.michigan.gov/FlintWater. This website includes health fact sheets and information about free resources including bottled water, water filters, replacement cartridges and water test kits.

- Flint residents, both English- or Spanish-speaking, with questions or those who need assistance can call United Way 2-1-1. United Way 2-1-1 is a free information and referral service that is available 24 hours a day, seven days a week.

- Response efforts are being coordinated by the State of Michigan in partnership with the City of Flint, Genesee County, and local community organizations to provide a full set of water resources to the residents of Flint.

**Resources and support services**

**Flint water testing and bottled water pick up sites**

- Five water resource sites have been established in Flint fire stations as one-stop locations where residents can pick-up everything they need to ensure their drinking water is safe.

- These sites are open daily from 9 a.m. to 9 p.m. Residents can pick-up free bottled water, water filters, replacement cartridges, and home water testing kits. Citizens who need transportation can call 2-1-1 for assistance.

- Identification is not required to receive any of these resources.

- In order to ensure supply keeps pace with demand, residents are reminded the general guideline is one case of bottled water per household per day.

- Samples will only be accepted by using the official water testing kits provided at the water resource sites and by the water response teams.

- The locations are:

    - Fire Station #1 located at 310 East 5th St. in Flint, MI 48502
    - Fire Station #3 located at 1525 Martin Luther King Ave. in Flint, MI 48503
    - Fire Station #5 located at 3402 Western Rd. in Flint, MI 48506
    - Fire Station #6 located at 716 West Pierson Rd. in Flint, MI 48505
    - Fire Station #8 located at 202 East Atherton Rd. in Flint, MI 48507

- Filters and replacement cartridges are also available at the following locations:

    - Michigan Department of Health and Human Services office
      125 E. Union St.
      Flint, MI 48502

    - Michigan Department of Health and Human Services office
      4809 Clio Road
      Flint, MI 48504

    - Genesee County Community Action Resource Department
      2727 Lippincott

Flint, MI 48507

- Genesee County Community Action Resource Department
  601 N. Saginaw
  Flint, MI 48502

- Flint City Hall
  1101 S. Saginaw St.
  Flint, MI 48502

**2-1-1**

- Anyone having difficulty reaching 2-1-1 can use the alternate toll-free number 1-844-875-9211.
- United Way 2-1-1 is not a disaster distress helpline and does not provide stress counseling.
- Flint residents should not call 2-1-1 about their individual testing results. If you have questions regarding blood level results, talk to your health provider.

**Water Response Teams—home water delivery**

- Water response teams consisting of volunteers are making deliveries to homes that need the most assistance, for example homes that do not have filters yet, or residents that are homebound.
- The water response teams are handing out bottled water, water filters, replacement cartridges, and water testing kits.
- Members of the water response teams have official credentialed badges with a State of Michigan seal hologram to be easily identified.
- If a resident is not at home when the teams stop by, a flyer with information on how to receive these free water resources will be left at their residence.

**Filters**

- When used properly water filters remove 99% of lead in water.
- Residents are urged to use filtered water for drinking, food preparation, brushing teeth and watering pets. Unfiltered water may be used for bathing and cleaning.

- One filter and one replacement cartridge are being provided per household initially. Each filter is good for approximately 100 gallons of water. The filter has an indicator on it that will turn from green to red when it needs to be replaced.

- The filters have a two to five-year, non-replaceable battery that operates the indicator light.

- The Plumbers and Pipefitters Union has agreed to provide free installation to homebound residents needing assistance.

- There is a detailed video posted on www.michigan.gov/flint that explains how to properly install a water filter cartridge.

- Water filters are also available for small businesses, in addition to Flint residents, at the water resource sites.

- ZeroWater filters and pitchers are not kept at the point of distribution (POD) locations for people to pick up. They are complicated and vary in size for different homes. There is a Rapid Response Team (RRT) that goes to homes and installs them as needed. When a replacement filter is needed, residents can go to a POD (such as a fire station) and request a filter (and pitcher if it's the first time).

**Water Testing**

- Flint residents can drop-off water samples to the five water resource sites at fire stations. Samples will only be accepted by using the official water testing kits provided at the water resource sites and by the water response teams.

- EPA has set up an email and toll free number for sampling questions, flintwater@epa.gov and 800.426.4791.

**Results**

- Results are posted on www.michigan.gov/flintwater under "school and residential testing results."

- Citizens who have not received a response on water test results should contact the City of Flint at 810-787-6537 ext. 3501.

**Resources for homebound individuals**

- Homebound individuals can contact 2-1-1 for assistance. Those contacts are being provided to volunteers who are responding to needs.

- The Plumbers and Pipefitters Union has agreed to provide free water filter installation to homebound residents needing assistance. This is being coordinated through 2-1-1.

**Fire Suppression Systems**

- The fire code requires an annual inspection of sprinkler systems by trained technicians.
- The code also requires the inspection of the sprinkler piping at a minimum of every five years.
- If potential obstructions are observed, the piping is required to be flushed completely.
- If a business owner has questions or concerns regarding their sprinkler system, they should contact a licensed fire protection contractor for assistance.

**Non-English and deaf/hard of hearing individuals:**

- There are a few 2-1-1 agents in the state system that are fluent in Spanish and Arabic. When these agents are available calls are routed to them. Otherwise, tele-interpreter services are available 24/7/365. It usually takes under one minute to connect with an interpreter in any of 180 languages.
- TDD/TTY (Telecommunication Device for the Deaf) is available at every center, but very few calls come in this way.
- Email allows direct communication between the deaf/hard of hearing person and the 2-1-1 agent.
- Live chat is available at most of the 2-1-1 partners which allows individuals to communicate directly and privately with a 2-1-1 agent in real-time.

**Pets**

- Whatever you are doing in your own home for water, you should do for your pets (e.g., filtered, bottled water).
- In the last 5 years, there have been two cases of lead toxiosis in animals reported in Genesee County.
- If you have any concerns about your animal's health, you should work with a licensed veterinarian.

- There are a variety of diseases and issues that could mimic signs/symptoms of a lead-related issue, which is why it's critical to work with your vet to properly diagnose your pet.

- If a licensed vet suspects a possible lead-related issue, they contact MDARD and the department will work with them to have a sample tested. MDARD is covering the sample testing costs coming through veterinary offices.

- Media contacts wanting more information about pet testing or potential impacts can contact Jen Holton at MDARD: 517-284-5724, holtonj@michigan.gov

- Michigan has had very few cases of lead toxicity over the last five years, with most cases being related to cattle. For background purposes, with cattle, it's counted as one farm. Those cases almost always involve lead in batteries or some other contamination in the pasture where cattle graze.

- Under the Animal Industry Act, Public Act 466 of 1988, as amended, reportable diseases/conditions are exempt from disclosure. MDARD does provide reportable disease/condition case information down to the county level, but cannot provide the specifics of those individual cases.

**Paying for water**

- Inquiries regarding the payment of water bills should be referred to the City of Flint.

- Per the Mayor, the city put a halt on all shut off notices or disconnections. No shut off notices have been issued since December and the utility billing department has been given no instruction to resume at this time.

- The City is currently reviewing its policy on shut off notices in light of the declared emergency and amended preliminary injunction order issued on January 11, 2016.

- Per DHHS, State Emergency Relief funding is available to qualified households to replace damaged water heaters. This information is available by calling 211.

**Bathing**

- According to the Michigan Department of Health and Human Services, routine bathing practices can continue. It is recommended bath time be used for bathing

only, after which children should be taken out of the bath rather than be allowed to play in the water for extended periods of time.

- If a resident has a rash that they are concerned about, we recommend they contact their primary care doctor.
- Currently, rashes are only reportable to MDHHS when there is a suspected infectious disease such as measles or chickenpox.
- MDHHS is working together with the CDC and Genesee County Health Department to ensure we're monitoring health issues that may be related to water.
- We will be building on our partnership with the local provider community to determine what additional supports and surveillance may be necessary.

**For non-Flint residents who want to test their water**

- Anyone in Michigan who wants to test their water for lead can call the State Drinking Water Lab at 517-335-8184.
- The lead testing kit costs $18, which includes the sample bottle and instructions shipped to your home as well as the lab test. It does not include the cost of shipping your filled sample bottle back to the lab.
- Depending on the lab workload, results are typically available within 1-2 weeks.
- Your results will include information about the EPA's lead recommendations as well as contact information for your local health department, which can help you interpret your results further, if needed.

**Other/general**

- Legionnaires disease related inquiries will not be handled by the JIC. Inquiries should be directed to DHHS – Jen Eisler -

## How to help

### Volunteering

- Since early January, over 2,000 volunteers have volunteered their time to assist Flint residents during the water emergency.

- Volunteers are coordinated jointly by the American Red Cross and the United Way of Genesee County.

- Volunteers are still needed to provide assistance with water distribution, warehousing, data entry and assembly of water test kits.

- To learn more or sign up to volunteer, visit www.flintvolunteer.com.

### Material Donations

- Material and in-kind donations of cases of water bottles, gallon jugs and larger containers of water can be dropped off at the below locations.

- Donations of 100 cases or less:
  - Catholic Charities Center for Hope, 517 E. Fifth Ave, Flint
    *Monday – Friday, 9 a.m. - 4 p.m.*
  - Call 810-232-9950, ext.325 to make arrangements for deliveries.

- Donations of 100 cases or more, pallets of water or donations in one semi-truck:
  - Food Bank of Eastern Michigan, 2300 Lapeer Rd., Flint
    Monday - Friday 8 a.m. - 4:30 p.m.
  - Call (810) 239-4441 to schedule a dock time for delivery.

- Donations not on pallets:
  - Pierson Road Warehouse on Monday, Friday and Saturdays between 12 – 6 p.m.
  - Call 517-420-3984 or email flintwarehouse2@michigan.gov to schedule a dock time for delivery.

- For extra-large donations, such as multiple semi-trucks, delivery arrangements can be made by emailing flintdonations@michigan.gov or 517-420-4162. Dave Martus will be handling these calls and emails.

- In-kind donations include labor to install filters and trucks to deliver materials. All in-kind donors should email flintdonations@michigan.gov or 517-420-4162. Dave Martus will be handling these calls and emails.

- If asked, preference is for water donations to be jugs of water (rather than bottles).

**Financial Donations**

- Visit www.helpforflint.com for options.

- The United Way of Genesee County, Community Foundation of Greater Flint, Hurley Children's Hospital and the Greater Flint Health Coalition have created a fund that will address both the short-term and long-term needs of Flint residents.

- The Community Foundation is managing all financial donations and no administrative fee is assessed. Visit www.flintkids.org or call the United Way at 810-232-8121 or Community Foundation of Greater Flint at 810-767-8270 for more information.

***What's being done—Government actions***

**Presidential Disaster Declaration – FEMA assistance**

- On Saturday, January 16, President Obama approved Gov. Snyder's request for a federal emergency in Flint. This action will provide emergency relief in the form of bottled water, water filters, filter replacements and water test kits. The period of assistance is up to 90 days.

- Gov. Rick Snyder on Wednesday, January 20, submitted an appeal to President Barack Obama following the denial of a major disaster declaration, a move that could potentially bring additional and much-needed resources to help the people of Flint.

- In the appeal to President Obama, Gov. Snyder said the severity of the disaster warrants special consideration for all categories under the Individual and Public Assistance Programs, as well as the Hazardous Mitigation Program in order to facilitate recovery.

- The President denied that appeal based on the legal requirement that under the Stafford Act disaster relief is available only for natural events, fires, floods, or explosions.

- On Friday, January 22, President Obama denied Gov. Snyder's appeal for a federal disaster declaration to aid Flint.

- On Wednesday, January 27, the state requested the federal WIC program increase access and availability of WIC benefits to children five to 10 years of age in the Flint area, to help children battle lead exposure through nutrition. On

Friday, January 29, the USDA denied the state's request. Gov. Snyder is appealing that decision.

**Emergency Declaration – City of Flint**

- Gov. Rick Snyder issued a proclamation Thursday, January 28 calling for an extension to the emergency declaration in the City of Flint and Genesee County.
- The Michigan House and Senate approved the request, extending the emergency until Thursday, April 14, 2016.
- This extension coincides with the current Presidential Emergency Declaration.
- Extending this emergency will help us continue providing immediate assistance to the people of Flint while working on long-term solutions to help Flint recover from this tragedy.

**Resources Distributed Since January 9**

- Since Saturday, January 9, the following resources have been distributed to residents, both at the water resource sites and by water response teams, in addition to donations:
    - *Below figures are as of Feb.11, 2016*
        - 307,943 cases of water
        - 105,015 water filters
        - 36,158 water testing kits
- Water is being distributed primarily in bottles rather than jugs because donations are largely comprised of bottled water.
- In addition to donated supplies, the State of Michigan has purchased the following resources, since Tuesday, January 5, which will continue to be delivered to Flint over the coming days:
    - *Below figures are as of Feb. 5, 2016*
        - 141,982 cases of water
        - 124,052 filters
        - 62,701 water testing kits

## National Guard Mobilization

- The Michigan National Guard has been activated to assist with distribution efforts at the five water resource sites at fire stations in the city.
    - Gov. Snyder issued an Executive Order on Tuesday, January 12, 2016, to activate Michigan National Guard.
    - Currently they are being used to staff water resource sites to support the distribution of bottled watered, water filters, replacement cartridges, and water testing kits.
    - National Guard is uniquely prepared and trained to respond quickly in emergency situations.
    - First group of National Guard personnel arrived in Flint on Wednesday, January 13, 2016 to conduct assessment and get acclimated (seven personnel).
    - Thirty (30) more personnel arrived on Friday, January 15; and that number was expanded to approximately 70 personnel on Monday, January 18, 2016. From Saturday, January 23 through Saturday, January 30, there were 279 MI National Guard Service Members on the ground in support of efforts in Flint (engaging in door-to-door effort). This number included both Army and Air guard assets. As of Sunday, January 31 there are 70 MI National Guard Service Members on the ground in Flint.
    - This is the second time the Gov. Snyder has activated the National Guard. Last time was for the Duck Lake Fire in Luce County in May 2012.
    - Per Michigan Emergency Management Plan, the Michigan State Police Director or designee is responsible for coordinating all state efforts, including the Michigan National Guard.
    - Activation of the Michigan National Guard has allowed the American Red Cross, who had been staffing the water resource sites, to join the water distribution teams.

## Attorney General Investigation

- On Friday, January 15 the Michigan Attorney General office announced they launched an investigation to determine what, if any, Michigan laws were violated in the process that resulted in lead contamination in Flint.

- On Monday, January 25 Michigan Attorney General Bill Schuette assigned individuals to lead the investigation: attorney Todd Flood (defense attorney and former Wayne County assistant prosecutor) and Andy Area (former Detroit FBI bureau chief).

**Supplemental Budget Request**

- After reviewing financial requests from the City of Flint, as well as financial requests from the State Emergency Operations Center and the involved state agencies and receiving input from various other organizations in Genesee County, the state budget director has submitted to the Legislature an emergency supplemental budget request on behalf of the governor to address the **immediate** funding needs for the Flint water crisis. We understand further investment will be necessary.

- On Friday, January 29, the Gov. Snyder signed the legislation allocating $28 million for more water resources and expanded health care initiatives, including more school nurses, diagnostic tests and community education through the Genesee County Health Department.

- This supplemental request is not intended to address all of the future financial needs that will be necessary to aid the city and the people of Flint. This supplemental request addresses the immediate funding needs and requests, including the cost of bottled water, filters and testing kits.

- All state resources are being brought to bear to protect public health and safety. In addition, the Gov. Snyder requested federal aid through FEMA and through direct request to the President – to date $5 million in federal aid has been approved for Flint.

- This supplemental request includes funding for immediate needs and is not intended to include funding for some of the longer-term needs such as special education, long-term health monitoring of children, and potential replacement of the water infrastructure and service lines. The longer-term needs will be addressed through the traditional budget development process and the governor will release his fiscal year 2017 budget recommendation on Wednesday, February 10.

**Gov. Snyder and DEQ Announce 5-Part Plan to Determine Water Safety**

- On Sunday, January 31, the DEQ embarked on a 5-point strategy to establish a baseline of data to determine when the water is safe to drink. The strategy includes:

- Residential water testing: at-home water testing done by residents is key in guiding experts to areas of concern. To date, of 4,924 total residential water samples, tests show 93.7 percent of homes are below the actionable level of 15 parts per billion (ppb) for lead.

- School testing: DEQ in collaboration with the Michigan Department of Licensing and Regulatory Affairs (LARA) has tested all 13 public schools in the city and continues to test non-public schools, children's centers and senior centers. The state will retest the public schools once it has completed replacing water fixtures.

- Food service/restaurant provider testing: DEQ is working in collaboration with the Michigan Department of Agriculture and Rural Development (MDARD) to test establishments and ensure they are using water filters, flushing water systems properly, and using the correct food and water standards.

- Blood level testing: DEQ is working in conjunction with the Michigan Department of Health and Human Services (MDHHS) to ensure residents with high blood lead levels have their water tested for lead. Homes with high water lead levels are provided additional services by MDHHS and the Genesee County Health Department to ensure residents' exposure to lead is minimized.

- Flint water distribution system testing: DEQ and the City of Flint are working to monitor and test the quality of the water as it travels throughout the city's water distribution system. Additionally, sentinel sites are being established to set a baseline for data collection.

**Governor Snyder FY 17 Budget Proposal – Supporting Flint Families**

- $195 million of the proposed budget will go toward helping Flint families by funding both short and long-term solutions to the water crisis.

  - $37 million to help ensure clean, safe drinking water. This funding will assist with water testing, inspection and replacement of fixtures in schools and daycare facilities, and help the city stay connected to the Detroit Water and Sewerage Department through the end of 2016.

  - $15 million to support food and nutrition funding for families and children. This funding will support school meal programs, mobile food banks and food inspections at food establishments in the county.

- $63 million for physical, social and educational well-being. This funding will support families with blood testing, early childhood development programs, educational support and home lead abatement.

- $50 million will be kept on reserve to address the future needs of Flint residents.

- The remaining $30 million pertains to the recent proposal to help the city of Flint assist residents with covering a portion of their water bill.
  - A typical Flint resident's billing statement includes charges for water and sewer.
  - Under the plan, the funding would be made available to cover water used for drinking, cooking and bathing which is approximately 65 percent of the water portion of a residents' water and sewer bill.
  - Residents would still be responsible for the remaining balance of the water portion of a bill accounting for water used in ways that do not qualify as consumption.
  - Residents would be responsible for covering all sewer costs.
  - This $30 million has been approved in the Senate and awaits approval in the house before it goes to the Governor for his signature.

- If fully approved, the $195 million will be in addition to the previous $37.3 million in emergency funding already allocated to the city of Flint, totaling more than $230 million.

- An infographic detailing the above is available here.

**Governor Snyder FY 17 Budget Proposal – Statewide Infrastructure**

- In his FY 2017 Budget proposal presented today, the Governor called for the creation of a Michigan Infrastructure Fund to support statewide infrastructure needs.

- If approved, there will be a $165 million investment which will be allocated based on projects with the most immediate needs.

- In 2015, Michigan renewed a commitment to fix our roads and bridges, now it's time to focus on the rest of the state's infrastructure.

- Potential projects that could receive a portion of the $165 million include replacement of known high-risk lead and copper service lines, infrastructure upgrades while repairing roads or other utilities, and analysis of statewide infrastructure needs.

- An infographic detailing the above is available here.

- For a copy of the Governor's press release and additional materials visit www.michigan.gov/mibudget.

**Testing of Bottled Water for Lead**

In January, concerns have been raised about the possibility of lead being in the water being provided to Flint residents. This concern was raised due to measurements some residents obtained with a Total Dissolved Solids (TDS) meter provided with ZeroWater brand water filters.

- TDS is a measurement of all minerals and other common chemicals present in the water. The TDS meter is not sensitive enough to measure lead in the water and was included to help users determine when it is time to replace the filter.

- Although the TDS meter does not measure lead, the concern raised an excellent point that the bottled water being distributed should be tested for lead. Therefore, the MDEQ has analyzed a sample from each of the 21 brands of bottled water that are in inventory for both lead and copper. Results show all 21 brands of bottled had results of "Not Detected." With respect to lead, that means that all brands were less than 1 part per billion and for copper all 21 brands were less than 50 parts per billion.

- Although bottled water is regulated and must meet safety criteria, it was an excellent suggestion by the residents of Flint that we verify that the bottled water being distributed is safe and for that. We appreciate the suggestion.

**Federal Funds – How They Can Be Used**

- In an interview on Thursday, January 28, Lt. Gov. Brian Calley said that only $17 million of the $80 million in federal loans made available to Michigan can be allocated towards the recovery effort in Flint.

- This clarified a misunderstanding that the entire $80 million in federal loans could be allocated to aid in water infrastructure improvements for Flint.

- Read the Detroit Free Press story here: http://www.freep.com/story/news/local/michigan/flint-water-crisis/2016/01/28/only-17m-federal-loans-flint-says-lt-gov/79454204/

**Seeking Healthcare Services for Flint Residents under age 21**

- Gov. Snyder sent a request to U.S. Department of Health and Human Services to provide Flint residents under age 21 with additional healthcare services to address potential problems brought on from exposure to lead.

- The Governor requested to expand Medicaid eligibility for all residents in the impacted areas up to age 21, regardless of income level. The request is also for Medicaid coverage for people already enrolled in other forms of insurance to ensure comprehensive benefits are available to children who may have come into contact with lead in the water. The White House and federal Department of Health and Human Services did not have an immediate response.

**Jobs and Talent & Economic Development Assistance**

- The Department of Talent & Economic Development (TED) is engaged with Gov. Snyder's efforts to address the situation in Flint.

- Agency directors and staff have been on the ground in Flint assisting with water distribution efforts and talking with city officials on ability to assist with the needs in the community to provide safe, clean drinking water.

- Michigan State Housing Development Authority (MSHDA) Executive Director Elsenheimer and the MSHDA team have been on the ground ensuring all MSHDA housing has appropriate filters and water resources.

- Michigan Economic Development Corporation / Michigan Strategic Fund is currently focused and in discussions with local officials on how the state can assist in the immediate infrastructure needs of the City of Flint.

- Michigan Talent Investment Agency is eager to be a full partner in enhancing the economy of the community and the self-sufficiency of its families through numerous programs and initiatives, including the Community Ventures Program that assists Flint residents in finding good paying jobs.

- Through Travel Michigan, TED is continuing to promote the cultural, historical and natural assets of the area, and working collaboratively with the community to showcase the positive stories coming out of Flint.

- In addition to these efforts, the TED team is exploring any and all other options for TED to assist the residents of Flint both on addressing their immediate water issues, as well as long term economic and community development needs.

- On Monday, February 8, Gov. Snyder announced a new partnership between the State of Michigan and Flint human service groups. The partnership with Orchards

Children's Services and Flint YMCA's Safe Places Program will help hire and train 50 residents in February to fill jobs on teams helping conduct water tests across Flint.

## Michigan School for the Deaf

- *For specific questions regarding actions taken to address lead levels at **any** schools (including Michigan School for the Deaf), ask that they contact the Michigan Department of Education (MDE).*

- When the Michigan School for the Deaf (MSD) initially heard of the water lead issue in September, school officials conducted their own testing which came back with clear results.

- Administrators closed down fountains in the building and have been purchasing 35-gallon water dispensers (150 gallons/week) from Culligan.

- Water filters have been placed on cafeteria drinking fountains and kitchen sinks for use in cooking/food prep.

- The school was notified by the local Health Department (Wednesday, January 20) about free testing for students for lead poisoning.

- The school has a staffed health center and MDE has approved the health center to work with the health department to set up a testing schedule and follow testing protocols outlined by the health department.

- Active consent is required for blood testing, so the school is working with the health department to notify parents and obtain consent.

- On the evening of Tuesday, January 12, MSD was notified by the dormitory landlord that they had a lead level reading of 28 parts per billion on some water outlets. The DEQ recommends school facilities take action if samples from any drinking water outlets show lead levels greater than 15 parts per billion.

    - Current actions being taken by MSD:

        - Informing parents of the situation.

        - Expediting replacement of 62-65 faucets in the dorm beginning Friday, January 22, 2016 and to have all replaced by the end of that weekend.
        - The landlord and school officials are looking at replacing shower heads and/or installing in-line filters on showers.

- Approximately 75 students board at MSD, ranging in age from four to 26. There are 167 students attending the school.

**History, background timeline**

**Chronology**

- October 1, 2015: Public Health Emergency Declaration issued
- December 14, 2015: State of Emergency declared by City of Flint.
- January 4, 2016: Genesee County Board of Commissioners declared a local emergency
  - In a separate document, Genesee County requested a Governor's Declaration of Emergency with the local declaration.
- January 5, 2015: Governor declared State of Emergency
  - State Emergency Operations Center activated in Lansing to coordinate state response
  - Joint Information Center (JIC) activated on January 6, 2016 in Lansing; moved to Flint on January 11, 2016
- January 9, 2016: Water resource sites established at fire stations. 9 a.m. to 4 p.m. on January 9, 2016 but 9 a.m. – 9 p.m. starting January 10, 2016.
- January 12, 2016: Water resource teams began going door-to-door (4 teams)
- January 12, 2016: Governor Snyder issued an Executive Order activating the Michigan National Guard
- January 14, 2016: Governor requested Presidential declaration of emergency and expedited major disaster for Genesee County
- January 16, 2016: President Obama approved the Governor's request for a federal emergency in Flint.
  - *Denied request for major disaster*
- January 20, 2016: Governor Snyder submitted an appeal to President Barack Obama following the denial of a major disaster declaration.
- January 22, 2016: President Obama denied Governor Snyder's appeal for a federal disaster declaration to aid Flint.
- January 28, 2016: Gov. Rick Snyder today issued a proclamation calling for an extension to the emergency declaration in the city of Flint and Genesee County until April 14, 2016.

- February 5, 2016: The Small Business Administration approved Gov. Rick Snyder's request for low-interest disaster loans for businesses in Genesee County and the city of Flint. Business owners seeking these loans must apply by Nov. 7, 2016.

**Other/Misc.**

- The state recognizes that offering recycling options for empty water bottles is a priority. Measures will be put in place soon to provide for recycling opportunities.

- Per the Michigan Department of Education, the state is not involved in the water provided to the Flint Schools. Any questions related to this topic should be referred to Flint Schools.

- Governor has asked the Receivership Transition Advisory Board to transfer the powers and authority currently vested in the city administrator to the mayor. Any inquiries related to this should be referred to the Governor's office.

- Population of Flint, as of 2014, was 99,000. Number of occupied households is 39,125, according to the state demographer. (Households with families, 22,809; non family head of household 16,316).

- For calls received from constituents offering lead removal solutions, take down their information and let them know it will be forwarded to the appropriate person. If there is interest in their services, they will be contacted directly. Their contact information should be forwarded to the MSP-SEOCPIO.

- Inquiries about providing vendor services should email DTMBECC@michigan.gov.

MEDIA at the SEOC

- If the media shows up at the new SEOC and requests or is expecting a tour of the facility, the reporter/photographer should be told that we ARE NOT conducting tours at this time, for two reasons: the SEOC remains under construction and it is an extremely busy time at the SEOC.

- PIOs in the SEOC are to talk with the media and let them know no tours are being offered and advise that they should contact EMHSD sometime in mid-February for the possibility of a tour.

## Sentinel Site Teams to Discuss Process For Testing Water at Homes Across the City

*402 Flint homes to be tested to help determine when city's water safe to drink*

**DATE:** Friday, Feb.12, 2016

**TIME:** 9 a.m.

**WHERE:** Local Emergency Operations Center
Genesee County Administration Building
1101 Beach Street
Flint, MI 48502

**WHO:** Sentinel site teams comprised of Michigan Department of Environmental Quality (DEQ) employees and licensed plumbers.

**WHAT:** Yesterday, 10 sentinel site teams began visiting 402 identified Flint homes across the city to teach residents how to test their water in a scientifically accurate manner so they may submit regular samples to the state for testing. This in-depth level of data collection will help confirm when Flint's drinking water is safe and provide a more streamlined level of post-testing services for resident health and wellness.

To protect individuals' privacy, demonstrations will not be given at residences.

This is an opportunity for media to get photos and video of the information teams will cover with homeowners.

# Flint Water Emergency Response

## TeleTown Hall

**NOT INTENDED TO BE DISSEMINATED TO THE MEDIA OR PUBLIC IN THIS FORMAT**

### High-level Messages

- From an operational standpoint, our primary mission continues to be ensuring all Flint residents have access to safe water and are aware of the information and free resources available to them, which include bottled water, water filters, replacement cartridges, and water test kits.

- The health and safety of Flint residents remains a top priority. It is essential that all Flint residents have the water in their homes tested as soon as possible.

- Until we know the water from the tap is safe, it is recommended that vulnerable populations drink bottled water, this includes children under six and pregnant or nursing women.

- Residents are also encouraged to clean the aerators on their faucets to lessen lead sediment. Instructions for how to do this can be found on our website at www.michigan.gov/flintwater.

- Free water testing kits are available at all five fire station water resource sites. Water samples can also be returned to these fire stations for testing.

- Anyone who is unable to get to a fire station to pick up a free testing kit should call United Way 2-1-1 for assistance.

- Door-to-door delivery efforts by water response teams comprised of volunteers continue, but are increasingly targeted to ensure we are reaching every home.

- As of today, these efforts have resulted in 88.7 percent of City of Flint water customers having a water filter.

- We also continue to operate five water resource sites at fire stations, staffed by Michigan National Guard soldiers, daily from 9 a.m. to 9 p.m. to provide free bottled water, filters, replacement cartridges, and water testing kits.

    - Fire Station #1 located at 310 East 5th St. in Flint, MI 48502
    - Fire Station #3 located at 1525 Martin Luther King Ave. in Flint, MI 48503
    - Fire Station #5 located at 3402 Western Rd. in Flint, MI 48506
    - Fire Station #6 located at 716 West Pierson Rd. in Flint, MI 48505
    - Fire Station #8 located at 202 East Atherton Rd. in Flint, MI 48507

- Since January 9, using both door-to-door water response teams and water resource sites at the city's fire stations, we have distributed a total of 307,943 cases of water; 105,015 water filters; and 36,158 water testing kits.

- On February 5, the Small Business Administration approved the Governor's request for low-interest disaster loans for businesses in Genesee County and the city of Flint.

- The approval provides access to federal Economic Injury Disaster Loans, which are working capital loans to small businesses, small agricultural cooperatives, small businesses engaged in aquaculture and most private, non-profit organizations that meet their ordinary and necessary financial obligations that cannot be met as a direct result of the disaster.

- Business owners will have until Nov. 7, 2016, to apply. More information and criteria for SBA disaster loans is available at www.sba.gov/disaster. Eligible Flint business owners can apply online.

- Due to the continued outpouring of support from persons and organizations wishing to donate bottled water, the state has secured a second warehouse. This warehouse can accept bottled water that is not on pallets, filling a critical need, as many water drives are not palletized.

- The water donation guidelines on www.michigan.gov/flintwater and www.helpforflint.com have been updated to reflect this new option. To schedule a dock time for a delivery, call 517-420-3984 or email flintwarehouse2@michigan.gov.

**INFORMATION – IF ASKED...**

## State Funding

- To date, the state has allocated $37.3 million in emergency funding for Flint.
- Last week, the Governor proposed and the Senate has approved an additional $30 million the city could use to help relieve Flint residents of a portion of their water bill. The $30 million recommendation must now be approved by the House before it going into effect.

## Flint Boil Water Advisory

- Flint residents are reminded to boil their water due to the drinking water warning issued by the city of Flint on Feb. 9. Until further notice, boiled filtered water or bottled water should be used for drinking, brushing teeth, washing dishes, preparing food and for pets.
- The boil water advisory was issued in response to a water main break on Tuesday that caused a loss of pressure in the water distribution system. Whenever a water system loses pressure for a significant length of time, bacteria contamination can result. As a precautionary measure, residents are advised to boil their water to kill bacteria and other organisms in the water.
- Once the City of Flint lifts the advisory, affected residents should be prepared to take a few precautions to ensure their water is safe for use.
- First, residents should always flush their water system for at least five minutes after it has gone unused for several hours. For filtered pitchers, flush before filling the pitcher. Residents can prolong the life of their tap filter by turning the valve to the unfiltered setting before flushing, then switch back to the filtered setting before drinking or cooking.
- Second, residents should replace the cartridge in their water filter after a boil advisory, if bacteria are located before the boil advisory is lifted. Previously installed water filters will still be safe to use after the cartridge has been replaced, and residents should be sure to follow the water filter manufacturer replacement

instructions.

- For other tips, go to www.michigan.gov/flintwater.

**Jobs for Flint Residents**

- On Monday, Governor Snyder announced a new partnership between the state and Flint area organizations - Orchards Children's Services and Flint YMCA's Safe Places Program – that will hire and train 50 Flint residents this month to help conduct water tests for their fellow community member across the city.

- The partnership is part of a comprehensive effort to help ensure Flint families benefit from both short-term and long-term opportunities created by relief efforts.

    - More residents will be hired as more work is identified.

**Chronology**

- October 1, 2015: Public Health Emergency Declaration issued
- December 14, 2015: State of Emergency declared by City of Flint.
- January 4, 2016: Genesee County Board of Commissioners declared a local emergency
    - Genesee County also requested a Governor's Declaration of Emergency with the local declaration.
- January 5, 2015: Governor declared State of Emergency
    - State Emergency Operations Center activated in Lansing to coordinate state response
    - Joint Information Center (JIC) activated on January 6, 2016 in Lansing; moved to Flint on January 11, 2016
- January 9, 2016: Water resource sites established at fire stations. 9 a.m. to 4 p.m. on January 9, 2016 but 9 a.m. – 9 p.m. starting January 10, 2016.

## National Guard Soldier Distributing Water Saves Flint Resident's Life

FLINT, Mich. – At the request of Gov. Rick Snyder, soldiers from the Michigan National Guard are on emergency orders to hand out water resources to the citizens of Flint, Mich. who have been affected by the recent water crisis. While helping to hand out water to the citizens of Flint, one soldier was called into a different kind of service and helped save a life last week.

"This is why I joined the military, to help people," said Spec. Charles D. Colwell a medic with the Headquarters Company of the 125th Infantry Battalion attached to Alpha Company from Detroit, Mich.

Because of his actions on Feb. 1, 2016, Spec. Colwell is being recommended for the Michigan Lifesaving Medal by his immediate supervisor.

While on duty at Fire Station #1 in downtown Flint, Pfc. Zacharry R. Burrell greeted the resident who was there to return recyclables. Noticing that she was short of breath and struggling for her inhaler, Burrell ascertained the resident was clearly having a medical condition and needed immediate assistance.

"She stood there for a minute and it kind of looked like she was looking for something in her bag and then she bent down and put her hands on her knees and began coughing uncontrollably and I saw she had an inhaler in her hand," said Burrell.

Burrell brought Spec. Colwell out to the woman, Colwell immediately started doing all he could to determine her condition. He found out from the women she had walked to the firehouse and along the way she had taken two hits of albuterol from her inhaler and it was nearly empty. He determined she was also suffering from severe bronchitis, which contributed to her serious condition, so he called 911. It wasn't until the next day the other soldiers realized how much he had done when she came back to the firehouse to thank Colwell for saving her life.

Colwell who has been a medic with the Michigan National Guard for the last two years is also a trained emergency medical technician on the civilian side in the city of Detroit; so to him, helping to save someone is nothing new.

"I do this so much every day and everyone else is kind of blowing it up," explained a humble Colwell, who doesn't understand why the other soldiers he is working with thinks he deserves the Michigan Lifesaving Medal.

"I couldn't be more proud of him," said his squad leader, Sgt. Brandon M. Lewis, who is also in Alpha Company with the 125th Infantry Battalion, explaining why he put Colwell up for the medal. "That's why I put him in for the highest award that I could possibly recommend for him for doing that."

Lewis said he, like the other soldiers, didn't realize how much Colwell had done until the next day when she came back. Lewis stated he and the others have only basic first aid knowledge and could have mistaken the women's condition. Everything Colwell did for the women helped solidify Lewis's decision to put him up for the award.

"If it wasn't for him, one of us might have misjudged the situation and just thought she was sick," said Lewis. "Not only did he immediately seek her out, but he did everything he could to make her comfortable and by the time the EMT's and paramedics got here he already had an assessment to hand over to them so they were a few steps ahead."

Colwell went beyond his normal duties while in Flint and his actions made what could have been a bad situation a positive one, which further cemented the positive relationships the Michigan National Guard is making with the citizens of Flint.

The 125th Infantry Battalion has soldiers from different companies from around the state who have volunteered to assist the citizens of Flint during this time. They are stationed at five different firehouses around the city, which are acting as water resource distribution sites with the purpose of handing out water, water filters and water testing kits.

###

**INTERVIEW OPPORUNITY: Spec. Colwell will be available for interviews at Fire Station #1 located at 210 E. 5th St. from 1-4 p.m. on Friday, Feb. 12.**

## National Guard Soldier Distributing Water Saves Flint Resident's Life

FLINT, Mich. –While helping to hand out water to the citizens of Flint, a National Guard soldier helped save a Flint resident's life.

"This is why I joined the military, to help people," said Spec. Charles D. Colwell, a medic with the Headquarters Company of the 125th Infantry Battalion attached to Alpha Company from Detroit, Mich. He is one of 65 soldiers helping distribute water resources after Gov. Rick Snyder activated the National Guard to help with the Flint water emergency.

Because of his actions on Feb. 1, Spec. Colwell is being recommended for the Michigan Lifesaving Medal by his immediate supervisor.

While on duty at Fire Station #1 in downtown Flint, Pfc. Zacharry R. Burrell greeted the resident who was there to return recyclables. Noticing that she was short of breath and struggling for her inhaler, Burrell ascertained the resident was clearly having a medical condition and needed immediate assistance.

"She stood there for a minute and it kind of looked like she was looking for something in her bag and then she bent down and put her hands on her knees and began coughing uncontrollably and I saw she had an inhaler in her hand," said Burrell.

Burrell brought Spec. Colwell out to the woman, who immediately started assessing her condition. She had been walking with some women, who told Colwell that on their way to the firehouse, the woman had used her inhaler twice and it was nearly empty. He determined she was also suffering from severe bronchitis, so he called 911.

It wasn't until the next day the other soldiers realized how much he had done when she came back to the firehouse to thank Colwell for saving her life.

Colwell who has been a medic with the Michigan National Guard for the last two years is also a trained emergency medical technician on the civilian side in the city of Detroit.

"I do this so much every day and everyone else is kind of blowing it up," explained a humble Colwell, who doesn't understand why the other soldiers he is working with thinks he deserves the Michigan Lifesaving Medal.

"I couldn't be more proud of him," said his squad leader, Sgt. Brandon M. Lewis. "That's why I put him in for the highest award that I could possibly recommend for him for doing that."

Colwell went beyond his normal duties while in Flint and his actions made what could have been a bad situation a positive one.

"If it wasn't for him, one of us might have misjudged the situation and just thought she was sick," said Lewis. "Not only did he immediately seek her out, but he did everything he could to make her comfortable and by the time the EMTs and paramedics got here he already had an assessment to hand over to them so they were a few steps ahead."

The 125th Infantry Battalion includes soldiers from different companies from around the state who have volunteered to assist the citizens of Flint during this time. They are stationed at water resource sites at the five fire stations, handing out water, water filters and water testing kits.

## SBA Announces Change in Days and Duration of Operations at Business Recovery Center in Flint

**ATLANTA** – The U.S. Small Business Administration announced today that the Business Recovery Center in Flint will be open on Saturdays from 8 a.m. to 5 p.m., beginning Feb. 13. Hours and days of operation are now Monday through Saturday, 8 a.m. to 5 p.m. Additionally, the Center will cease operations on Thursday, March 10, 2016.

The Business Recovery Center is located in the following community and is open as indicated:

Genesee County
Oak Business Center
2712 North Saginaw Street
Flint, MI 48505

Opened: Wednesday, Feb. 10 at noon
Hours: 8 a.m. - 5 p.m. weekdays and Saturdays
Closed: Sundays
Closed: Monday, Feb. 15 (Presidents' Day)
Closes: Thursday, March 10 at 3 p.m.

Low-interest Economic Injury Disaster Loans from the U.S. Small Business Administration (SBA) are available to Flint, Michigan and surrounding area small businesses, small agricultural cooperatives, small aquaculture businesses and private nonprofit organizations affected by the contaminated public water supply disaster that began on Oct. 1, 2015. The declaration covers Genesee County and the adjacent counties of Lapeer, Livingston, Oakland, Saginaw, Shiawassee and Tuscola in **Michigan**.

Eligible entities may qualify for loans up to $2 million. The SBA offers economic injury loans to help meet working capital needs caused by the disaster. The rates on these loans are 4 percent for small businesses and 2.625 percent for nonprofit organizations with terms up to 30 years. Eligibility for these working capital loans are based on the size and type of business and its financial resources.

Applicants may apply online using the Electronic Loan Application (ELA) via SBA's secure website at https://disasterloan.sba.gov/ela.

Applications and program information are available by calling the SBA's Customer Service Center at 1-800-659-2955 (1-800-877-8339 for the deaf and hard-of-hearing), or by sending an email to disastercustomerservice@sba.gov. Loan applications can also be downloaded from the SBA's website at www.sba.gov/disaster. Completed applications should be mailed to: U.S. Small Business Administration, Processing and Disbursement Center, 14925 Kingsport Road, Fort Worth, TX 76155.

The deadline to return economic injury applications is **Nov. 7, 2016**.

###

**Boil Water Advisory**
**Frequently Asked Questions**

**1. Why do I have to boil my water?**
A "Boil Water Advisory" has been issued by the City of Flint due to a drop in pressure in the City of Flint water supply. Due to this drop in pressure, bacterial contamination may have occurred in the water system.

Bacteria are not generally harmful and are common throughout our environment. Corrective measures are currently underway to remedy the situation.

**2. Should I use bottled water?**
Water from an alternative water source is the best option during a "Boil Water Advisory." When bottled water is available, it is a good alternative to boiling water.

**3. What is the proper way to disinfect my water so it is safe to drink or prepare other drinks like baby bottles, drink mixes, tea, frozen juices, etc.?**
The best method of treatment for those served by the City of Flint Water department is to first filter the water through an NSF-approved water filter. Then, the water must be boiled.

Boiling water kills harmful bacteria and parasites (freezing will not disinfect water). Bring water to a full rolling boil for at least 1 minute to kill most infectious organisms (germs).

For areas without power, disinfect tap water by adding 8 drops, about 1/8 teaspoon, of plain unscented household bleach to a gallon of water. Thoroughly mix the solution and allow the water to stand for 30 minutes.

**4. Can I use my coffee maker, ice machine, water or soda dispenser?**
Do not use if they are directly connected to your water supply. Use bottled water or water that has been boiled or disinfected for making coffee and ice.

Once you have been notified that the boil water advisory has been lifted, these devices should be cleaned, disinfected and flushed according to the operator's manual for the device.

**5. Can I just use my filter instead of boiling water?**
No. You must boil the water after you run it through the filter during the "Boil Water Advisory."

**6. Can I use tap water to brush my teeth?**
No. Do not use tap water to brush your teeth. Use bottled water or water that has been filtered and boiled or disinfected as you would for drinking.

**7. How should I wash my hands during a boil water advisory?**
Vigorous handwashing with soap and your tap water is safe for basic personal hygiene. However, if you are washing your hands to prepare food, you should use boiled (then cooled) water, disinfected or bottled water with handwashing soap.

**8. Is potentially contaminated water safe for washing dishes or clothes?**

Yes, if you thoroughly rinse hand washed dishes for a minute in a bleach solution (1 tablespoon bleach per gallon of filtered water). Allow dishes to completely air dry. Most household dishwashers don't reach the proper temperature to sanitize dishes. It is safe to wash clothes in tap water.

**9. Is potentially contaminated water safe for bathing and shaving?**
The water may be used for showering, baths, shaving and washing, if absolutely necessary, but don't swallow water or allow it to get in your eyes, nose or mouth. Children and disabled individuals should have their bath supervised to make sure water is not ingested. Minimize bathing time. Though the risk of illness is minimal, individuals who have recent surgical wounds, have compromised immune systems, or have a chronic illness may want to consider using bottled or boiled water for cleansing until the advisory is lifted.

**10. How should I wash fruit, vegetables, and food preparation surfaces or make ice?**
Wash fruit and vegetables with filtered and boiled (then cooled water) or bottled water or water sanitized with 8 drops (about 1/8 teaspoon) of unscented household bleach per gallon of filtered water. Also, use filtered and boiled water to wash surfaces where food is prepared. Ice should be made with filtered and boiled water, bottled water or disinfected water.

**11. What do I do with food and drink prepared during the advisory?**
Throw away uncooked food, beverages or ice cubes if made or prepared using tap water during the day of the advisory.

**12. How does a "Boil Water Advisory" affect feeding my infant?**
Mothers who are breastfeeding should continue to breastfeed their babies. Wash and sterilize all baby bottles and nipples before each use. If this is not possible, then single-serve, ready to feed bottles of formula must be used with a sterilized nipple. Always filter and boil water before mixing concentrated liquid or powdered formula. If unable to boil filtered water, water may be disinfected as described for drinking.

**13. What if I have already consumed potentially contaminated water?**
Even if someone has consumed potentially contaminated water before they were aware of the boil water advisory, the likelihood of becoming ill is low. Anyone experiencing symptoms such as diarrhea, nausea, vomiting, abdominal cramps, with or without fever, should contact their healthcare provider. Symptoms associated with waterborne illness are also associated with foodborne illness, or even the common cold.

**14. What infectious organisms might be present in contaminated water?**
Illnesses from contaminated water occur principally by ingesting water. The major organisms that produce illnesses are protozoa such as Giardia and Cryptosporidium, and bacteria, such as Shigella, E. coli, and viruses. These organisms primarily affect the gastrointestinal system, causing diarrhea, abdominal cramps, nausea, and vomiting with or without fever. Most of these illnesses are not usually serious or life-threatening except in the elderly, the very young or those with compromised immune systems.

**15. Is potentially contaminated water safe for household pets?**

The same precautions that are taken to protect humans should be applied to household pets. Fish and other animals living in water should not be exposed to potentially contaminated water. If the animal's water needs to be changed use filtered and boiled or bottled water.

**16. What happens after the boil water advisory has ended?**
You will be notified by the City of Flint when the boil water advisory has been lifted. Once the boil advisory has been lifted, you must change the cartridge in your water filter. The water filter can then be used with the new cartridge.

**17. Where can I get additional information?**

## Residents Reminded of Boil Water Advisory
## Water Filter Cartridges Should be Replaced After Advisory is Lifted

*Free water filters, cartridges, bottled water, testing kits available at resource sites*

**FLINT, Mich.** Flint residents are reminded to boil their water due to the drinking water warning issued by the city of Flint on Feb 9. Until further notice, boiled filtered water or bottled water should be used for drinking, brushing teeth, washing dishes, preparing food and for pets.

The boil water advisory was issued in response to a water main break on Tuesday that caused a loss of pressure in the water distribution system. Whenever a water system loses pressure for a significant length of time, bacteria contamination can result. As a precautionary measure, residents are advised to boil their water to kill bacteria and other organisms in the water.

Once the City of Flint lifts the advisory, affected residents should be prepared to take a few precautions to ensure their water is safe for use.

First, residents should always flush their water system for at least five minutes after it has gone unused for several hours. For filtered pitchers, flush before filling the pitcher. Residents can prolong the life of their tap filter by turning the valve to the unfiltered setting before flushing, then switch back to the filtered setting before drinking or cooking.

Second, residents should replace the cartridge in their water filter after a boil advisory. Previously installed water filters will still be safe to use after the cartridge has been replaced, and residents should be sure to follow the water filter manufacturer replacement instructions.

For other tips, see the attachment, "Boil Water FAQs."

Free water filter cartridges, water filters, bottled water and water testing kits are available at water resource sites that remain open daily from 9 a.m. to 9 p.m. and are located at:

Fire Station #1 (also a water bottle recycling site)
310 East 5th St.

Fire Station #3
1525 Martin Luther King Ave.

**MORE**

Fire Station #5 (also a water bottle recycling site)
3402 Western Rd.

Fire Station #6
716 West Pierson Rd.

Fire Station #8 (also a water bottle recycling site)
202 East Atherton Rd.

All water filters distributed by the State of Michigan are certified by NSF International for lead reduction. Individuals wishing to verify that a specific filter is NSF-certified can do so via the NSF website.

The State of Michigan continues to coordinate response efforts in partnership with the city of Flint, Genesee County and local community organizations.

Additional information is available at www.michigan.gov/flintwater, by calling 211 or visiting www.helpforflint.com.

# Flint Joint Information Center Daily Update

February 10, 2016

## Situation Report

The Joint Information Center (JIC) was expected to be operational in Flint from 8 a.m. to 8 p.m. on Feb. 10. The JIC was operational until 8:30 p.m. on Feb. 9.

State agencies at the JIC included the Michigan State Police, Michigan National Guard, and Departments of Agriculture and Rural Development, Environmental Quality, and Health and Human Services. The Genesee County Sheriff's Office and American Red Cross were also present.

Tasks accomplished:

- Media hotline staff answered less than 10 emails and phone calls, ranging from the news media asking to embed with sentinel teams to inquiries about why schools in Flint were not tested for lead until Oct. 2015.
- Created a morning and afternoon media monitoring report.
- Created a Daily JIC Activities email to catalog actions completed for the day and planned for the week to keep all key agency PIOs aware of actions.
- Key state agency PIOs attended the Governor's proposed FY2017 budget and media roundtable in Lansing.
- Continued updating and revising internal talking points to better reflect ongoing information.
- Continued routing public information materials for approval, including an updated recycling flier and a breast feeding and lead exposure fact sheet from MDHHS.

- Issued a press release about the state of Michigan launching new streamlined services for residents, with new testing sites to help confirm water quality.
- Drafted a press release about the next steps to take after the city of Flint issued a water warning on Feb. 9.
- Continued working to have staffing for Feb. 16-26 by Thursday.
- Began planning for a video shoot and news release about the Flint Farmer's Market being open for business.
- Drafted and issued social media posts about ongoing Flint water emergency, including topics such as the U.S. Small Business Administration's Flint Business Recovery Center and the American Red Cross and United Way playing a crucial role coordinating volunteer effort.

## Planned Activities

***Thursday, Feb. 11***

- Governor's TeleTown Hall at 2:30 p.m.
- News Release – National Guard lifesaving incident at Water Resource Site

***Friday, Feb. 12***

- News Release – Translated Documents (Tentative - pending finalization of American Sign Language videos)
- News Release – National Guard Solders building relationships in the community

***Saturday, Feb. 13***

- No planned products or events.

***Saturday, Feb. 14***

- No planned products or events.

***Monday, Feb. 15***

- No planned products or events.

***Tuesday, Feb. 16***

- Congressional and Legislative conference call at 2:30 p.m.

***Wednesday, Feb. 17***

- News Release – Blood-level testing available for veterans and their families (tentative, pending coordination MVAA)

***Monday, Feb. 22***

- News Release – Flint Farmer's Market: Open for Business, Great Nutrition Available
- Video – Flint Farmer's Market: Open for Business, Great Nutrition Available
- Video – Blackstone's and Restaurant Inspections

## Issued News Releases (February)

***State of Michigan Joint Information Center***

- JIC034 – Feb. 10 – State Launches New Streamlined Services for Residents
- JIC033 – Feb. 9 – Outreach to Flint's Blind Community Helps Ensure Access to Information and Resources
- JIC032 – Feb. 9 – American Red Cross and United Way Play Crucial Role Coordinating Volunteer Efforts in Flint
- JIC031 – Feb. 5 – State Encourages Food Establishments to take Advantage of Free Water Safety Inspections
- JIC030 – Feb. 4 – State Partners with MSU Student Athletes to Help with Flint Recycling and Water Distribution Efforts
- JIC029 – Feb. 4 – Edible Flint Works to Address Water Emergency through Urban Gardening
- JIC028 – Feb. 3 – Plan Advanced by State to Monitor Skin Conditions in Flint
- JIC027 – Feb. 2 – Michigan National Guard Continue Efforts at Water Resource Sites
- JIC026 – Feb. 1 – DEQ and EPA Continue Interagency Cooperation Discussions on Flint Water

***Governor's Office***

- GOV – Feb. 10 – Gov. Snyder thanks Flint residents for progress on establishing 'sentinel sites' to check water
- GOV – Feb. 10 – Snyder's budget proposal provides strong investments for one Michigan moving forward
- GOV – Feb. 8 – Gov. Rick Snyder: State partners with Flint human service groups to hire 50 Flint residents to assist with water testing
- GOV – Feb. 5 – Gov. Rick Snyder: Flint businesses can seek assistance through Small Business Administration disaster loans
- GOV – Feb. 4 – Gov. Rick Snyder: Swift Senate approval of $30 million for water bills shows strong commitment to Flint residents

**1. Why do I have to boil my water?**
A "Boil Water Advisory" has been issued by the City of Flint due to a drop in pressure in the City of Flint water supply. Due to this drop in pressure, bacterial contamination may have occurred in the water system.

Bacteria are not generally harmful and are common throughout our environment. Corrective measures are currently underway to remedy the situation.

**2. Should I use bottled water?**
Water from an alternative water source is the best option during a "Boil Water Advisory". When bottled water is available, it is a good alternative to boiling water.

**3. What is the proper way to disinfect my water so it is safe to drink or prepare other drinks like baby bottles, kool-aid, sun tea, ice tea, frozen juices etc.?**
The best method of treatment for those served by the City of Flint Water department is to first filter the water through an NSF approved water filter. Then, the water must be boiled.

Boiling water kills harmful bacteria and parasites (freezing will not disinfect water). Bring water to a full rolling boil for at least 1 minute to kill most infectious organisms (germs).

For areas without power, disinfect tap water by adding 8 drops, about 1/8 teaspoon, of plain unscented household bleach to a gallon of water. Thoroughly mix the solution and allow the water to stand for 30 minutes.

**4. Can I use my coffee maker, ice machine, water or soda dispenser?**
Do not use if they are directly connected to your water supply. Use bottled water or water that has been boiled or disinfected for making coffee and ice.

Once you have been notified that the boil water advisory has been lifted, these devices should be cleaned, disinfected and flushed according to the operator's manual for the device.

**5. Can I just use my filter instead of boiling water?**
No. You must boil the water after you run it through the filter during the "Boil Water Advisory."

**6. Can I use tap water to brush my teeth?**
No. Do not use tap water to brush your teeth. Use bottled water or water that has been filtered and boiled or disinfected as you would for drinking.

**7. How should I wash my hands during a boil water advisory?**
Vigorous handwashing with soap and your tap water is safe for basic personal hygiene. However, if you are washing your hands to prepare food, you should use boiled (then cooled) water, disinfected or bottled water with handwashing soap.

**8. Is potentially contaminated water safe for washing dishes or clothes?**
Yes, if you thoroughly rinse hand washed dishes for a minute in a bleach solution (1 tablespoon bleach per gallon of filtered water). Allow dishes to completely air dry. Most household dishwashers don't reach the proper temperature to sanitize dishes. It is safe to wash clothes in tap water.

**8. Is potentially contaminated water safe for bathing and shaving?**
The water may be used for showering, baths, shaving and washing, if absolutely necessary, but don't swallow water or allow it to get in your eyes, nose or mouth. Children and disabled individuals should have their bath supervised to make sure water is not ingested. Minimize bathing time. Though the risk of illness is minimal, individuals who have recent surgical wounds, have compromised immune systems, or have a chronic illness may want to consider using bottled or boiled water for cleansing until the advisory is lifted.

**9. How should I wash fruit, vegetables, and food preparation surfaces or make ice?**
Wash fruit and vegetables with filtered and boiled (then cooled water) or bottled water or water sanitized with 8 drops (about 1/8 teaspoon) of unscented household bleach per gallon of filtered water. Also, use filtered and boiled water to wash surfaces where food is prepared. Ice should be made with filtered and boiled water, bottled water or disinfected water.

**10. What do I do with food and drink prepared during the advisory?**
Throw away uncooked food, beverages or ice cubes if made or prepared using tap water during the day of the advisory.

**11. How does a "Boil Water Advisory" affect feeding my infant?**

**Headlines:**

New York Times: House Backs Bill to Require EPA Notification in Lead Cases
The House on Wednesday approved legislation to clarify the Environmental Protection Agency's authority to notify the public about danger from lead in their drinking water — the first action by Congress to respond to the water crisis in Flint, Michigan.

Huff Post: Hero Pediatrician To Congress: Government 'Betrayal' Has Traumatized Flint
Dr. Mona Hanna-Attisha, the pediatrician who helped blow the whistle last year on the toxic water in Flint, Michigan, told members of Congress on Wednesday that the crisis has put fear in the eyes of the city's parents.

MLive: Flint water main break contained, boil advisory remains in place
A water main break that lead to the city of Flint issuing a boil water advisory has been contained, but the advisory remains in place.

Michigan Radio: Can "stupidity" in Flint water crisis lead to criminal charges?
In the wake of the Flint water crisis, there are some who are calling for criminal charges to be filed against Michigan Gov. Rick Snyder and other state and local officials.

The Detroit News: House Dems complain about Snyder's absence at hearing
Democrats didn't waste much time Wednesday mentioning the absence of a particular Michigan governor at the witness table in a U.S. House meeting room on Capitol Hill.

The Wall Street Journal: Michigan Governor Seeks $195 Million for Flint in State Budget
Michigan Gov. Rick Snyder on Wednesday proposed $195 million in new spending to address the water crisis in Flint, as he announced a 2017 state budget that would also prop up Detroit's ailing public schools and provide more money to repair the Rust Belt state's aging infrastructure.

Detroit Free Press: Bill would put lead notification responsibility on EPA
The U.S. House passed its first piece of legislation related to the Flint water crisis on Wednesday, approving a measure that will require the U.S. Environmental Protection Agency to alert residents of high lead levels in circumstances where state officials or a local utility does not.

NBC News: Faces of Flint: Portraits From the Crisis
It's easy for most people in the United States to take running water for granted. Not so in Flint, Michigan, where collecting bottled water has become part of the new routine.

Sports Illustrated: Rasheed Wallace drives truck with cases of water to Flint, Michigan
Former NBA star Rasheed Wallace drove a truck filled with cases of water from North Carolina to Flint, Michigan on Thursday night, according to UNC's basketball program.

Chicago Tribune: Michigan governor plans $360M for Flint water crisis, infrastructure
Michigan Gov. Rick Snyder on Wednesday proposed spending hundreds of millions more dollars to address Flint's water crisis and to update infrastructure, including lead water pipes, in the city and across the state.

MLive: More than 400 Flint residents to receive at-home water test training
More than 400 homes spanning Flint's nine wards have been targeted as "sentinel sites" where residents will be trained to test water from their faucets for the state to provide lead level results.

Wallstreet Journal: Michigan Governor Seeks $195 Million for Flint in State Budget
Michigan Gov. Rick Snyder on Wednesday proposed $195 million in new spending to address the water crisis in Flint, as he announced a 2017 state budget that would also prop up Detroit's ailing public schools and provide more money to repair the Rust Belt state's aging infrastructure.

Bridge: Signs of trouble at MDEQ, years before Flint lead crisis
Years before a lead-poisoning crisis made Flint an unenviable center of national attention, there were warning signs about the state agency charged with keeping drinking water safe.

MLive: Chelsea Clinton to meet with Flint doctor, union to discuss water crisis
Chelsea Clinton is set to meet with a Flint doctor who helped research the city's water crisis and union members aiding in delivering resources to city residents as part of a campaign stop.

Boston Globe: Officials could face charges in Flint water crisis, investigator says
As a probe begins into the water crisis gripping Flint, Mich., a top investigator announced Tuesday that if officials are found to have been grossly negligent they could face charges as serious as manslaughter.

MLive: Gov. Rick Snyder proposes $195M for Flint water as protesters call for his removal
Gov. Rick Snyder entered the House Appropriations room in the state capitol through a throng of booing protesters to present his annual budget proposal on Wednesday.

ABC News: Water Expert Rejects Explanation on Flint Corrosion Control
A water expert who first raised concerns about lead in Flint's drinking water dismissed as "contrived" a city official's suggestion in an email that anti-corrosive phosphates weren't added to the Flint River because of worries that the chemicals would promote bacterial growth.

Detroit Free Press: Live at 2: Flint mayor, doctor to testify on water crisis
Congressional Democrats will hold a hearing this afternoon on the Flint water crisis, taking testimony from the city's mayor, a pediatrician who helped raise the alarm over high levels of lead in the water supply and others.

AP: Michigan governor plans $360M for Flint, infrastructure
Michigan Gov. Rick Snyder on Wednesday proposed spending hundreds of millions more dollars to address Flint's water crisis and to update infrastructure, including lead water pipes, in the city and across the state.

WZZM: Snyder budget tackles urgencies: Flint water, Detroit schools
Michigan faces two unique challenges -- the Flint public health crisis and the financial meltdown at Detroit Public Schools -- that require immediate attention in the 2016-17 state budget, Gov. Rick Snyder said in a presentation to lawmakers Wednesday.

ABC 12: Chelsea Clinton to visit Hurley, meet with pipe fitters of UA Local 370
Chelsea Clinton has released her schedule for Thursday's visit to Flint.

ABC News: Digitizing historical deeds could help with Flint's water emergency
Genesee County's register of deeds wants historical documents to be digitized, saying it could help with Flint's water emergency.

ABC News: Latest: State Boosting Level of Testing, Services in Flint
State environmental and health officials say they are boosting the level of data collected as well as the services offered to Flint residents affected by lead-tainted drinking water.

Think Progress: Former Flint Mayor Comes Clean About The Water Crisis
He was mayor of Flint, Michigan when the city switched its water source from Detroit to the Flint River, without adding corrosion controls.

ANTI Media: Dogs Are Being Poisoned by Flint's Lead-Laced Water, Too
Two dogs in Genesee County, Michigan have tested positive for lead poisoning, according to the state's Department of Agriculture and Rural Development.

National Geographic: Intimate Portraits of Flint Show Frustration, Fear, Perseverance
The water contamination crisis in Flint, Michigan has forced the city's residents to dramatically change how they live.

WILX 10: WATCH: Flint Water Crisis takes toll on pets
The water crisis in Flint, Michigan is taking its toll on pets as well.

ABC 12: Flint Fire Chief: Water damaging fire engine water pumps
At just a year-and-a-half old, Fire Engine 61 is the newest in the Flint Fire Department's fleet, but look a little closer and you'll see it...

The Ring of Fire: Flint Water Crisis Protesters In Michigan Capital Shout "Bring Out Rick"
Protesters have descended upon the Michigan capital in an effort to speak with Michigan governor Rick Snyder who many believe knowingly allowed citizens of Flint to continue to drink lead-poisoned water for as long as two years before the public was notified.

The Hill: House votes to require EPA lead warnings after Flint crisis
The House voted near unanimously Wednesday to improve the Environmental Protection Agency's notifications about drinking water contamination like the crisis plaguing Flint, Mich.

The Weather Channel: Flint's Water Crisis Is Now Poisoning Dogs, Too
Flint's human crisis is also affecting the Michigan city's dog population, as several canines have been poisoned by lead-tainted water.

Digital Journal: 'This is a joke, right?' Flint citizens asked to boil water first
The citizens of Flint, Michigan, already embroiled in a water crisis that seems to have no end, received notice Tuesday evening that the water coming out of their faucets must be boiled before use.

Leader Call: Clinton Calls Flint Water Crisis "Immoral"
Trailing by double digits, according to some polls, the Clinton campaign is finding it can't escape the expectations and the limits of that "special bond" between the Clintons and voters of New Hampshire on the cusp of Tuesday's primary.

MLive: Koegel Meats still using original recipe after 100 years
Refrigerated trucks worked a little different more than 70 years ago when Albert J. Koegel took on a summer job working for his father's meat company.

New York Times: Michigan Officials Defend Handling of Legionnaires' Disease Outbreak in Flint
Michigan health officials on Tuesday defended their handling of a deadly Legionnaires' disease outbreak in Flint after widespread criticism of their failure to promptly notify the public, and questions about state regulators' cooperation with their local counterparts.

Pete,

Please move forward with plans to have a new curb box and service line installed at 212 Browning. I have spoken with the City Attorney and we intend to have the resident sign a hold harmless letter prior the actual work being done.

I will need to know the date that the contractor plans to proceed with the work.

Thank you

Flint Water Media Monitoring Report
Wednesday, February 10, 2016
Morning

---

**Topics:**

- Governor's Budget announcement and media roundtable in Lansing.
- USDA Food, Nutrition and Consumer Services Deputy Under Secretary Dr. Katie Wilson will be traveling to Flint today, visiting a school lunch program, a WIC clinic, and the federal emergency operations command center.
- Manslaughter charge possible
- Bacteria worries influenced Flint corrosion decision

**Social Media:**

- Key hashtags: #FlintWater, #FlintWaterCrisis, #Flint, #Justice4Flint, #Dontdrinkthewater #waterforflint
- Chatter on boil water advisory when boiling water increases lead

**Misreports:**

- None at this time.

**Headlines:**

CNN: Adding insult to injury: Flint issues boil-water advisory after water main break
The folks in Flint, Michigan, just can't seem to get a break. Already using filters on their faucets to make their toxic water clean, they'll now have to boil it too.

Detroit Free Press: Same old sins seen in state e-mails on Flint crisis
Few new sins are revealed in the latest release of emails related to the Flint water crisis.

Detroit Free Press: Snyder budget tackles urgencies: Flint water and DPS
Michigan faces two unique challenges -- the Flint public health crisis and the financial meltdown at Detroit Public Schools -- that require immediate attention in the 2016-17 state budget, Gov. Rick Snyder said in a presentation to lawmakers Wednesday.

Detroit Free Press: Flint businesses affected by water crisis get loan help
The Small Business Administration has opened a Business Recovery Center in Flint that will hold office hours Wednesday through Feb. 25.

MLive: Help center opens for small businesses impacted by Flint's water crisis
Businesses impacted by Flint's water crisis will have a place to go in the city for assistance.

MLive: Signs of trouble at MDEQ, years before Flint water crisis
Years before a lead-poisoning crisis made Flint an unenviable center of national attention, there were warning signs about the state agency charged with keeping drinking water safe.

The Detroit News: Snyder focuses $195M on Flint's health, water needs

Gov. Rick Snyder laid out his plan Wednesday for $195.4 million in new aid to help deal with Flint's contaminated water problem in his state budget plan for next year.
ABC News: Latest: Democrats: White House Signals Support for Flint Aid
Democratic lawmakers say the White House has signaled support for an emergency bill that would spend $765 million to help solve a water crisis in Flint, Michigan.

NY Daily News: Officials in Michigan could be facing charges as serious as involuntary manslaughter for Flint water crisis
Flint's water crisis, after a switch in the source allowed dangerous levels of lead and potentially caused deadly cases of Legionnaires' disease, could result in criminal charges as serious as involuntary manslaughter, a top investigator said Tuesday.

WILX: FLINT WATER UPDATE - Expert rejects explanation on corrosion control
A Virginia Tech expert who first raised public concerns about lead in Flint's water is dismissing a city official's email suggesting that anti-corrosive phosphates weren't added to the Flint River because of worries that the chemicals would promote bacterial growth.

Washington Post: Manslaughter charges possible in Flint water crisis
As a probe begins into the water crisis gripping Flint, Mich., a top investigator announced Tuesday that if officials are found to have been grossly negligent they could face charges as serious as manslaughter.

Detroit News: Manslaughter charge possible in Flint
Todd Flood, special counsel for the state attorney general's office investigation into the Flint water crisis, said Tuesday the probe could lead to a variety of criminal charges or civil actions.

Los Angeles Times: How scientists failed the public in the Flint water crisis
The Flint, Mich., water crisis, in which thousands of children were exposed to elevated lead levels after a supposedly money-saving decision to start using the corrosive Flint River as the city's water supply, is more than a massive failure of politics and regulation.

Detroit Free Press: Snyder to propose $195M more for Flint water crisis
Gov. Rick Snyder on Wednesday is expected to request an additional $195 million to bring back safe drinking water to Flint and treat its impacted residents after highly corrosive water drawn from the Flint River leached lead throughout the city's drinking water system, according to a person familiar with the budget.

Slate Magazine: Flint Special Counsel: Officials Face Possible Manslaughter Charges for Water Contamination The investigation into the contamination of the drinking water in Flint, Michigan could result in criminal charges for those responsible, including potential involuntary manslaughter charges that are punishable by up to 15 years in prison.

Detroit Free Press: State defends Legionnaires' response in Flint crisis
State health officials today defended their response to the Legionnaires' disease outbreak in Flint, discounting concerns that infighting hurt public health.

New York Times: Michigan Officials Defend Handling of Legionnaires' Disease Outbreak in Flint
Michigan health officials on Tuesday defended their handling of a deadly Legionnaires' disease outbreak in Flint after widespread criticism of their failure to promptly notify the public, and questions about

state regulators' cooperation with their local counterparts.

Detroit Free Press: Officials work to inform blind about Flint water crisis
Officials are working to ensure blind residents of Flint have access to all needed information and resources related to the city's crisis with lead-tainted water.

The Detroit News: GM, UAW donating $3 million to help Flint children
General Motors Co. and the United Auto Workers will donate $3 million to the United Way of Genesee County to help support health and education needs for the children of Flint who have been impacted by lead-contaminated water.

Mlive: Flint EM spent more than $52K on theft probes after water was deemed unsafe
The city of Flint paid more than $52,000 for two outside water theft investigators even after county officials told residents in October to stop drinking the water.

Mlive: Water line breaks disrupt service to Flint residents
Water lines breaks in Flint Tuesday, Feb. 9 have disrupted traffic and school events in some areas of the city.

ABC 12: Email: Bacteria worries influenced Flint corrosion decision
An email written by a former Flint official says anti-corrosive treatments weren't added to the Flint River water because of concerns about bacteria.

*Economic Injury Loans for Small Businesses*

SBA Disaster Assistance – Field Operations Center- East – 101 Marietta Street, NW, Suite 700, Atlanta, GA 30303

**Release Date:** Feb. 9, 2016
**Release Number:** 16-205, MI 14620

**Contact:** Michael Lampton
**Email:**Michael.Lampton@sba.gov
**Phone:** (404) 331-0333

## Economic Injury Disaster Loans Available to Small Businesses in Flint, Michigan Due to Contaminated Public Water Supply

**WASHINGTON** – Low-interest Economic Injury Disaster Loans from the U.S. Small Business Administration (SBA) are available to Flint, Michigan and surrounding area small businesses, small agricultural cooperatives, small aquaculture businesses and private nonprofit organizations affected by the contaminated public water supply disaster that began on Oct. 1, 2015.

SBA Administrator Maria Contreras-Sweet made the loans available following a disaster declaration request from Gov. Richard D. Snyder on Feb. 4. The declaration covers Genesee County and the adjacent counties of Lapeer, Livingston, Oakland, Saginaw, Shiawassee and Tuscola in **Michigan.**

"The public water contamination in Flint is a tragedy and a historic health emergency with repercussions that will continue to ripple across the entire community. While the situation continues to unfold, SBA is committed to bolstering the economic livelihood of Flint and surrounding communities by offering low interest working capital loans to the small businessmen and women severely impacted by this disaster," said Administrator Contreras-Sweet.

"The SBA can help affected small businesses and nonprofit organizations overcome their economic losses by offering financial assistance, but the help cannot start until they submit an SBA disaster loan application to us," said Constance P. Logan, SBA's deputy district director in Michigan.

Eligible entities may qualify for loans up to $2 million. The SBA offers economic injury loans to help meet working capital needs caused by the disaster. The rates on these loans are 4 percent for small businesses and 2.625 percent for nonprofit organizations with terms up to 30 years. Eligibility for these working capital loans are based on the size and type of business and its financial resources.

SBA is very pleased for the tremendous support received from Flint / Genesee Regional Chamber and Metro Community Development in establishing the Business Recovery Center at the Oak Business Center in Flint. Our customer service representatives are available at the Center to answer questions about the disaster loan program and help individuals complete their applications.

The Center is located in the following community and is open as indicated:

**Genesee County**
Oak Business Center
2712 North Saginaw Street
Flint, MI 48505

Opens: Wednesday, Feb. 10 at noon
Hours: 8 a.m. - 5 p.m. weekdays
Closed: Saturdays and Sundays
Closed: Monday, Feb. 15 (Presidents' Day)
Closes: Thursday, Feb. 25 at 3 p.m.

-more-

Applicants may apply online using the Electronic Loan Application (ELA) via SBA's secure website at https://disasterloan.sba.gov/ela.

Applications and program information are available by calling the SBA's Customer Service Center at 1-800-659-2955 (1-800-877-8339 for the deaf and hard-of-hearing), or by sending an email to disastercustomerservice@sba.gov. Loan applications can also be downloaded from the SBA's website at www.sba.gov/disaster. Completed applications should be mailed to: U.S. Small Business Administration, Processing and Disbursement Center, 14925 Kingsport Road, Fort Worth, TX 76155.

The deadline to return economic injury applications is **November 7, 2016**.

###

*For more information about the SBA's Disaster Loan Program, visit our website at www.sba.gov/disaster.*

- In Flint, the Red Cross is helping to coordinate volunteers, distribution efforts, supply storage and logistics planning in concert with local officials, United Way, Michigan Community Service Commission and a growing list of other partners.
- The Red Cross is supporting distribution efforts by coordinating volunteers and providing logistical support. As of February 9, 2016, the Red Cross has helped distribute over 46,198 cases of water, more than 29,277 water filters and replacement filters, and over nearly 7,102 testing kits to nearly 41,949 homes visited on 308 distribution routes.
- Red Cross Emergency Response vehicles are also helping the Genesee County Emergency Management Agency with delivery of items door-to-door in neighborhoods. In addition, Red Cross disaster responders are working with state and county officials to identify and meet any urgent or special needs as quickly as possible.
- Partnering with United Way to operate the community Volunteer Reception Center, assigning volunteers to assist in water distribution and other duties at other partner organizations
- Red Cross has supported the early and on-going convening of community partners (faith-based, other NGOs, government, etc.) regarding community needs, including those with access and functional needs.
- Volunteers assembled thousands of water test kits
- Provided meals for Water Resource Teams
- Volunteers – FWRT *(Flint water resource teams)*
- ARC Logistics Planner to SEOC
- Early on, American Red Cross Volunteers distributed water at PODs
- Water delivered to GC Community Action Resource Department and other partners
- Red Cross Warehouse Management Team initially operated the water warehouse
- In January alone, Red Cross disaster responders put in just over 30,000 hours of work
- Responded to three apartment fires in the City of Flint

Updated February 9, 2016

# Internal JIC Talking Points
# Flint Water Emergency Response

**NOT FOR RELEASE OUTSIDE JOINT INFORMATION CENTER**
**-- For use in answering media inquiries –**

## General

- The health and safety of Flint residents remains a top priority. Until water is declared safe, residents are directed to continue to follow established safety protocols.

- These recommendations include that all homes obtain a water filter and use filtered water for drinking and cooking.

- Until we know the water from the tap is safe, vulnerable populations, including children under six and pregnant or nursing women, should drink bottled water.

- It is essential that all Flint residents have the water in their homes tested as soon as possible. Free water testing kits are available at fire stations 1, 3, 5, 6, and 8. Water samples should be returned to the fire stations for testing. The DEQ lab provides results to the City of Flint within 3 business days. The City of Flint mails results to residents. Results are posted on www.michigan.gov/flintwater.

- Residents are also encouraged to clean the aerators on their faucets to lessen lead sediment. Instructions for how to do this can be found on our website at www.michigan.gov/flintwater.

- For additional information, go to www.michigan.gov/FlintWater. This website includes health fact sheets and information about free resources including bottled water, water filters, replacement cartridges and water test kits.

- Flint residents, both English- or Spanish-speaking, with questions or those who need assistance can call United Way 2-1-1. United Way 2-1-1 is a free information and referral service that is available 24 hours a day, seven days a week.

- Response efforts are being coordinated by the State of Michigan in partnership with the City of Flint, Genesee County, and local community organizations to provide a full set of water resources to the residents of Flint.

## Resources and support services

### Flint water testing and bottled water pick up sites

- Five water resource sites have been established in Flint fire stations as one-stop locations where residents can pick-up everything they need to ensure their drinking water is safe.

- These sites are open daily from 9 a.m. to 9 p.m. Residents can pick-up free bottled water, water filters, replacement cartridges, and home water testing kits. Citizens who need transportation can call 2-1-1 for assistance.

- Identification is not required to receive any of these resources.

- In order to ensure supply keeps pace with demand, residents are reminded the general guideline is one case of bottled water per household per day.

- Samples will only be accepted by using the official water testing kits provided at the water resource sites and by the water response teams.

- The locations are:

    - Fire Station #1 located at 310 East 5th St. in Flint, MI 48502
    - Fire Station #3 located at 1525 Martin Luther King Ave. in Flint, MI 48503
    - Fire Station #5 located at 3402 Western Rd. in Flint, MI 48506
    - Fire Station #6 located at 716 West Pierson Rd. in Flint, MI 48505
    - Fire Station #8 located at 202 East Atherton Rd. in Flint, MI 48507

- Filters and replacement cartridges are also available at the following locations:

    - Michigan Department of Health and Human Services office
      125 E. Union St.
      Flint, MI 48502

    - Michigan Department of Health and Human Services office
      4809 Clio Road
      Flint, MI 48504

    - Genesee County Community Action Resource Department
      2727 Lippincott
      Flint, MI 48507

    - Genesee County Community Action Resource Department
      601 N. Saginaw
      Flint, MI 48502

- Flint City Hall
  1101 S. Saginaw St.
  Flint, MI 48502

**2-1-1**

- Anyone having difficulty reaching 2-1-1 can use the alternate toll-free number 1-844-875-9211.
- United Way 2-1-1 is not a disaster distress helpline and does not provide stress counseling.
- Flint residents should not call 2-1-1 about their individual testing results. If you have questions regarding blood level results, talk to your health provider.

**Water Response Teams—home water delivery**

- Water response teams consisting of volunteers are making deliveries to homes that need the most assistance, for example homes that do not have filters yet, or residents that are homebound.
- The water response teams are handing out bottled water, water filters, replacement cartridges, and water testing kits.
- Members of the water response teams have official credentialed badges with a State of Michigan seal hologram to be easily identified.
- If a resident is not at home when the teams stop by, a flyer with information on how to receive these free water resources will be left at their residence.

**Filters**

- When used properly water filters remove 99% of lead in water.
- Residents are urged to use filtered water for drinking, food preparation, brushing teeth and watering pets. Unfiltered water may be used for bathing and cleaning.
- One filter and one replacement cartridge are being provided per household initially. Each filter is good for approximately 100 gallons of water. The filter has an indicator on it that will turn from green to red when it needs to be replaced.
- The filters have a two to five-year, non-replaceable battery that operates the indicator light.

- The Plumbers and Pipefitters Union has agreed to provide free installation to homebound residents needing assistance.

- There is a detailed video posted on www.michigan.gov/flint that explains how to properly install a water filter cartridge.

- Water filters are also available for small businesses, in addition to Flint residents, at the water resource sites.

- ZeroWater filters and pitchers are not kept at the point of distribution (POD) locations for people to pick up. They are complicated and vary in size for different homes. There is a Rapid Response Team (RRT) that goes to homes and installs them as needed. When a replacement filter is needed, residents can go to a POD (such as a fire station) and request a filter (and pitcher if it's the first time).

**Water Testing**

- Flint residents can drop-off water samples to the five water resource sites at fire stations. Samples will only be accepted by using the official water testing kits provided at the water resource sites and by the water response teams.

- EPA has set up an email and toll free number for sampling questions, flintwater@epa.gov and 800.426.4791.

**Results**

- Results are posted on www.michigan.gov/flintwater under "school and residential testing results."

- Citizens who have not received a response on water test results should contact the City of Flint at 810-787-6537 ext. 3501.

**Resources for homebound individuals**

- Homebound individuals can contact 2-1-1 for assistance. Those contacts are being provided to volunteers who are responding to needs.

- The Plumbers and Pipefitters Union has agreed to provide free water filter installation to homebound residents needing assistance. This is being coordinated through 2-1-1.

**Fire Suppression Systems**

- The fire code requires an annual inspection of sprinkler systems by trained technicians.
- The code also requires the inspection of the sprinkler piping at a minimum of every five years.
- If potential obstructions are observed, the piping is required to be flushed completely.
- If a business owner has questions or concerns regarding their sprinkler system, they should contact a licensed fire protection contractor for assistance.

**Non-English and deaf/hard of hearing individuals:**

- There are a few 2-1-1 agents in the state system that are fluent in Spanish and Arabic. When these agents are available calls are routed to them. Otherwise, tele-interpreter services are available 24/7/365. It usually takes under one minute to connect with an interpreter in any of 180 languages.
- TDD/TTY (Telecommunication Device for the Deaf) is available at every center, but very few calls come in this way.
- Email allows direct communication between the deaf/hard of hearing person and the 2-1-1 agent.
- Live chat is available at most of the 2-1-1 partners which allows individuals to communicate directly and privately with a 2-1-1 agent in real-time.

**Pets**

- Whatever you are doing in your own home for water, you should do for your pets (e.g., filtered, bottled water).
- In the last 5 years, there have been two cases of lead toxiosis in animals reported in Genesee County.
- If you have any concerns about your animal's health, you should work with a licensed veterinarian.
- There are a variety of diseases and issues that could mimic signs/symptoms of a lead-related issue, which is why it's critical to work with your vet to properly diagnose your pet.

- If a licensed vet suspects a possible lead-related issue, they contact MDARD and the department will work with them to have a sample tested. MDARD is covering the sample testing costs coming through veterinary offices.

- Media contacts wanting more information about pet testing or potential impacts can contact Jen Holton at MDARD: 517-284-5724, holtonj@michigan.gov

- Michigan has had very few cases of lead toxicity over the last five years, with most cases being related to cattle. For background purposes, with cattle, it's counted as one farm. Those cases almost always involve lead in batteries or some other contamination in the pasture where cattle graze.

- Under the Animal Industry Act, Public Act 466 of 1988, as amended, reportable diseases/conditions are exempt from disclosure. MDARD does provide reportable disease/condition case information down to the county level, but cannot provide the specifics of those individual cases.

**Paying for water**

- Inquiries regarding the payment of water bills should be referred to the City of Flint.

- Per the Mayor, the city put a halt on all shut off notices or disconnections. No shut off notices have been issued since December and the utility billing department has been given no instruction to resume at this time.

- The City is currently reviewing its policy on shut off notices in light of the declared emergency and amended preliminary injunction order issued on January 11, 2016.

- Per DHHS, State Emergency Relief funding is available to qualified households to replace damaged water heaters. This information is available by calling 211.

**Bathing**

- According to the Michigan Department of Health and Human Services, routine bathing practices can continue. It is recommended bath time be used for bathing only, after which children should be taken out of the bath rather than be allowed to play in the water for extended periods of time.

- If a resident has a rash that they are concerned about, we recommend they contact their primary care doctor.

- Currently, rashes are only reportable to MDHHS when there is a suspected infectious disease such as measles or chickenpox.

- MDHHS is working together with the CDC and Genesee County Health Department to ensure we're monitoring health issues that may be related to water.

- We will be building on our partnership with the local provider community to determine what additional supports and surveillance may be necessary.

**For non-Flint residents who want to test their water**

  - Anyone in Michigan who wants to test their water for lead can call the State Drinking Water Lab at 517-335-8184.
  - The lead testing kit costs $18, which includes the sample bottle and instructions shipped to your home as well as the lab test. It does not include the cost of shipping your filled sample bottle back to the lab.
  - Depending on the lab workload, results are typically available within 1-2 weeks.
  - Your results will include information about the EPA's lead recommendations as well as contact information for your local health department, which can help you interpret your results further, if needed.

**Other/general**

- Legionnaires disease related inquiries will not be handled by the JIC. Inquiries should be directed to DHHS – Jen Eisler - cell 517-230-9804

## How to help

### Volunteering

- Since early January, over 2,000 volunteers have volunteered their time to assist Flint residents during the water emergency.

- Volunteers are coordinated jointly by the American Red Cross and the United Way of Genesee County.

- Volunteers are still needed to provide assistance with water distribution, warehousing, data entry and assembly of water test kits.

- To learn more or sign up to volunteer, visit www.flintvolunteer.com.

### Material Donations

- Material and in-kind donations of cases of water bottles, gallon jugs and larger containers of water can be dropped off at the below locations.

- Donations of 100 cases or less:
  - Catholic Charities Center for Hope, 517 E. Fifth Ave, Flint
    Monday – Friday, 9 a.m. - 4 p.m.
  - Call 810-232-9950, ext.325 to make arrangements for deliveries.

- Donations of 100 cases or more, pallets of water or donations in one semi-truck:
  - Food Bank of Eastern Michigan, 2300 Lapeer Rd., Flint
    Monday - Friday 8 a.m. - 4:30 p.m.
  - Call (810) 239-4441 to schedule a dock time for delivery.

- Donations not on pallets:
  - Pierson Road Warehouse on Monday, Friday and Saturdays between 12 – 6 p.m.
  - Call 517-420-3984 or email flintwarehouse2@michigan.gov to schedule a dock time for delivery.

- For extra-large donations, such as multiple semi-trucks, delivery arrangements can be made by emailing flintdonations@michigan.gov or 517-420-4162. Dave Martus will be handling these calls and emails.

- In-kind donations include labor to install filters and trucks to deliver materials. All in-kind donors should email flintdonations@michigan.gov or 517-420-4162. Dave Martus will be handling these calls and emails.

- If asked, preference is for water donations to be jugs of water (rather than bottles).

**Financial Donations**

- Visit www.helpforflint.com for options.

- The United Way of Genesee County, Community Foundation of Greater Flint, Hurley Children's Hospital and the Greater Flint Health Coalition have created a fund that will address both the short-term and long-term needs of Flint residents.

- The Community Foundation is managing all financial donations and no administrative fee is assessed. Visit www.flintkids.org or call the United Way at 810-232-8121 or Community Foundation of Greater Flint at 810-767-8270 for more information.

## *What's being done—Government actions*

### Presidential Disaster Declaration – FEMA assistance

- On Saturday, January 16, President Obama approved Gov. Snyder's request for a federal emergency in Flint. This action will provide emergency relief in the form of bottled water, water filters, filter replacements and water test kits. The period of assistance is up to 90 days.

- Gov. Rick Snyder on Wednesday, January 20, submitted an appeal to President Barack Obama following the denial of a major disaster declaration, a move that could potentially bring additional and much-needed resources to help the people of Flint.

- In the appeal to President Obama, Gov. Snyder said the severity of the disaster warrants special consideration for all categories under the Individual and Public Assistance Programs, as well as the Hazardous Mitigation Program in order to facilitate recovery.

- The President denied that appeal based on the legal requirement that under the Stafford Act disaster relief is available only for natural events, fires, floods, or explosions.

- On Friday, January 22, President Obama denied Gov. Snyder's appeal for a federal disaster declaration to aid Flint.

- On Wednesday, January 27, the state requested the federal WIC program increase access and availability of WIC benefits to children five to 10 years of age in the Flint area, to help children battle lead exposure through nutrition. On Friday, January 29, the USDA denied the state's request. Gov. Snyder is appealing that decision.

### Emergency Declaration – City of Flint

- Gov. Rick Snyder issued a proclamation Thursday, January 28 calling for an extension to the emergency declaration in the City of Flint and Genesee County.

- The Michigan House and Senate approved the request, extending the emergency until Thursday, April 14, 2016.

- This extension coincides with the current Presidential Emergency Declaration.

- Extending this emergency will help us continue providing immediate assistance to the people of Flint while working on long-term solutions to help Flint recover from this tragedy.

**Resources Distributed Since January 9**

- Since Saturday, January 9, the following resources have been distributed to residents, both at the water resource sites and by water response teams, in addition to donations:
    - *Below figures are as of Feb. 8, 2016*
        - 299,273 cases of water
        - 104,500 water filters
        - 35,756 water testing kits

- Water is being distributed primarily in bottles rather than jugs because donations are largely comprised of bottled water.

- In addition to donated supplies, the State of Michigan has purchased the following resources, since Tuesday, January 5, which will continue to be delivered to Flint over the coming days:
    - *Below figures are as of Feb. 5, 2016*
        - 141,982 cases of water
        - 124,052 filters
        - 62,701 water testing kits

**National Guard Mobilization**

- The Michigan National Guard has been activated to assist with distribution efforts at the five water resource sites at fire stations in the city.
    - Gov. Snyder issued an Executive Order on Tuesday, January 12, 2016, to activate Michigan National Guard.
    - Currently they are being used to staff water resource sites to support the distribution of bottled watered, water filters, replacement cartridges, and water testing kits.
    - National Guard is uniquely prepared and trained to respond quickly in emergency situations.

- First group of National Guard personnel arrived in Flint on Wednesday, January 13, 2016 to conduct assessment and get acclimated (seven personnel).

- Thirty (30) more personnel arrived on Friday, January 15; and that number was expanded to approximately 70 personnel on Monday, January 18, 2016. From Saturday, January 23 through Saturday, January 30, there were 279 MI National Guard Service Members on the ground in support of efforts in Flint (engaging in door-to-door effort). This number included both Army and Air guard assets. As of Sunday, January 31 there are 70 MI National Guard Service Members on the ground in Flint.

- This is the second time the Gov. Snyder has activated the National Guard. Last time was for the Duck Lake Fire in Luce County in May 2012.

- Per Michigan Emergency Management Plan, the Michigan State Police Director or designee is responsible for coordinating all state efforts, including the Michigan National Guard.

- Activation of the Michigan National Guard has allowed the American Red Cross, who had been staffing the water resource sites, to join the water distribution teams.

**Attorney General Investigation**

- On Friday, January 15 the Michigan Attorney General office announced they launched an investigation to determine what, if any, Michigan laws were violated in the process that resulted in lead contamination in Flint.

- On Monday, January 25 Michigan Attorney General Bill Schuette assigned individuals to lead the investigation: attorney Todd Flood (defense attorney and former Wayne County assistant prosecutor) and Andy Area (former Detroit FBI bureau chief).

**Supplemental Budget Request**

- After reviewing financial requests from the City of Flint, as well as financial requests from the State Emergency Operations Center and the involved state agencies and receiving input from various other organizations in Genesee County, the state budget director has submitted to the Legislature an emergency supplemental budget request on behalf of the governor to address the **immediate** funding needs for the Flint water crisis. We understand further investment will be necessary.

- On Friday, January 29, the Gov. Snyder signed the legislation allocating $28 million for more water resources and expanded health care initiatives, including more school nurses, diagnostic tests and community education through the Genesee County Health Department.

- This supplemental request is not intended to address all of the future financial needs that will be necessary to aid the city and the people of Flint. This supplemental request addresses the immediate funding needs and requests, including the cost of bottled water, filters and testing kits.

- All state resources are being brought to bear to protect public health and safety. In addition, the Gov. Snyder requested federal aid through FEMA and through direct request to the President – to date $5 million in federal aid has been approved for Flint.

- This supplemental request includes funding for immediate needs and is not intended to include funding for some of the longer-term needs such as special education, long-term health monitoring of children, and potential replacement of the water infrastructure and service lines. The longer-term needs will be addressed through the traditional budget development process and the governor will release his fiscal year 2017 budget recommendation on Wednesday, February 10.

**Gov. Snyder and DEQ Announce 5-Part Plan to Determine Water Safety**

- On Sunday, January 31, the DEQ embarked on a 5-point strategy to establish a baseline of data to determine when the water is safe to drink. The strategy includes:

    - Residential water testing: at-home water testing done by residents is key in guiding experts to areas of concern. To date, of 4,924 total residential water samples, tests show 93.7 percent of homes are below the actionable level of 15 parts per billion (ppb) for lead.

    - School testing: DEQ in collaboration with the Michigan Department of Licensing and Regulatory Affairs (LARA) has tested all 13 public schools in the city and continues to test non-public schools, children's centers and senior centers. The state will retest the public schools once it has completed replacing water fixtures.

    - Food service/restaurant provider testing: DEQ is working in collaboration with the Michigan Department of Agriculture and Rural Development (MDARD) to test establishments and ensure they are using water filters, flushing water systems properly, and using the correct food and water standards.

- Blood level testing: DEQ is working in conjunction with the Michigan Department of Health and Human Services (MDHHS) to ensure residents with high blood lead levels have their water tested for lead. Homes with high water lead levels are provided additional services by MDHHS and the Genesee County Health Department to ensure residents' exposure to lead is minimized.

- Flint water distribution system testing: DEQ and the City of Flint are working to monitor and test the quality of the water as it travels throughout the city's water distribution system. Additionally, sentinel sites are being established to set a baseline for data collection.

**Testing of Bottled Water for Lead**

In January, concerns have been raised about the possibility of lead being in the water being provided to Flint residents. This concern was raised due to measurements some residents obtained with a Total Dissolved Solids (TDS) meter provided with ZeroWater brand water filters.

- TDS is a measurement of all minerals and other common chemicals present in the water. The TDS meter is not sensitive enough to measure lead in the water and was included to help users determine when it is time to replace the filter.

- Although the TDS meter does not measure lead, the concern raised an excellent point that the bottled water being distributed should be tested for lead. Therefore, the MDEQ has analyzed a sample from each of the 21 brands of bottled water that are in inventory for both lead and copper. Results show all 21 brands of bottled had results of "Not Detected." With respect to lead, that means that all brands were less than 1 part per billion and for copper all 21 brands were less than 50 parts per billion.

- Although bottled water is regulated and must meet safety criteria, it was an excellent suggestion by the residents of Flint that we verify that the bottled water being distributed is safe and for that. We appreciate the suggestion.

**Federal Funds – How They Can Be Used**

- In an interview on Thursday, January 28, Lt. Gov. Brian Calley said that only $17 million of the $80 million in federal loans made available to Michigan can be allocated towards the recovery effort in Flint.

- This clarified a misunderstanding that the entire $80 million in federal loans could be allocated to aid in water infrastructure improvements for Flint.

- Read the Detroit Free Press story here: http://www.freep.com/story/news/local/michigan/flint-water-crisis/2016/01/28/only-17m-federal-loans-flint-says-lt-gov/79454204/

**Seeking Healthcare Services for Flint Residents under age 21**

- Gov. Snyder sent a request to U.S. Department of Health and Human Services to provide Flint residents under age 21 with additional healthcare services to address potential problems brought on from exposure to lead.

- The Governor requested to expand Medicaid eligibility for all residents in the impacted areas up to age 21, regardless of income level. The request is also for Medicaid coverage for people already enrolled in other forms of insurance to ensure comprehensive benefits are available to children who may have come into contact with lead in the water. The White House and federal Department of Health and Human Services did not have an immediate response.

**Jobs and Talent & Economic Development Assistance**

- The Department of Talent & Economic Development (TED) is engaged with Gov. Snyder's efforts to address the situation in Flint.

- Agency directors and staff have been on the ground in Flint assisting with water distribution efforts and talking with city officials on ability to assist with the needs in the community to provide safe, clean drinking water.

- Michigan State Housing Development Authority (MSHDA) Executive Director Elsenheimer and the MSHDA team have been on the ground ensuring all MSHDA housing has appropriate filters and water resources.

- Michigan Economic Development Corporation / Michigan Strategic Fund is currently focused and in discussions with local officials on how the state can assist in the immediate infrastructure needs of the City of Flint.

- Michigan Talent Investment Agency is eager to be a full partner in enhancing the economy of the community and the self-sufficiency of its families through numerous programs and initiatives, including the Community Ventures Program that assists Flint residents in finding good paying jobs.

- Through Travel Michigan, TED is continuing to promote the cultural, historical and natural assets of the area, and working collaboratively with the community to

showcase the positive stories coming out of Flint.

- In addition to these efforts, the TED team is exploring any and all other options for TED to assist the residents of Flint both on addressing their immediate water issues, as well as long term economic and community development needs.

- On Monday, February 8, Gov. Snyder announced a new partnership between the State of Michigan and Flint human service groups. The partnership with Orchards Children's Services and Flint YMCA's Safe Places Program will help hire and train 50 residents in February to fill jobs on teams helping conduct water tests across Flint.

**Michigan School for the Deaf**

- *For specific questions regarding actions taken to address lead levels at **any** schools (including Michigan School for the Deaf), ask that they contact the Michigan Department of Education (MDE).*

- When the Michigan School for the Deaf (MSD) initially heard of the water lead issue in September, school officials conducted their own testing which came back with clear results.

- Administrators closed down fountains in the building and have been purchasing 35-gallon water dispensers (150 gallons/week) from Culligan.

- Water filters have been placed on cafeteria drinking fountains and kitchen sinks for use in cooking/food prep.

- The school was notified by the local Health Department (Wednesday, January 20) about free testing for students for lead poisoning.

- The school has a staffed health center and MDE has approved the health center to work with the health department to set up a testing schedule and follow testing protocols outlined by the health department.

- Active consent is required for blood testing, so the school is working with the health department to notify parents and obtain consent.

- On the evening of Tuesday, January 12, MSD was notified by the dormitory landlord that they had a lead level reading of 28 parts per billion on some water outlets. The DEQ recommends school facilities take action if samples from any drinking water outlets show lead levels greater than 15 parts per billion.

    - Current actions being taken by MSD:

- Informing parents of the situation.

- Expediting replacement of 62-65 faucets in the dorm beginning Friday, January 22, 2016 and to have all replaced by the end of that weekend.
- The landlord and school officials are looking at replacing shower heads and/or installing in-line filters on showers.

- Approximately 75 students board at MSD, ranging in age from four to 26. There are 167 students attending the school.

# History, background timeline

## Chronology

- October 1, 2015: Public Health Emergency Declaration issued
- December 14, 2015: State of Emergency declared by City of Flint.
- January 4, 2016: Genesee County Board of Commissioners declared a local emergency
    - In a separate document, Genesee County requested a Governor's Declaration of Emergency with the local declaration.
- January 5, 2015: Governor declared State of Emergency
    - State Emergency Operations Center activated in Lansing to coordinate state response
    - Joint Information Center (JIC) activated on January 6, 2016 in Lansing; moved to Flint on January 11, 2016
- January 9, 2016: Water resource sites established at fire stations. 9 a.m. to 4 p.m. on January 9, 2016 but 9 a.m. – 9 p.m. starting January 10, 2016.
- January 12, 2016: Water resource teams began going door-to-door (4 teams)
- January 12, 2016: Governor Snyder issued an Executive Order activating the Michigan National Guard
- January 14, 2016: Governor requested Presidential declaration of emergency and expedited major disaster for Genesee County
- January 16, 2016: President Obama approved the Governor's request for a federal emergency in Flint.
    - Denied request for major disaster
- January 20, 2016: Governor Snyder submitted an appeal to President Barack Obama following the denial of a major disaster declaration.
- January 22, 2016: President Obama denied Governor Snyder's appeal for a federal disaster declaration to aid Flint.
- January 28, 2016: Gov. Rick Snyder today issued a proclamation calling for an extension to the emergency declaration in the city of Flint and Genesee County until April 14, 2016.
- February 5, 2016: The Small Business Administration approved Gov. Rick Snyder's request for low-interest disaster loans for businesses in Genesee

County and the city of Flint. Business owners seeking these loans must apply by Nov. 7, 2016.

**Other/Misc.**

- The state recognizes that offering recycling options for empty water bottles is a priority. Measures will be put in place soon to provide for recycling opportunities.

- Per the Michigan Department of Education, the state is not involved in the water provided to the Flint Schools. Any questions related to this topic should be referred to Flint Schools.

- Governor has asked the Receivership Transition Advisory Board to transfer the powers and authority currently vested in the city administrator to the mayor. Any inquiries related to this should be referred to the Governor's office.

- Population of Flint, as of 2014, was 99,000. Number of occupied households is 39,125, according to the state demographer. (Households with families, 22,809; non family head of household 16,316).

- For calls received from constituents offering lead removal solutions, take down their information and let them know it will be forwarded to the appropriate person. If there is interest in their services, they will be contacted directly. Their contact information should be forwarded to the MSP-SEOCPIO.

- Inquiries about providing vendor services should email DTMBECC@michigan.gov.

MEDIA at the SEOC

- If the media shows up at the new SEOC and requests or is expecting a tour of the facility, the reporter/photographer should be told that we ARE NOT conducting tours at this time, for two reasons: the SEOC remains under construction and it is an extremely busy time at the SEOC.

- PIOs in the SEOC are to talk with the media and let them know no tours are being offered and advise that they should contact EMHSD sometime in mid-February for the possibility of a tour.

STATE OF MICHIGAN
JOINT INFORMATION CENTER

# NEWS RELEASE

**FOR IMMEDIATE RELEASE**
**February 10, 2016**
**Release #: 34**

## State launches new streamlined services for residents

*New testing sites help confirm water quality*

FLINT, Mich. – This week the Michigan Departments of Environmental Quality (DEQ) and Health and Human Services (MDHHS) initiated new initiatives to engage residents in a more in-depth level of data collection that will help confirm when Flint's drinking water is safe and provide a more streamlined level of post-testing services for resident health and wellness.

Starting today, 10 Sentinel Site teams consisting of representatives from the DEQ, along with licensed plumbers, will begin to visit 402 identified residential sites across the city to teach homeowners how to test their water in a scientifically accurate manner so they may submit regular samples to the state for testing.

Geographically dispersed across all nine wards, these sites will be established for ongoing lead and copper monitoring and will be resampled periodically to help determine when the drinking water advisory may be discontinued. This testing regimen calls for resampling every two weeks for an additional four, two-week cycle.

"These Sentinel Sites are an important step in helping us achieve a higher level of data analytics on the quality of the water," said Keith Creagh, Director of the DEQ. "The data collected will help us determine when and where corrosion control treatment has been effective."

Also launching today is a more streamlined system of addressing residences that test high for lead or copper in their water. This new process will provide residents with more efficient in-home follow-up for environmental and health wrap-around services.

"As soon as we see that a household's water level tests high for lead or copper, this new automatic protocol kicks in, beginning a series of measures to get people the health-related services they need faster," said Dr. Eden Wells, chief medical executive with the MDHHS. "While many of these residents have had outreach from county and state agencies since last fall, this new system creates a timeline and multi-agency organizational structure so that services can be provided in a more cohesive manner."

**MORE**

The new streamlined system of in-home follow-up visits not only allows for faster residential feedback, but also allows for multiple agencies to work with residents in a more coordinated manner. The process is as follows:

- Daily lab test results are posted publicly online at www.michigan.gov/flintwater
- Test results greater than 150 ppb are emailed to MDHHS
- All test results are emailed to the City of Flint, who then sends them to residents by U.S. Mail
- **Within 48 hours, MDHHS coordinates a home health visit** through the Genesee County Health Department to any resident whose lead test result was greater than 150 ppb. Home visit includes:
  - Health and wellness information
  - Off-site blood test referral
  - Assists with transportation support for appointments, as necessary
  - Provides additional bottled water, filters and water sample kits
- **Within 48 hours, DEQ schedules a home water visit** to any resident whose lead test result was greater than 150 ppb (100 ppb or greater, but less than 150 ppb residents are visited within seven days). Home visit includes:
  - Water testing and sampling information
  - Water sample collection
  - Inspection by the Flint Local 370 Plumbers Union (field verification of service line, aerator cleanout, filter check)
  - Provides additional bottled water, filters and water sample kits

Unlike lead, there is a safe level of copper. Everyone comes into contact with it every day and copper is essential for good health, but for homes with elevated copper levels, individuals are being instructed to use bottled water for drinking and cooking.

People's bodies require copper for normal functioning, and at different amounts depending on age, and whether a women is pregnant or breastfeeding. Ingesting high levels of copper can cause nausea, vomiting and diarrhea.

Additional information about the Flint water emergency is available at www.michigan.gov/flintwater/, by calling United Way 211 or visiting www.helpforflint.com.

###

NOTE: **ALL MEDIA INQUIRIES ARE BEING HANDLED BY THE JOINT INFORMATION CENTER AT 888-EMD-TODAY (888-363-8632). FOR FLINT WATER EMERGENCY DONATION INFORMATION, GO TO www.helpforflint.com.**

Captain,
Mr. Carmody is looking to discuss what trends we have seen with filters, testing kits and water. Those are the commodities and goods he is looking to discuss (as of this point in time). Basically, are the requests decreasing for these items, did the water main break cause a spike in the requested items? My guess is he might ask about our current supply and if we feel we have enough, ect

Ron,

Would it be possible to do an in-person interview with someone tomorrow (wednesday) about the declining numbers?

My schedule is wide open on Wednesday. I can do the interview in Flint or Lansing.

Hi Steve,

We're seeing an overall downward trend for bottled water, water filters and lead testing kits at our water response sites.

For the water main break on Dort Highway, there was a slight jump for resources. It looks like there was a little bit of an increase for replacement cartridges, too.

I've attached a few charts I received from the State Emergency Operations Center. It sort of gives a picture of what's going on.

Thanks,

Ron

Hello,

I'm not sure who to send this question to.

I was wondering have you seen any trends in bottled water, water filter or lead testing distribution.

Are people in Flint picking up the same amount of bottled water every day since the start of the city wide distribution?

Are people asking for more water filters? Was there a spike in demand after the water main break this month near Dort Highway?

What about demand for lead testing kits?

Insp and Ron

I just spoke to Amanda. She noticed in your Sit Rep that you were putting together a spreadsheet to track community meetings. This is something that she is doing already. If you have meetings you want to add to her spreadsheet she is more than willing to add them in. She has to report to the Gov's office every Monday and updates this spreadsheet at least weekly.

If this is something you want to utilize, please go direct with Amanda (plngc@michigan.gov)

Thanks
Kevin

# Flint Joint Information Center Daily Update

February 16, 2016

## Situation Report

The Joint Information Center (JIC) was expected to be operational in Flint from 8 a.m. to 8 p.m. on Feb. 16.

State agencies at the JIC included the Michigan State Police, Michigan National Guard, and Departments of Environmental Quality, Health and Human Services and Natural Resources. The Genesee County Sheriff's Office and American Red Cross were also present.

Tasks accomplished:

- Media hotline staff answered less than 10 emails and phone calls, ranging from commodity distribution trends at the Water Response Sites to inquiries about volunteering in the city of Flint.
- Created a media monitoring report and looked for misinformation.
- Updated a Daily JIC Activities log to catalog actions completed for the day and planned news release strategies for the week.
- Drafted and intended to issue a news release about the National Guard rotating soldiers in the city of Flint. News release was placed on hold.
- Continued routing public information materials for approval, including fact sheets on recycling, testing your water, and keeping Flint kids safe. Additional translated news releases were received and routed.
- Created a community outreach spreadsheet to keep track of meetings occurring in the city of Flint.
- Received, vetted and uploaded American Sign Language messaging and requested it to be posted on www.michigan.gov/flintwater. A news release has been drafted about translated documents. The intention is to issue the news release once the ASL messaging is placed on the website.

## Planned Activities

***Wednesday, Feb. 17***

- News Release – Translated Documents (Tentative - pending finalization of American Sign Language videos)
- News Release – Adult Lead Exposure

***Thursday, Feb. 18***

- HHS Secretary scheduled to visit Flint on Feb. 18
- Community Partners Meeting at 3 p.m. at Food Bank of Eastern Michigan (Weekly Meeting)

***Friday, Feb. 19***

- News Release – Genesee County and Baker College partnering to test blood-levels in pets
- Rev. Jesse Jackson is participating in a march in Flint on Feb. 19

***Saturday, Feb. 20***

- No planned products or events.

***Saturday, Feb. 21***

- No planned products or events.

***Monday, Feb. 22***

- News Release – Flint Farmer's Market: Open for Business, Great Nutrition Available
- Video – Flint Farmer's Market: Open for Business, Great Nutrition Available
- Video – Blackstone's and Restaurant Inspections

***Looking Beyond***

- NBC25 Town Hall on February 29
- Community Partners Meeting at 3 p.m. Thursdays at Food Bank of Eastern Michigan
- News Release – Blood-level testing available for veterans and their families (tentative, pending coordination MVAA)

## Issued News Releases (February)

***State of Michigan Joint Information Center***

- JIC037 – Feb. 12 – Boil Water Advisory Lifted by City of Flint
- JIC036 – Feb. 12 – National Guard soldier distributing water saves Flint resident's life
- JIC035– Feb. 10 – Flint residents reminded of boil water advisory
- JIC034 – Feb. 10 – State Launches New Streamlined Services for Residents
- JIC033 – Feb. 9 – Outreach to Flint's Blind Community Helps Ensure Access to Information and Resources
- JIC032 – Feb. 9 – American Red Cross and United Way Play Crucial Role Coordinating Volunteer Efforts in Flint

- JIC031 – Feb. 5 – State Encourages Food Establishments to take Advantage of Free Water Safety Inspections
- JIC030 – Feb. 4 – State Partners with MSU Student Athletes to Help with Flint Recycling and Water Distribution Efforts
- JIC029 – Feb. 4 – Edible Flint Works to Address Water Emergency through Urban Gardening
- JIC028 – Feb. 3 – Plan Advanced by State to Monitor Skin Conditions in Flint
- JIC027 – Feb. 2 – Michigan National Guard Continue Efforts at Water Resource Sites
- JIC026 – Feb. 1 – DEQ and EPA Continue Interagency Cooperation Discussions on Flint Water

***Governor's Office***

- GOV – Feb. 16 – Gov. Rick Snyder: Process under way to locate and replace lead water pipes in Flint
- GOV – Feb. 14 – Gov. Rick Snyder seeks federal waiver to expand Medicaid services in Flint to people under age 21, pregnant women
- GOV – Feb. 12 – Gov. Rick Snyder releases departmental emails produced regarding Flint water crisis
- GOV – Feb. 12 – Gov. Rick Snyder requests opportunity to testify before federal oversight committee
- GOV – Feb. 10 – Gov. Snyder thanks Flint residents for progress on establishing 'sentinel sites' to check water
- GOV – Feb. 10 – Snyder's budget proposal provides strong investments for one Michigan moving forward
- GOV – Feb. 8 – Gov. Rick Snyder: State partners with Flint human service groups to hire 50 Flint residents to assist with water testing
- GOV – Feb. 5 – Gov. Rick Snyder: Flint businesses can seek assistance through Small Business Administration disaster loans
- GOV – Feb. 4 – Gov. Rick Snyder: Swift Senate approval of $30 million for water bills shows strong commitment to Flint residents

Captain,
Mr. Carmody is looking to discuss what trends we have seen with filters, testing kits and water. Those are the commodities and goods he is looking to discuss (as of this point in time). Basically, are the requests decreasing for these items, did the water main break cause a spike in the requested items? My guess is he might ask about our current supply and if we feel we have enough, ect

Hello,

I'm not sure who to send this question to.

I was wondering have you seen any trends in bottled water, water filter or lead testing distribution.

Are people in Flint picking up the same amount of bottled water every day since the start of the city wide distribution?

Are people asking for more water filters? Was there a spike in demand after the water main break this month near Dort Highway?

What about demand for lead testing kits?

Insp and Ron

I just spoke to Amanda. She noticed in your Sit Rep that you were putting together a spreadsheet to track community meetings. This is something that she is doing already. If you have meetings you want to add to her spreadsheet she is more than willing to add them in. She has to report to the Gov's office every Monday and updates this spreadsheet at least weekly.

If this is something you want to utilize, please go direct with Amanda (plngc@michigan.gov)

Captain,

Henrik and Lt. Roach went to each house tonight. Henrik just called and advised that each house appears to be vacant. One house is currently be fixed up, but is still vacant at this time (... The neighbors stated that no has lived in that house for at least four months. The other houses showed no sign of being in habited. No footprints in snow, no signs of furniture, electricity, etc. They are confident that these homes are all vacant.

Please advise if you require additional information.

Thank you.

Kevin,

Below is the status of the 5 addresses you provided.

The Property was marked as abandoned on 1/16/16. . If the resident is claiming no contact, we will put them on the RRT list.

- Parcel is marked as unvisited. We will put it on the RRT list

-This is not listed within the City's Parcel Database. If the resident is claiming no contact, we will put them on the RRT list.

Parcel is marked as unvisited. We will put it on the RRT list

This parcel was marked as abandoned on 1/17/16. . If the resident is claiming no contact, we will put them on the RRT list.

Thank you so much for bringing this to our attention. We will move forward with these and hope to have them visited as soon as possible.

Thanks,

Alex

Alex-

As we discussed, based on the streets given to us in the below email chain, our GIS folks checked their records and found 5 residences that have not been confirmed to have been "touched" by any of our voluteers. The addresses they show needing contact are as follows:

Can you check to see what you have in your records? If in fact no one has been to these residences can you send a Rapid Response Team (RRT) to them?

Basically, are the requests decreasing for these items, did the water main break cause a spike in the requested items? My guess is he might ask about our current *supply and if we feel we have enough, ect*

Hope that helps.

Thanks
K

Michigan Radio wants to do an interview about the downward trend for Flint water supplies. Is it possible for Captain Kelenske, Tony Katarsky or F/Lt. Gabe Covey to do the interview.

If in-person doesn't work, we can arrange for a phone interview.

Thanks,

Ron

Ron,

Would it be possible to do an in-person interview with someone tomorrow (wednesday) about the declining numbers?

My schedule is wide open on Wednesday. I can do the interview in Flint or Lansing.

Based on these trends, does the JIC plan to reassess the current distribution model?

Possibly move distribution out of the fire stations and into churches or other venues?

Hi Steve,

We're seeing an overall downward trend for bottled water, water filters and lead testing kits at our water response sites.

For the water main break on Dort Highway, there was a slight jump for resources. It looks like there was a little bit of an increase for replacement cartridges, too.

I've attached a few charts I received from the State Emergency Operations Center. It sort of gives a picture of what's going on.

Thanks,

Ron

Hello,

I'm not sure who to send this question to.

I was wondering have you seen any trends in bottled water, water filter or lead testing distribution.

Are people in Flint picking up the same amount of bottled water every day since the start of the city wide distribution?

Are people asking for more water filters? Was there a spike in demand after the water main break this month near Dort Highway?

What about demand for lead testing kits?

Gabe-

Mr. Carmody is looking to discuss what trends we have seen with filters, testing kits and water. Those are the commodities and goods he is looking to discuss (as of this point in time). Basically, are the requests decreasing for these items, did the water main break cause a spike in the requested items? My guess is he might ask about our current supply and if we feel we have enough, ect

Hope that helps.

I spoke with our GIS folks and they were able to identify 5 houses that have not been confirmed to have had contact with the water response teams/volunteers (with in the area given to us by Mr. Clyde Edwards of Rep. Neely's office). Those five addresses are listed below and these houses will have a Rapid Response Team (RRT) stop by the houses tonight or tomorrow.

It should be noted that there were approximately 30 other houses in this area that have been deemed "vacant" houses by the city of Flint. The city records show no one living at these residences and no RRT's or other volunteers have gone to those addresses. We do not plan on sending volunteers to the houses that the city of Flint says no one is living in.

Kevin,

Below is the status of the 5 addresses you provided.

-The Property was marked as abandoned on 1/16/16. . If the resident is claiming no contact, we will put them on the RRT list.

- Parcel is marked as unvisited. We will put it on the RRT list

-This is not listed within the City's Parcel Database. If the resident is claiming no contact, we will put them on the RRT list.

Parcel is marked as unvisited. We will put it on the RRT list

This parcel was marked as abandoned on 1/17/16. . If the resident is claiming no contact, we will put them on the RRT list.

Thank you so much for bringing this to our attention. We will move forward with these and hope to have them visited as soon as possible.

Thanks,

Alex

**Subject:** More Info Needed

Dan-

We were just looking for those four streets that were given to us on the Legislative Briefing Conference Call. The streets we wrote down were Mackin, Chevrolet, Balling and McClelland. We can only find two streets that match in the city, Chevrolet and Mackin. These streets are near the elementary school but not the high school (as mentioned on the call)

Can you put me in touch with the person that made the statements on the call reference these streets so I can track down more information to better help us identify the houses we need to get to?

Thank you
Kevin Sweeney

As we discussed, based on the streets given to us in the below email chain, our GIS folks checked their records and found 5 residences that have not been confirmed to have been "touched" by any of our voluteers. The addresses they show needing contact are as follows:

1618 W Genesee St

Can you check to see what you have in your records? If in fact no one has been to these residences can you send a Rapid Response Team (RRT) to them?

Thanks

Based on these trends, does the JIC plan to reassess the current distribution model?

Possibly move distribution out of the fire stations and into churches or other venues?

On Tue, Feb 16, 2016 at 2:50 PM, JICNews <JICNews@michigan.gov<mailto:JICNews@michigan.gov>> wrote:
Hi Steve,

We're seeing an overall downward trend for bottled water, water filters and lead testing kits at our water response sites.

For the water main break on Dort Highway, there was a slight jump for resources. It looks like there was a little bit of an increase for replacement cartridges, too.

I've attached a few charts I received from the State Emergency Operations Center. It sort of gives a picture of what's going on.

Thanks,

Ron

Subject: A news media question

Hello,

I'm not sure who to send this question to.

I was wondering have you seen any trends in bottled water, water filter or lead testing distribution.

Are people in Flint picking up the same amount of bottled water every day since the start of the city wide distribution?

Are people asking for more water filters? Was there a spike in demand after the water main break this month near Dort Highway?

What about demand for lead testing kits?

> . Elderly residents that cannot carry water back to their home/apartment from a POD; **Homebound or vulnerable residents can call 211 to have water *delivered. In addition, most homes have received faucet filters.* Filtered tap**

**water should be the primary water source used, with bottled being used to supplement, unless there is an existing reason why the filtered tap water cannot be consumed.**

2. WIC consumers concerned that they cannot carry sufficient ready to use formula from the WIC clinic home and they are only allowed to pick up once a month **(I am assuming this is a USDA issue?);**
3. Residents complaining that they are not permitted to get enough water to meet their needs from the POD; **PODs are not limiting the amount of water residents can take. The guideline is one case per visit, however, if more is needed, they are allowed to take additional cases. Bottled water should be used to supplement the tap water – unless there is a specific reason the filtered tap water cannot be used, citizens should be using filtered water more so than bottled water.**
4. Residents complaining that having to visit the POD daily is too burdensome; **Again, greater use of filtered tap water would alleviate this concern. Most water consumption should be filtered tap water unless a specific reason exists that prevents the use of the filtered tap water (pregnant women, children under 6, etc.)**
5. Residents (espec. those in HUD housing) that do not have enough space to store the water they have stockpiled. **Consumption of filtered tap water would assist with this.**
6. Why is the State relying on voluntary agencies instead of doing the job directly and paying for it directly? **We are currently looking at JOBs programs and grant opportunities to hire individuals to sustain operations. However, we will also continue to use volunteer agencies. Volunteers have been an invaluable resource in partnering with the state for response efforts and will continue to be a key component.**
7. Why was the National Guard largely demobilized when they could be used to address the above concerns? ***(I suggested they contact the state, but FYI) They completed their initial door – to – door mission, so those members were demobilized. The National Guard was brought in to assist with getting filters into every home so there would not be a reliance on bottled water – at this time almost every water customer has a filter. Instead of continuing with the National Guard mobilization, we are hoping to use Flint residents to supplement the volunteers. The National Guard is currently managing our points of distribution.***
8. Why is the State relying on only fixed PODS? Why not deploy "mobile" PODS into neighborhoods to make it easier on residents to get water? ***(I explained the logistical challenges of such an idea and the rationale for fixed PODS, but just FYI) The city of Flint requested that these five points of distribution be opened and utilized. We are also currently looking at additional and/or alternative points of distribution.***

**Subject:** FW: Concerns from the field on water distribution

Hi Kevin,

Please see the below questions raised by Representative Kildee's office and the original constituent email. Can you assist in tracking down answers to these questions?

Specifically, it would be helpful to have clarification on who is eligible for home delivery (is elderly sufficient or do you have to be "homebound")? How do you get on a home delivery list? In general, the original email seems to speak to a need for coordination with persons in HUD housing. I believe there are some efforts under way via MSHDA already. I also think the Office on Services to the Aging is doing some outreach. Can you please check with the SMEs in the SEOC to see if this is the case?

Lastly, it was suggested that Captain Kelenske might want to address the three questions about the state (why use volunteers, why limit National Guard, and what is being done outside of PODs) on Tuesday's Congressional call. If someone can answer these for me, I will work them into his talking points.

Thank you,
Shanon

Shanon,

I had a conversation today with a staffer for Rep. Kildee. They have "heard" from someone on the ground that raised a number of complaints about the way water is being distributed. Below is a list of the complaints they are hearing, and I was wondering if we have heard these elsewhere? I know we are telling people with specific needs to call 2-1-1, but the staffer was wondering if there is a proactive solution to these issues?

- Elderly residents that cannot carry water back to their home/apartment from a POD;
- WIC consumers concerned that they cannot carry sufficient ready to use formula from the WIC clinic home and they are only allowed to pick up once a month **(I am assuming this is a USDA issue?);**
- Residents complaining that they are not permitted to get enough water to meet their needs from the POD;
- Residents complaining that having to visit the POD daily is too burdensome;
- Residents (espec. those in HUD housing) that do not have enough space to store the water they have stockpiled.

The staffer also asked the following questions and while I think I addressed them, perhaps we can discuss how to answer more thoroughly.

- Why is the State relying on voluntary agencies instead of doing the job directly and paying for it directly?
- Why was the National Guard largely demobilized when they could be used to address the above concerns? ***(I suggested they contact the state, but FYI)***
- Why is the State relying on only fixed PODS? Why not deploy "mobile" PODS into neighborhoods to make it easier on residents to get water? ***(I explained the logistical challenges of such an idea and the rationale for fixed PODS, but just FYI)***

Below is the full email that he used to inform his call to me. Happy to discuss over the phone if any of this is unclear.

FORWARDED EMAIL FROM KILDEE – NO CONTACT INFORMATION INCLUDED

Hey,
Thanks for letting me give you info on my volunteering in Flint.....I appreciate being able to share with someone, and hopefully you can send to someone with some power to help these folks.

We were at Slidell Senior Housing on W Carpenter road this Sunday. Our charge was to deliver water to residents and assess needs. This is a low-income senior housing HUD complex for seniors and disabled

adults. So, the problem is that these residents are expected to carry bottled water up elevators - if there is a grocery cart available they can use that but some of the residents are reliant on walkers. The cases of water being handed out are heavy, and so these folks would have a hard time getting water up to their units if they are beyond the first floor. So that's the first problem.

Secondly, some of the residents mentioned that they were running out of room in their tiny apartments to store water. One resident had trouble opening up the door because of cases of water near the door - so FIRE HAZARD in terms of residents being able to get out in time if they have barriers with water cases blocking doorways.
Third, some of residents had filters for faucets, but at least one couldn't use it because her kitchen faucet was broken. One resident still is getting skin rashes from showering in the water. Still others weren't using the water to bathe or shower so besides handing out water we handed out baby wipes so they had something to use for cleansing.

Many of the residents HAD NO IDEA how to get their water tested. These folks are expected to go to a fire station, get a test bottle, take a sample, and get the bottle back to a fire station - these are lower-income older people, many of whom have physical disabilities! There seems to be a real lack of understanding on filter usage as well as how to get water tested... again, these are HUD managed complexes and HUD needs to get involved and work to protect its residents.

So, I am meeting with folks from Nat'l Assoc of Social Workers-MI chapter to engage in some advocacy.

I proposed the following to NASW-MI:

All HUD and Flint Housing Commission units must have their units and building service lines tested for water and this testing must be coordinated and completed by the EPA service teams and not placed on the residents.

Water distribution should be available at all Flint Housing Commission/HUD housing sites in the city on a weekly basis - perhaps that means Red Cross sets up at these sites, or Red Cross and local social service agencies partner together to ensure water distribution is on-site. (Particularly with the weather likely getting colder and snowier).

These residents have few resources, many of whom are disabled and without adequate transportation, and they should not have extra burdens placed on them due to the Flint water crisis.

Thank you so much for listening!

Water distribution should be available at all Flint Housing Commission/HUD housing sites in the city on a weekly basis - perhaps that means Red Cross sets up at these sites, or Red Cross and local social service agencies partner together to ensure water distribution is on-site. (Particularly with the weather likely getting colder and snowier).

These residents have few resources, many of whom are disabled and without adequate transportation, and they should not have extra burdens placed on them due to the Flint water crisis.

Thank you so much for listening!

In addition to responses provided by others, please see our responses below.

Thank you.

. Elderly residents that cannot carry water back to their home/apartment from a POD; **Homebound or vulnerable residents can call 211 to have water delivered. In addition, most homes have received faucet filters. Filtered tap water should be the primary water source used, with bottled being used to supplement, unless there is an existing reason why the filtered tap water cannot be consumed.**
2. WIC consumers concerned that they cannot carry sufficient ready to use formula from the WIC clinic home and they are only allowed to pick up once a month **(I am assuming this is a USDA issue?);**
3. Residents complaining that they are not permitted to get enough water to meet their needs from the POD; **PODs are not limiting the amount of water residents can take. The guideline is one case per visit, however, if more is needed, they are allowed to take additional cases. Bottled water should be used to supplement the tap water – unless there is a specific reason the filtered tap water cannot be used, citizens should be using filtered water more so than bottled water.**
4. Residents complaining that having to visit the POD daily is too burdensome; **Again, greater use of filtered tap water would alleviate this concern. Most water consumption should be filtered tap water unless a specific reason exists that prevents the use of the filtered tap water (pregnant women, children under 6, etc.)**
5. Residents (espec. those in HUD housing) that do not have enough space to store the water they have stockpiled. **Consumption of filtered tap water would assist with this.**
6. Why is the State relying on voluntary agencies instead of doing the job directly and paying for it directly? **We are currently looking at JOBs programs and grant opportunities to hire individuals to sustain operations. However, we will also continue to use volunteer agencies. Volunteers have been an invaluable resource in partnering with the state for response efforts and will continue to be a key component.**
7. Why was the National Guard largely demobilized when they could be used to address the above concerns? ***(I suggested they contact the state, but FYI) They completed their initial door – to – door mission, so those members were demobilized. The National Guard was brought in to assist with getting filters into every home so there would not be a reliance on bottled water – at this time almost every water customer has a filter. Instead of continuing with the National Guard mobilization, we are hoping to use Flint residents to supplement the volunteers. The National Guard is currently managing our points of distribution.***
8. Why is the State relying on only fixed PODS? Why not deploy "mobile" PODS into neighborhoods to make it easier on residents to get water? ***(I explained the logistical challenges of such an idea and the rationale for fixed PODS, but just FYI) The city of Flint requested that these five points of distribution be opened and utilized. We are also currently looking at additional and/or alternative points of distribution.***

Hi Kevin,

Please see the below questions raised by Representative Kildee's office and the original constituent email. Can you assist in tracking down answers to these questions?

Specifically, it would be helpful to have clarification on who is eligible for home delivery (is elderly sufficient or do you have to be "homebound")? How do you get on a home delivery list? In general, the original email seems to speak to a need for coordination with persons in HUD housing. I believe there are some efforts under way via MSHDA already. I also think the Office on Services to the Aging is doing some outreach. Can you please check with the SMEs in the SEOC to see if this is the case?

Lastly, it was suggested that Captain Kelenske might want to address the three questions about the state (why use volunteers, why limit National Guard, and what is being done outside of PODs) on Tuesday's Congressional call. If someone can answer these for me, I will work them into his talking points.

Thank you,
Shanon

**Subject:** FW: Concerns from the field on water distribution

Shanon,

I had a conversation today with a staffer for Rep. Kildee. They have "heard" from someone on the ground that raised a number of complaints about the way water is being distributed. Below is a list of the complaints they are hearing, and I was wondering if we have heard these elsewhere? I know we are telling people with specific needs to call 2-1-1, but the staffer was wondering if there is a proactive solution to these issues?

- Elderly residents that cannot carry water back to their home/apartment from a POD;
- WIC consumers concerned that they cannot carry sufficient ready to use formula from the WIC clinic home and they are only allowed to pick up once a month **(I am assuming this is a USDA issue?)**;
- Residents complaining that they are not permitted to get enough water to meet their needs from the POD;
- Residents complaining that having to visit the POD daily is too burdensome;
- Residents (espec. those in HUD housing) that do not have enough space to store the water they have stockpiled.

The staffer also asked the following questions and while I think I addressed them, perhaps we can discuss how to answer more thoroughly.

- Why is the State relying on voluntary agencies instead of doing the job directly and paying for it directly?
- Why was the National Guard largely demobilized when they could be used to address the above concerns? ***(I suggested they contact the state, but FYI)***
- Why is the State relying on only fixed PODS? Why not deploy "mobile" PODS into neighborhoods to make it easier on residents to get water? ***(I explained the logistical challenges of such an idea and the rationale for fixed PODS, but just FYI)***

Below is the full email that he used to inform his call to me. Happy to discuss over the phone if any of this is unclear.

FORWARDED EMAIL FROM KILDEE – NO CONTACT INFORMATION INCLUDED

Hey,
Thanks for letting me give you info on my volunteering in Flint.....I appreciate being able to share with someone, and hopefully you can send to someone with some power to help these folks.

We were at Slidell Senior Housing on W Carpenter road this Sunday. Our charge was to deliver water to residents and assess needs. This is a low-income senior housing HUD complex for seniors and disabled adults. So, the problem is that these residents are expected to carry bottled water up elevators - if there is a grocery cart available they can use that but some of the residents are reliant on walkers The cases of water being handed out are heavy, and so these folks would have a hard time getting water up to their units if they are beyond the first floor. So that's the first problem.

Secondly, some of the residents mentioned that they were running out

of room in their tiny apartments to store water. One resident had trouble opening up the door because of cases of water near the door - so FIRE HAZARD in terms of residents being able to get out in time if they have barriers with water cases blocking doorways.
Third, some of residents had filters for faucets, but at least one couldn't use it because her kitchen faucet was broken. One resident still is getting skin rashes from showering in the water. Still others weren't using the water to bathe or shower so besides handing out water we handed out baby wipes so they had something to use for cleansing.

Many of the residents HAD NO IDEA how to get their water tested *These folks are expected to go to a fire station, get a test bottle,* take a sample, and get the bottle back to a fire station - these are lower-income older people, many of whom have physical disabilities! There seems to be a real lack of understanding on filter usage as well as how to get water tested. ..again, these are HUD managed complexes and HUD needs to get involved and work to protect its residents.

So, I am meeting with folks from Nat'l Assoc of Social Workers-MI chapter to engage in some advocacy.

I proposed the following to NASW-MI:

All HUD and Flint Housing Commission units must have their units and building service lines tested for water and this testing must be *coordinated and completed by the EPA service teams and not placed on* the residents.

Water distribution should be available at all Flint Housing Commission/HUD housing sites in the city on a weekly basis - perhaps that means Red Cross sets up at these sites, or *Red Cross and local* social service agencies partner together to ensure water distribution is on-site (Particularly with the weather likely getting colder and snowier)

These residents have few resources, many of whom are disabled and without adequate transportation, and they should not have extra burdens placed on them due to the Flint water crisis.

*Thank you so much for listening!*

Hi Steve,

We're seeing an overall downward trend for bottled water, water filters and lead testing kits at our water response sites.

For the water main break on Dort Highway, there was a slight jump for resources. It looks like there was a little bit of an increase for replacement cartridges, too.

I've attached a few charts I received from the State Emergency Operations Center. It sort of gives a picture of what's going on.

Thanks,

Ron

Subject: A news media question

Hello,

I'm not sure who to send this question to.

I was wondering have you seen any trends in bottled water, water filter or lead testing distribution.

Are people in Flint picking up the same amount of bottled water every day since the start of the city wide distribution?

Are people asking for more water filters? Was there a spike in demand after the water main break this month near Dort Highway?

What about demand for lead testing kits?

Kevin,

I am fine with water being distributed, however due to us tracking all filters that are going out we are unable to just give them to anyone to hand out. Please let me know when and where these events will be taking place and we can get the local EOC to do a request and get the water to each location.

Thanks
Tonya

**Subject:** Third-Party Distribution?

Hi Kevin,

Meridian Health Plan is holding three events in the beginning of March. They are offering same-day blood testing, education seminars, development screening, etc.

They were wondering if they could distribute water filter and bottled water at the event. (We would supply.)

Are we offering resources to third parties to supply some of our resources?

Thanks,

Ron

Dan-

We were just looking for those four streets that were given to us on the Legislative Briefing Conference Call. The streets we wrote down were Mackin, Chevrolet, Balling and McClelland. We can only find two streets that match in the city, Chevrolet and Mackin. These streets are near the elementary school but not the high school (as mentioned on the call)

Can you put me in touch with the person that made the statements on the call reference these streets so I can track down more information to better help us identify the houses we need to get to?

Thank you
Kevin Sweeney

Hello -

A co-worker had found water reports using general web searches, leading to places like the following:
https://www.cityofflint.com/wp-content/uploads/CCR-2014.pdf

A communications strategy is not something I've ever been involved in, so I had to check around to see which of our personnel knows the most about that. Our Public Information Officer might be the best person to talk with... The current person on duty is Kevin Sweeney, who can be reached today at his cell number to obtain more information about that subject.

Thanks,
Mike

Subject: RE: Flint Emergency

Hello -

The City of Flint was an active participant approved under the Genesee County Hazard Mitigation Plan. Although FEMA only requires a hazard mitigation plan to consider natural hazards, the county plan did include a general section on infrastructure failures. The Michigan Hazard Mitigation Plan had included some information as well, but the most extensive detail is actually found within utility reports for the area. These reports are all viewable through the internet.

A great many of the personnel in my division have coordinated and shared in the activities since the emergency declaration. I have had some involvement so far, and am scheduled to provide more assistance during at least the next couple of weeks.

Thanks,

Hey Mike, hope you are doing well. I have been wondering has your expertise been mobilized to assist with the Flint water emergency?

Did Flint do a hazard mitigation plan, did they include an infrastructure failure like this in the plan?

Do many communities include plans for this kind of event? I imagine you are considering the implications of this for *hazard mitigation planning.*

All the best,

Ron-

So the answer is that water, filters, cartridges and test kits are trending down (that is we are handing out less)

If you open up the attachment, and click on the "chart" tab, and look at the bottom graphs (four graphs going across on line two) these show this downward trend.

Call me if the excel chart does not make sense

This document is sent to FEMA each day

*Hello,*

I'm not sure who to send this question to.

I was wondering have you seen any trends in bottled water, water filter or lead testing distribution.

Are people in Flint picking up the same amount of bottled water every day since the start of the city wide distribution?

Are people asking for more water filters? Was there a spike in demand after the water main break this month near Dort Highway?

What about demand for lead testing kits?

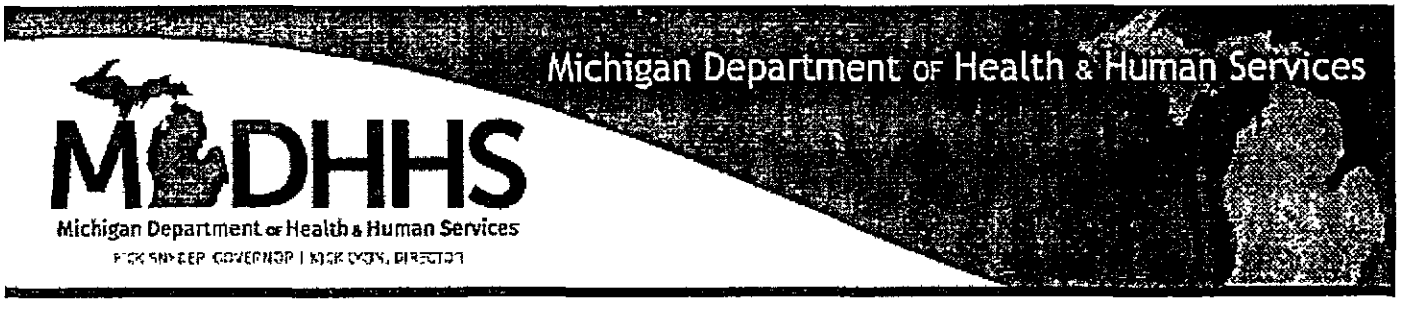
**Subject:** MDHHS Leadership Announcement



MDHHS Employees:

Over the weekend, Director Nick Lyon had an accident at Boyne Mountain while spending time with his family, and is currently in the hospital awaiting shoulder surgery later this week. He is doing well and we expect him back within the coming weeks once he has had time to heal and recover. Director Lyon had driven to Boyne Friday evening to meet his family and was injured on Saturday.

Until that time, Chief Deputy Director Tim Becker will be leading the department, including the budget presentations this week. Beginning today, MDHHS leadership will be presenting our budget proposals to the legislature. Today's presentation is attached here for your review. Chief Deputy Director Becker has been actively involved in all department priorities, particularly our department efforts in Flint, so there will be continuity in all focus areas.

Please join us in wishing Director Lyon a quick and healthy recovery.

Thank you.

## MSP-SEOCPIO

**From:** MSP-seoclgc
**Sent:** Tuesday, February 16, 2016 2:30 PM
**To:** MSP-SEOCPIO
**Subject:** RE: Third-Party Distribution?

Kevin,

*I am fine with water being distributed,* however due to us tracking all filters that are going out we are unable to just give them to anyone to hand out. Please let me know when and where these events will be taking place and we can get the local EOC to do a request and get the water to each location.

Thanks
Tonya

**Subject:** Third-Party Distribution?

Hi Kevin,

Meridian Health Plan is holding three events in the beginning of March. They are offering same-day blood testing, education seminars, development screening, etc.

They were wondering if they could distribute water filter and bottled water at the event. (We would supply.)

Are we offering resources to third parties to supply some of our resources?

Thanks,

Ron

Hello,

I'm not sure who to send this question to.

I was wondering have you seen any trends in bottled water, water filter or lead testing distribution.

Are people in Flint picking up the same amount of bottled water every day since the start of the city wide distribution?

Are people asking for more water filters? Was there a spike in demand after the water main break this month near Dort Highway?

What about demand for lead testing kits?

**From:** Sobocinski, Mike (MSP)
**Sent:** Tuesday, February 16, 2016 1:40 PM
**To:** MSP-SEOCPIO
**Subject:** FW: Flint Emergency

Hello -

I received an inquiry (below, at bottom) from an MSU urban planning professor, about hazard mitigation planning for the Flint situation. I'm not sure whether all responses should go through the PIO, but I drafted the following reply and I'm wondering whether it sounds okay to send...
Mike

>>>>
Hello -

The City of Flint was an active participant approved under the Genesee County Hazard Mitigation Plan. Although FEMA only requires a hazard mitigation plan to consider natural hazards, the county plan did include a general section on infrastructure failures. The Michigan Hazard Mitigation Plan had included some information as well, but the most extensive detail is actually found within utility reports for the area. These reports are all viewable through the internet.

A great many of the personnel in my division have coordinated and shared in the activities since the emergency declaration. I have had some involvement so far, and am scheduled to provide more assistance during at least the next couple of weeks.

Thanks,

Mike Sobocinski

Hey Mike, hope you are doing well. I have been wondering has your expertise been mobilized to assist with the Flint water emergency?

Did Flint do a hazard mitigation plan, did they include an infrastructure failure like this in the plan?

Do many communities include plans for this kind of event? I imagine you are considering the implications of this for hazard mitigation planning.

All the best,

Henrik,

On the complaint that there is a lack of recycling information in the Flint Water Response Team email updates and the desire to have that information included, that information is on all news releases that list the water resource sites (we denote which ones are also a recycling site).

Henrik and Jessi-

I entered the resource requests. One for the updating of the 3 page Flint Recycling handout and one for the updating and printing of the 10,000 informational cards.

Henrik, you should log into MICIMS and make sure I worded everything correct. I listed you as the point of contact with both. To follow up on this request take a look in MiCIMS and see where the status is and with whom.

Have a good weekend!

Subject: RE: Status of Schupan recycling instruction cards?

- I went ahead and ordered 3000 of the old cards for this weekend, since we have not received the updated card. They should arrive here at 8AM on Saturday just in time for this weekend's volunteer effort.
We really need the updated card for next week though.

- In addition to this, I would also ask that the additional location (comcast) and operating hours be added to the information flyer (see attached).

- Please also put the Spanish language information into the format of the flyer. The other day, we received a not formatted word document from the JIC with the translated information. There is an event with the Hispanic community tomorrow and they requested Spanish-language recycling information, which we cannot provide because we do not have an official-looking document.

- I met with someone from the County Planning Commission yesterday (they are responsible for solid waste management on the county level), and they noted that there is a lack of recycling information in the Flint Water Response Team email updates. I told him that I would expect official press releases related to recycling to be mentioned in the newsletter. He suggested that information on recycling should be in those emails constantly. For example, they include a list of the water resource sites, and he suggested that we could indicate which sites serve as bottle drop offs (for example with an asterisk), and that all sites receive Pur and Brita filter cartridges.

Thanks for your help,

Henrik

All,

I would need another document updated for a print order. Please see the initial recycling information card attached to this email.

For the recycling locations listed on the left, we would need to add a location including operating hours. If we do that, we should also include the hours for the Fire Stations (Daily, 9AM - 9PM).
Here the additional location:
Comcast Service Center
3008 Airpark Dr S
Flint, MI 48507
Monday to Friday, 10AM - 5PM
Saturday, 10AM - 1 PM

Thank you!
Henrik

To: JICManager
Cc: Adler, Jessi (DHHS); MSP-seoclgc; Hawks, Trevor (MSP)
Subject: Recycling material update / spanish-language translation

All,

In preparation of a print order, we would need an updated version of the attached recycling door hanger (initially designed by Trevor Hawks):
- The Keep Genesee County Beautiful logo at the bottom of the door hanger needs to be removed (the organization has withdrawn the authorization for use of their logo on any materials that are associated with the state response).
- The information regarding sign-up for curbside recycling ("Call Republic Services at 1-800-438-0966 to have a recycling bin delivered to your door.") needs to include the following times at which the referenced hotline is available: Monday to Friday, 8AM-5PM and Saturday, 8AM-12PM.

Also, a translation into Spanish for the "HOW TO RECYCLE WATER BOTTLES AND WATER FILTERS IN FLINT" flyer attached to this document was being developed through the JIC. Is there an update on the status of a translated version yet?

Thank you very much for your help,

Henrik Hollaender

. Elderly residents that cannot carry water back to their home/apartment from a POD; **Homebound or vulnerable residents can call 211 to have water delivered. In addition, most homes have received faucet filters. Filtered tap water should be the primary water source used, with bottled being used to supplement, unless there is an existing reason why the filtered tap water cannot be consumed.**
2. WIC consumers concerned that they cannot carry sufficient ready to use formula from the WIC clinic home and they are only allowed to pick up once a month **(I am assuming this is a USDA issue?);**
3. *Residents complaining that they are not permitted to get enough water to meet their needs* from the POD; **PODs are not limiting the amount of water residents can take. The guideline is one case per visit, however, if more is needed, they are allowed to take additional cases. Bottled water should be used to supplement the tap water – unless there is a specific reason the filtered tap water cannot be used, citizens should be using filtered water more so than bottled water.**
4. Residents complaining that having to visit the POD daily is too burdensome; **Again, greater use of filtered tap water would alleviate this concern. Most water consumption should be filtered tap water unless a specific reason exists that prevents the use of the filtered tap water (pregnant women, children under 6, etc.)**
5. Residents (espec. those in HUD housing) that do not have enough space to store the water they *have stockpiled. Consumption of filtered tap water would assist with this.*
6. Why is the State relying on voluntary agencies instead of doing the job directly and paying for it directly? **We are currently looking at JOBs programs and grant opportunities to hire individuals to sustain operations. However, we will also continue to use volunteer agencies. Volunteers have been an invaluable resource in partnering with the state for response efforts and will continue to be a key component.**
7. Why was the National Guard largely demobilized when they could be used to address the above concerns? ***(I suggested they contact the state, but FYI) They completed their initial door – to – door mission, so those members were demobilized. The National Guard was brought in to assist with getting filters into every home so there would not be a reliance on bottled water – at this time almost every water customer has a filter. Instead of continuing with the National Guard mobilization, we are hoping to use Flint residents to supplement the volunteers. The National Guard is currently managing our points of distribution.***
8. Why is the State relying on only fixed PODS? Why not deploy "mobile" PODS into neighborhoods to make it easier on residents to get water? ***(I explained the logistical challenges of such an idea and the rationale for fixed PODS, but just FYI) The city of Flint requested that these five***

***points of distribution be opened and utilized. We are also currently looking at additional and/or alternative points of distribution.***

Hi Kevin,

Please see the below questions raised by Representative Kildee's office and the original constituent email. Can you assist in tracking down answers to these questions?

Specifically, it would be helpful to have clarification on who is eligible for home delivery (is elderly sufficient or do you have to be "homebound")? How do you get on a home delivery list? In general, the original email seems to speak to a need for coordination with persons in HUD housing I believe there

are some efforts under way via MSHDA already. I also think the Office on Services to the Aging is doing some outreach. Can you please check with the SMEs in the SEOC to see if this is the case?

Lastly, it was suggested that Captain Kelenske might want to address the three questions about the state (why use volunteers, why limit National Guard, and what is being done outside of PODs) on Tuesday's Congressional call. If someone can answer these for me, I will work them into his talking points.

Thank you,
Shanon

Shanon,

I had a conversation today with a staffer for Rep. Kildee. They have "heard" from someone on the ground that raised a number of complaints about the way water is being distributed. Below is a list of the complaints they are hearing, and I was wondering if we have heard these elsewhere? I know we are telling people with specific needs to call 2-1-1, but the staffer was wondering if there is a proactive solution to these issues?

- Elderly residents that cannot carry water back to their home/apartment from a POD;
- WIC consumers concerned that they cannot carry sufficient ready to use formula from the WIC clinic home and they are only allowed to pick up once a month **(I am assuming this is a USDA issue?)**;
- Residents complaining that they are not permitted to get enough water to meet their needs from the POD;
- Residents complaining that having to visit the POD daily is too burdensome;
- Residents (espec. those in HUD housing) that do not have enough space to store the water they have stockpiled.

The staffer also asked the following questions and while I think I addressed them, perhaps we can discuss how to answer more thoroughly.

- Why is the State relying on voluntary agencies instead of doing the job directly and paying for it directly?
- Why was the National Guard largely demobilized when they could be used to address the above concerns? ***(I suggested they contact the state, but FYI)***
- Why is the State relying on only fixed PODS? Why not deploy "mobile" PODS into neighborhoods to make it easier on residents to get water? ***(I explained the logistical challenges of such an idea and the rationale for fixed PODS, but just FYI)***

Below is the full email that he used to inform his call to me. Happy to discuss over the phone if any of this is unclear.

FORWARDED EMAIL FROM KILDEE – NO CONTACT INFORMATION INCLUDED

Hey,
Thanks for letting me give you info on my volunteering in Flint.....I

appreciate being able to share with someone, and hopefully you can send to someone with some power to help these folks.

We were at Slidell Senior Housing on W Carpenter road this Sunday. Our charge was to deliver water to residents and assess needs. This is a low-income senior housing HUD complex for seniors and disabled adults. So, the problem is that these residents are expected to carry bottled water up elevators - if there is a grocery cart available they can use that but some of the residents are reliant on walkers. The cases of water being handed out are heavy, and so these folks would have a hard time getting water up to their units if they are beyond the first floor. So that's the first problem.

Secondly, some of the residents mentioned that they were running out of room in their tiny apartments to store water. One resident had trouble opening up the door because of cases of water near the door - so FIRE HAZARD in terms of residents being able to get out in time if they have barriers with water cases blocking doorways
Third, some of residents had filters for faucets, but at least one couldn't use it because her kitchen faucet was broken. One resident still is getting skin rashes from showering in the water. Still others weren't using the water to bathe or shower so besides handing out water we handed out baby wipes so they had something to use for cleansing.

Many of the residents HAD NO IDEA how to get their water tested. These folks are expected to go to a fire station, get a test bottle, take a sample, and get the bottle back to a fire station - these are lower-income older people, many of whom have physical disabilities! There seems to be a real lack of understanding on filter usage as well as how to get water tested....again, these are HUD managed complexes and HUD needs to get involved and work to protect its residents.

So, I am meeting with folks from Nat'l Assoc of Social Workers-MI chapter to engage in some advocacy.

I proposed the following to NASW-MI:

All HUD and Flint Housing Commission units must have their units and building service lines tested for water and this testing must be coordinated and completed by the EPA service teams and not placed on the residents.

Water distribution should be available at all Flint Housing Commission/HUD housing sites in the city on a weekly basis - perhaps that means Red Cross sets up at these sites, or Red Cross and local social service agencies partner together to ensure water distribution is on-site. (Particularly with the weather likely getting colder and snowier).

These residents have few resources, many of whom are disabled and without adequate transportation, and they should not have extra burdens placed on them due to the Flint water crisis.

Thank you so much for listening!

**Cc:** JICManager
**Subject:** For Tuesday - Loose ends

Matt/Ron/Kevin,

There are several emails in the MSP-SEOCPIO account that came in on Monday containing translated documents. Since we did not have a web person to post items, I left the emails in the account to be addressed on Tuesday. It appears two of the messages are the ASL videos we have been waiting for in order to send out the Translated Documents news release.

Trevor Hawks has asked for a non-PDF version of the recycling flyer that Angela created (available here - http://www.michigan.gov/documents/flintwater/SOM_FlintRecyclingInstructions_513838_7.pdf). There needs to be a change made to it, as well as a Spanish version made. Angela was copied on the emails, but has not yet responded. This may require follow-up to make sure it gets to Trevor. When updated, it needs to be updated on the web.

This afternoon I provided Captain Kelenske with talking points for Tuesday's congressional call. I expect there will also be someone from DEQ and DHHS on the call as there was last time, but you may need to remind our fellow PIOs.

We received a request today from Tom Weber to have a JIC representative attend the weekly Community Partners Meeting on Thursdays at 3 p.m. I have asked Sgt. Vega (confirmed) and F/Lt. Kaiser (hasn't responded yet) to attend. I also asked Ron to add this item as a standing items on our daily Look-Ahead.

Another item of discussion from this weekend is a possible news release on adult lead exposure Angela suggested it based on some news stories we were seeing. The feds have also asked what we are doing on this topic. I recommend following up with Jen Eisner tomorrow.

Dan Shulman at FEMA sent a number of questions to us from Representative Kildee's office. I have compiled all the answers and had them approved through Tony Katarsky today, however, Captain Kelenske has asked to have legal review them as well. I sent them to him today, but have not heard back yet

Lastly, I review a couple of very draft infographics put together by the UCG regarding how to read your water testing results. I noted there is value in a simple infographic, but I asked that they work to finalize them more and then send them back through the JIC for approval.

Please let me know if you have any questions
Thanks,
Shanon

Can you run this down too?
Dan Shulman at FEMA sent a number of questions to us from Representative Kildee's office. I have compiled all the answers and had them approved through Tony Katarsky today, however, Captain Kelenske has asked to have legal review them as well. I sent them to him today, but have not heard back yet.

Matt/Ron/Kevin,

There are several emails in the MSP-SEOCPIO account that came in on Monday containing translated documents. Since we did not have a web person to post items, I left the emails in the account to be addressed on Tuesday. It appears two of the messages are the ASL videos we have been waiting for in order to send out the Translated Documents news release.

Trevor Hawks has asked for a non-PDF version of the recycling flyer that Angela created (available here - http://www.michigan.gov/documents/flintwater/SOM_FlintRecyclingInstructions_513838_7.pdf). There needs to be a change made to it, as well as a Spanish version made. Angela was copied on the emails, but has not yet responded. This may require follow-up to make sure it gets to Trevor. When updated, it needs to be updated on the web.

This afternoon I provided Captain Kelenske with talking points for Tuesday's congressional call. I expect there will also be someone from DEQ and DHHS on the call as there was last time, but you may need to remind our fellow PIOs.

We received a request today from Tom Weber to have a JIC representative attend the weekly Community Partners Meeting on Thursdays at 3 p.m. I have asked Sgt. Vega (confirmed) and F/Lt Kaiser (hasn't responded yet) to attend. I also asked Ron to add this item as a standing items on our daily Look-Ahead.

Another item of discussion from this weekend is a possible news release on adult lead exposure. Angela suggested it based on some news stories we were seeing. The feds have also asked what we are doing on this topic. I recommend following up with Jen Eisner tomorrow.

Dan Shulman at FEMA sent a number of questions to us from Representative Kildee's office. I have compiled all the answers and had them approved through Tony Katarsky today, however, Captain Kelenske has asked to have legal review them as well. I sent them to him today, but have not heard back yet.

Lastly, I review a couple of very draft infographics put together by the UCG regarding how to read your water testing results. I noted there is value in a simple infographic, but I asked that they work to finalize them more and then send them back through the JIC for approval.

Please let me know if you have any questions.
Thanks,
Shanon

Good morning,

I'm sending a couple mockups for consideration and feedback on rough drafts of infographics to accompany the Genesee County Health Department letters.

I will have some blood test examples in a little while but wanted to get these to you for your thoughts.

I'm also attaching another document with some other infographic designs you may be interested in. Happy to try to come up with other ideas.

Henrik,

On the complaint that there is a lack of recycling information in the Flint Water Response Team email updates and the desire to have that information included, that information is on all news releases that list the water resource sites (we denote which ones are also a recycling site).

Henrik and Jessi-

I entered the resource requests. One for the updating of the 3 page Flint Recycling handout and one for the updating and printing of the 10,000 informational cards.

Henrik, you should log into MICIMS and make sure I worded everything correct. I listed you as the point of contact with both. To follow up on this request take a look in MiCIMS and see where the status is and with whom.

Have a good weekend!

Subject: RE: Status of Schupan recycling instruction cards?

- I went ahead and ordered 3000 of the old cards for this weekend, since we have not received the updated card. They should arrive here at 8AM on Saturday just in time for this weekend's volunteer effort.
We really need the updated card for next week though.

- In addition to this, I would also ask that the additional location (comcast) and operating hours be added to the information flyer (see attached).

- Please also put the Spanish language information into the format of the flyer. The other day, we received a not formatted word document from the JIC with the translated information. There is an event with the Hispanic community tomorrow and they requested Spanish-language recycling information, which we cannot provide because we do not have an official-looking document.

- I met with someone from the County Planning Commission yesterday (they are responsible for solid waste management on the county level), and they noted that there is a lack of recycling information in the Flint Water Response Team email updates. I told him that I would expect official press releases related to recycling to be mentioned in the newsletter. He suggested that information on recycling should be in those emails constantly. For example, they include a list of the water resource sites, and he suggested that we could indicate which sites serve as bottle drop offs (for example with an asterisk), and that all sites receive Pur and Brita filter cartridges.

Thanks for your help,

Henrik

All,

I would need another document updated for a print order. Please see the initial recycling information card attached to this email.

For the recycling locations listed on the left, we would need to add a location including operating hours. If we do that, we should also include the hours for the Fire Stations (Daily, 9AM - 9PM).
Here the additional location:
Comcast Service Center
3008 Airpark Dr S
Flint, MI 48507
Monday to Friday, 10AM - 5PM
Saturday, 10AM - 1 PM

Thank you!
Henrik

Hi Henrik, attached is the updated door hanger. Please let me know if I can help further.

I don't know if this is the translated document or not. The formatting has been stripped, but it is a recycling document in Spanish.

To: JICManager
Cc: Adler, Jessi (DHHS); MSP-seoclgc; Hawks, Trevor (MSP)
Subject: Recycling material update / spanish-language translation

All,

In preparation of a print order, we would need an updated version of the attached recycling door hanger (initially designed by Trevor Hawks):
- The Keep Genesee County Beautiful logo at the bottom of the door hanger needs to be removed (the organization has withdrawn the authorization for use of their logo on any materials that are associated with the state response).
- The information regarding sign-up for curbside recycling ("Call Republic Services at 1-800-438-0966 to have a recycling bin delivered to your door.") needs to include the following times at which the referenced hotline is available: Monday to Friday, 8AM-5PM and Saturday, 8AM-12PM.

Also, a translation into Spanish for the "HOW TO RECYCLE WATER BOTTLES AND WATER FILTERS IN FLINT" flyer attached to this document was being developed through the JIC. Is there an update on the status of a translated version yet?

Thank you very much for your help,

Henrik Hollaender

**Subject:** FW: URGENT - Records Request
**Importance:** High

Lori, Oralya and Brianna-

Not sure who wants these numbers from the MSP-SEOCPIO email account, so I'll send them to all of you.

The email numbers are:

343 – Deleted file
2 – Flint Water folder
231 – Sent folder
241 – Flint Water folder (archived)
2290 – Sent folder (archived)
0 – Deleted folder (archived)

On the desk top is a folder labeled "Flint Water Crisis." This folder contains 10 documents

There are approximately 50 multi-page approvals/hard copy forms sitting in a filing crate near the MSP-SEOCPIO computer.

Once I know what the EMHSD game plan is for printing and copying these, I will start that process.

Thank you

The department has been directed to provide copies of all records in our possession related to the Flint water matter to the Governor's office. You are receiving this email because you have been identified as an individual who may have records that must be produced. If there are any department members who you think may be in possession of records related to Flint water, please forward this message to those members.

Records include memos, handwritten notes, emails and attachments, and text messages in your possession, regardless of who produced the record. Be sure when you search your email messages that you look in your inbox, sent box, and trash. In preparation for the production, you must estimate the number of records you have in your possession and provide that estimate to Ms. Lori Hinkley no later than **2:00 PM on Friday, February 12, 2016.**

You must then provide a copy of each record in your possession to the Legislative and Legal Resources Section no later than close of business on **Thursday, February 18, 2016.**

Members who work at Headquarters must provide paper copies to F/Lt. Chris Hawkins in the Office of the Director. Members who work at the State Secondary Complex must provide a paper copies Ms. Lori Hinkley. Ms. Hinkley is located on the second floor of the new Headquarters building. Department members who work outside of these worksites may send copies of records in their possession via e-mail to MSP-FOIAProject@michigan.gov.

In addition to this initial production of records, the department is required to provide copies of newly created records on an ongoing basis. Until further notice, copies of all newly created records shall be forwarded to MSP-FOIAProject@michigan.gov.

REMINDER: Public records can only be disposed of consistent with an approved retention schedule. As it applies to emails and text messages related to the Flint water matter, please use the retention schedule in place for general correspondence which is **two years.** Please save all emails and text messages for at least two years. Prior to expiration of the two year period you will have an opportunity to re-evaluate the content of the messages to determine if an additional retention period is necessary. If you have issues with accommodating emails based on your mailbox size, please archive them. Do not print and file them as the metadata must be retained as well.

*If you have any questions with these instructions, please contact Ms. Lori Hinkley.*

In addition to responses provided by others, please see our responses below.

Thank you.

. Elderly residents that cannot carry water back to their home/apartment from a POD; **Homebound or vulnerable residents can call 211 to have water delivered. In addition, most homes have received faucet filters. Filtered tap water should be the primary water source used, with bottled being used to supplement, unless there is an existing reason why the filtered tap water cannot be consumed.**
2. WIC consumers concerned that they cannot carry sufficient ready to use formula from the WIC clinic home and they are only allowed to pick up once a month **(I am assuming this is a USDA issue?);**
3. Residents complaining that they are not permitted to get enough water to meet their needs from the POD; **PODs are not limiting the amount of water residents can take. The guideline is one case per visit, however, if more is needed, they are allowed to take additional cases. Bottled water should be used to supplement the tap water – unless there is a specific reason the filtered tap water cannot be used, citizens should be using filtered water more so than bottled water.**
4. Residents complaining that having to visit the POD daily is too burdensome; **Again, greater use of filtered tap water would alleviate this concern. Most water consumption should be filtered tap water unless a specific reason exists that prevents the use of the filtered tap water (pregnant women, children under 6, etc.)**
5. Residents (espec. those in HUD housing) that do not have enough space to store the water they have stockpiled. **Consumption of filtered tap water would assist with this.**
6. Why is the State relying on voluntary agencies instead of doing the job directly and paying for it directly? **We are currently looking at JOBs programs and grant opportunities to hire individuals to sustain operations. However, we will also continue to use volunteer agencies. Volunteers have been an invaluable resource in partnering with the state for response efforts and will continue to be a key component.**
7. Why was the National Guard largely demobilized when they could be used to address the above concerns? ***(I suggested they contact the state, but FYI) They completed their initial door – to – door mission, so those members were demobilized. The National Guard was brought in to assist with getting filters into every home so there would not be a reliance on bottled water – at this time almost every water customer has a filter. Instead of continuing with the National Guard mobilization, we are hoping to use Flint residents to supplement the volunteers. The National Guard is currently managing our points of distribution.***
8. Why is the State relying on only fixed PODS? Why not deploy "mobile" PODS into neighborhoods to make it easier on residents to get water? ***(I explained the logistical challenges of such an idea and the rationale for fixed PODS, but just FYI) The city of Flint requested that these five points of distribution be opened and utilized. We are also currently looking at additional and/or alternative points of distribution.***

Col Seeley, Gabe, Amanda and Kristy-

There are eight questions below we need to get an answer to. Can you answer the below questions and/or point me to the right person to get the answer. The questions are:

1. Elderly residents that cannot carry water back to their home/apartment from a POD;
2. WIC consumers concerned that they cannot carry sufficient ready to use formula from the WIC clinic home and they are only allowed to pick up once a month **(I am assuming this is a *USDA* issue?)**;
3. Residents complaining that they are not permitted to get enough water to meet their needs from the POD;
4. Residents complaining that having to visit the POD daily is too burdensome;
5. Residents (espec. those in HUD housing) that do not have enough space to store the water they have stockpiled.
6. Why is the State relying on voluntary agencies instead of doing the job directly and paying for it directly?
7. Why was the National Guard largely demobilized when they could be used to address the above concerns? ***(I suggested they contact the state, but FYI)***
8. Why is the State relying on only fixed PODS? Why not deploy "mobile" PODS into neighborhoods to make it easier on residents to get water? ***(I explained the logistical challenges of such an idea and the rationale for fixed PODS, but just FYI)***

Thank you

**Subject:** FW: Concerns from the field on water distribution

Hi Kevin,

Please see the below questions raised by Representative Kildee's office and the original constituent email. Can you assist in tracking down answers to these questions?

Specifically, it would be helpful to have clarification on who is eligible for home delivery (is elderly sufficient or do you have to be "homebound")? How do you get on a home delivery list? In general, the original email seems to speak to a need for coordination with persons in HUD housing. I believe there are some efforts under way via MSHDA already. I also think the Office on Services to the Aging is doing some outreach. Can you please check with the SMEs in the SEOC to see if this is the case?

Lastly, it was suggested that Captain Kelenske might want to address the three questions about the state (why use volunteers, why limit National Guard, and what is being done outside of PODs) on Tuesday's Congressional call. If someone can answer these for me, I will work them into his talking points.

Thank you,
Shanon

**Subject:** FW: Concerns from the field on water distribution

Shanon,

I had a conversation today with a staffer for Rep. Kildee. They have "heard" from someone on the ground that raised a number of complaints about the way water is being distributed. Below is a list of the complaints they are hearing, and I was wondering if we have heard these elsewhere? I know we are telling people with specific needs to call 2-1-1, but the staffer was wondering if there is a proactive solution to these issues?

- Elderly residents that cannot carry water back to their home/apartment from a POD;
- WIC consumers concerned that they cannot carry sufficient ready to use formula from the WIC clinic home and they are only allowed to pick up once a month **(I am assuming this is a USDA issue?)**;
- Residents complaining that they are not permitted to get enough water to meet their needs from the POD;
- Residents complaining that having to visit the POD daily is too burdensome;
- Residents (espec. those in HUD housing) that do not have enough space to store the water they have stockpiled.

The staffer also asked the following questions and while I think I addressed them, perhaps we can discuss how to answer more thoroughly.

- Why is the State relying on voluntary agencies instead of doing the job directly and paying for it directly?
- Why was the National Guard largely demobilized when they could be used to address the above concerns? ***(I suggested they contact the state, but FYI)***
- Why is the State relying on only fixed PODS? Why not deploy "mobile" PODS into neighborhoods to make it easier on residents to get water? ***(I explained the logistical challenges of such an idea and the rationale for fixed PODS, but just FYI)***

Below is the full email that he used to inform his call to me. Happy to discuss over the phone if any of this is unclear.

**Dan Shulman**

FORWARDED EMAIL FROM KILDEE – NO CONTACT INFORMATION INCLUDED

Hey,
Thanks for letting me give you info on my volunteering in Flint.....I appreciate being able to share with someone, and hopefully you can send to someone with some power to help these folks.

We were at Slidell Senior Housing on W Carpenter road this Sunday. Our charge was to deliver water to residents and assess needs. This is a low-income senior housing HUD complex for seniors and disabled adults. So, the problem is that these residents are expected to carry bottled water up elevators - if there is a grocery cart available they can use that but some of the residents are reliant on walkers. The

cases of water being handed out are heavy, and so these folks would have a hard time getting water up to their units if they are beyond the first floor. So that's the first problem

Secondly, some of the residents mentioned that they were running out of room in their tiny apartments to store water. One resident had trouble opening up the door because of cases of water near the door - so FIRE HAZARD in terms of residents being able to get out in time if they have barriers with water cases blocking doorways.
Third, some of residents had filters for faucets, but at least one couldn't use it because her kitchen faucet was broken. One resident still is getting skin rashes from showering in the water. Still others weren't using the water to bathe or shower so besides handing out water we handed out baby wipes so they had something to use for cleansing.

Many of the residents HAD NO IDEA how to get their water tested. These folks are expected to go to a fire station, get a test bottle, take a sample, and get the bottle back to a fire station - these are lower-income older people, many of whom have physical disabilities! There seems to be a real lack of understanding on filter usage as well as how to get water tested....again, these are HUD managed complexes and HUD needs to get involved and work to protect its residents

So, I am meeting with folks from Nat'l Assoc of Social Workers-MI chapter to engage in some advocacy.

I proposed the following to NASW-MI.

All HUD and Flint Housing Commission units must have their units and building service lines tested for water and this testing must be coordinated and completed by the EPA service teams and not placed on the residents.

Water distribution should be available at all Flint Housing Commission/HUD housing sites in the city on a weekly basis - perhaps that means Red Cross sets up at these sites, or Red Cross and local social service agencies partner together to ensure water distribution is on-site (Particularly with the weather likely getting colder and snowier).

These residents have few resources, many of whom are disabled and without adequate transportation, and they should not have extra burdens placed on them due to the Flint water crisis.

Thank you so much for listening!

**Cc:** JICManager
**Subject:** For Tuesday - Loose ends

Matt/Ron/Kevin,

There are several emails in the MSP-SEOCPIO account that came in on Monday containing translated documents. Since we did not have a web person to post items, I left the emails in the account to be addressed on Tuesday. It appears two of the messages are the ASL videos we have been waiting for in order to send out the Translated Documents news release

Trevor Hawks has asked for a non-PDF version of the recycling flyer that Angela created (available here - http://www.michigan.gov/documents/flintwater/SOM_FlintRecyclingInstructions_513838_7.pdf). There needs to be a change made to it, as well as a Spanish version made. Angela was copied on the emails, but has not yet responded. This may require follow-up to make sure it gets to Trevor. When updated, it needs to be updated on the web.

This afternoon I provided Captain Kelenske with talking points for Tuesday's congressional call. I expect there will also be someone from DEQ and DHHS on the call as there was last time, but you may need to remind our fellow PIOs.

We received a request today from Tom Weber to have a JIC representative attend the weekly Community Partners Meeting on Thursdays at 3 p.m. I have asked Sgt. Vega (confirmed) and F/Lt. Kaiser (hasn't responded yet) to attend. I also asked Ron to add this item as a standing items on our daily Look-Ahead.

Another item of discussion from this weekend is a possible news release on adult lead exposure. Angela suggested it based on some news stories we were seeing. The feds have also asked what we are doing on this topic. I recommend following up with Jen Eisner tomorrow.

Dan Shulman at FEMA sent a number of questions to us from Representative Kildee's office. I have compiled all the answers and had them approved through Tony Katarsky today, however, Captain Kelenske has asked to have legal review them as well. I sent them to him today, but have not heard back yet.

Lastly, I review a couple of very draft infographics put together by the UCG regarding how to read your water testing results. I noted there is value in a simple infographic, but I asked that they work to finalize them more and then send them back through the JIC for approval.

Please let me know if you have any questions.
Thanks,
Shanon

It's pretty much every document (not just emails). There is a list of search terms, but it's likely easier just to do everything rather than try to perform all the various searches. For instance, one of the searches is the words "Flint" and "water" in the same document

You'll be getting direction from the SEOC on how/where they want you to print. In addition to emails, it will also be copying all the approval forms in the box on the desk there.

I spent three hours in my office yesterday printing, and made it one-third of the way through my documents.

For now, we are going to print off documents through this Friday After Friday, we need to copy the FOIA email account on all emails moving forward, but again, you'll get more direction from the SEOC on this.

Matt/Ron/Kevin,

There are several emails in the MSP-SEOCPIO account that came in on Monday containing translated documents. Since we did not have a web person to post items, I left the emails in the account to be addressed on Tuesday. It appears two of the messages are the ASL videos we have been waiting for in order to send out the Translated Documents news release.

Trevor Hawks has asked for a non-PDF version of the recycling flyer that Angela created (available here - http://www.michigan.gov/documents/flintwater/SOM_FlintRecyclingInstructions_513838_7.pdf). There needs to be a change made to it, as well as a Spanish version made. Angela was copied on the emails, but has not yet responded. This may require follow-up to make sure it gets to Trevor. When updated, it needs to be updated on the web.

This afternoon I provided Captain Kelenske with talking points for Tuesday's congressional call I expect there will also be someone from DEQ and DHHS on the call as there was last time, but you may need to remind our fellow PIOs.

We received a request today from Tom Weber to have a JIC representative attend the weekly Community Partners Meeting on Thursdays at 3 p.m. I have asked Sgt. Vega (confirmed) and F/Lt. Kaiser (hasn't responded yet) to attend. I also asked Ron to add this item as a standing items on our daily Look-Ahead.

Another item of discussion from this weekend is a possible news release on adult lead exposure. Angela suggested it based on some news stories we were seeing. The feds have also asked what we are doing on this topic. I recommend following up with Jen Eisner tomorrow.

Dan Shulman at FEMA sent a number of questions to us from Representative Kildee's office. I have compiled all the answers and had them approved through Tony Katarsky today, however, Captain Kelenske has asked to have legal review them as well. I sent them to him today, but have not heard back yet.

Lastly, I review a couple of very draft infographics put together by the UCG regarding how to read your water testing results. I noted there is value in a simple infographic, but I asked that they work to finalize them more and then send them back through the JIC for approval.

Please let me know if you have any questions.
Thanks,
Shanon

# Flint Water Emergency Response
## Talking Points for Capt. Chris Kelenske
## Congressional & Legislative Briefing 2/16/16

**NOT INTENDED TO BE DISSEMINATED TO THE MEDIA OR PUBLIC IN THIS FORMAT**

- The health and safety of Flint residents remains our top priority.

- It is essential that all Flint residents have the water in their homes tested as soon as possible. Free water testing kits are available at all five fire station water resource sites. Water samples can also be returned to these fire stations for testing.

- Residents who are elderly or homebound can call United Way 211 to arrange for delivery of water resource items, including a water testing kit.

- Most homes in Flint have been provided with a faucet filter to provide filtered tap water for drinking and cooking. Faucet filters are available for free at any water resource site.

- Filtered tap water should be used as the primary water source for drinking and cooking, with bottled water used as a supplement.

    - Residents should primarily use filtered water, unless the home has tested high for lead/copper, there are children under six, or a nursing or pregnant mother resides in the home.

- We continue to operate five water resource sites at fire stations, staffed by Michigan National Guard soldiers, daily from 9 a.m. to 9 p.m. to provide free bottled water, filters, replacement cartridges, and water testing kits.

    - The National Guard will continue to be mobilized to perform this mission until at least mid-March, at which time this function will be transitioned to community and volunteer organizations.

- Now that nearly 90 percent of Flint homes have a faucet filter, the need for bottled water should be limited, as filtered water should be the primary water source for drinking and cooking in most homes, unless there is a reason why the filtered tap water cannot be consumed.

- The general guideline at water resource sites is one case of water per day, per household. However, if a resident articulates a need for additional supplies, such as a large number of young children in the home, exceptions are made.

- Since January 9, using both door-to-door water response teams and water resource sites at the city's fire stations, we have distributed over 321,100 cases of water; 105,600 water filters; and 36,600 water testing kits.

- As is the case in any disaster or emergency, scam artists use tragedies as opportunities to take advantage of those in need. The Michigan Attorney General's Office has issued a Consumer Advisory warning Flint residents about common scams attempted during crisis situations. The consumer alert offers tips on avoiding scam artists and criminals who may attempt to exploit emergency situations like this one. A copy of this advisory can be found on our website (www.michigan.gov/flintwater).

**Subject: Talking points for Congressional Call**

Captain Kelenske,

Attached are talking points you can use on tomorrow's Congressional/Legislative conference call. It was mentioned you want to provide a total number of homes visited during the briefing. I'm not exactly sure what figure you had in mind, whether it is total number of occupied residences or a percentage of homes with filters, etc. so I put something in there, but left that bullet point highlighted. I also saw the note not to use the numbers in the attachments.

So you are aware, I have asked both DHHS and DEQ to have representatives prepared to give a briefing on the call; however, it sounds like they will both have reps on the call for questions, but do not plan to give a proactive report.

Please advise if you need anything further.

**Subject:** Re: Status of Schupan recycling instruction cards?

Regarding the complaint- most residents don't get the press releases though, and the Flint updates that the public can subscribe to aren't exactly talking about recycling, so I understand the county's concern. also, the releases only list the 3 recycling sites at resource centers,But doesn't include how to get a bin from Republic, or the other sites around town that Young's are managing.

I also couldn't find any information on recycling on either of the two state websites about Flint - supposedly the flyer is there, but I think it s buried so deep in a documents section no resident would ever find it. I'd love to see it as a main section on the front page of both sites.

Henrik,

On the complaint that there is a lack of recycling information in the Flint Water Response Team email updates and the desire to have that information included, that information is on all news releases that list the water resource sites (we denote which ones are also a recycling site).

Matt

Henrik and Jessi-

I entered the resource requests. One for the updating of the 3 page Flint Recycling handout and one for the updating and printing of the 10,000 informational cards.

Henrik, you should log into MICIMS and make sure I worded everything correct. I listed you as the point of contact with both. To follow up on this request take a look in MiCIMS and see where the status is and with whom.

Have a good weekend!

Subject: RE: Status of Schupan recycling instruction cards?

- I went ahead and ordered 3000 of the old cards for this weekend, since we have not received the updated card. They should arrive here at 8AM on Saturday just in time for this weekend's volunteer effort.
We really need the updated card for next week though.

- In addition to this, I would also ask that the additional location (comcast) and operating hours be added to the information flyer (see attached).

- Please also put the Spanish language information into the format of the flyer. The other day, we received a not formatted word document from the JIC with the translated information. There is an event with the Hispanic community tomorrow and they requested Spanish-language recycling information, which we cannot provide because we do not have an official-looking document.

- I met with someone from the County Planning Commission yesterday (they are responsible for solid waste management on the county level), and they noted that there is a lack of recycling information in the Flint Water Response Team email updates. I told him that I would expect official press releases related to recycling to be mentioned in the newsletter. He suggested that information on recycling should be in those emails constantly. For example, they include a list of the water resource sites, and he suggested that we could indicate which sites serve as bottle drop offs (for example with an asterisk), and that all sites receive Pur and Brita filter cartridges.

Thanks for your help,

Henrik

Subject: Status of Schupan recycling instruction cards?

Following up on this. Schupan needs these cards ASAP, they are running out of them and can't hand out the bags without the cards. What is the status of getting these cards updated and printed? They really needed them this weekend.

I was just informed that the Volunteer Reception Center is expecting a group of 60 volunteers that could use these cards on the weekend.
Please update the card as soon as possible, so we can go to print.

I apologize for the short notice, just found out myself.
Henrik

All,

I would need another document updated for a print order. Please see the initial recycling information card attached to this email.

For the recycling locations listed on the left, we would need to add a location including operating hours. If we do that, we should also include the hours for the Fire Stations (Daily, 9AM - 9PM).
Here the additional location:
Comcast Service Center
3008 Airpark Dr S
Flint, MI 48507
Monday to Friday, 10AM - 5PM
Saturday, 10AM - 1 PM

Thank you!
Henrik

Hi Henrik, attached is the updated door hanger. Please let me know if I can help further.

I don't know if this is the translated document or not. The formatting has been stripped, but it is a recycling document in Spanish.

Subject. Recycling material update / spanish-language translation

All,

In preparation of a print order, we would need an updated version of the attached recycling door hanger (initially designed by Trevor Hawks):
- The Keep Genesee County Beautiful logo at the bottom of the door hanger needs to be removed (the organization has withdrawn the authorization for use of their logo on any materials that are associated with the state response).
- The information regarding sign-up for curbside recycling ("Call Republic Services at 1-800-438-0966 to have a recycling bin delivered to your door.") needs to include the following times at which the referenced hotline is available: Monday to Friday, 8AM-5PM and Saturday, 8AM-12PM.

Also, a translation into Spanish for the "HOW TO RECYCLE WATER BOTTLES AND WATER FILTERS IN FLINT" flyer attached to this document was being developed through the JIC. Is there an update on the status of a translated version yet?

Thank you very much for your help,

Henrik Hollaender

**Subject: TV Town Hall**

I talked to Mike Schram at NBC25 about the town hall. It would be a 1.5-hour panel, with experts as well as the general public in the audience. We discussed the idea of having Capt. Kelenske, Dirs. Lyon and Creagh, and either Rich Baird or LG Calley on the panel. Mayor Weaver will also be on the panel, but I'm not sure who else - possibly somebody from the EPA. They had invited Congressman Kildee but he cannot make it.

Mike has invited a ton of stakeholders (Red Cross, United Way, churches, etc.) to fill audience seats. We discussed the possibility of having Dr. Eden Wells (and possibly DEQ's George K) in the audience as experts.

The town hall would be from 7-8:30 p.m. on Monday, Feb. 29. It would be broadcast in the Flint/Saginaw/BC, Grand Rapids/Kazoo and Cadillac/TC areas. Because it's at U-M Flint, the campus police force can help coordinate security.

Can you confirm with your directors – today hopefully - that this is something they could do? And if you want any expert backup for them in the audience, please provide those names as well. I'll confirm with Rich Baird and/or the LG.

**Cc:** "Covey, Gabriel (MSP)" <coveyg@michigan.gov>
**Subject: FW: Concerns from the field on water distribution**

Insp and Shanon-

Here are the answer to the questions:

**From MDMVA (M/Sgt Martin Whaley)**

1) The Guard members at the PODs do not have the ability to carry out deliveries, they do instruct customers with this type of issue getting to the POD's to contact 211, for possible delivery.

3) & 4) The POD's have put no restrictions on the amount of water a customer can receive, it is simply a matter of asking. They do not as a rule openly offer unlimited supplies as this could create a restocking issue.

5) This stands in direct contradiction to 3&4. It is outside our ability to provide additional storage to customers.

7) The only mission of the Guard in this operation is water distribution, specifically at the POD's. Members are unable to offer additional services beyond the mission they are assigned. Any additional requests for support from Guard members would have to be routed through the Governor's office.

**From MDMVA (Col Seeley)**

8) In discussing with Col Seeley he looked up the price of renting a portable storage unit. The cost is $98 a month for one unit. If this is something that we want to start doing for residents, it can be done, but a funding source will need to be identified

**From American Red Cross (Mr. Paul Spata)**

1) Residents can call 211 and Rapid Response Teams can deliver items. ARC volunteers can not enter the home but AmeriCorps volunteers can. Each RRT is made up of ARC and AmeriCorps volunteers

From Community Health (Mrs. Kathy Wahl)

2) The CHECC contacted the WIC program to clarify:
   - WIC funds are loaded onto the bridge card
   - WIC clients can purchase all of the formula at once or one bottle at a time
   - Fewer people in Flint carry the pre-mixed formula, because it is heavier and inventory turnover is not traditionally as quick as dry
   - Transportation is available for the clients to go to the larger stores such as Walmart and Meijer to pick up the formula

   Based on the above, and assuming we understand this correctly, this seems to be an unfounded complaint. WIC consumers can use their bridge card to purchase all at once or little by little.

From the Acting State Director (F/Lt Gabe Covey)

6) The water crisis facing flint is a large one. We need to work together with all of local, state, federal, non-profit and private partners to get through this.

**Subject:** RE: Concerns from the field on water distribution

Col Seeley, Gabe, Amanda and Kristy-

There are eight questions below we need to get an answer to. Can you answer the below questions and/or point me to the right person to get the answer. The questions are:

1. Elderly residents that cannot carry water back to their home/apartment from a POD;
2. WIC consumers concerned that they cannot carry sufficient ready to use formula from the WIC clinic home and they are only allowed to pick up once a month **(I am assuming this is a USDA issue?)**;
3. Residents complaining that they are not permitted to get enough water to meet their needs from the POD;
4. Residents complaining that having to visit the POD daily is too burdensome;
5. Residents (espec. those in HUD housing) that do not have enough space to store the water they have stockpiled.
6. Why is the State relying on voluntary agencies instead of doing the job directly and paying for it directly?
7. Why was the National Guard largely demobilized when they could be used to address the above concerns? ***(I suggested they contact the state, but FYI)***
8. Why is the State relying on only fixed PODS? Why not deploy "mobile" PODS into neighborhoods to make it easier on residents to get water? ***(I explained the logistical challenges of such an idea and the rationale for fixed PODS, but just FYI)***

Thank you
Kevin S.

**Sent:** Friday, February 12, 2016 2:58 PM
**To:** MSP-SEOCPIO
**Cc:** Bolger, Matt (MSP)
**Subject:** FW: Concerns from the field on water distribution

Hi Kevin,

Please see the below questions raised by Representative Kildee's office and the original constituent email. Can you assist in tracking down answers to these questions?

Specifically, it would be helpful to have clarification on who is eligible for home delivery (is elderly sufficient or do you have to be "homebound")? How do you get on a home delivery list? In general, the original email seems to speak to a need for coordination with persons in HUD housing. I believe there are some efforts under way via MSHDA already. I also think the Office on Services to the Aging is doing some outreach. Can you please check with the SMEs in the SEOC to see if this is the case?

Lastly, it was suggested that Captain Kelenske might want to address the three questions about the state (why use volunteers, why limit National Guard, and what is being done outside of PODs) on Tuesday's Congressional call. If someone can answer these for me, I will work them into his talking points.

Thank you,
Shanon

**Cc:** Jasmund, Sandra; Chandler, Jacqueline
**Subject:** FW: Concerns from the field on water distribution

Shanon,

I had a conversation today with a staffer for Rep. Kildee. They have "heard" from someone on the ground that raised a number of complaints about the way water is being distributed. Below is a list of the complaints they are hearing, and I was wondering if we have heard these elsewhere? I know we are telling people with specific needs to call 2-1-1, but the staffer was wondering if there is a proactive solution to these issues?

- Elderly residents that cannot carry water back to their home/apartment from a POD;
- WIC consumers concerned that they cannot carry sufficient ready to use formula from the WIC clinic home and they are only allowed to pick up once a month **(I am assuming this is a USDA issue?);**
- Residents complaining that they are not permitted to get enough water to meet their needs from the POD;
- Residents complaining that having to visit the POD daily is too burdensome;
- Residents (espec. those in HUD housing) that do not have enough space to store the water they have stockpiled.

The staffer also asked the following questions and while I think I addressed them, perhaps we can discuss how to answer more thoroughly.

- Why is the State relying on voluntary agencies instead of doing the job directly and paying for it directly?
- Why was the National Guard largely demobilized when they could be used to address the above concerns? ***(I suggested they contact the state, but FYI)***
- Why is the State relying on only fixed PODS? Why not deploy "mobile" PODS into neighborhoods to make it easier on residents to get water? ***(I explained the logistical challenges of such an idea and the rationale for fixed PODS, but just FYI)***

Below is the full email that he used to inform his call to me. Happy to discuss over the phone if any of this is unclear.

**Dan Shulman**
*External Affairs Specialist*

FORWARDED EMAIL FROM KILDEE – NO CONTACT INFORMATION INCLUDED

Hey,
Thanks for letting me give you info on my volunteering in Flint.....I appreciate being able to share with someone, and hopefully you can send to someone with some power to help these folks.

We were at Slidell Senior Housing on W Carpenter road this Sunday. Our charge was to deliver water to residents and assess needs This is a low-income senior housing HUD complex for seniors and disabled adults. So, the problem is that these residents are expected to carry bottled water up elevators - if there is a grocery cart available they can use that but some of the residents are reliant on walkers. The cases of water being handed out are heavy, and so these folks would have a hard time getting water up to their units if they are beyond the first floor. So that's the first problem.

Secondly, some of the residents mentioned that they were running out of room in their tiny apartments to store water. One resident had trouble opening up the door because of cases of water near the door - so FIRE HAZARD in terms of residents being able to get out in time if they have barriers with water cases blocking doorways
Third, some of residents had filters for faucets, but at least one couldn't use it because her kitchen faucet was broken. One resident still is getting skin rashes from showering in the water Still others weren't using the water to bathe or shower so besides handing out water we handed out baby wipes so they had something to use for cleansing.

Many of the residents HAD NO IDEA how to get their water tested. These folks are expected to go to a fire station, get a test bottle, take a sample, and get the bottle back to a fire station - these are lower-income older people, many of whom have physical disabilities! There seems to be a real lack of understanding on filter usage as well as how to get water tested....again, these are HUD managed complexes and HUD needs to get involved and work to protect its residents.

So, I am meeting with folks from Nat'l Assoc of Social Workers-MI chapter to engage in some advocacy.

I proposed the following to NASW-MI:

All HUD and Flint Housing Commission units must have their units and building service lines tested for water and this testing must be coordinated and completed by the EPA service teams and not placed on the residents

Water distribution should be available at all Flint Housing Commission/HUD housing sites in the city on a weekly basis - perhaps that means Red Cross sets up at these sites, or Red Cross and local social service agencies partner together to ensure water distribution is on-site. (Particularly with the weather likely getting colder and snowier).

These residents have few resources, many of whom are disabled and without adequate transportation, and they should not have extra burdens placed on them due to the Flint water crisis.

Thank you so much for listening!

In addition, most homes have received faucet filters. Filtered tap water should be the primary water source used, with bottled being used to supplement, unless there is an existing reason why the filtered tap water cannot be consumed.**
> 2. WIC consumers concerned that they cannot carry sufficient ready to use formula from the WIC clinic home and they are only allowed to pick up once a month **(I am assuming this is a USDA issue?);**
> 3. Residents complaining that they are not permitted to get enough water to meet their needs from the POD; **PODs are not limiting the amount of water residents can take. The guideline is one case per visit, however, if more is needed, they are allowed to take additional cases. Bottled water should be used to supplement the tap water -- unless there is a specific reason the filtered tap water cannot be used, citizens should be using filtered water more so than bottled water.**
> 4. *Residents complaining that having to visit the POD daily is too burdensome;* **Again, greater use of filtered tap water would alleviate this concern. Most water consumption should be filtered tap water unless a specific reason exists that prevents the use of the filtered tap water (pregnant women, children under 6, etc.)**

5. Residents (espec. those in HUD housing) that do not have enough space to store the water they have stockpiled. **Consumption of filtered tap water would assist with this.**
6. Why is the State relying on voluntary agencies instead of doing the job directly and paying for it directly? **We are currently looking at JOBs programs and grant opportunities to hire individuals to sustain operations. However, we will also continue to use volunteer agencies. Volunteers have been an invaluable resource in partnering with the state for response efforts and will continue to be a key component.**
7. Why was the National Guard largely demobilized when they could be used to address the above concerns? ***(I suggested they contact the state, but FYI) They completed their initial door – to – door mission, so those members were demobilized. The National Guard was brought in to assist with getting filters into every home so there would not be a reliance on bottled water – at this time almost every water customer has a filter. Instead of continuing with the National Guard mobilization, we are hoping to use Flint residents to supplement the volunteers. The National Guard is currently managing our points of distribution.***
8. Why is the State relying on only fixed PODS? Why not deploy "mobile" PODS into neighborhoods to make it easier on residents to get water? ***(I explained the logistical challenges of such an idea and the rationale for fixed PODS, but just FYI) The city of Flint requested that these five points of distribution be opened and utilized. We are also currently looking at additional and/or alternative points of distribution.***

Col Seeley, Gabe, Amanda and Kristy-

There are eight questions below we need to get an answer to. Can you answer the below questions and/or point me to the right person to get the answer. The questions are:

1. Elderly residents that cannot carry water back to their home/apartment from a POD;
2. WIC consumers concerned that they cannot carry sufficient ready to use formula from the WIC clinic home and they are only allowed to pick up once a month **(I am assuming this is a USDA issue?)**;
3. Residents complaining that they are not permitted to get enough water to meet their needs from the POD;
4. Residents complaining that having to visit the POD daily is too burdensome;
5. Residents (espec. those in HUD housing) that do not have enough space to store the water they have stockpiled.
6. Why is the State relying on voluntary agencies instead of doing the job directly and paying for it directly?
7. Why was the National Guard largely demobilized when they could be used to address the above concerns? ***(I suggested they contact the state, but FYI)***
8. Why is the State relying on only fixed PODS? Why not deploy "mobile" PODS into neighborhoods to make it easier on residents to get water? ***(I explained the logistical challenges of such an idea and the rationale for fixed PODS, but just FYI)***

Thank you
Kevin S.

**To:** MSP-SEOCPIO
**Cc:** Bolger, Matt (MSP)
**Subject:** FW: Concerns from the field on water distribution

Hi Kevin,

Please see the below questions raised by Representative Kildee's office and the original constituent email. Can you assist in tracking down answers to these questions?

Specifically, it would be helpful to have clarification on who is eligible for home delivery (is elderly sufficient or do you have to be "homebound")? How do you get on a home delivery list? In general, the original email seems to speak to a need for coordination with persons in HUD housing I believe there are some efforts under way via MSHDA already. I also think the Office on Services to the Aging is doing some outreach. Can you please check with the SMEs in the SEOC to see if this is the case?

Lastly, it was suggested that Captain Kelenske might want to address the three questions about the state (why use volunteers, why limit National Guard, and what is being done outside of PODs) on Tuesday's Congressional call. If someone can answer these for me, I will work them into his talking points.

Thank you,
Shanon

**Subject:** FW: Concerns from the field on water distribution

Shanon,

I had a conversation today with a staffer for Rep. Kildee. They have "heard" from someone on the ground that raised a number of complaints about the way water is being distributed. Below is a list of the complaints they are hearing, and I was wondering if we have heard these elsewhere? I know we are telling people with specific needs to call 2-1-1, but the staffer was wondering if there is a proactive solution to these issues?

- Elderly residents that cannot carry water back to their home/apartment from a POD;
- WIC consumers concerned that they cannot carry sufficient ready to use formula from the WIC clinic home and they are only allowed to pick up once a month **(I am assuming this is a USDA issue?)**;
- Residents complaining that they are not permitted to get enough water to meet their needs from the POD;
- *Residents complaining that having to visit the POD daily is too burdensome;*
- Residents (espec. those in HUD housing) that do not have enough space to store the water they have stockpiled.

The staffer also asked the following questions and while I think I addressed them, perhaps we can discuss how to answer more thoroughly.

- Why is the State relying on voluntary agencies instead of doing the job directly and paying for it directly?
- Why was the National Guard largely demobilized when they could be used to address the above concerns? ***(I suggested they contact the state, but FYI)***
- Why is the State relying on only fixed PODS? Why not deploy "mobile" PODS into neighborhoods to make it easier on residents to get water? ***(I explained the logistical challenges of such an idea and the rationale for fixed PODS, but just FYI)***

Below is the full email that he used to inform his call to me. Happy to discuss over the phone if any of this is unclear.

FORWARDED EMAIL FROM KILDEE – NO CONTACT INFORMATION INCLUDED

Hey,
Thanks for letting me give you info on my volunteering in Flint. .. I appreciate being able to share with someone, and hopefully you can send to someone with some power to help these folks.

We were at Slidell Senior Housing on W Carpenter road this Sunday. Our charge was to deliver water to residents and assess needs. This is a low-income senior housing HUD complex for seniors and disabled adults So, the problem is that these residents are expected to carry bottled water up elevators - if there is a grocery cart available they can use that but some of the residents are reliant on walkers. The cases of water being handed out are heavy, and so these folks would have a hard time getting water up to their units if they are beyond the first floor So that's the first problem.

Secondly, some of the residents mentioned that they were running out of room in their tiny apartments to store water. One resident had trouble opening up the door because of cases of water near the door - so FIRE HAZARD in terms of residents being able to get out in time if they have barriers with water cases blocking doorways.
Third, some of residents had filters for faucets, but at least one couldn't use it because her kitchen faucet was broken. One resident still is getting skin rashes from showering in the water. Still others weren't using the water to bathe or shower so besides handing out water we handed out baby wipes so they had something to use for cleansing

Many of the residents HAD NO IDEA how to get their water tested. These folks are expected to go to a fire station, get a test bottle, take a sample, and get the bottle back to a fire station - these are lower-income older people, many of whom have physical disabilities! There seems to be a real lack of understanding on filter usage as well as how to get water tested....again, these are HUD managed complexes and HUD needs to get involved and work to protect its residents.

So, I am meeting with folks from Nat'l Assoc of Social Workers-MI chapter to engage in some advocacy

I proposed the following to NASW-MI:

All HUD and Flint Housing Commission units must have their units and building service lines tested for water and this testing must be coordinated and completed by the EPA service teams and not placed on the residents.

Water distribution should be available at all Flint Housing Commission/HUD housing sites in the city on a weekly basis - perhaps that means Red Cross sets up at these sites, or Red Cross and local social service agencies partner together to ensure water distribution is on-site. (Particularly with the weather likely getting colder and snowier).

These residents have few resources, many of whom are disabled and without adequate transportation, and they should not have extra burdens placed on them due to the Flint water crisis

Thank you so much for listening!

Capt. Kelenske,

Attached is the Governor's Data Report. There is a decrease in number of total residential parcels and total residential active water subscribers. Seven parcels were originally classified as residential parcels and were found to be right-of-way or easements. The data has been updated to remove those seven properties. Per my conversation with Sam this morning, the graphs were updated by Ben last night.

Please let me know if you have any questions.

**Subject:** RE: Website

I see that. PDFs are difficult because you need to add keywords to the document for it to be optimized for search. When these docs come in, in most cases (not all) there are no metadata added to the docs to make them searchable. I have been trying to add some pertinent terms but sometimes it's like 'triage' as you know.

Also,
I was going to propose that we develop a list of search terms so that we can enlist e-Michigan's help in registering those terms with the search engines. This was going to be part of my proposal for setting up a production pipeline for the long haul. I know I still am reacting to a lot of what's coming in, still trying to get a feel for the overall picture, but if we can really get the overhead view of things, I think we can iron some things out while moving forward.

Thanks,

**Subject:** Scams - website

Hi Meegan,

In addition to promoting via social media and newsletter, can we post a link to the AG's Office news release about scams on our website? This was brought up again by the county EOC as a concern of residents. I was thinking we could list it in the News section and possibly also in the Resident, Community Information and Reports section.

**The City of Flint water system lost pressure and contamination may have occurred**
**BOIL YOUR FILTERED WATER BEFORE USING**

Due to a drop in pressure in the City of Flint water supply, bacterial contamination may have occurred in the water system. Bacteria are generally not harmful and are common throughout our environment. Corrective measures are currently being undertaken to correct the situation.

**What should I do?**

AS A PRECAUTIONARY MEASURE, DO NOT DRINK THE WATER WITHOUT BOILING IT FIRST. Bring all FILTERED water to a boil, let it boil for one minute, and let it cool before using, or use bottled water. If you are currently NOT using a filter to remove lead from drinking water, FLUSH your water for AT LEAST 7 minutes before collecting any to boil. Boiled FILTERED, boiled FLUSHED, or bottled water should be used for drinking, making ice, brushing teeth, washing dishes, and preparing food. Boiling kills bacteria and other organisms in the water. Continue using boiled or bottled water until further notice.

*Due to the pressure loss, there may be trapped air and loose sediment in your water lines.* The air and sediment may be removed by flushing you water system. DO NOT FLUSH YOUR SYSTEM THROUGH THE FILTER. The resulting air and sediment may affect the performance of your filter and the filter cartridge should be replaced.

**What happened? What is being done?**

These precautionary actions are being taken due to the loss of water pressure in the water distribution system caused by a water transmission main break on February 9, 2016. Whenever a water system loses pressure for any significant length of time, precautionary measures are recommended.

The City of Flint Water Department is working to get pressure restored, and water staff will be taking other remedial actions such as flushing and collecting bacteriological samples from around the system. The samples will be collected to determine that the water quality meets the state drinking water standards. We will inform you when tests show no bacteria and you no longer need to boil your water. We anticipate resolving the problem later today. This precautionary boil water notice shall remain in effect until results from the sampling verify the water is safe to drink. **Customers will be advised when the boil water advisory has been lifted.**

For more information, please contact The City of Flint Water Department at (810) 766-7202. General guidelines on ways to lessen the risk of infection by microbes are available from the EPA Safe Drinking Water Hotline at 1(800) 426-4791.

*Please share this information with all the other people who drink this water, especially those who may not have received this notice directly (for example, people in apartments, nursing homes, schools, and businesses). You can do this by posting this notice in a public place or distributing copies by hand or mail.*

CERTIFICATION: WSSN: 2310

I certify that this water supply has fully complied with the public notification requirements in the Michigan Safe Drinking Water Act, 1976 PA 399, as amended, and the administrative rules.

**Misreports:**

- None at this time.

**Headlines**

**$30M Flint water proposal not enough, shutoffs could resume**
Flint's city administrator said a recent $30 million proposal from state lawmakers isn't enough to counteract the impact the water crisis is having on city finances and could force officials to begin water shutoffs once again.

**Flint water crisis continues to worry parents, lead testing continues**
As 5-year-old Gabriella Venegas looked down at her hand, she quickly looked away. Tears in her eyes, she couldn't stand the sight or idea of a needle pricking her finger.

**Utility: Flint's lead lines could be replaced in a year**
Lansing's public utility estimates that 32 crews working regular full-time hours could replace Flint's 15,000 water service lines containing toxic lead metal within a year, city officials said Monday.

**Flint water: KWA chief helped FBI in corruption case**
The Flint drinking water crisis and the Detroit City Hall corruption case are two of the biggest Michigan scandals of the last 10 years.

**Flint e-mails: CDC voiced concerns over Legionnaires actions**
More than eight months before Gov. Rick Snyder disclosed a deadly Legionnaires' disease outbreak in the Flint area, federal health officials worried a lack of cooperation in Michigan could be hampering the public health response.

**State board of canvassers approves petition to recall Snyder**
The State Board of Canvassers has approved a petition to recall Gov. Rick Snyder, but denied the majority of proposals related to Flint's lead-tainted water crisis.

**Gov. Snyder talks one on one with ABC 12 News**
Governor Snyder talks one on one with ABC 12 News. He's answering questions about the future of Flint and when people will start to see lead pipes getting replaced.

**Family of lead-poisoned Flint girl, 2, files suit**
Flint resident Luke Waid had a gut feeling something was wrong when his 2-year-old daughter recently went from being a bubbly, energetic child to anxious and constantly irritable.

**Frustrations over water crisis mount at Flint City Council meeting**
"I'm angry. I work every day. I've been working since I was 15. This is my hometown and my memories of my own hometown are ruined," shouted Alexis Daniels during the public comment portion of the Flint City Council meeting.

Lead in tap water is a risk in other cities, too
While the crisis in Flint draws attention to disastrous consequences of failing to properly maintain a public water system, Chicago highlights a broader problem facing scores of U.S. cities that spent more than a century installing lead pipes to deliver drinking water.

CDC feared agencies hindered Legionnaires help in Flint
More than eight months before Gov. Rick Snyder disclosed a deadly Legionnaires' disease outbreak in the Flint area, federal health officials worried a lack of cooperation in Michigan could be hampering the public health response.

$30M Flint water proposal not enough, shutoffs could resume
Flint's city administrator said a recent $30 million proposal from state lawmakers isn't enough to counteract the impact the water crisis is having on city finances and could force officials to begin water shutoffs once again.

What the Science Says About Long-Term Damage From Lead
Many eyes are now focused on Flint, Mich., where government failures have resulted in elevated lead levels in the city's drinking water. But the effects on Flint's residents, particularly its children, may not show up until long after the cameras have left town.

Phil Power: Second thoughts on the Flint water debacle
The story of poisoned water in Flint has grown and metastasized until it threatens to suck all the oxygen out of the room.

The national news media have fluttered in. Even the New York Times, noted for its dismissive nose-in-the-air attitude toward the provincials in Michigan and its habit of running urban ruin porn stories about Detroit, has taken notice. Last week's editorial

mixed assigning the blame to Gov. Rick Snyder and airily instructing we locals about how to resolve the problem. I'm told you can't walk around Flint these days without running into out-of-state TV notables, reporters and political pundits.

Editorial: Test for lead in area schools
How safe is the water we're drinking? It's a question all of us should be asking.

The Flint water crisis has raised awareness about an issue so many take for granted: Clean and safe drinking water is not a guarantee.

Flint water crisis exposes threat to Michigan's comeback
The Flint water crisis is like a fusion bomb of neglect, indifference and bad public policy that — when drawn together — exploded in disaster, revealing the true condition of our state, and the corrosive approach of state leadership.

Gov. sits down with NBC 25's Drew Moore (WEYI-TV)

Governor talks with ABC 12's Jessica Dupnack (WJRT-TV)

Snyder: State will hire 50 Flint residents to help with water testing (AP)
Gov. Rick Snyder says the state is working with two Flint organizations to hire 50 residents who will help test the city's water for lead contamination.

Flint residents to be hired for water testing (Detroit News)
Fifty Flint residents will be hired for supplemental state water testing teams working in the city, Gov. Rick Snyder announced Monday.

State: Flint residents will be hired to help test water (WXMI)
Michigan Gov. Rick Snyder says the state is working with two Flint organizations to hire 50 residents who will help test the water in the city that's been plagued with lead contamination

Flint residents being hired to perform water testing in city (Mlive)
Fifty residents will receive training to assist the state in water testing taking place across Flint. The state has partnered with Orchards Children's Services and Flint YMCA's Safe Places Program to train the residents on the job.

50 Flint residents to be hired to test local water (WLNS)
A new partnership between the state of Michigan and Flint human service groups will result in fifty Flint residents being hired to help test water. The partnership was announced today by Gov. Rick Snyder. Snyder says in a release that water testing teams need more people to get the job done, and "no one is better suited to help the city bounce back."

Flint residents will be hired to help with water testing (WDIV)
Flint residents will be hired to assist with water testing under a new partnership between the state and human service groups, Gov. Rick Snyder announced Monday. The

partnership with Orchards Children's Services and Flint YMCA's Safe Places Program will help hire and train 50 residents this month to fill jobs on teams helping conduct water tests across the city.

Overlooked during water crisis, Flint's Latino community paid visit by Michigan governor (Latino Fox News)
Michigan Gov. Rick Snyder visited a predominately Latino Catholic Church in Flint late last week to reach out to a community that has felt overlooked and isolated during the ongoing water crisis in the Midwestern city.

$30M Flint water proposal not enough, shutoffs could resume (Mlive)
Flint's city administrator said a recent $30 million proposal from state lawmakers isn't enough to counteract the impact the water crisis is having on city finances and could force officials to begin water shutoffs once again.

Utility: Flint's lead lines could be replaced in a year (Detroit News)
Lansing's public utility estimates that 32 crews working regular full-time hours could replace Flint's 15,000 water service lines containing toxic lead metal within a year, city officials said Monday.

Flint e-mails: CDC voiced concerns over Legionnaires actions (Freep)
More than eight months before Gov. Rick Snyder disclosed a deadly Legionnaires' disease outbreak in the Flint area, federal health officials worried a lack of cooperation in Michigan could be hampering the public health response.

Lead contamination of Flint water draws multiple lawsuits (WDTN)
Residents of Flint have filed lawsuits against almost anyone who may have had a role in supplying the city with water that contained dangerous amounts of lead.

Amid Flint water crisis, lawsuits piling up (CBS)
One lawsuit seeks to replace lead-leaching water lines at no cost to customers. Another seeks money for thousands of Flint residents who unwittingly drank toxic water. A third complaint has been filed on behalf of people with Legionnaires' disease.

Lead contamination of Flint water draws multiple lawsuits (WLNS)
Residents of Flint have filed lawsuits against almost anyone who may have had a role in supplying the city with water that contained dangerous amounts of lead.

Flint water: KWA chief helped FBI in corruption case (Freep)
The Flint drinking water crisis and the Detroit City Hall corruption case are two of the biggest Michigan scandals of the last 10 years. Linking them is political consultant Sam Riddle, a Flint native and felon.

Flint water crisis continues to worry parents, lead testing continues (Mlive)
As 5-year-old Gabriella Venegas looked down at her hand, she quickly looked away. Tears in her eyes, she couldn't stand the sight or idea of a needle pricking her finger. Her mother — Flint resident Sarah Truesdail — held Gabriella closely Monday, Feb. 8,

and moments later through a bout of kicking and screaming, there was no pain and she became calm.

Column How scientists failed the public in the Flint water crisis (LA Times)
The Flint, Mich., water crisis, in which thousands of children were exposed to elevated lead levels after a supposedly money-saving decision to start using the corrosive Flint River as the city's water supply, is more than a massive failure of politics and regulation. It's also a failure of science and scientists.

Lessenberry: In order to move on, we need to know exactly what happened with Flint (Michigan Radio)

It hasn't been very easy to defend Governor Rick Snyder lately, but I think he did absolutely the right thing in refusing to testify before a committee of congressional Democrats about the scandal involving the lead poisoning of the water in Flint.

**200 Flint Kids Have Elevated Blood-Lead Levels**
Officials have identified at least 200 children in Flint who have elevated blood-lead levels.
Governor Rick Snyder "disclosed the figure during a tele-town hall event with nearly 8,000 listeners. He says the state is working to ensure all kids are tested," ABC News reported.

# Internal JIC Talking Points
# Flint Water Emergency Response

**NOT FOR RELEASE OUTSIDE JOINT INFORMATION CENTER**
**– For use in answering media inquiries –**

## General

- The health and safety of Flint residents remains a top priority. Until water is declared safe, residents are directed to continue to follow established safety protocols.

- These recommendations include that all homes obtain a water filter and use filtered water for drinking and cooking.

- Until we know the water from the tap is safe, vulnerable populations, including children under six and pregnant or nursing women, should drink bottled water.

- It is essential that all Flint residents have the water in their homes tested as soon as possible. Free water testing kits are available at fire stations 1, 3, 5, 6, and 8. Water samples should be returned to the fire stations for testing. The DEQ lab provides results to the City of Flint within 3 business days. The City of Flint mails results to residents. Results are posted on www.michigan.gov/flintwater.

- Residents are also encouraged to clean the aerators on their faucets to lessen lead sediment. Instructions for how to do this can be found on our website at www.michigan.gov/flintwater.

- For additional information, go to www.michigan.gov/FlintWater. This website includes health fact sheets and information about free resources including bottled water, water filters, replacement cartridges and water test kits.

- Flint residents, both English- or Spanish-speaking, with questions or those who need assistance can call United Way 2-1-1. United Way 2-1-1 is a free information and referral service that is available 24 hours a day, seven days a week.

- Response efforts are being coordinated by the State of Michigan in partnership with the City of Flint, Genesee County, and local community organizations to provide a full set of water resources to the residents of Flint.

## Resources and support services

### Flint water testing and bottled water pick up sites

- Five water resource sites have been established in Flint fire stations as one-stop locations where residents can pick-up everything they need to ensure their drinking water is safe.

- These sites are open daily from 9 a.m. to 9 p.m. Residents can pick-up free bottled water, water filters, replacement cartridges, and home water testing kits. Citizens who need transportation can call 2-1-1 for assistance.

- Identification is not required to receive any of these resources.

- In order to ensure supply keeps pace with demand, residents are reminded the general guideline is one case of bottled water per household per day.

- Samples will only be accepted by using the official water testing kits provided at the water resource sites and by the water response teams.

- The locations are:

    - Fire Station #1 located at 310 East 5th St. in Flint, MI 48502
    - Fire Station #3 located at 1525 Martin Luther King Ave. in Flint, MI 48503
    - Fire Station #5 located at 3402 Western Rd. in Flint, MI 48506
    - Fire Station #6 located at 716 West Pierson Rd. in Flint, MI 48505
    - Fire Station #8 located at 202 East Atherton Rd. in Flint, MI 48507

- Filters and replacement cartridges are also available at the following locations:

    - Michigan Department of Health and Human Services office
      125 E. Union St.
      Flint, MI 48502

    - Michigan Department of Health and Human Services office
      4809 Clio Road
      Flint, MI 48504

    - Genesee County Community Action Resource Department
      2727 Lippincott
      Flint, MI 48507

    - Genesee County Community Action Resource Department
      601 N. Saginaw
      Flint, MI 48502

- Flint City Hall
  1101 S. Saginaw St.
  Flint, MI 48502

**2-1-1**

- Anyone having difficulty reaching 2-1-1 can use the alternate toll-free number 1-844-875-9211.
- United Way 2-1-1 is not a disaster distress helpline and does not provide stress counseling.
- Flint residents should not call 2-1-1 about their individual testing results. If you have questions regarding blood level results, talk to your health provider.

**Water Response Teams—home water delivery**

- Water response teams consisting of volunteers are making deliveries to homes that need the most assistance, for example homes that do not have filters yet, or residents that are homebound.
- The water response teams are handing out bottled water, water filters, replacement cartridges, and water testing kits.
- Members of the water response teams have official credentialed badges with a State of Michigan seal hologram to be easily identified.
- If a resident is not at home when the teams stop by, a flyer with information on how to receive these free water resources will be left at their residence.

**Filters**

- When used properly water filters remove 99% of lead in water.
- Residents are urged to use filtered water for drinking, food preparation, brushing teeth and watering pets. Unfiltered water may be used for bathing and cleaning.
- One filter and one replacement cartridge are being provided per household initially. Each filter is good for approximately 100 gallons of water. The filter has an indicator on it that will turn from green to red when it needs to be replaced.
- The filters have a two to five-year, non-replaceable battery that operates the indicator light.

- The Plumbers and Pipefitters Union has agreed to provide free installation to homebound residents needing assistance.

- There is a detailed video posted on www.michigan.gov/flint that explains how to properly install a water filter cartridge.

- Water filters are also available for small businesses, in addition to Flint residents, at the water resource sites.

- ZeroWater filters and pitchers are not kept at the point of distribution (POD) locations for people to pick up. They are complicated and vary in size for different homes. There is a Rapid Response Team (RRT) that goes to homes and installs them as needed. When a replacement filter is needed, residents can go to a POD (such as a fire station) and request a filter (and pitcher if it's the first time).

**Water Testing**

- Flint residents can drop-off water samples to the five water resource sites at fire stations. Samples will only be accepted by using the official water testing kits provided at the water resource sites and by the water response teams.

- EPA has set up an email and toll free number for sampling questions, flintwater@epa.gov and 800.426.4791.

**Results**

- Results are posted on www.michigan.gov/flintwater under "school and residential testing results."

- Citizens who have not received a response on water test results should contact the City of Flint at 810-787-6537 ext. 3501.

**Resources for homebound individuals**

- Homebound individuals can contact 2-1-1 for assistance. Those contacts are being provided to volunteers who are responding to needs.

- The Plumbers and Pipefitters Union has agreed to provide free water filter installation to homebound residents needing assistance. This is being coordinated through 2-1-1.

**Non-English and deaf/hard of hearing individuals:**

- There are a few 2-1-1 agents in the state system that are fluent in Spanish and Arabic. When these agents are available calls are routed to them. Otherwise, tele-interpreter services are available 24/7/365. It usually takes under one minute to connect with an interpreter in any of 180 languages.

- TDD/TTY (Telecommunication Device for the Deaf) is available at every center, but very few calls come in this way.

- Email allows direct communication between the deaf/hard of hearing person and the 2-1-1 agent.

- Live chat is available at most of the 2-1-1 partners which allows individuals to communicate directly and privately with a 2-1-1 agent in real-time.

**Pets**

- Whatever you are doing in your own home for water, you should do for your pets (e.g., filtered, bottled water).

- In the last 5 years, there have been two cases of lead toxiosis in animals reported in Genesee County.

- If you have any concerns about your animal's health, you should work with a licensed veterinarian.

- There are a variety of diseases and issues that could mimic signs/symptoms of a lead-related issue, which is why it's critical to work with your vet to properly diagnose your pet.

- If a licensed vet suspects a possible lead-related issue, they contact MDARD and the department will work with them to have a sample tested. MDARD is covering the sample testing costs coming through veterinary offices.

- Media contacts wanting more information about pet testing or potential impacts can contact Jen Holton at MDARD: 517-284-5724, holtonj@michigan.gov

- Michigan has had very few cases of lead toxicity over the last five years, with most cases being related to cattle. For background purposes, with cattle, it's counted as one farm. Those cases almost always involve lead in batteries or some other contamination in the pasture where cattle graze.

- Under the Animal Industry Act, Public Act 466 of 1988, as amended, reportable diseases/conditions are exempt from disclosure. MDARD does provide

reportable disease/condition case information down to the county level, but cannot provide the specifics of those individual cases.

**Paying for water**

- Inquiries regarding the payment of water bills should be referred to the City of Flint.
- Per the Mayor, the city put a halt on all shut off notices or disconnections. No shut off notices have been issued since December and the utility billing department has been given no instruction to resume at this time.
- The City is currently reviewing its policy on shut off notices in light of the declared emergency and amended preliminary injunction order issued on January 11, 2016.
- Per DHHS, State Emergency Relief funding is available to qualified households to replace damaged water heaters. This information is available by calling 211.

**Bathing**

- According to the Michigan Department of Health and Human Services, routine bathing practices can continue. It is recommended bath time be used for bathing only, after which children should be taken out of the bath rather than be allowed to play in the water for extended periods of time.
- If a resident has a rash that they are concerned about, we recommend they contact their primary care doctor.
- Currently, rashes are only reportable to MDHHS when there is a suspected infectious disease such as measles or chickenpox.
- MDHHS is working together with the CDC and Genesee County Health Department to ensure we're monitoring health issues that may be related to water.
- We will be building on our partnership with the local provider community to determine what additional supports and surveillance may be necessary.

**For non-Flint residents who want to test their water**

- Anyone in Michigan who wants to test their water for lead can call the State Drinking Water Lab at 517-335-8184.
- The lead testing kit costs $18, which includes the sample bottle and instructions shipped to your home as well as the lab test. It does not include the cost of shipping your filled sample bottle back to the lab.
- Depending on the lab workload, results are typically available within 1-2 weeks.
- Your results will include information about the EPA's lead recommendations as well as contact information for your local health department, which can help you interpret your results further, if needed.

**Other/general**

- Legionnaires disease related inquiries will not be handled by the JIC. Inquiries should be directed to DHHS – Jen Eisler - cell 517-230-9804

## How to help

### Volunteering

- Since early January, over 2,000 volunteers have volunteered their time to assist Flint residents during the water emergency.

- Volunteers are coordinated jointly by the American Red Cross and the United Way of Genesee County.

- Volunteers are still needed to provide assistance with water distribution, warehousing, data entry and assembly of water test kits.

- To learn more or sign up to volunteer, visit www.flintvolunteer.com.

### *Material Donations*

- Material and in-kind donations of cases of water bottles, gallon jugs and larger containers of water can be dropped off at the below locations.

- Donations of 100 cases or less:
  - Catholic Charities Center for Hope, 517 E. Fifth Ave, Flint
    Monday – Friday, 9 a.m. - 4 p.m.
  - Call 810-232-9950, ext.325 to make arrangements for deliveries.

- Donations of 100 cases or more, pallets of water or donations in one semi-truck:
  - Food Bank of Eastern Michigan, 2300 Lapeer Rd., Flint
    Monday - Friday 8 a.m. - 4:30 p.m.
  - Call (810) 239-4441 to schedule a dock time for delivery.

- Donations not on pallets:
  - Pierson Road Warehouse on Monday, Friday and Saturdays between 12 – 6 p.m.
  - Call 517-420-3984 or email flintwarehouse2@michigan.gov to schedule a dock time for delivery.

- For extra-large donations, such as multiple semi-trucks, delivery arrangements can be made by emailing flintdonations@michigan.gov or 517-420-4162. Dave Martus will be handling these calls and emails.

- In-kind donations include labor to install filters and trucks to deliver materials. All in-kind donors should email flintdonations@michigan.gov or 517-420-4162. Dave Martus will be handling these calls and emails.

- If asked, preference is for water donations to be jugs of water (rather than bottles).

**Financial Donations**

- Visit www.helpforflint.com for options.

- The United Way of Genesee County, Community Foundation of Greater Flint, Hurley Children's Hospital and the Greater Flint Health Coalition have created a fund that will address both the short-term and long-term needs of Flint residents.

- The Community Foundation is managing all financial donations and no administrative fee is assessed. Visit www.flintkids.org or call the United Way at 810-232-8121 or Community Foundation of Greater Flint at 810-767-8270 for more information.

## *What's being done—Government actions*

### Presidential Disaster Declaration – FEMA assistance

- On Saturday, January 16, President Obama approved Gov. Snyder's request for a federal emergency in Flint. This action will provide emergency relief in the form of bottled water, water filters, filter replacements and water test kits. The period of assistance is up to 90 days.

- Gov. Rick Snyder on Wednesday, January 20, submitted an appeal to President Barack Obama following the denial of a major disaster declaration, a move that could potentially bring additional and much-needed resources to help the people of Flint.

- In the appeal to President Obama, Gov. Snyder said the severity of the disaster warrants special consideration for all categories under the Individual and Public Assistance Programs, as well as the Hazardous Mitigation Program in order to facilitate recovery.

- The President denied that appeal based on the legal requirement that under the Stafford Act disaster relief is available only for natural events, fires, floods, or explosions.

- On Friday, January 22, President Obama denied Gov. Snyder's appeal for a federal disaster declaration to aid Flint.

- On Wednesday, January 27, the state requested the federal WIC program increase access and availability of WIC benefits to children five to 10 years of age in the Flint area, to help children battle lead exposure through nutrition. On Friday, January 29, the USDA denied the state's request. Gov. Snyder is appealing that decision.

### Emergency Declaration – City of Flint

- Gov. Rick Snyder issued a proclamation Thursday, January 28 calling for an extension to the emergency declaration in the City of Flint and Genesee County.

- The Michigan House and Senate approved the request, extending the emergency until Thursday, April 14, 2016.

- This extension coincides with the current Presidential Emergency Declaration.

- *Extending this emergency will help us continue providing immediate assistance* to the people of Flint while working on long-term solutions to help Flint recover from this tragedy.

**Resources Distributed Since January 9**

- Since Saturday, January 9, the following resources have been distributed to residents, both at the water resource sites and by water response teams, in addition to donations:
    - *Below figures are as of Feb. 8, 2016*
        - 299,273 cases of water
        - 104,500 water filters
        - 35,756 water testing kits

- Water is being distributed primarily in bottles rather than jugs because donations are largely comprised of bottled water.

- In addition to donated supplies, the State of Michigan has purchased the following resources, since Tuesday, January 5, which will continue to be delivered to Flint over the coming days:
    - *Below figures are as of Feb. 5, 2016*
        - 141,982 cases of water
        - 124,052 filters
        - 62,701 water testing kits

**National Guard Mobilization**

- The Michigan National Guard has been activated to assist with distribution efforts at the five water resource sites at fire stations in the city.
    - Gov. Snyder issued an Executive Order on Tuesday, January 12, 2016, to activate Michigan National Guard.
    - Currently they are being used to staff water resource sites to support the distribution of bottled watered, water filters, replacement cartridges, and water testing kits.
    - National Guard is uniquely prepared and trained to respond quickly in emergency situations.

- First group of National Guard personnel arrived in Flint on Wednesday, January 13, 2016 to conduct assessment and get acclimated (seven personnel).

- Thirty (30) more personnel arrived on Friday, January 15; and that number was expanded to approximately 70 personnel on Monday, January 18, 2016. From Saturday, January 23 through Saturday, January 30, there were 279 MI National Guard Service Members on the ground in support of efforts in Flint (engaging in door-to-door effort). This number included both Army and Air guard assets. As of Sunday, January 31 there are 70 MI National Guard Service Members on the ground in Flint.

- This is the second time the Gov. Snyder has activated the National Guard. Last time was for the Duck Lake Fire in Luce County in May 2012.

- Per Michigan Emergency Management Plan, the Michigan State Police Director or designee is responsible for coordinating all state efforts, including the Michigan National Guard.

- Activation of the Michigan National Guard has allowed the American Red Cross, who had been staffing the water resource sites, to join the water distribution teams.

**Attorney General Investigation**

- On Friday, January 15 the Michigan Attorney General office announced they launched an investigation to determine what, if any, Michigan laws were violated in the process that resulted in lead contamination in Flint.

- On Monday, January 25 Michigan Attorney General Bill Schuette assigned individuals to lead the investigation: attorney Todd Flood (defense attorney and former Wayne County assistant prosecutor) and Andy Area (former Detroit FBI bureau chief).

**Supplemental Budget Request**

- After reviewing financial requests from the City of Flint, as well as financial requests from the State Emergency Operations Center and the involved state agencies and receiving input from various other organizations in Genesee County, the state budget director has submitted to the Legislature an emergency supplemental budget request on behalf of the governor to address the ***immediate*** *funding needs for the Flint water crisis. We understand further* investment will be necessary.

- On Friday, January 29, the Gov. Snyder signed the legislation allocating $28 million for more water resources and expanded health care initiatives, including more school nurses, diagnostic tests and community education through the Genesee County Health Department.

- This supplemental request is not intended to address all of the future financial needs that will be necessary to aid the city and the people of Flint. This supplemental request addresses the immediate funding needs and requests, including the cost of bottled water, filters and testing kits.

- All state resources are being brought to bear to protect public health and safety. In addition, the Gov. Snyder requested federal aid through FEMA and through direct request to the President – to date $5 million in federal aid has been approved for Flint.

- This supplemental request includes funding for immediate needs and is not intended to include funding for some of the longer-term needs such as special education, long-term health monitoring of children, and potential replacement of the water infrastructure and service lines. The longer-term needs will be addressed through the traditional budget development process and the governor will release his fiscal year 2017 budget recommendation on Wednesday, February 10.

**Gov. Snyder and DEQ Announce 5-Part Plan to Determine Water Safety**

- On Sunday, January 31, the DEQ embarked on a 5-point strategy to establish a baseline of data to determine when the water is safe to drink. The strategy includes:

    - Residential water testing: at-home water testing done by residents is key in guiding experts to areas of concern. To date, of 4,924 total residential water samples, tests show 93.7 percent of homes are below the actionable level of 15 parts per billion (ppb) for lead.

    - School testing: DEQ in collaboration with the Michigan Department of Licensing and Regulatory Affairs (LARA) has tested all 13 public schools in the city and continues to test non-public schools, children's centers and senior centers. The state will retest the public schools once it has completed replacing water fixtures.

    - Food service/restaurant provider testing: DEQ is working in collaboration with the Michigan Department of Agriculture and Rural Development (MDARD) to test establishments and ensure they are using water filters, flushing water systems properly, and using the correct food and water standards.

- Blood level testing: DEQ is working in conjunction with the Michigan Department of Health and Human Services (MDHHS) to ensure residents with high blood lead levels have their water tested for lead. Homes with high water lead levels are provided additional services by MDHHS and the Genesee County Health Department to ensure residents' exposure to lead is minimized.

- Flint water distribution system testing: DEQ and the City of Flint are working to monitor and test the quality of the water as it travels throughout the city's water distribution system. Additionally, sentinel sites are being established to set a baseline for data collection.

**Testing of Bottled Water for Lead**

In January, concerns have been raised about the possibility of lead being in the water being provided to Flint residents. This concern was raised due to measurements some residents obtained with a Total Dissolved Solids (TDS) meter provided with ZeroWater brand water filters.

- TDS is a measurement of all minerals and other common chemicals present in the water. The TDS meter is not sensitive enough to measure lead in the water and was included to help users determine when it is time to replace the filter.

- Although the TDS meter does not measure lead, the concern raised an excellent point that the bottled water being distributed should be tested for lead. Therefore, the MDEQ has analyzed a sample from each of the 21 brands of bottled water that are in inventory for both lead and copper. Results show all 21 brands of bottled had results of "Not Detected." With respect to lead, that means that all brands were less than 1 part per billion and for copper all 21 brands were less than 50 parts per billion.

- Although bottled water is regulated and must meet safety criteria, it was an excellent suggestion by the residents of Flint that we verify that the bottled water being distributed is safe and for that. We appreciate the suggestion.

**Federal Funds – How They Can Be Used**

- In an interview on Thursday, January 28, Lt. Gov. Brian Calley said that only $17 million of the $80 million in federal loans made available to Michigan can be allocated towards the recovery effort in Flint.

- This clarified a misunderstanding that the entire $80 million in federal loans could be allocated to aid in water infrastructure improvements for Flint.

- Read the Detroit Free Press story here: http://www.freep.com/story/news/local/michigan/flint-water-crisis/2016/01/28/only-17m-federal-loans-flint-says-lt-gov/79454204/

**Seeking Healthcare Services for Flint Residents under age 21**

- Gov. Snyder sent a request to U.S. Department of Health and Human Services to provide Flint residents under age 21 with additional healthcare services to address potential problems brought on from exposure to lead.

- The Governor requested to expand Medicaid eligibility for all residents in the impacted areas up to age 21, regardless of income level. The request is also for Medicaid coverage for people already enrolled in other forms of insurance to ensure comprehensive benefits are available to children who may have come into contact with lead in the water. The White House and federal Department of Health and Human Services did not have an immediate response.

**Jobs and Talent & Economic Development Assistance**

- The Department of Talent & Economic Development (TED) is engaged with Gov. Snyder's efforts to address the situation in Flint.

- Agency directors and staff have been on the ground in Flint assisting with water distribution efforts and talking with city officials on ability to assist with the needs in the community to provide safe, clean drinking water.

- Michigan State Housing Development Authority (MSHDA) Executive Director Elsenheimer and the MSHDA team have been on the ground ensuring all MSHDA housing has appropriate filters and water resources.

- Michigan Economic Development Corporation / Michigan Strategic Fund is currently focused and in discussions with local officials on how the state can assist in the immediate infrastructure needs of the City of Flint.

- Michigan Talent Investment Agency is eager to be a full partner in enhancing the economy of the community and the self-sufficiency of its families through numerous programs and initiatives, including the Community Ventures Program that assists Flint residents in finding good paying jobs.

- Through Travel Michigan, TED is continuing to promote the cultural, historical and natural assets of the area, and working collaboratively with the community to

showcase the positive stories coming out of Flint.

- In addition to these efforts, the TED team is exploring any and all other options for TED to assist the residents of Flint both on addressing their immediate water issues, as well as long term economic and community development needs.

- On Monday, February 8, Gov. Snyder announced a new partnership between the State of Michigan and Flint human service groups. The partnership with Orchards Children's Services and Flint YMCA's Safe Places Program will help hire and train 50 residents in February to fill jobs on teams helping conduct water tests across Flint.

**Michigan School for the Deaf**

- *For specific questions regarding actions taken to address lead levels at **any** schools (including Michigan School for the Deaf), ask that they contact the Michigan Department of Education (MDE).*

- When the Michigan School for the Deaf (MSD) initially heard of the water lead issue in September, school officials conducted their own testing which came back with clear results.

- Administrators closed down fountains in the building and have been purchasing 35-gallon water dispensers (150 gallons/week) from Culligan.

- Water filters have been placed on cafeteria drinking fountains and kitchen sinks for use in cooking/food prep.

- The school was notified by the local Health Department (Wednesday, January 20) about free testing for students for lead poisoning.

- The school has a staffed health center and MDE has approved the health center to work with the health department to set up a testing schedule and follow testing protocols outlined by the health department.

- Active consent is required for blood testing, so the school is working with the health department to notify parents and obtain consent.

- On the evening of Tuesday, January 12, MSD was notified by the dormitory landlord that they had a lead level reading of 28 parts per billion on some water outlets. The DEQ recommends school facilities take action if samples from any drinking water outlets show lead levels greater than 15 parts per billion.

    - Current actions being taken by MSD:

- Informing parents of the situation.

- Expediting replacement of 62-65 faucets in the dorm beginning Friday, January 22, 2016 and to have all replaced by the end of that weekend.
- The landlord and school officials are looking at replacing shower heads and/or installing in-line filters on showers.

- Approximately 75 students board at MSD, ranging in age from four to 26. There are 167 students attending the school.

# History, background timeline

## Chronology

- October 1, 2015: Public Health Emergency Declaration issued
- December 14, 2015: State of Emergency declared by City of Flint.
- January 4, 2016: Genesee County Board of Commissioners declared a local emergency
    - In a separate document, Genesee County requested a Governor's Declaration of Emergency with the local declaration.
- January 5, 2015: Governor declared State of Emergency
    - State Emergency Operations Center activated in Lansing to coordinate state response
    - Joint Information Center (JIC) activated on January 6, 2016 in Lansing; moved to Flint on January 11, 2016
- January 9, 2016: Water resource sites established at fire stations. 9 a.m. to 4 p.m. on January 9, 2016 but 9 a.m. – 9 p.m. starting January 10, 2016.
- January 12, 2016: Water resource teams began going door-to-door (4 teams)
- January 12, 2016: Governor Snyder issued an Executive Order activating the Michigan National Guard
- January 14, 2016: Governor requested Presidential declaration of emergency and expedited major disaster for Genesee County
- January 16, 2016: President Obama approved the Governor's request for a federal emergency in Flint.
    - Denied request for major disaster
- January 20, 2016: Governor Snyder submitted an appeal to President Barack Obama following the denial of a major disaster declaration.
- January 22, 2016: President Obama denied Governor Snyder's appeal for a federal disaster declaration to aid Flint.
- January 28, 2016: Gov. Rick Snyder today issued a proclamation calling for an extension to the emergency declaration in the city of Flint and Genesee County until April 14, 2016.
- February 5, 2016: The Small Business Administration approved Gov. Rick Snyder's request for low-interest disaster loans for businesses in Genesee

County and the city of Flint. Business owners seeking these loans must apply by Nov. 7, 2016.

**Other/Misc.**

- The state recognizes that offering recycling options for empty water bottles is a priority. Measures will be put in place soon to provide for recycling opportunities.

- Per the Michigan Department of Education, the state is not involved in the water provided to the Flint Schools. Any questions related to this topic should be referred to Flint Schools.

- Governor has asked the Receivership Transition Advisory Board to transfer the powers and authority currently vested in the city administrator to the mayor. Any inquiries related to this should be referred to the Governor's office.

- Population of Flint, as of 2014, was 99,000. Number of occupied households is 39,125, according to the state demographer. (Households with families, 22,809; non family head of household 16,316).

- For calls received from constituents offering lead removal solutions, take down their information and let them know it will be forwarded to the appropriate person. If there is interest in their services, they will be contacted directly. Their contact information should be forwarded to the MSP-SEOCPIO.

- Inquiries about providing vendor services should email DTMBECC@michigan.gov.

MEDIA at the SEOC

- If the media shows up at the new SEOC and requests or is expecting a tour of the facility, the reporter/photographer should be told that we ARE NOT conducting tours at this time, for two reasons: the SEOC remains under construction and it is an extremely busy time at the SEOC.

- PIOs in the SEOC are to talk with the media and let them know no tours are being offered and advise that they should contact EMHSD sometime in mid-February for the possibility of a tour.

February 9, 2016

# Flint Water Emergency Response
## General Talking Points

**NOT INTENDED TO BE DISSEMINATED TO THE MEDIA OR PUBLIC IN THIS FORMAT**

- It is essential that all Flint residents have the water in their homes tested as soon as possible. Free water testing kits are available at Fire Stations 1, 3, 5, 6, and 8. Water samples should be returned to the fire stations for testing.

- Water resource sites, where residents can pick up free bottled water, test kits, filter cartridges, and water testing kits are open daily from 9 a.m. to 9 p.m. and are located at:

  - Fire Station #1 located at 310 East 5th St. in Flint, MI 48502
  - Fire Station #3 located at 1525 Martin Luther King Ave. in Flint, MI 48503
  - Fire Station #5 located at 3402 Western Rd. in Flint, MI 48506
  - Fire Station #6 located at 716 West Pierson Rd. in Flint, MI 48505
  - Fire Station #8 located at 202 East Atherton Rd. in Flint, MI 48507

- Identification is not required to receive any of these resources.

- Water response teams consisting of volunteers are making deliveries to homes that need the most assistance; for example homes that do not have filters yet or residents that are homebound. The water response teams are handing out bottled water, water filters, replacement cartridges, and water testing kits.

- Volunteers are still needed to participate in water response teams going door-to-door handing out bottled water, filters, water testing kits, and replacement cartridges. Volunteers join teams of city, county, and state personnel and members of the American Red Cross.

- Persons wishing to volunteer or make financial donations can visit www.helpforflint.com for more information.

- For additional information and updates about the water emergency, go to www.michigan.gov/FlintWater.

- Flint residents, both English- or Spanish-speaking, can also call 2-1-1 to receive the latest updates and information about the Flint water emergency. United Way 2-1-1 is an information and referral service that is available 24 hours a day, seven days a week

**Filters**

- Until water is declared safe, residents are directed to continue to follow established safety protocols. These recommendations include that all homes obtain a water filter and use filtered water for drinking and cooking.

- Out of an abundance of caution, until we know the water from the tap is safe, vulnerable populations, including children under six and pregnant or nursing women, should drink bottled water.

- When used properly water filters remove 99 percent of lead in water. Residents are urged to use filtered water for drinking, food preparation, brushing teeth, and watering pets. Unfiltered water may be used for bathing and cleaning.

- One filter and one replacement cartridge are being provided per household initially. Each filter is good for approximately 100 gallons of water. The filter has an indicator on it that will turn from green to red when it needs to be replaced. The filters do have a two to five-year, non-replaceable battery that operates the indicator light.

- There is a detailed video posted on www.michigan.gov/flintwater that explains how to properly install a water filter cartridge.

**Resources for homebound individuals**

- Homebound individuals can contact 2-1-1 for assistance. Those contacts are being provided to volunteers who are responding to needs.

- The Plumbers and Pipefitters Union has agreed to provide free water filter installation to homebound residents needing assistance. This is being coordinated through 2-1-1.

**Pets**

- The same precautions in place for humans, should be followed for pets.

- There are a variety of diseases and issues that could mimic signs/symptoms of a lead-related issue, which is why it's critical to work with your veterinarian to properly diagnose your pet.

- If you have any concerns about your animal's health, you should work with a licensed veterinarian.

**Background**

- On January 16, President Obama approved Governor Snyder's request for a federal emergency in Flint. This action will provide emergency relief in the form of bottled water, water filters, filter replacements, and water test kits. The period of assistance is up to 90 days.

    - Governor Snyder had also requested a major disaster declaration, which the President denied based on the legal requirement that under the Stafford Act disaster relief is available only for natural events, fires, floods, or explosions.
    - On January 20, Governor Snyder submitted an appeal to President Obama following the denial of a major disaster declaration.

    - On January 22, President Obama denied Governor Snyder's appeal for a federal disaster declaration to aid Flint.

- The State Emergency Operations Center in Lansing has been activated since January 5 and continues to be staffed seven days a week by members of state agencies and other partners to coordinate the state's response.

- The $28 million dollar state supplemental spending bill will fund additional bottled water, faucet filters and lead-testing kits for Flint households. The funding will also provide expanded healthcare initiatives and wraparound services, such as diagnostic testing, nurse visits (including more school nurses) and environmental assessments, as well as access to child and adolescent health centers. Funding also will help the city alleviate the need for water shutoffs, and old fixtures will be replaced in schools, daycares and hospitals.

# Flint Joint Information Center Daily Update

February 9, 2016

## Situation Report

The Joint Information Center (JIC) was expected to be operational in Flint from 8 a.m. to 8 p.m. on Feb. 9. The JIC was operational until 9 p.m. on Feb. 8.

State agencies at the JIC included the Michigan State Police, Michigan National Guard, and Departments of Agriculture and Rural Development, Environmental Quality, Health and Human Services, and Natural Resources. The Genesee County Sheriff's Office was also present.

Tasks accomplished:

- Media hotline staff answered less than 10 emails and phone calls, ranging from inquiries about state costs incurred due to the Flint water emergency to testing dogs for lead toxicity. Media inquiries have continued to decline.
- Created a morning and afternoon media monitoring report.
- Created a Daily JIC Activities email to catalog actions completed for the day and planned for the week to keep all key agency PIOs aware of actions.
- Issued a news release about the role of the American Red Cross and United Way in coordinating volunteers.
- Issue a news release about the state's outreach to blind residents to help ensure access to information and resources.
- Shared the updated resource guides for water donations and recycling with 211.
- Continued updating and revising internal and general talking points to better reflect ongoing information.
- Continued routing public information materials for approval, including a newsletter article from the Michigan Department of Corrections and a Lead Toxicity fact sheet from MDARD.
- Continued discussions on drafting a news release to announce high-lead and copper teams that are beginning operations this week.
- Continued to post information on the www.michigan.gov/flintwater website, especially facts sheets and fliers in Spanish, Arabic, Mandarin Chinese and other languages.

- Held a 2:30 p.m. legislative and congressional conference call involving updates from key state agencies to talk about ongoing operations and activities.
- Revised staffing needs for next two-week period to reduce number of PIOs needed. Working to have staffing for Feb. 16 – 26 by Thursday.

## Planned Activities

***Wednesday, Feb. 10***

- Governor's FY17 Budget announcement and media roundtable in Lansing
- News Release – Teams visit homes with high lead and copper levels (under development)
- News Release – Translated Documents (Tentative - pending finalization of American Sign Language videos)

***Thursday, Feb. 11***

- Governor's TeleTown Hall at 2:30 p.m.
- News Release – Blood-Level Testing Available for Veterans and Their Families (tentative, pending coordination MVAA)
- News Release – National Guard lifesaving incident at Water Resource Site

***Friday, Feb. 12***

- News Release – National Guard Solders building relationships in the community

***Saturday, Feb. 13***

- No planned products or events.

***Saturday, Feb. 14***

- No planned products or events.

***Monday, Feb. 15***

- No planned products or events.

***Tuesday, Feb. 16***

- Congressional and Legislative conference call at 2:30 p.m.

## Issued News Releases (February)

***State of Michigan Joint Information Center***

- JIC033 – Feb. 9 – Outreach to Flint's Blind Community Helps Ensure Access to Information and Resources

- JIC032 – Feb. 9 – American Red Cross and United Way Play Crucial Role Coordinating Volunteer Efforts in Flint

- JIC031 – Feb. 5 – State Encourages Food Establishments to take Advantage of Free Water Safety Inspections
- JIC030 – Feb. 4 – State Partners with MSU Student Athletes to Help with Flint Recycling and Water Distribution Efforts
- JIC029 – Feb. 4 – Edible Flint Works to Address Water Emergency through Urban Gardening
- JIC028 – Feb. 3 – Plan Advanced by State to Monitor Skin Conditions in Flint
- JIC027 – Feb. 2 – Michigan National Guard Continue Efforts at Water Resource Sites
- JIC026 – Feb. 1 – DEQ and EPA Continue Interagency Cooperation Discussions on Flint Water

***Governor's Office***

- GOV – Feb. 8 – Gov. Rick Snyder: State partners with Flint human service groups to hire 50 Flint residents to assist with water testing
- GOV – Feb. 5 – Gov. Rick Snyder: Flint businesses can seek assistance through Small Business Administration disaster loans
- GOV – Feb. 4 – Gov. Rick Snyder: Swift Senate approval of $30 million for water bills shows strong commitment to Flint residents

- In Flint, the Red Cross is helping to coordinate volunteers, distribution efforts, supply storage and logistics planning in concert with local officials, United Way, Michigan Community Service Commission and a growing list of other partners.
- The Red Cross is supporting distribution efforts by coordinating volunteers and providing logistical support As of February 9, 2016, the Red Cross has helped distribute over 46,198 cases of water, more than 29,277 water filters and replacement filters, and over nearly 7,102 testing kits to nearly 41,949 homes visited on 308 distribution routes.
- Red Cross Emergency Response vehicles are also helping the Genesee County Emergency Management Agency with delivery of items door-to-door in neighborhoods. In addition, Red Cross disaster responders are working with state and county officials to identify and meet any urgent or special needs as quickly as possible.
- Partnering with United Way to operate the community Volunteer Reception Center, assigning volunteers to assist in water distribution and other duties at other partner organizations
- Red Cross has supported the early and on-going convening of community partners (faith-based, other NGOs, government, etc.) regarding community needs, including those with access and functional needs.
- Volunteers assembled thousands of water test kits
- Provided meals for Water Resource Teams
- Volunteers – FWRT *(Flint water resource teams)*
- ARC Logistics Planner to SEOC
- Early on, American Red Cross Volunteers distributed water at PODs
- Water delivered to GC Community Action Resource Department and other partners
- Red Cross Warehouse Management Team initially operated the water warehouse
- In January alone, Red Cross disaster responders put in just over 30,000 hours of work
- Responded to three apartment fires in the City of Flint

U.S. Small Business Administration

# U. S. SMALL BUSINESS ADMINISTRATION
# FACT SHEET – ECONOMIC INJURY DISASTER LOANS

## MICHIGAN Declaration 14620
***(Disaster: MI-00054)***
## Incident: CONTAMINATED PUBLIC WATER SUPPLY

**occurring:** ***October 1, 2015 & continuing***

*in* ***Genesee County, Michigan;*** *and the contiguous* ***Michigan*** *counties of:* ***Lapeer, Livingston, Oakland, Saginaw, Shiawassee and Tuscola***

***Application Filing Deadline: November 7, 2016***

**Disaster Loan Assistance Available:**

Economic Injury Disaster Loans (EIDLs) – Working capital loans to help small businesses, small agricultural cooperatives, small businesses engaged in aquaculture, and most private, non-profit organizations of all sizes meet their ordinary and necessary financial obligations that cannot be met as a direct result of the disaster These loans are intended to assist through the disaster recovery period

**Credit Requirements:**

- Credit History – Applicants must have a credit history acceptable to SBA.
- Repayment – Applicants must show the ability to repay the loan.
- Collateral – Collateral is required for all EIDL loans over $25,000. SBA takes real estate as collateral when it is available. SBA will not decline a loan for lack of collateral, but SBA will require the borrower to pledge collateral that is available.

**Interest Rates:**

The interest rate is determined by formulas set by law and is fixed for the life of the loan. The maximum interest rate for this program is 4 percent.

**Loan Terms:**

The law authorizes loan terms up to a maximum of 30 years. SBA will determine an appropriate installment payment based on the financial condition of each borrower, which in turn will determine the loan term

**Loan Amount Limit:**

*The law limits EIDLs to $2,000,000 for alleviating economic injury caused by the disaster. The actual amount of each loan is limited* to the economic injury determined by SBA, less business interruption insurance and other recoveries up to the administrative lending limit. SBA also considers potential contributions that are available from the business and/or its owner(s) or affiliates. If a business is a major source of employment, SBA has the authority to waive the $2,000,000 statutory limit.

**Loan Eligibility Restrictions:**

Noncompliance – Applicants who have not complied with the terms of previous SBA loans may not be eligible. This includes borrowers who did not maintain required flood insurance and/or hazard insurance on previous SBA loans.

**Note:** Loan applicants should check with agencies / organizations administering any grant or other assistance program under this declaration to *determine how an approval of SBA disaster loan might affect their eligibility*

**Refinancing:**

Economic injury disaster loans cannot be used to refinance long term debts.

**Insurance Requirements:**

To protect each borrower and the Agency, SBA may require you to obtain and maintain appropriate insurance. By law, borrowers whose damaged or collateral property is located in a special flood hazard area must purchase and maintain flood insurance SBA requires that flood insurance coverage be the lesser of 1) the total of the disaster loan, 2) the insurable value of the property, or 3) the *maximum insurance available.*

For more information, contact SBA's Disaster Assistance Customer Service Center by calling (800) 659-2955, emailing *disastercustomerservice@sba.gov*, or visiting SBA's Web site at *http://www.sba.gov/disaster*. Hearing impaired individuals may call (800) 877-8339. Applicants may also apply online using the Electronic Loan Application (ELA) via SBA's secure Web site at *https://disasterloan.sba.gov/ela*.

# Keep your pet safe from lead

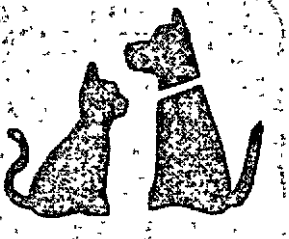
Lead poisoning is a potentially serious condition that calls for veterinary attention.

## Things to watch for:

- Vomiting
- Seizures
- Behaviorial changes
- Sleepiness/ fatigue
- Poor appetite
- Weakness
- Extreme anxiety
- Diarrhea
- Blindness
- Belly/stomach ache
- Crying

These changes may develop over time. If animals display any of these signs, please seek veterinary care.

## Causes:



Animals can come into contact with lead in a variety of ways:

- Drinking water
- Using improperly glazed ceramic food or water bowls
- Eating or licking paint chips
- Eating lead, like bullets, sinkers and golf balls

## Diagnosis and Treatment:

Lead poisoning could be a serious condition.

If you suspect your pet has been exposed to lead, contact a veterinarian to talk about testing and treatment.

## Pet safety tips for dealing with water that has lead in it:

- Give your pet bottled or filtered water to drink
- Use bottled or filtered water when making your pet's food
- Keep the toilet seat down! Do not allow pets to drink out of an unflitered water source
- Remember, this applies to all types of animals

*Toxicities are reportable to the State Veterinarian's Office.* Any veterinarian that suspects or has confirmed a case of toxicity, is to report the case to the Michigan Department of Agriculture and Rural Development by calling 1-800-292-3939

## Economic Injury Disaster Loans Available to Small Businesses in Flint, Michigan Due to Contaminated Public Water Supply

**WASHINGTON** – Low-interest Economic Injury Disaster Loans from the U.S. Small Business Administration (SBA) are available to Flint, Michigan and surrounding area small businesses, small agricultural cooperatives, small aquaculture businesses and private nonprofit organizations affected by the contaminated public water supply disaster that began on Oct. 1, 2015.

SBA Administrator Maria Contreras-Sweet made the loans available following a disaster declaration request from Gov. Richard D. Snyder on Feb. 4. The declaration covers Genesee County and the adjacent counties of Lapeer, Livingston, Oakland, Saginaw, Shiawassee and Tuscola in **Michigan.**

"The public water contamination in Flint is a tragedy and a historic health emergency with repercussions that will continue to ripple across the entire community. While the situation continues to unfold, SBA is committed to bolstering the economic livelihood of Flint and surrounding communities by offering low interest working capital loans to the small businessmen and women severely impacted by this disaster," said Administrator Contreras-Sweet.

"The SBA can help affected small businesses and nonprofit organizations overcome their economic losses by offering financial assistance, but the help cannot start until they submit an SBA disaster loan application to us," said Constance P. Logan, SBA's deputy district director in Michigan.

Eligible entities may qualify for loans up to $2 million. The SBA offers economic injury loans to help meet working capital needs caused by the disaster. The rates on these loans are 4 percent for small businesses and 2.625 percent for nonprofit organizations with terms up to 30 years. Eligibility for these working capital loans are based on the size and type of business and its financial resources.

SBA is very pleased for the tremendous support received from Flint / Genesee Regional Chamber and Metro Community Development in establishing the Business Recovery Center at the Oak Business Center in Flint. Our customer service representatives are available at the Center to answer questions about the disaster loan program and help individuals complete their applications.

The Center is located in the following community and is open as indicated:

**Genesee County**
Oak Business Center
2712 North Saginaw Street
Flint, MI 48505

Opens: Wednesday, Feb. 10 at noon
Hours: 8 a.m. - 5 p.m. weekdays
Closed: Saturdays and Sundays
Closed: Monday, Feb. 15 (Presidents' Day)
Closes: Thursday, Feb. 25 at 3 p.m.

-more-

Applicants may apply online using the Electronic Loan Application (ELA) via SBA's secure website at https://disasterloan.sba.gov/ela.

Applications and program information are available by calling the SBA's Customer Service Center at 1-800-659-2955 (1-800-877-8339 for the deaf and hard-of-hearing), or by sending an email to disastercustomerservice@sba.gov. Loan applications can also be downloaded from the SBA's website at www.sba.gov/disaster. Completed applications should be mailed to: U.S. Small Business Administration, Processing and Disbursement Center, 14925 Kingsport Road, Fort Worth, TX 76155.

The deadline to return economic injury applications is **November 7, 2016**.

# Internal JIC Talking Points
# Flint Water Emergency Response

**NOT FOR RELEASE OUTSIDE JOINT INFORMATION CENTER**
**-- For use in answering media inquiries –**

## General

- The health and safety of Flint residents remains a top priority. Until water is declared safe, residents are directed to continue to follow established safety protocols.

- These recommendations include that all homes obtain a water filter and use filtered water for drinking and cooking.

- Until we know the water from the tap is safe, vulnerable populations, including children under six and pregnant or nursing women, should drink bottled water.

- It is essential that all Flint residents have the water in their homes tested as soon as possible. Free water testing kits are available at fire stations 1, 3, 5, 6, and 8. Water samples should be returned to the fire stations for testing. The DEQ lab provides results to the City of Flint within 3 business days. The City of Flint mails results to residents. Results are posted on www.michigan.gov/flintwater.

- Residents are also encouraged to clean the aerators on their faucets to lessen lead sediment. Instructions for how to do this can be found on our website at www.michigan.gov/flintwater.

- For additional information, go to www.michigan.gov/FlintWater. This website includes health fact sheets and information about free resources including bottled water, water filters, replacement cartridges and water test kits.

- Flint residents, both English- or Spanish-speaking, with questions or those who need assistance can call United Way 2-1-1. United Way 2-1-1 is a free information and referral service that is available 24 hours a day, seven days a week.

- Response efforts are being coordinated by the State of Michigan in partnership with the City of Flint, Genesee County, and local community organizations to provide a full set of water resources to the residents of Flint.

## Resources and support services

### Flint water testing and bottled water pick up sites

- Five water resource sites have been established in Flint fire stations as one-stop locations where residents can pick-up everything they need to ensure their drinking water is safe.

- These sites are open daily from 9 a.m. to 9 p.m. Residents can pick-up free bottled water, water filters, replacement cartridges, and home water testing kits. *Citizens who need transportation can call 2-1-1 for assistance.*

- Identification is not required to receive any of these resources.

- In order to ensure supply keeps pace with demand, residents are reminded the general guideline is one case of bottled water per household per day.

- Samples will only be accepted by using the official water testing kits provided at the water resource sites and by the water response teams.

- The locations are:

    - Fire Station #1 located at 310 East 5th St. in Flint, MI 48502
    - Fire Station #3 located at 1525 Martin Luther King Ave. in Flint, MI 48503
    - Fire Station #5 located at 3402 Western Rd. in Flint, MI 48506
    - Fire Station #6 located at 716 West Pierson Rd. in Flint, MI 48505
    - Fire Station #8 located at 202 East Atherton Rd. in Flint, MI 48507

- Filters and replacement cartridges are also available at the following locations:

    - Michigan Department of Health and Human Services office
      125 E. Union St.
      Flint, MI 48502

    - Michigan Department of Health and Human Services office
      4809 Clio Road
      Flint, MI 48504

    - Genesee County Community Action Resource Department
      2727 Lippincott
      Flint, MI 48507

    - Genesee County Community Action Resource Department
      601 N. Saginaw
      Flint, MI 48502

- Flint City Hall
  1101 S. Saginaw St.
  Flint, MI 48502

**2-1-1**

- Anyone having difficulty reaching 2-1-1 can use the alternate toll-free number 1-844-875-9211.
- United Way 2-1-1 is not a disaster distress helpline and does not provide stress counseling.
- Flint residents should not call 2-1-1 about their individual testing results. If you have questions regarding blood level results, talk to your health provider.

**Water Response Teams—home water delivery**

- Water response teams consisting of volunteers are making deliveries to homes that need the most assistance, for example homes that do not have filters yet, or residents that are homebound.
- The water response teams are handing out bottled water, water filters, replacement cartridges, and water testing kits.
- Members of the water response teams have official credentialed badges with a State of Michigan seal hologram to be easily identified.
- If a resident is not at home when the teams stop by, a flyer with information on how to receive these free water resources will be left at their residence.

**Filters**

- When used properly water filters remove 99% of lead in water.
- Residents are urged to use filtered water for drinking, food preparation, brushing teeth and watering pets. Unfiltered water may be used for bathing and cleaning.
- One filter and one replacement cartridge are being provided per household initially. Each filter is good for approximately 100 gallons of water. The filter has an indicator on it that will turn from green to red when it needs to be replaced.
- The filters have a two to five-year, non-replaceable battery that operates the indicator light.

- The Plumbers and Pipefitters Union has agreed to provide free installation to homebound residents needing assistance.

- There is a detailed video posted on www.michigan.gov/flint that explains how to properly install a water filter cartridge.

- Water filters are also available for small businesses, in addition to Flint residents, at the water resource sites.

- ZeroWater filters and pitchers are not kept at the point of distribution (POD) locations for people to pick up. They are complicated and vary in size for different homes. There is a Rapid Response Team (RRT) that goes to homes and installs them as needed. When a replacement filter is needed, residents can go to a POD (such as a fire station) and request a filter (and pitcher if it's the first time).

**Water Testing**

- Flint residents can drop-off water samples to the five water resource sites at fire stations. Samples will only be accepted by using the official water testing kits provided at the water resource sites and by the water response teams.

- EPA has set up an email and toll free number for sampling questions, flintwater@epa.gov and 800.426.4791.

**Results**

- Results are posted on www.michigan.gov/flintwater under "school and residential testing results."

- Citizens who have not received a response on water test results should contact the City of Flint at 810-787-6537 ext. 3501.

**Resources for homebound individuals**

- Homebound individuals can contact 2-1-1 for assistance. Those contacts are being provided to volunteers who are responding to needs.

- The Plumbers and Pipefitters Union has agreed to provide free water filter installation to homebound residents needing assistance. This is being coordinated through 2-1-1.

**Fire Suppression Systems**

- The fire code requires an annual inspection of sprinkler systems by trained technicians.
- The code also requires the inspection of the sprinkler piping at a minimum of every five years.
- If potential obstructions are observed, the piping is required to be flushed completely.
- If a business owner has questions or concerns regarding their sprinkler system, they should contact a licensed fire protection contractor for assistance.

**Non-English and deaf/hard of hearing individuals:**

- There are a few 2-1-1 agents in the state system that are fluent in Spanish and Arabic. When these agents are available calls are routed to them. Otherwise, tele-interpreter services are available 24/7/365. It usually takes under one minute to connect with an interpreter in any of 180 languages.
- TDD/TTY (Telecommunication Device for the Deaf) is available at every center, but very few calls come in this way.
- Email allows direct communication between the deaf/hard of hearing person and the 2-1-1 agent.
- Live chat is available at most of the 2-1-1 partners which allows individuals to communicate directly and privately with a 2-1-1 agent in real-time.

**Pets**

- Whatever you are doing in your own home for water, you should do for your pets (e.g., filtered, bottled water).
- In the last 5 years, there have been two cases of lead toxiosis in animals reported in Genesee County.
- If you have any concerns about your animal's health, you should work with a licensed veterinarian.
- There are a variety of diseases and issues that could mimic signs/symptoms of a lead-related issue, which is why it's critical to work with your vet to properly diagnose your pet.

- If a licensed vet suspects a possible lead-related issue, they contact MDARD and the department will work with them to have a sample tested. MDARD is covering the sample testing costs coming through veterinary offices.

- Media contacts wanting more information about pet testing or potential impacts can contact Jen Holton at MDARD: 517-284-5724, holtonj@michigan.gov

- Michigan has had very few cases of lead toxicity over the last five years, with most cases being related to cattle. For background purposes, with cattle, it's counted as one farm. Those cases almost always involve lead in batteries or some other contamination in the pasture where cattle graze.

- Under the Animal Industry Act, Public Act 466 of 1988, as amended, reportable diseases/conditions are exempt from disclosure. MDARD does provide reportable disease/condition case information down to the county level, but cannot provide the specifics of those individual cases.

**Paying for water**

- Inquiries regarding the payment of water bills should be referred to the City of Flint.

- Per the Mayor, the city put a halt on all shut off notices or disconnections. No shut off notices have been issued since December and the utility billing department has been given no instruction to resume at this time.

- The City is currently reviewing its policy on shut off notices in light of the declared emergency and amended preliminary injunction order issued on January 11, 2016.

- Per DHHS, State Emergency Relief funding is available to qualified households to replace damaged water heaters. This information is available by calling 211.

**Bathing**

- According to the Michigan Department of Health and Human Services, routine bathing practices can continue. It is recommended bath time be used for bathing only, after which children should be taken out of the bath rather than be allowed to play in the water for extended periods of time.

- If a resident has a rash that they are concerned about, we recommend they contact their primary care doctor.

- Currently, rashes are only reportable to MDHHS when there is a suspected infectious disease such as measles or chickenpox.

- MDHHS is working together with the CDC and Genesee County Health Department to ensure we're monitoring health issues that may be related to water.

- We will be building on our partnership with the local provider community to determine what additional supports and surveillance may be necessary.

**For non-Flint residents who want to test their water**

  - Anyone in Michigan who wants to test their water for lead can call the State Drinking Water Lab at 517-335-8184.
  - The lead testing kit costs $18, which includes the sample bottle and instructions shipped to your home as well as the lab test. It does not include the cost of shipping your filled sample bottle back to the lab.
  - Depending on the lab workload, results are typically available within 1-2 weeks.
  - Your results will include information about the EPA's lead recommendations as well as contact information for your local health department, which can help you interpret your results further, if needed.

***Other/general***

- Legionnaires disease related inquiries will not be handled by the JIC. Inquiries should be directed to DHHS – Jen Eisler - cell 517-230-9804

# How to help

**Volunteering**

- Since early January, over 2,000 volunteers have volunteered their time to assist Flint residents during the water emergency.

- Volunteers are coordinated jointly by the American Red Cross and the United Way of Genesee County.

- Volunteers are still needed to provide assistance with water distribution, warehousing, data entry and assembly of water test kits.

- To learn more or sign up to volunteer, visit www.flintvolunteer.com.

**Material Donations**

- Material and in-kind donations of cases of water bottles, gallon jugs and larger containers of water can be dropped off at the below locations.

- Donations of 100 cases or less:
  - Catholic Charities Center for Hope, 517 E. Fifth Ave, Flint
    Monday – Friday, 9 a.m. - 4 p.m.
  - Call 810-232-9950, ext.325 to make arrangements for deliveries.

- Donations of 100 cases or more, pallets of water or donations in one semi-truck:
  - Food Bank of Eastern Michigan, 2300 Lapeer Rd., Flint
    Monday - Friday 8 a.m. - 4:30 p.m.
  - Call (810) 239-4441 to schedule a dock time for delivery.

- Donations not on pallets:
  - Pierson Road Warehouse on Monday, Friday and Saturdays between 12 – 6 p.m.
  - Call 517-420-3984 or email flintwarehouse2@michigan.gov to schedule a dock time for delivery.

- For extra-large donations, such as multiple semi-trucks, delivery arrangements can be made by emailing flintdonations@michigan.gov or 517-420-4162. Dave Martus will be handling these calls and emails.

- In-kind donations include labor to install filters and trucks to deliver materials. All in-kind donors should email flintdonations@michigan.gov or 517-420-4162. Dave Martus will be handling these calls and emails.

- If asked, preference is for water donations to be jugs of water (rather than bottles).

**Financial Donations**

- Visit www.helpforflint.com for options.

- The United Way of Genesee County, Community Foundation of Greater Flint, Hurley Children's Hospital and the Greater Flint Health Coalition have created a fund that will address both the short-term and long-term needs of Flint residents.

- The Community Foundation is managing all financial donations and no administrative fee is assessed. Visit www.flintkids.org or call the United Way at 810-232-8121 or Community Foundation of Greater Flint at 810-767-8270 for more information.

## *What's being done—Government actions*

### Presidential Disaster Declaration – FEMA assistance

- On Saturday, January 16, President Obama approved Gov. Snyder's request for a federal emergency in Flint. This action will provide emergency relief in the form of bottled water, water filters, filter replacements and water test kits. The period of assistance is up to 90 days.

- Gov. Rick Snyder on Wednesday, January 20, submitted an appeal to President Barack Obama following the denial of a major disaster declaration, a move that could potentially bring additional and much-needed resources to help the people of Flint.

- In the appeal to President Obama, Gov. Snyder said the severity of the disaster warrants special consideration for all categories under the Individual and Public Assistance Programs, as well as the Hazardous Mitigation Program in order to facilitate recovery.

- The President denied that appeal based on the legal requirement that under the Stafford Act disaster relief is available only for natural events, fires, floods, or explosions.

- On Friday, January 22, President Obama denied Gov. Snyder's appeal for a federal disaster declaration to aid Flint.

- On Wednesday, January 27, the state requested the federal WIC program increase access and availability of WIC benefits to children five to 10 years of age in the Flint area, to help children battle lead exposure through nutrition. On Friday, January 29, the USDA denied the state's request. Gov. Snyder is appealing that decision.

### Emergency Declaration – City of Flint

- Gov. Rick Snyder issued a proclamation Thursday, January 28 calling for an extension to the emergency declaration in the City of Flint and Genesee County.

- The Michigan House and Senate approved the request, extending the emergency until Thursday, April 14, 2016.

- This extension coincides with the current Presidential Emergency Declaration.

- Extending this emergency will help us continue providing immediate assistance to the people of Flint while working on long-term solutions to help Flint recover from this tragedy.

**Resources Distributed Since January 9**

- Since Saturday, January 9, the following resources have been distributed to residents, both at the water resource sites and by water response teams, in addition to donations:
    - *Below figures are as of Feb. 8, 2016*
        - 299,273 cases of water
        - 104,500 water filters
        - 35,756 water testing kits

- Water is being distributed primarily in bottles rather than jugs because donations are largely comprised of bottled water.

- In addition to donated supplies, the State of Michigan has purchased the following resources, since Tuesday, January 5, which will continue to be delivered to Flint over the coming days:
    - *Below figures are as of Feb. 5, 2016*
        - 141,982 cases of water
        - 124,052 filters
        - 62,701 water testing kits

**National Guard Mobilization**

- The Michigan National Guard has been activated to assist with distribution efforts at the five water resource sites at fire stations in the city.
    - Gov. Snyder issued an Executive Order on Tuesday, January 12, 2016, to activate Michigan National Guard.
    - Currently they are being used to staff water resource sites to support the distribution of bottled watered, water filters, replacement cartridges, and water testing kits.
    - National Guard is uniquely prepared and trained to respond quickly in emergency situations.

- First group of National Guard personnel arrived in Flint on Wednesday, January 13, 2016 to conduct assessment and get acclimated (seven personnel).

- Thirty (30) more personnel arrived on Friday, January 15; and that number was expanded to approximately 70 personnel on Monday, January 18, 2016. From Saturday, January 23 through Saturday, January 30, there were 279 MI National Guard Service Members on the ground in support of efforts in Flint (engaging in door-to-door effort). This number included both Army and Air guard assets. As of Sunday, January 31 there are 70 MI National Guard Service Members on the ground in Flint.

- This is the second time the Gov. Snyder has activated the National Guard. Last time was for the Duck Lake Fire in Luce County in May 2012.

- Per Michigan Emergency Management Plan, the Michigan State Police Director or designee is responsible for coordinating all state efforts, including the Michigan National Guard.

- Activation of the Michigan National Guard has allowed the American Red Cross, who had been staffing the water resource sites, to join the water distribution teams.

**Attorney General Investigation**

- On Friday, January 15 the Michigan Attorney General office announced they launched an investigation to determine what, if any, Michigan laws were violated in the process that resulted in lead contamination in Flint.

- On Monday, January 25 Michigan Attorney General Bill Schuette assigned individuals to lead the investigation: attorney Todd Flood (defense attorney and former Wayne County assistant prosecutor) and Andy Area (former Detroit FBI bureau chief).

**Supplemental Budget Request**

- After reviewing financial requests from the City of Flint, as well as financial requests from the State Emergency Operations Center and the involved state agencies and receiving input from various other organizations in Genesee County, the state budget director has submitted to the Legislature an emergency supplemental budget request on behalf of the governor to address the **immediate** funding needs for the Flint water crisis. We understand further investment will be necessary.

- On Friday, January 29, the Gov. Snyder signed the legislation allocating $28 million for more water resources and expanded health care initiatives, including more school nurses, diagnostic tests and community education through the Genesee County Health Department.

- This supplemental request is not intended to address all of the future financial needs that will be necessary to aid the city and the people of Flint. This supplemental request addresses the immediate funding needs and requests, including the cost of bottled water, filters and testing kits.

- All state resources are being brought to bear to protect public health and safety. In addition, the Gov. Snyder requested federal aid through FEMA and through direct request to the President – to date $5 million in federal aid has been approved for Flint.

- This supplemental request includes funding for immediate needs and is not intended to include funding for some of the longer-term needs such as special education, long-term health monitoring of children, and potential replacement of the water infrastructure and service lines. The longer-term needs will be addressed through the traditional budget development process and the governor will release his fiscal year 2017 budget recommendation on Wednesday, February 10.

**Gov. Snyder and DEQ Announce 5-Part Plan to Determine Water Safety**

- On Sunday, January 31, the DEQ embarked on a 5-point strategy to establish a baseline of data to determine when the water is safe to drink. The strategy includes:

    - Residential water testing: at-home water testing done by residents is key in guiding experts to areas of concern. To date, of 4,924 total residential water samples, tests show 93.7 percent of homes are below the actionable level of 15 parts per billion (ppb) for lead.

    - School testing: DEQ in collaboration with the Michigan Department of Licensing and Regulatory Affairs (LARA) has tested all 13 public schools in the city and continues to test non-public schools, children's centers and senior centers. The state will retest the public schools once it has completed replacing water fixtures.

    - Food service/restaurant provider testing: DEQ is working in collaboration with the Michigan Department of Agriculture and Rural Development (MDARD) to test establishments and ensure they are using water filters, flushing water systems properly, and using the correct food and water standards.

- Blood level testing: DEQ is working in conjunction with the Michigan Department of Health and Human Services (MDHHS) to ensure residents with high blood lead levels have their water tested for lead. Homes with high water lead levels are provided additional services by MDHHS and the Genesee County Health Department to ensure residents' exposure to lead is minimized.

- Flint water distribution system testing: DEQ and the City of Flint are working to monitor and test the quality of the water as it travels throughout the city's water distribution system. Additionally, sentinel sites are being established to set a baseline for data collection.

**Testing of Bottled Water for Lead**

In January, concerns have been raised about the possibility of lead being in the water being provided to Flint residents. This concern was raised due to measurements some residents obtained with a Total Dissolved Solids (TDS) meter provided with ZeroWater brand water filters.

- TDS is a measurement of all minerals and other common chemicals present in the water. The TDS meter is not sensitive enough to measure lead in the water and was included to help users determine when it is time to replace the filter.

- Although the TDS meter does not measure lead, the concern raised an excellent point that the bottled water being distributed should be tested for lead. Therefore, the MDEQ has analyzed a sample from each of the 21 brands of bottled water that are in inventory for both lead and copper. Results show all 21 brands of bottled had results of "Not Detected." With respect to lead, that means that all brands were less than 1 part per billion and for copper all 21 brands were less than 50 parts per billion.

- Although bottled water is regulated and must meet safety criteria, it was an excellent suggestion by the residents of Flint that we verify that the bottled water being distributed is safe and for that. We appreciate the suggestion.

**Federal Funds – How They Can Be Used**

- In an interview on Thursday, January 28, Lt. Gov. Brian Calley said that only $17 million of the $80 million in federal loans made available to Michigan can be allocated towards the recovery effort in Flint.

- This clarified a misunderstanding that the entire $80 million in federal loans could be allocated to aid in water infrastructure improvements for Flint.

- Read the Detroit Free Press story here: http://www.freep.com/story/news/local/michigan/flint-water-crisis/2016/01/28/only-17m-federal-loans-flint-says-lt-gov/79454204/

**Seeking Healthcare Services for Flint Residents under age 21**

- Gov. Snyder sent a request to U.S. Department of Health and Human Services to provide Flint residents under age 21 with additional healthcare services to address potential problems brought on from exposure to lead.

- The Governor requested to expand Medicaid eligibility for all residents in the impacted areas up to age 21, regardless of income level. The request is also for Medicaid coverage for people already enrolled in other forms of insurance to ensure comprehensive benefits are available to children who may have come into contact with lead in the water. The White House and federal Department of Health and Human Services did not have an immediate response.

**Jobs and Talent & Economic Development Assistance**

- The Department of Talent & Economic Development (TED) is engaged with Gov. Snyder's efforts to address the situation in Flint.

- Agency directors and staff have been on the ground in Flint assisting with water distribution efforts and talking with city officials on ability to assist with the needs in the community to provide safe, clean drinking water.

- Michigan State Housing Development Authority (MSHDA) Executive Director Elsenheimer and the MSHDA team have been on the ground ensuring all MSHDA housing has appropriate filters and water resources.

- Michigan Economic Development Corporation / Michigan Strategic Fund is currently focused and in discussions with local officials on how the state can assist in the immediate infrastructure needs of the City of Flint.

- Michigan Talent Investment Agency is eager to be a full partner in enhancing the economy of the community and the self-sufficiency of its families through numerous programs and initiatives, including the Community Ventures Program that assists Flint residents in finding good paying jobs.

- Through Travel Michigan, TED is continuing to promote the cultural, historical and natural assets of the area, and working collaboratively with the community to

showcase the positive stories coming out of Flint.

- In addition to these efforts, the TED team is exploring any and all other options for TED to assist the residents of Flint both on addressing their immediate water issues, as well as long term economic and community development needs.

- On Monday, February 8, Gov. Snyder announced a new partnership between the State of Michigan and Flint human service groups. The partnership with Orchards Children's Services and Flint YMCA's Safe Places Program will help hire and train 50 residents in February to fill jobs on teams helping conduct water tests across Flint.

**Michigan School for the Deaf**

- *For specific questions regarding actions taken to address lead levels at **any** schools (including Michigan School for the Deaf), ask that they contact the Michigan Department of Education (MDE).*

- When the Michigan School for the Deaf (MSD) initially heard of the water lead issue in September, school officials conducted their own testing which came back with clear results.

- Administrators closed down fountains in the building and have been purchasing 35-gallon water dispensers (150 gallons/week) from Culligan.

- Water filters have been placed on cafeteria drinking fountains and kitchen sinks for use in cooking/food prep.

- The school was notified by the local Health Department (Wednesday, January 20) about free testing for students for lead poisoning.

- The school has a staffed health center and MDE has approved the health center to work with the health department to set up a testing schedule and follow testing protocols outlined by the health department.

- Active consent is required for blood testing, so the school is working with the health department to notify parents and obtain consent.

- On the evening of Tuesday, January 12, MSD was notified by the dormitory landlord that they had a lead level reading of 28 parts per billion on some water outlets. The DEQ recommends school facilities take action if samples from any drinking water outlets show lead levels greater than 15 parts per billion.

    - Current actions being taken by MSD:

- Informing parents of the situation.

- Expediting replacement of 62-65 faucets in the dorm beginning Friday, January 22, 2016 and to have all replaced by the end of that weekend.
- The landlord and school officials are looking at replacing shower heads and/or installing in-line filters on showers.

- Approximately 75 students board at MSD, ranging in age from four to 26. There are 167 students attending the school.

# History, background timeline

## Chronology

- October 1, 2015: Public Health Emergency Declaration issued
- December 14, 2015: State of Emergency declared by City of Flint.
- January 4, 2016: Genesee County Board of Commissioners declared a local emergency
    - In a separate document, Genesee County requested a Governor's Declaration of Emergency with the local declaration.
- January 5, 2015: Governor declared State of Emergency
    - State Emergency Operations Center activated in Lansing to coordinate state response
    - Joint Information Center (JIC) activated on January 6, 2016 in Lansing; moved to Flint on January 11, 2016
- January 9, 2016: Water resource sites established at fire stations. 9 a.m. to 4 p.m. on January 9, 2016 but 9 a.m. – 9 p.m. starting January 10, 2016.
- January 12, 2016: Water resource teams began going door-to-door (4 teams)
- January 12, 2016: Governor Snyder issued an Executive Order activating the Michigan National Guard
- January 14, 2016: Governor requested Presidential declaration of emergency and expedited major disaster for Genesee County
- January 16, 2016: President Obama approved the Governor's request for a federal emergency in Flint.
    - Denied request for major disaster
- January 20, 2016: Governor Snyder submitted an appeal to President Barack Obama following the denial of a major disaster declaration.
- January 22, 2016: President Obama denied Governor Snyder's appeal for a federal disaster declaration to aid Flint.
- January 28, 2016: Gov. Rick Snyder today issued a proclamation calling for an extension to the emergency declaration in the city of Flint and Genesee County until April 14, 2016.
- February 5, 2016: The Small Business Administration approved Gov. Rick Snyder's request for low-interest disaster loans for businesses in Genesee

County and the city of Flint. Business owners seeking these loans must apply by Nov. 7, 2016.

**Other/Misc.**

- The state recognizes that offering recycling options for empty water bottles is a priority. Measures will be put in place soon to provide for recycling opportunities.

- Per the Michigan Department of Education, the state is not involved in the water provided to the Flint Schools. Any questions related to this topic should be referred to Flint Schools.

- Governor has asked the Receivership Transition Advisory Board to transfer the powers and authority currently vested in the city administrator to the mayor. Any inquiries related to this should be referred to the Governor's office.

- Population of Flint, as of 2014, was 99,000. Number of occupied households is 39,125, according to the state demographer. (Households with families, 22,809; non family head of household 16,316).

- For calls received from constituents offering lead removal solutions, take down their information and let them know it will be forwarded to the appropriate person. If there is interest in their services, they will be contacted directly. Their contact information should be forwarded to the MSP-SEOCPIO.

- Inquiries about providing vendor services should email DTMBECC@michigan.gov.

MEDIA at the SEOC

- If the media shows up at the new SEOC and requests or is expecting a tour of the facility, the reporter/photographer should be told that we ARE NOT conducting tours at this time, for two reasons: the SEOC remains under construction and it is an extremely busy time at the SEOC.

- PIOs in the SEOC are to talk with the media and let them know no tours are being offered and advise that they should contact EMHSD sometime in mid-February for the possibility of a tour.

February 8, 2016

# Flint Water Emergency Response
## Talking Points for Capt. Chris Kelenske
## Congressional & Legislative Briefing 2/9/16

**NOT INTENDED TO BE DISSEMINATED TO THE MEDIA OR PUBLIC IN THIS FORMAT**

**High-level Messages**

- From an operational standpoint, our primary mission continues to be ensuring all Flint residents have access to safe water and are aware of the information and free resources available to them, which include bottled water, water filters, replacement cartridges, and water test kits.

- The health and safety of Flint residents remains a top priority. It is essential that all Flint residents have the water in their homes tested as soon as possible.

- Until we know the water from the tap is safe, it is recommended that vulnerable populations drink bottled water, this includes children under six and pregnant or nursing women.

- Residents are also encouraged to clean the aerators on their faucets to lessen lead sediment. Instructions for how to do this can be found on our website at www.michigan.gov/flintwater.

- Free water testing kits are available at all five fire station water resource sites. Water samples can also be returned to these fire stations for testing.

- Anyone who is unable to get to a fire station to pick up a free testing kit should call United Way 2-1-1 for assistance.

- Door-to-door delivery efforts by water response teams comprised of volunteers continue, but are increasingly targeted to ensure we are reaching every home.

- As of today, these efforts have resulted in 87.8 percent of City of Flint water customers having a water filter. That leaves approximately 12 percent or 3,323 customers whose filter status in unknown. Efforts to reach these homes continue in earnest.

- We also continue to operate five water resource sites at fire stations, staffed by Michigan National Guard soldiers, daily from 9 a.m. to 9 p.m. to provide free bottled water, filters, replacement cartridges, and water testing kits.

- Since January 9, using both door-to-door water response teams and water resource sites at the city's fire stations, we have distributed a total of 299,273 cases of water; 104,500 water filters; and 35,756 water testing kits.

- On February 5, the Small Business Administration approved the Governor's request for low-interest disaster loans for businesses in Genesee County and the city of Flint.

- The approval provides access to federal Economic Injury Disaster Loans, which are working capital loans to small businesses, small agricultural cooperatives, small businesses engaged in aquaculture and most private, non-profit organizations that meet their ordinary and necessary financial obligations that cannot be met as a direct result of the disaster.

- Business owners will have until Nov. 7, 2016, to apply. More information and criteria for SBA disaster loans is available at www.sba.gov/disaster. Eligible Flint business owners can apply online.

- Lastly, due to the continued outpouring of support from persons and organizations wishing to donate bottled water, the state has secured a second warehouse. This warehouse can accept bottled water that is not on pallets, filling a critical need, as many water drives are not palletized.

    - The water donation guidelines on www.michigan.gov/flintwater and www.helpforflint.com have been updated to reflect this new option. To schedule a dock time for a delivery, call 517-420-3984 or email flintwarehouse2@michigan.gov.

## INFORMATION – IF ASKED...

### State Funding

- To date, the state has allocated $37.3 million in emergency funding for Flint.

- Last week, the Governor proposed and the Senate has approved an additional $30 million the city could use to help relieve Flint residents of a portion of their water bill. The $30 million recommendation must now be approved by the House before it *going into effect.*

- Tomorrow in his FY17 budget recommendation, it is expected the Governor will outline long-term funding efforts to aide in Flint's recovery.

### *Jobs for Flint Residents*

- On Monday, Governor Snyder announced a new partnership between the state and Flint area organizations - Orchards Children's Services and Flint YMCA's Safe Places Program – that will hire and train 50 Flint residents this month to help conduct water tests for their fellow community member across the city.

- The partnership is part of a comprehensive effort to help ensure Flint families benefit from both short-term and long-term opportunities created by relief efforts.

    - More residents will be hired as more work is identified.

**Chronology**

- October 1, 2015: Public Health Emergency Declaration issued
- December 14, 2015: State of Emergency declared by City of Flint.
- January 4, 2016: Genesee County Board of Commissioners declared a local emergency
    - Genesee County also requested a Governor's Declaration of Emergency with the local declaration.
- January 5, 2015: Governor declared State of Emergency
    - State Emergency Operations Center activated in Lansing to coordinate state response
    - Joint Information Center (JIC) activated on January 6, 2016 in Lansing; moved to Flint on January 11, 2016
- January 9, 2016: Water resource sites established at fire stations. 9 a.m. to 4 p.m. on January 9, 2016 but 9 a.m. – 9 p.m. starting January 10, 2016.
- January 12, 2016: Water resource teams began going door-to-door (4 teams)
- January 12, 2016: Governor Snyder issued an Executive Order activating the Michigan National Guard
- January 14, 2016: Governor requested Presidential declaration of emergency and expedited major disaster for Genesee County
- January 16, 2016: President Obama approved the Governor's request for a federal emergency in Flint.
    - Denied request for major disaster
- January 20, 2016: Governor Snyder submitted an appeal to President Barack Obama following the denial of a major disaster declaration.
- January 22, 2016: President Obama denied Governor Snyder's appeal for a federal disaster declaration to aid Flint.
- January 28, 2016: Gov. Rick Snyder today issued a proclamation calling for an extension to the emergency declaration in the city of Flint and Genesee County until April 14, 2016.
- February 5, 2016: SBA approved the Governor's request to make available Economic Injury Disaster Loans for small businesses, small agricultural cooperatives, small businesses engaged in aquaculture and most private, non-profit organizations.

Good morning,

Can you please send me the login information for the email account MSP-SEOCPIO@michigan.gov as I will be monitoring it from home this weekend?

Also, as of now, in case anyone asks, I plan to come into the SEOC on Monday (President's Day) to participate in the first two briefings and to prepare Captain Kelenske's talking points for Tuesday's congressional briefing I am hoping to leave by noon.

Thanks,
Shanon

So what does that mean at this time as far as a need to replace filter cartridges once the boil advisory is lifted?

Update: I went to the Water Treatment Plant this morning and visited with the lab folks. 18 bacti samples were collected yesterday between 10 am and 1 pm throughout the city, not just in the lower pressure areas that occurred as a result of the water main break. There was good free chlorine residual at all the collection sites. The results from that sampling will be available about 1:30 pm today. We looked at the samples so far, and none were turning color. Again, there is no reason to believe at this point that any wide spread bacti contamination has occurred as a result of the water main break.

**Subject:** RE: FILTERS: Flint water main break

All,

I am sorry I was out of the UCG for much of the day when all this was developing. I understand a press release is nearly ready to go that will tell folks to replace their filter cartridges when the boil advisory is lifted. I am also sorry to see in the City's notice (link below) that they say the same thing. A boil notice for a water main break is precautionary, not because bacteria are actually known to exist in the water. The absence (or presence) of bacteria is confirmed after the water main break is repaired and bacti sample results are received, usually about 48 hours after the main is repaired. Only if bacteria are actually present in appreciable concentrations throughout the City does it makes sense to replace all the cartridges throughout the City. While we are waiting for bacti results, folks are protected by boiling the water.

**Subject:** RE: FILTERS: Flint water main break

NSF International confirmed:

When the boiled water advisory is lifted, filters exposed to contaminated water are safe to use after the cartridge has been replaced. The user should be sure to follow the manufacturer's replacement instructions as some have additional procedures that must be performed (rinsing, flushing the cartridge, resetting an indicator, etc.).

Please work with Wendy Braun to deliver accurate messaging to the citizens affected by the water main break.

The city must alter its communications as the public notice must by law be issued by them. We can reflect supplemental communications from the state's end. Who from state is in touch with the city on this issue?

Mitch, Jen, and others,

So, I got what feedback I could and it is essentially what we had briefly discussed.

The standards are based on treating potable water, which is microbiologically safe water, so our certification to the standards would essentially be null and void if there is bacteria in the influent. This is akin to the issue of lead levels being over 150 ppb. The filters used in Flint are not certified to remove microbiological contaminants to drinking water. Residents should boil their filtered water to ensure that their water is microbiologically safe. The, replace the cartridge / filter after the Boil Water Advisory has been lifted.

Hope this gives you what you need. If you need anything else, please let me know.

A slightly modified statement that addresses lead reduction at the same time would be: "These filters are not certified to reduce microbiological contaminants from drinking water. Residents should boil their filtered water to ensure that their water is microbiologically safe. Residents should replace the cartridge / filter after the Boil Water Advisory has been lifted. The lead reduction capabilities of the filter should not be adversely affected by the presence of bacteria, if present."

The city must alter its communications as the public notice must by law be issued by them. We can reflect supplemental communications from the state's end. Who from state is in touch with the city on this issue?

**Subject:** Flint water main break

Mitch, Jen, and others,

So, I got what feedback I could and it is essentially what we had briefly discussed.

The standards are based on treating potable water, which is microbiologically safe water, so our certification to the standards would essentially be null and void if there is *bacteria in the influent. This is akin to the issue of lead levels being over 150 ppb.* The filters used in Flint are not certified to remove microbiological contaminants to drinking water. Residents should boil their filtered water to ensure that their water is microbiologically safe. The, replace the cartridge / filter after the Boil Water Advisory has been lifted.

Hope this gives you what you need. If you need anything else, please let me know.

# Flint Joint Information Center Daily Update

February 10, 2016

## Situation Report

The Joint Information Center (JIC) was expected to be operational in Flint from 8 a.m. to 8 p.m. on Feb. 10. The JIC was operational until 8:30 p.m. on Feb. 9.

State agencies at the JIC included the Michigan State Police, Michigan National Guard, and Departments of Agriculture and Rural Development, Environmental Quality, and Health and Human Services. The Genesee County Sheriff's Office and American Red Cross were also present.

Tasks accomplished:

- Media hotline staff answered less than 10 emails and phone calls, ranging from the news media asking to embed with sentinel teams to inquiries about why schools in Flint were not tested for lead until Oct. 2015.
- Created a morning and afternoon media monitoring report.
- Created a Daily JIC Activities email to catalog actions completed for the day and planned for the week to keep all key agency PIOs aware of actions.
- Key state agency PIOs attended the Governor's proposed FY2017 budget and media roundtable in Lansing.
- Continued updating and revising internal talking points to better reflect ongoing information.
- Continued routing public information materials for approval, including an updated recycling flier and a breast feeding and lead exposure fact sheet from MDHHS.

- Issued a press release about the state of Michigan launching new streamlined services for residents, with new testing sites to help confirm water quality.
- Drafted a press release about the next steps to take after the city of Flint issued a water warning on Feb. 9.
- Continued working to have staffing for Feb. 16-26 by Thursday.
- Began planning for a video shoot and news release about the Flint Farmer's Market being open for business.
- Drafted and issued social media posts about ongoing Flint water emergency, including topics such as the U.S. Small Business Administration's Flint Business Recovery Center and the American Red Cross and United Way playing a crucial role coordinating volunteer effort.

## Planned Activities

***Thursday, Feb. 11***

- Governor's TeleTown Hall at 2:30 p.m.
- News Release – National Guard lifesaving incident at Water Resource Site

***Friday, Feb. 12***

- News Release – Translated Documents (Tentative - pending finalization of American Sign Language videos)
- News Release – National Guard Solders building relationships in the community

***Saturday, Feb. 13***

- No planned products or events.

***Saturday, Feb. 14***

- No planned products or events.

***Monday, Feb. 15***

- No planned products or events.

***Tuesday, Feb. 16***

- Congressional and Legislative conference call at 2:30 p.m.

***Wednesday, Feb. 17***

- News Release – Blood-level testing available for veterans and their families (tentative, pending coordination MVAA)

***Monday, Feb. 22***

- News Release – Flint Farmer's Market: Open for Business, Great Nutrition Available
- Video – Flint Farmer's Market: Open for Business, Great Nutrition Available
- Video – Blackstone's and Restaurant Inspections

## Issued News Releases (February)

Michelle-

Looks like no power point is available but these are some key points he could put up on a projector/handout to his congregation.

Will this work? Are you able to get back to the Pastor with this information?

His contact info is not in the below email

Thanks
K

Here are external stakeholder talking points. We currently don't have a PowerPoint available.

--Ron

- It is essential that all Flint residents have the water in their homes tested as soon as possible. Free water testing kits are available at Fire Stations 1, 3, 5, 6, and 8. Water samples should be returned to the fire stations for testing.

- Water resource sites, where residents can pick up free bottled water, test kits, filter cartridges, and water testing kits are open daily from 9 a.m. to 9 p.m. and are located at:

- Fire Station #1 located at 310 East 5th St. in Flint, MI 48502
- Fire Station #3 located at 1525 Martin Luther King Ave. in Flint, MI 48503
- Fire Station #5 located at 3402 Western Rd. in Flint, MI 48506
- Fire Station #6 located at 716 West Pierson Rd. in Flint, MI 48505
- Fire Station #8 located at 202 East Atherton Rd. in Flint, MI 48507

- Identification is not required to receive any of these resources.

- Water response teams consisting of volunteers are making deliveries to homes that need the most assistance; for example homes that do not have filters yet or residents that are homebound. The water response teams are handing out bottled water, water filters, replacement cartridges, and water testing kits.

- Volunteers are still needed to participate in water response teams going door-to-door handing out bottled water, filters, water testing kits, and replacement cartridges. Volunteers join teams of city, county, and state personnel and members of the American Red Cross.

- Persons wishing to volunteer or make financial donations can visit www.helpforflint.com for more information.

- For additional information and updates about the water emergency, go to www.michigan.gov/FlintWater.

- Flint residents, both English- or Spanish-speaking, can also call 2-1-1 to receive the latest updates and information about the Flint water emergency. United Way 2-1-1 is an information and referral service that is available 24 hours a day, seven days a week

**Filters**

- Until water is declared safe, residents are directed to continue to follow established safety protocols. These recommendations include that all homes obtain a water filter and use filtered water for drinking and cooking.

- Out of an abundance of caution, until we know the water from the tap is safe, vulnerable populations, including children under six and pregnant or nursing women, should drink bottled water.

- When used properly water filters remove 99 percent of lead in water. Residents are urged to use filtered water for drinking, food preparation, brushing teeth, and watering pets. Unfiltered water may be used for bathing and cleaning.
